FOR RIVER BRIDGE.

Immediate Repairs Necessary, Trustees Lack Funds.

A meeting of the trustees of the Fore River bridge was held this morning in the office of Mayor Shea at City Hall. At the informal discussion on bridge matters it was brought out that immediate repairs were necessary. The trustees are handicapped however by the lack of funds. It was decided to make some of the most needed repairs and these will be undertaken immediately in order that they may be completed before the tenth of October at which time the battleship North Dakota is due to

leave for her trials. The question of repairing the bridge is an important one and some-One fact that was brought out at the Miller, Beatrice H. Rothwell, Char-discussion, this morning, was that the lotte F. Donovan, Euphrasia Hernan, bridge had never been formally accepted, and it was an open question as to who should provide the funds for the repairs. Some of the piers under the bridge are in very bad shape and some of the dolphins are gone al-

School Committee Approve Plans for New Building

The first regular meeting of the School Committee since the summe vacation was held Tuesday evening Messrs. Barker, Burke, Bushnell, Curis, Hunting, Newcomb, Miller and Wadsworth were present.

Albert L. Barbour who assumes the superintendency of the public schools oday was unanimously elected as secretary of the board

The Committee then went into ex ecutive session to consider plans for Houghs Neck By the processes of elimination the board had disposed of all but two of the plans submitted by different architects. These tw plans were considered at length.

It was voted to approve the plan o Copper & Bailey provided that they comply with the requirements of th ouilding laws of the city.

Resolutions eulogistic of the late I Landis Snyder were adopted and committee consisting of Dr. William G. Curtis. Dr. E. H. Bushnell and Dexter E. Wadsworth were appointed o prepare a testimonial for Frank E Parlin the retiring superintendent and to report at a special meeting of he committee to be held Friday even

The financial statement of the de partment to Aug. 31, was reported as

Great Race Was In Doubt Un til Close to the Finish

Readville, Mass., Sept. 1 .- With 15,000 enthusiastic persons velling themselves hoarse, the Syracus stallion, Baron Alcyon, won the sec Derby at the Readville race track by three lengths from Axtator. Baron Alcyon's time was 3:091/4. The purse was \$35,000, Baron Alcyon's share being \$15,000

It was one of the most spectacular races ever seen on the turf, as from the time the word was given the winner was in doubt until fifteen yards from the wire and the course was with a bullet through the heart. Both filled with horses for an eighth of a mile.

There was a long delay at the post which might have been expected from electing to take a chance in capturing the rich prize.

FURNITURE STYLE

Style in furniture changes as well as style in A hats and gowns. One of the most recent furniture styles is mission furniture. Every up-to-date home today will have at least one room furnished in mission-The Den, The Library. A The Living Room or Dining Room. The wood is oak, finished in a rich dark brown. The furniture is made plain and heavy, no carvings, no ornaments and but little upholstering. If upholstered Spanish leather predominates. The effect of this furniture with red or green rugs, portieres and wall paper, is stunning. It costs no more than other furniture. We furnish whole rooms from \$25 to \$50, and take your old furniture in exchange.

Bodies of Seven Children Found In

There will be an investigation by

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.

THE BLUE STORE, 1475 Hancock St., Quincy

ARE NO MATCH FUR AMERICANS

Sonder Boats Are Again Hopelessly Beaten

Marblehead, Mass., Sept. 1 .- The honors in the second day's racing of the international contests between the German and American sonder boats for the President Taft and Governor Draper cups fell to the American yacht Ellen, owned by Charles P. Curtis of Boston.

The German challengers were hopelessly beaten, one of them, the Seehund II, dropping out of the race when it was one quarter over, because she fouled the flag mark at the windward end of the course. The Wolf finished a close second to the Ellen, while the Joyette, winner of seconds behind the Wolf. Hevella crossed the finish line in fourth place nearly two minutes astern of the Joyette, and the Margarethe brought up in the rear.

It was a slashing race, fought to the bitter end by the Ellen and Wolf, with the Joyette always close enough to cause the skippers of the first two craft to keep a watchful eye upon her. The Ellen got away at the start

with her wind clear and she quickly assumed the lead, a position she held to the windward mark, back to the starting line, and once more on the thrash out to weather, until within a quarter of a mile of the turn, when in the freshening breeze the Wolf as Representative from the Fifth and line and the battle was decided a Spiral Spiral Spiral Spiral Review Representatives from the Fifth and line and the battle was decided a Spiral Review Reversity Reversi

The Wolf had set her spinnaker to port, while the crew of the Ellen decided to swing their's on the starboard to file papers for nomination at the side and it was upon this move that the race was lost and won. The Ellen was 41 seconds behind her rival when she turned the windward flag stake for the second time, and she stood after the Wolf with all sail set. Slowly, inch by inch, it seemed to her crew, the Ellen crept upon the scudding Wolf, until she was practically upon even terms. Then a puff of favoring wind gave the Wolf a lift out ahead once more, but the Ellen pulled her back until at last, a short 41 consecutive cargoes to Boston averaged distance from the line, the wind canted slightly to the eastward and, filling the Curtis boat's spinnaker, gave her a final push down the course, a winner over the Loring yacht by 16 sec-

onds, or perhaps three boat lengths. The day was another one of delight to those who follow the sea, either for pleasure or livelihood. A splendid breeze blew from about south southeast. The sun shone brightly on the scene and again the hundreds of pleasure craft were on hand to see the sport, which was enlivened by the boom of guns as the revenue cutters patrols fired blank cartridges to warn some craft off the course that had not given heed to whistled warnings.

COMBINED FORCES AGAINST TAMMANY

Recommendation of Republicans of New York

New York, Sept. 1 .- The Republican leaders of New York county and New York city have formally declared for fusion with the various anti-Tammany organizations for the nomifiation of local candidates this fall.

"The duty of the Republican party," says the resolution passed by the executive committee, "is primarily to assist in ridding the city of Tammany misrule. To this end co-operation of should be effected and candidates should be presented whose election will secure for the city an honest, business-like and progressive munici-

It was decided to hold the Republican city convention on Sept. 23.

Yacht Sunk by Revenue Cutter Marblehead, Mass., Sept. 1 .-Sloop Wanderer, owned by S. G. Bowen of Winthrop, was run down and sunk at the entrance of Marblehead harbor by the revenue cutter Seminole. The yacht sank in two minutes and the four persons aboard were taken from the yacht as she was disappearing under the water.

Crops Suffer From Frost Rumford, Me., Sept. 1 .- A frost worked havoc in the farmers' crops of Oxford county. Sweet corn, potatoes and peas suffered most, the blight in the former being such that it is expected that several of the canning factories cannot open.

Roosevelt's Old Cook Dead Mont Clair, N. J., Sept. 1 .- Hester Campbell, a famous Scotch cook, who was employed for many years in the family of former President Roosevelt, died here at the age of 96. She always accompanied the Roosevelt family on its trips. 1 3021 431

WARD FOUR CANDIDATE.

Candidate for Representative.

Councilman James M. Flahery of West Quincy will be candidate at the Democratic caucuses Sept. 21, for Representative to the general court from the Sixth district, which comprises Wards 4, 5 and 6.

Councilman Flaherty is one of the best known young men in West Quincy. He resides on Morton street and has been in the employ of E. H. Doble & Son for many years. He represented his ward in the City Council several years previous to this year. He was a candidate for Representative some years ago but was defeated by the Republican nominee. He is a progressive young man and has a host of friends who will give him their hearty support.

BRAVE RESCUE.

Mrs. Annie Hart, Nearly Drowned at Houghs Neck.

Mrs. Annie Hart of West Quincy mother of Rev. Francis Hart had a narrow escape from drowning at Houghs Neck Wednesday. Mrs. Hart By FRANK FESSENDEN CRANE, Auctionee who has been summering at the beach went in bathing Wednesday noon at the foot of Rogers street. The wind was blowing hard and before she realized it, she was carried into deep water. She tried to paddle back but soon became exhausted and cried for

Abner Eilandberg, aged 15 years, was at his home on Bell street when he heard her cries. He rushed to her aid. Swimming out to where she was he grabbed her as she was sinking for

WHOLESALE BURGLARY

Howard Street Syrian Boarding House Cleaned Out

Burglars entered the Syrian boardng house at 18 East Howard street, sometime during Wednesday afteroon and carried off a large amount of goods. The house is occupied by a number of Syrians, employed at the Fore River, and there was no one in the house during the afternoon.

When the men returned from work at 5 o'clock it was discovered that the building had been entered and every room thoroughly ransacked. The break was reported to Officer Lyons who found that entrance had been made by forcing the back door. The parties were evidently in no nurry about doing the job for they went through all of the rooms and gathered the articles together. From the list of goods taken they must nave made quite a bundle.

An inventory of the missing articles aken showed that Charles Salem, had lost a Waltham watch and \$50 in money; Charles Coolie two suits of clothing; Constant George, two razors, eight pair of socks, one pair of shoes, three shirts and a pair of trousers; Phillip Malidd, all of his clothing and Alexander Salem, a dress suit case containing a miscellaneous assortment of clothing, etc.

MRS. M. A. KEENAN.

Funeral Services This Morning Largely Attended.

The funeral of Mrs. Mary Ann widow of John T. Keenan, and for more than 45 years a resident of West Quincy, was held this morning from her late home, 26 Bryant avenue. A High Mass of requiem was celebrated at St. Mary's church at 9 o'clock by Rev. William Duffy and was very action was taken on any of them. largely attended. Miss Rena Bizzozero was the organist and the Gregochoir. Mrs. Fennessey sang "De Profundus" at the offertory.

The burial was at St. Mary's cemetery the bearers being Albert Farnum William Corcoran, Frank Canavan, Daniel Duggan, Richard Barry and John O'Connell. There was a profusion of beautiful flowers. Mrs. Councilman James M. Flaherty to be a Keenan leaves two sons and three daughters.

TAX RATES.

The city of Beverly is rejoicing over a reduction of \$2 in its tax rate from what it was last year, the rate this year being \$15.40 per \$1,000. The total number of polls is 5095 a gain of 87 over last year. The total valuation is \$33,212,325 an increase of \$3,375,575

over last year. The tax rate of Lawrence for 1909 is \$16.40 per \$1,000 a decrease of 40 cents from 1908. The total valuation f of the city is \$59,416,021 an increase of \$2,942,563. The total number of poles is 21,882 a gain of 729 over 1908.

CARD OF THANKS.

We desire to thank the officials and em ployes of the Old Colony Street Railway also all neighbors and friends who so kindly assisted us in our recent bereavement by their sympathy and other expressions of sorrow and to express to them our heartfelt

GOES TO NOVA SCOTIA. G. S. Maxwell, Physical Director of Y. M. C. A. Resigns.

G. S. Maxwell, for two years the efficient Physical Director of the local Y M C A has tendered his resignation to take effect at once.

Mr. Maxwell goes to New Glasco, Nova Scotia, to assume similar duties n the Association of that city.

During his administration the work of the physical department has been brought to a high standard of efficency through his careful and scientific handling.

In addition to the usual lines of gymnasium work Mr. Maxwell has been much interested in social serrice work, particularly the playground

During his sojourn in the city he has made many friends who will feel genuine regret at his leaving. The board of directors regret very much the breaking of the friendly relations and the necessity of securing a new man to take up the work in the Physical Department.

TOWNSEND-BURNHAM.

John Milton Townsend of Braintree and Miss Agnes Burnham daughter of Horace M. Burnham of Oldtown, Me., were united in marriage Wednesday at the home of the bride.

The ceremony was performed by Rev. Fred A. Snow of the Baptist church in the presence of a large wedding party. A reception followed at which Miss Dorothy Burnham and Miss Sidney Sewall assisted.

Mr. and Mrs. Townsend will be at home in South Braintree after Nov. 1 The bride is a graduate of the university of Maine. Mr. Townsend is a graduate of Wesleyan and a member of the faculty of Thayer academy at South Braintree.

BOARD OF TRADE.

Informal Discussion on Matters of Local Interest.

A regular meeting of the Quincy Board of Trade was held Wednesday evening President Richards presiding. Several matters of local interest were taken up and discussed informally by Cemetery. The choir of St. James' the members present but no final Church sang at the services."

The matter of an entertainment rian Mass was sung by the regular tainment committee to provide an entertainment to be held in the near future. The plan is to have a talk on local matters illustrated with the stereopticon after which refreshnents will be served and a social nour enjoyed. The date for the entertainment will be announced later.

Joint Caucuses.

City Clerk's Office, Sept. 2, 1909. The voters of the City of Quincy nembers of the Democratic Republicar nd Socialist Parties, are hereby noti-ed to assemble at the voting places ir the to assemble at the voting places in the left respective wards as designated in an order of the City Council passed ept. 1, and approved by the Mayor ept. 2, on

TUESDAY, SEPT. 21, 1909,

hen and there to give in their votes or the nomination of candidates as

follows: By the Democratic voters, for the State, Councillor, County and Senatorial conventions, Wards 1, 2, 3, 5, 6, one each; Ward 4, two. By the Republican voters, for each of the conventions, Ward 1, four; Wards 2 and 4, two each; Ward 5, five; Wards 3 and 6, three each.

By the Socialist voters, for the State convention, one from each ward. For the other conventions, Wards 1, 3 and two each; Wards 2, 4 and 5, one The polls are to be opened at twelve o'clock at noon and closed at nine o'clock in the evening. Nomination papers, signed as the law requires, must be filed as follows:

By the Democratic voters, with the decretary of the Democratic City Committee, between 7.30 o'clock P. M. Vednesday, September 8, and 7.30 'clock P. M., Thursday, Sept. 9. By the Republican voters, with the Secretary of the Republican City Committee between 7.30 o'clock P. M. Wednesday, Sept. 8 and 7.30 o'clock P. M., Thursday, Sept. 9. HARRISON A. KEITH, City Clerk,

OBITUARY.

The New Era of Lancaster, Pa., printed in their issue of the 27th, the ollowing obituary on the death of E. Landis Snyder:

"The many friends of E. Landis Snyder in this city were shocked to learn of his death Thursday afternoon at the home of his parents Mr. and Mrs. Martin Snyder, in Middletown, after an illness extending over a period of about five months, from Bright's dis-

"The deceased was in his fortieth year, and was born on the Jacob Frantz farm near Wabank, where his parents resided for about twenty years, removing from there to Petersburg when he was six years of age. Next he removed to Manheim, where he received his education, graduating from the Manheim High School.

"After a brief business career in this city he took up the study of music under Mr. Walter Bausman, the wellknown organist and choirmaster, and became very proficient, successfully filling positions in the Moravian Church and the Synagoge, this city; Trinity Episcopal Church, Claremont, N. H. Christ's Episcopal Church, Brockton, and at Quincy, Mass., where he served in the double capacity of choirmaster and organist for the past eight years, as well as also occupying the position of supervisor of music in the public schools there. It was while engaged in his work there that he was stricken with what proved his last illness. He was a member of the Masonic fraternity, being afflhated

with Manheim lodge. "Besides his parents he is survived by one sister, Mrs. Anna Zentmyer, of Palmyra, and a brother, Peter Snyder, of New Bedford, Mass. He was not only a talented musician, but an exemplary man in every respect, and his family has the sincere sympathy of his large circle of friends.

"The funeral services were held from his parents' residence at the Farmer's Hotel, in Middletown on Saturday morning at 10.30 o'clock, after which the remains were brought to this city and services held in St. James' Church at 1.15 P. M., to which relatives and friends were invited. Interment was made in the Lancaster

POSTAL WORK

Experts Trying to Find Where Saving Can Be Effected

YEAR'S DEFICIT \$20,000,000

Postmaster General Hopes to Place Certain Divisions of the Service on Self-Sustaining Basis-Has Begun a General Overhauling of Registry Department-Wide Investigation In the Interest of Economy

Beverly, Mass., Sept. 2 .- Postmaster General Hitchcock had an im-Braintree 130 porta at conference with President Taft Res. Eben Prescott, Bruintree, 121-4 regarding the plans he has formulated for cutting down expenses in the postal establishment. He told the president that, according to the latest estimates, the postoffice department will show a deficit for the fiscal year ending June 30 last of more than \$20,

This is the largest deficit that has ever been known in the postal service, and Hitchcock informed the president the Canadian government as Thanks- that it was his purpose and his ambition to show a material decrease in the amount every year while he has

> The postmaster general has now at work in Washington a commission of some forty odd experts in the registry service. They are making a thorough examination of the registry department, which has been showing a growing deficit year after year. The members of the commission have been drawn from postoffices all over the

When the registry commission has finished its labors, Hitchcock will summon another commission of money order experts to make a similar examination of the money order division. This division also has been showing a growing deficiency, whereas the postmaster general thinks it taining basis.

In fact, Hitchcock believes that the whole postal service can eventually be put on a similar basis. The postal establishment of the United States is ranked as the largest business institution in the world. It has been many years since an organized attempt has been made to reform the methods which have not kept pace with the growth of the business.

Many suggestions and recommendations have been made from time to time in the past, but now practical men have been giving the task of working out the reform, and Hitchcock intends to keep the various commissions in Washington each time until they have concluded their labors and made a specific report.

After the money order division has received an overhauling, work probably will be begun on the rural free delivery system. This system was received with so much enthusiasm that in some instances it was expanded far beyond the needs of the sections served. Hitchcock believes that in some cases the rural deliveries can be made by contract at a saving to the

The subject of the "franking" privilege, or the sending of matter through the mails free by government officials and members of congress, will also come in for a share of consideration in the effort to maintain the efficiency of the service, and at the same time to save money wherever a saving can be effected. It has been practically impossible to ascertain just what the sending of "deadhead" matter through the mail has cost the postoffice depart-

BRUHM'S UNCLE GETS SLOOP

Police Have Secured No Trace of Whereabouts of the Fugitive

Kittery, Me., Sept. 2.-Armed with a bill of sale made out to Clyde G. Bruhm, the alleged burglar, whom the Boston police are seeking, J. L. Westhaver of Boston, Bruhm's uncle, came here and secured possession of the Savage, the sloop in which Bruhm continued his sensational escape from the Boston police a week

With Westhaver was Mrs. Bruhm. the fugitive's mother, young Bruhm's sweetheart and a cousin. No definite clue as to Bruhm's whereabouts has yet been received by the police.

HAIR WHITE AS SNOW

Restored to Natural Color with One Bottle of

WYETH'S SAGE AND SULPHUR HAIR RESTORER

The Only True Hair Restorer, Tonic and Reiuvenator

ALMOST A MIRACLE

My hair was as white as snow when I commenced using Wyeth's Sage and Sulphur Hair Restorer. One bottle restored my hair to its natural dark brown color. As I am now 70 years old, I consider the result most remarkable. It is an agreeable and refreshing hair dressing, keeping the hair soft and glossy, without being in the least greasy or sticky.

WM. WESTLAKE. . 210 West Main Street, Rochester, N. Y.

Why hesitate when WYETH'S SAGE AND SULPHUR HAIR RESTORER is daily producing just such results?

The whole exhibit only covers a space of 30 by 40 feet, and, while of a wholly different order from the Japanese garden, it is hoped that it will be unusually instructive and New England. that it will repay everybody to make a visit to Horticultural hall.

The exhibition will be free to all Quincy was one of the pioneers in the children's home gardens movement and has recently held its own successful children's gardens exhibit in City Hall and this larger and unusually interesting Boston exhibition should attract a good number of visitors from this vicinity.

NEW ENGLAND ORCHARDS.

In its crop report for August, just issued, the State Board of Agriculture includes an article by Prof. F. C. Sears, Professor of Pomology at the ter, work better, rest better and Massachusetts Agricultural College, on | sleep better. Western methods in New England orcharding." This report can be obtained by application to J. Lewis Ellsworth, Sec. State Board of Agricul- fered from backache and kidney ture, State House, Boston, and those desiring it may have their names placed on the permanent mailing list to receive future issues.

Prof. Sears says in introduction Even the most casual observer, if he gives the subject any consideration whatever, must be impressed with the fact that eastern fruit has been almost entirely crowded out of the better class of our eastern markets. There are honorable exceptions, of course, to this exclusion of our eastern fruit, men who care for their orchards and who pack their fruit caredisease we send you to a reliable ocu- fully and skilfully, and whose fruit

Serial Story by Louis Joseph Vance (Copyrighted)

SYNOPSIS. CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he betrain Kirkwood dines at the hotel. In the dinning room he sees Calendar re less number of spectators to view the trial, the first of her official trials on ionably dressed woman. He is then nights from the neighboring shores, the Rockland mile course Her fastest mile was made at the without giving a reason that he fears arrest, to escort his young and beauti-Kirkwood conother was at the rate of 33.4 knots. senis. III—All R. occupied house at No. 9 The average of her five top speed runs Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her A shaft horsepower of 14,400 was request. IV-Drawn back to the house by developed in the runs. The Flusser curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a ussle with a slender man in evening dress. The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two. V-Dorothy and Kirkwood, the latter questioning himself whether or not he has falle in love with the girl, flee from the mysteriou Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters the house to learn whether Calendar is "I came here," the ex-shah con- there. He meets Mrs. Hallam and recogendar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find house in search of Dorothy. Kirkwood accompanies him at his request to an ur savory locality on the Thames. VIII-Calendar meets his daughter in the company of a man named Mulready, evidently his compar ion in some strange nefarious enterprise fer to wander through Persia as a Mulready, it seems, has tried to kidnap Dorothy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and th

as might be for St. Pancras station. It would undoubtedly be a long walk, but cabs were prohibited by his straitened means, and the buses were all abed and wouldn't be astir for hours. He strode along rapidly, finding his way more through intuition than by observation or familiarity with Lonilon's geography-indeed, was scarce aware of his surroundings, for his brain was big with fine imagery, rapt

CHAPTER XIII.

and chivalric deeds.

in a glowing dream of knight errantry

TIRKWOOD wasted little time. He had not much to waste were he to do that upon whose doing he had set his heart. It irked him sore to have to lose the invaluable moments demanded by certain imperative arrangements, but his haste was such that all was consummated within an hour.

Within the period of a single hour, then, he had ransomed his luggage at St. Pancras, caused it to be loaded upon a four wheeler and transferred to a neighboring hotel of evil flavor, but moderate tariff, where he ergaged diate breakfast and retired with his belongings to his room. He had shaved and changed his clothes, selecting a serviceable suit of heavy tweeds, stout shoes, a fore and aft cap and a negligee shirt of a deep shade, calculated at least to seem clean for a long time. Finally he had devoured his bacon and eggs, gulped down his coffee and burned his mouth and, armed with a stout stick, set off hotfoot in the still dim glimmering of early day.

By this time his cash capital had dwindled to the sum of £2 10s. 8d. and would have been much less had he paid for his lodging in advance.

derground an acute disappointment second waterman was seated, bailing awaited him. There likewise he learned something about London. sympathetic bobby informed him that no trains would be running until after

The bobby produced a well worn pocket almanac, moistened a massive we puts this gent aboard a wessel thumb and rippled the pages.

"London bridge, 'igh tide twenty turn o' tide." minutes arfter 6, sir," he announced. with a glow of satisfaction wholly pardonable in one who combines the functions of perambulating almanac, guidebook, encyclopedia and conserver of the peace.

Kirkwood said something beneath his breath, a word in itself a comfortable mouthful and wholesome and emphatic. He glanced again at the cab and groaned, "O Lord, I just dassent!" with which, thanking the bureau of information, he set off rapid- sturdy pulling of the port sweeps. Anly down Grey's Inn road to find the other moment and it was in full Alethea before she sailed. Proceeding swing, the watermen bending lustily upon the working hypothesis that Mrs. to their task. Ship after ship was Hallam was a polished liar in most passed, and in keen anxiety lest he respects, but had told the truth so far should overlook the right one Kirkas concerned her statement to the ef- wood searched their bows and sterns fect that the gladstone bag contained for names, which in more than one valuable property, whose ownership case proved hardly legible. remained a moot question, though The Alethea was not of their num Kirkwood was definitely committed to ber. Hallam's or her son's, he reasoned the watermen drove the boat sharply that the two adventurers, with Doro- inshore, bringing her up alongside anleave London by a water route in the another tenement, both so like those Stairs.

Kirkwood's initial task, then, would be to find the needle in the haystack The metaphor is poor-more properly to sort out from the hundreds of ves sels of all descriptions at anchor in midstream, moored to the wharfs of longshore warehouses or in the gigantic docks that line the Thames, that one called Alethea, of which he was could not say whether she were tramp steamer, coastwise passenger boat, one of the liners that ply between Tilbury and all the world, channel ferry boat, private yacht (steam or sail) schooner, four master, square rigger, bark or brigantine.

London had turned over once or twice and was pulling the bedclothes over its head and grumbling about get-House and realized, with a pang of despair, that he was completely tuckered out.

With a sigh he surrendered to the finds himself almost penniless. After his life when Kirkwood halted him. "Jump in, sir," he told Kirkwood

house of a woman in evening dress. XI and cheerfully as soon as he had assimilat-XII-The woman is Mrs. Hallam, and the ed the latter's demands. "I knows precisely wotcher wants. Leave it all year. to me."

The admonition was all but supe fluous. Kirkwood was unable for the time being to do aught else than resign his fate into another's guidance. Once in the cab he slipped insensibly into a nap and slept soundly on, as reckless of the cab's swift pace and continuous bouncing as of the sunlight glaring full in his tired young face.

He may have slept twenty minutes He awoke faint with drowsiness, tingling from head to toe from fatigue and in distress of a queer qualm in the pit of his stomach, to find the hansom at rest and the driver on the step. nation. "Oh, a' right," he assented every year to care for cases which surlily and by sheer force of will made himself climb out to the side- Eastern homes. walk, where, having rubbed his eyes, stretched enormously and yawned discourteously in the face of the east end, he was once more himself and a hundred times refreshed into the bargain. Contentedly he counted 3 shillings into the cabby's palm, the fare named be- go to this section who has not sufing one and six.

"The shilling over and above the least one year, in addition to what tip is for finding me the waterman his family might require of him durand boat," he stipulated.

"Right-o! You'll mind the 'orse minute, sir?"

Kirkwood nodded. The man touched his hat and disappeared inexplicably. Kirkwood, needlessly attaching himself to the reins near the animal's strange to him as had been Bermondsey wall.

To this day he cannot put a name to it. He surmises that it was Wapa room for a week, ordered an imme- ping. His cabby popped hurriedly out of the entrance to a tenement, a dull visaged, broad shouldered water- ing of small local hospitals in every man ambling more slowly after.

cabby, "and a fust ryte waterman. Knows the river like a book, he do." The nephew touched his forelock sheepishly.

"Thank you," said Kirkwood, and,

known as the Alethea, scheduled to sail at flood tide, further than which deponent averred naught.

The waterman scratched his head. "A 'ard job, sir. Not knowin wot kind "It's tramp it or cab it, then," mused of a boat she are mykes it 'arder." He

The man promptly turned his back to hail his mate. "'Arf a quid, Bob, if name o' Allytheer afore she syles at

In the boat the man with the bailing can turned up an impassive counte nance. "Coom down." He clinched the bargain and set about shipping the sweeps.

Bows swinging downstream, the boat shot out from the shore. "How's the tide?" demanded Kirkwood, his impatience growing.

"On th' turn, sir," he was told For a long moment broadside to the current, the boat responded to the

the belief that it was none of Mrs. In the course of some ten minutes thy and their booty, would attempt to other floating stage, in the shadow of ship Alethea, whose name had fallen from which they had embarked that from their lips at Bermondsey Old Kirkwood would have been unable to distinguish one from another.

(To be continued.)

CONSUMPTIVES STARVE.

Cruel and inhuman practices are alleged in a statement given out today by the National Association for the Study and Prevention of Tuberso deeply mired in ignorance that he culosis against the eastern doctors who persist in sending dying cases of consumption to the Southwest.

Fully 7,180 persons hopelessly diseased with tuberculosis annually come to die in the states of California, Arizona, New Mexico, Texas and Colorado, most of them by order of their physicians. The statement, which is based upon the testimony of welling up, but the city was still sound known experts, and all available staasleep, when at length he paused for a tistics, shows that at least 50 per minute's rest in front of the Mansion cent. of those who go to the Southwest every year for their health are so far advanced in their disease, that they cannot hope for a cure in any flesh's frailty. An early cabby, cruis- climate, under any circumstances. ing up from Cannon street station on More than this, at least 60 per cent. the off chance of finding some one of these advanced cases are so poor astir in the city aside from the doves that they have not sufficient means to and sparrows, suffered the surprise of provide for the proper necessaries of life, which means that 4,315 consumptives are either starved to death, or

It is not an uncommon thing, the ational Association declares whole families, who can hardly eke out a living in the East to migrate to the West in the hope of saving the life of some member of the family. of such cases forces them to beg or to live on a very low level. Often consumptives who cannot afford the proper traveling accommodations are found dead on the trains before reaching their destination. The resources of almost every charitable organization in the Southwest are drained would be self-supporting in their Quincy 458-2.

It costs on an average, at least \$50 per month for the support of a consumptive in the Southwest, including some medical attention. The National Association strongly urges no one to ficient funds to care for himself at ing this time. It is also urged that no persons who are far advanced with

tuberculosis go to so distant a climate. Consumption can be cured, or arrested in any section of the United States, and the percentage of cures in head, pried his sense of observation the East and the West is nearly the open and became alive to the fact that same. Any physician, therefore, who he stood in a quarter of London as sends a person to the Southwest without sufficient funds or in an advanced or dying stage of the disease, is guilty of cruelty to his patient. Renewed efforts are being made to stop this practice, and to encourage the buildcity or town of the country. Attempts "Nevvy of mine, sir," announced the are also being made in Southern California and in Texas to exclude indigent consumptives or to send them

\$100 REWARD, \$100.

"Thank you," said Kirkwood, and, turning to the man, "Your boat?" he asked, with the brevity of weariness.

"This wye, sir."

At his guide's heels Kirkwood threaded to a floating stage to which a heavy rowboat lay moored. In the latter a second waterman was seated, bailing out bilge with a rusty can.

"Ere we are, sir," said the cabman's nephew, pausing at the head of the steps. "Now, where's it to be?"

The American explained tersely that he had a message to deliver to a friend who had shipped aboard a vessel known as the Alethea, scheduled to the saked, with the brevity of weariness.

"It is readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Brattleboro, Vt., Sept. 2.-After stealing a march on their parents and a series of six Sunday evening rally friends by getting married quietly in this town, to which place they had eloped from Chesterfield, N. H., Carl W. Hyland, aged 21 years, son of Dr. J. B. Hyland of Keene, N. H., and his bride, who was Miss Jose-Wednesday evening at the home of phine Burpee, the 19-year-old daugh-Mr. and Mrs. Andrew Cummings on ter of R. D. Burpee of Exeter, N. H., had a narrow escape from drown-

> Miss Burpee was spending her vacation with the Hylands at their sum-Connecticut river bridge near this

wishes, he performed the ceremony. back by way of the ferry at East Put-On reaching the bank of the Connecticut river at that point they evidently did not understand the nathought that the ferry was merely for foot passengers, for they urged their unwilling horse down the bank with the intention of fording the river.

Slowly the horse splashed his way into the water, which crept gradually to his knees and then, to the consternation of the couple, continued to rise until the horse was over his chest, with the water still rising and coming into the body of the buggy Thinking that now surely the deepest portion must have been passed, Hyland urged the horse along.

But still the water deepened until the carriage floated and the horse carried from his feet, had to swim They were in the middle of the river, the ferryman was not to be seen and the shouts of the Hylands were apparently unheard. There was grave danger of the buggy upsetting through the violence of the current and the struggles of the frightened horse, and Hyland, who is a strong swimmer. picked his bride up in his arms and jumped into the river. Mrs. Hyland being a swimmer herself, helped her husband as well as it was possible

under the circumstances. After a hard swim they at las came near enough to shore so that they could wade the rest of the way The horse, too, which had turned around and kept close beside then human companionship, reached the bank in safety, and clambering into the buggy the shivering couple drove up to the farmhouse of F. E. Putnam near by. Mrs. Putnam took the bride under her care. while her husband did the same fo the groom, and in a little while the bridal couple were ready to continue their journey in borrowed clothing.

Following Putnam's directions Hyland telephoned to Brattleboro for another livery team, and, calling over the ferryboat by means of the signal placed there for that purpose, they made their way in safety across the river and hastened on their journey day provided long marches and we home to reassure the people there of their safety, for they knew that their

absence would cause worry. There was considerable surprise but a hearty welcome and parental blessings for the young couple when they told their story at the lakeside cottage last night.

COOK'S DASH FOR THE POLE

the month of August and was quite an Success Comes After Battle With Famine and Frost

Paris, Sept. 2.-The Paris edition of the New York Herald this morning publishes a signed statement from Dr. Frederick A. Cook, which is dated Hans Egende, Lerwick, Wednesday, on his experiences in the Arctic re-

After a prolonged fight with famine and frost, says Dr. Cook, we have at last succeeded in reaching the North Pole. A great highway, with an interesting strip of animated nature has been explored and big game haunts located, which will delight sportsmen and extend the Eskimo horizon.

DR. FREDERICK A. COOK.

Land has been discovered on which rest the earth's northernmost rocks. A triangle of 30,000 square miles has been cut out of the terrestial unknown. The expedition was the outcome of a summer cruise in the Arctic seas on the schooner Bradley, which arrived at the limits of navigation in Smith sound late in August. 1907.

mer cottage on the shores of Spof- Here conditions were found to ford lake in Chesterfield. Hiring a launch a venture to the pole. J. R. livery team in Chesterfield for an "af- Bradley liberally supplied from his ternoon drive," they drove across the vessel suitable provisions for local use. My own equipment for emertown, and asked Rev. L. W. Morey, gencies served well for every purpose a Congregational minister, to make of Arctic travel. Many Eskimos had them man and wife. Morey ques- gathered on the Greenland shores at tioned them, and when the young peo- Annatoak for the winter bear hunt. ple told him that they were anticipat- Immense quantities of meat had been ing, not disobeying, their parents' collected, and about the camp were plenty of strong dogs.

Then Mr. and Mrs. Hyland started The combination was lucky, for there was good material for veniently arranged for at a point only discovered that the ferryboat was on 700 miles from the boreal center. A the other side of the river. They house and workshop were built of packing boxes by willing hands and ture of the river at this point and this northernmost tribe of 250 people set themselves to the problem of devising a suitable outfit. Before the end of the long winter night we were ready for the enterprise and plans had matured to force a new route over Grinnell Land northward along its west coast out onto the Polar sea.

Starts on Seven-Hundred-Mile Dash The campaign opened with a few scouting parties being sent over the American shores to explore the way and seek the game haunts. Their mission was only partly successful because of the storms. At sunrise of 1908 (Feb. 19) the main expedition embarked on its voyage to the Pole. It consisted of eleven men and 103 dogs drawing eleven heavily laden sledges. The expedition left the Greenland shore and pushed westward

over the troubled ice of Smith sound. The gloom of the long night was relieved only by a few hours of daylight. The chill of the winter was felt at its worst. As we crossed the heights of Ellesmere sound to the Pacific slope the temperature sank to minus 83 centigrade. Several dogs were frozen and the men suffered severely, but we soon found the game trails, along which way was easy.

Game Is Plentiful We forced through Nansen sound to Land's End. In this march we secured 101 musk oxen, seven bears and 335 hares. We pushed out into the four men and forty-six dogs moving supplies for eighty days, the crossing of the circum-polar pack was begun. Three days later the other Eskimos, forming the last supporting party returned, and the trials had now been reduced by the survival of the fittest. The two best men and twentysix dogs were picked for the final ef-

fort. There before us in an unknown line of 460 miles lay our goal. The first made encouraging progress. A big lead which separated the land from the ice of the central pack was crossed with little delay. The low temperature was persistent and the winds made life a torture. But cooped up in our snow houses, eating dried tallow and drinking hot tea, there was animal comfort occasionally to be gained.

New Land Discovered For several days after the sight of

known land was lost the overcast sky prevented an accurate determination of our positions. On March 30 the horizon was partly cleared and new land was discovered. Our observations gave our position as latitude 84.47, long. 86.36. There was urgent need for rapid advance. Our main mission did not permit a detour for the purpose of exploring the coast. Here were seen the last signs of solid earth; beyond, there was nothing stable to be seen.

We advanced steadily over the monotony of moving sea ice and now found ourselves beyond the range of all life-neither footprints of bears nor the blowholes of seals were detected. Even the microscopic creatures of the deep were no longer under us.

The maddening influence of the shifting desert of frost became almost unendurable in the daily routine. The surface of the pack offered less and less trouble and the weather improved, but there still remained the life-sapping wind, which drove despair to its lowest recess. The extreme cold compelled physical action. Thus day after day our weary legs spread over big distances. Incidents and positions were recorded but adventures were promptly forgotten in the next day's efforts.

Sunburns and Frostbites

The night of April 7 was made notable by the swinging of the sun at midnight over the northern ice. Sunburns and frostbites now were recorded on the same day, but the double day's glitter infused quite an incentive into one's life of shivers.

Our observation on April 6 placed the camp in latitude 86.36, longitude 94.2. In spite of what seemed long marches we advanced but little over 100 miles. Much of our work was los in circuitous twists, around troublesome pressure lines and high, irregular fields. A very old ice-drift, too, was driving eastward with sufficient force to give some anxiety.

Although still equal to about fifty miles daily, the extended marches and the long hours for traveling with which fortune favored us earlier were no longer possible. We were now about 200 miles from the Pole and sledge loads were reduced. One dog after another went into the stomachs of the hungry survivors until the teams were considerably diminished in number, but there seemed to remain a sufficient balance for man and brute to push along into the heart of the mystery to which we had set oursives.

Pole Reached at Last On April 21 we had reached 89 de grees 59 minutes 46 seconds. The Pole was in sight. We covered the remaining fourteen seconds and made a few final observations. I told Etukishook and Ahwelsh (the accompanying Eskimos) that we had reached the "Great Nail." Everywhere we turned was south. With a single step we could pass from one side of the earth to the other; from midday to midnight. At last the flag floated to the breezes at the Pole. It wa April 21, 1908. The temperature was minus 38 centigrade, barometer 29 83. latitude 90; as for the longitude, it was nothing, as it was but a word.

Although crazy with joy our spirits began to undergo a feeling of weartness. Next day, after taking all our observations, a sentiment of intense solitude penetrated us while we looked at the horizon. Was it possible that this desolate region, without a patch of earth, had aroused the ambition of so many men for so many centuries? There was no ground; only an immensity of dazzling whiteness; uo living being, no point to break the frightful monotony.

On April 23 we started on our re

No Lottery Tickets by Mail Washington, Sept. 2.-An agreement has been reached by American and Cuban postal officials by which the sending of lottery tickets from Cuba to the United States through the mails will be prevented absolutely.

Treasury's August Deficit Washington, Sept. 2.-There was a deficit of \$7,411,728 in the ordinary receipts and disbursements of the treasury department for the month of August, as compared with a deficit of \$13,103,949 for July. /

goods must be sold within two weeks. The Automobile and Bicycle Tire Vulcanizing work takes up all my time so I have decided to close out the above goods.

F. W. BENT

230 Copeland Street WEST QUINCY, MASS. THE ECLIPSE.

That of Wednesday Night Not of Great Interest.

The public at large generally believed that the eclipse of the moon, which occurred shortly before 9 o'clock last evening, was of great scientific value, and that the astronomers throughout the country were watching the phenomena with great interest, as they expected to make photos and use their observations in future scientific descriptions of the moon's surface.

Professor Edward C. Pickering, of the Harvard observatory said: "The appearance of the eclipse at this time is nothing unusual, neither is it of any great value to astronomers. It occurs at irregular intervals and excepting for the fact that for a time the planet Mars is blotted from sight there is nothing unusual about it. Of course astronomers observed it, but they expected to learn nothing from it that they do not already know."

Across the Ocean In Five Days New York, Sept. 2.-The latest bulletin by wireless via Halifax from the Cunard liner Lusitania, now speeding westward, confirms earlier indications that she will land her passengers tonight, thus realizing for the first time the ambition of her owners to cut the time between New York and London to five days.

JUST IN TIME

Narrow Escape From a Fatality at Wollaston Fire

An alarm from box 52 at 10.20 on hursday evening called the fire department to a lively blaze in the two apartment house at 139-141 Arlington street, Wollaston, occupied by the families of Robert A. Pemberton and Wesley Colpitts.

The fire started in the second story of the L from some unknown cause and before it was brought under control the entire house was gutted.

Both families were asleep at the time, with the exception of Norman W. Pemberton who lives in the lower story. He was just retiring when he noticed the reflection of the flames on a neighboring house and realizing the house was on fire, aroused the rest of the family and ran to box 52 where he pulled in the alarm

The Pembertons had just received a visit from friends and there were fourteen or fifteen sleeping in the lower apartment, while upstairs were the Colpitts family of six, with the exception of Mrs. Colpitts who is visiting friends in Salem

The majority of the inmates of the house were obliged to flee in their These Lectures will be night clothing and were able to take away but few effects, the fire having gained such a headway as to almost paralyze them.

In the room next to the blazing L lay Frank and Ralph Colpitts sleeping soundly until aroused by the shouts of the others. Dazed by the smoke and flames they lay there until rescued and brought to safety by their frantic father just as the bed was catching fire.

If the fire had occurred at a later hour it is doubtful if all lives would have been saved.

When the department arrived on

OF VOTERS

For the purpose of preparing the annual Register of Voters and of refrom persons claiming a right to vote at the coming State Election, the Board of Registrars of Voters will be in session at the following places,

FRIDAY, SEPT. 10, Council Chamber, City Hall.

THURSDAY, SEPT. 16, Council Chamber, City Hall. FRIDAY, SEPT. 24, Hose House, Ward

WEDNESDAY, SEPT. 29, Hose House, Ward 4.

FRIDAY, OCT. 1, Hose House, Ward 2. WEDNESDAY, OCT. 6, Hose House, Ward 6. FRIDAY, OCT. 8, Police Station, Ward

TUESDAY, OCT. 12, Council Chamber, City Hall.

at Council Chamber, City Hall, from 12 M. to 10 P. M.

which will be the final session before the election. Every applicant for registration must appear in person before the Board and must present either a certificate from the Assessors or a Tax Bill or Notice from the Collector of Taxes, showing that he has been assessed a poll tax as a resident of the city on the first day of May last; if a naturalized citizen he must also produce for inspection his papers of

or election unless his name has previously been placed upon the voting list of the Ward and precinct of which May last. The Registrars cannot, 10c. Goods. until after the next election, add any names to the registers except the names of voters examined as to their qualifications between the preceding thirtieth day of April and the close of registration, which will be

Quincy, Sept. 2, 1909.

the scene the L was all ablaze, giving a light which could be seen for sevwell directed streams put out the fire on the roof of this portion. While the firemen were fighting the

fire in the L the flames had gradually eaten their way into the main part of the house and soon the inside of the upper story was a seething furnace.

The huge streams of water which were poured on the fire occasionally shot clear over the house and kept the crowd hustling, several of the unwary receiving a good wetting. After a hard and persistent struggle

the fire was brought under control shortly before eleven o'clock. The allout was sounded at 11.22. The unfortunate occupants of the ourned dwelling were soon taken in

and by the neighbors and were all

comfortably housed for the night. The upper apartment was almost enirely burned out and both were gutted by the smoke and many galons of water which were poured up-

on the fire. Chief Williams estimates the loss at \$1200. The furniture of both families is covered by insurance and the house it is understood is also in-

The house was until recently owned by Mr. Bisbee of Whitman, who upon his death bequeathed it to his niece in Melrose. A mortgage is held on the property by Frank Andrews of this

How the fire started is a mystery o everyone. Mr. Colpitts when in terviewed by a Ledger representative said that, in the afternoon, there had peen a fire in the stove in the kitchen, which is situated in the L but that later this had gone out.

He is totally unable to account for the cause of the fire as he knew nothing about it until he was awakened and it was well underway.

GOES TO JAIL.

Woman, Known as Sleeping Beauty Now Behind the Bars.

A dispatch in the morning paper from Burlington, Vt., says that Mrs. Josephine Cohen, known as the 'sleeping beauty" has been sent to jail for ten days. The woman who is somewhat of a puzzle and known far and wide, paid Quincy an unannounced visit some weeks ago and re-Registration mained in this city for a week. Her first appearance was late one Saturday night when a hack drove up to the police station having a sleeping woman as a passenger.

The hack driver said that she had ceiving evidence of qualifications Quincy, where she claimed she had relatives. He was unable to find the parties at the address given, and while searching for them the woman from 7.30 to 9 o'clock, on the Evenings dropped to sleep. She was turned over to Mr. Elcock, te Overseer of the Poor who sent her to the Quincy tives could be found. The next day she the Quincy home.

board who put her over the line in the points for the Woburn team Vermont, where she is said to belong. And also on WEDNESDAY, OCT. 13, asleep. She has a different story to the last game at home this year. Ateventually showed up in Burlington, vagrancy.

BALL EVENTS

Good Games on Home Grounds Saturday and Labor Day

Base ball fans are assured of plenty several good games being scheduled on home grounds on both days. There will be two games in the Old Colony league. Saturday afternoon on the Water street grounds the Quincys will cross bats with the Rocklands and on the afternoon of Labor Day they will Clifford, Lois Waring, May Critchley meet the Tauntons on the same

The Fore River Apprentices have games scheduled for Saturday and Carthy, Earl Church, Harry Wilson Monday. Saturday they meet the Bryant A. C. on the home grounds. Monday, Labor Day, they have two games. In the morning they meet the Clifton A. C. of Boston on the home grounds and in the afternoon will meet the

Dorchester Centre team at Dorchester. Makaria goes to Malden on the Saturday to play the return game with the Malden Athletics. Makaria is playing fast ball since their slump and Michael is in great form and the boys expect to bring home another scalp. Malden is Mr . Ganzel's old home town and a great crowd will be on hand at Farrington Green where they play.

On Monday morning at 10.30 at Merrymount Park Makaria and Cunningham Gym. meet for the rubber game. Cunningham won the first 3 to 2 and Makaria won the second last

Saturday at East Milton 8 to 5. Both teams are anxious to get together for the rubber and it will be a great game. John Kolson and Whitnev will be the battery for Cunningham Gym, while Michael and Troupe will be the old reliables for Makaria Mr. Travis will umpire the game. He umpired the game last Saturday at Milton and umpired an excellent game.

clash with the Reading town team! Saturday at Reading. The latter team has a win over Atlantic, and the Quincy boys will try to get away with the game to even up matters. Johnny hired him in Boston to drive her to Driscoll and Fitzgerald will be the battery for Atlantic, while Simpson, a U. of P. man will pitch for Reading and Stark will be behind the plate. Cushman, a Yale player is also in the Reading lineup. A goodly number of Atlantic people will go to the game.

Monday, Labor day, the Profession home for the night, and until her rela- als have another game scheduled with North Woburn to be played at Woburn left there and a few hours after was in the morning. Atlantic won the only again found at Merrymount park game played with this team two weeks sound asleep. The patrol wagon was ago, and should add another win to its summoned and she was again taken to list as the boys are going fast. Duggan, Driscoll or Dolan will pitch for After remaining in Quincy for a Atlantic, while Harrington of Wakeweek she was turned over to the state field, Doherty or McCarthy will be in

Monday afternoon the Atlantics will Since that time she has been showing play the Hyde Park team on the Atup in different places, and in every lantic grounds, and a crowd should case when found has been sound turn out to see the boys, as it will be tell of her relatives every time. She lantic has not played on its home grounds since July and the fans Vt. where her record was exposed and should appreciate their services Labor she was sent up for ten days for Day, as they have been playing winning ball all the year, taking 13 out of 20 games played.

The team will be somewhat shaken

up as Armstrong, second baseman, has been taken on by Waltham and Fay is covering the same bag for Rockland of the Old Colony league. Kelley of Quincy or Johnny Todd, formerly of Salem, will play second base for the remainder of the season, while Frank first base. His hitting should bolster first to the short field. Then as Wallace is on his vacation, Ted Keohane, who is at present playing for Ipswich, will officiate in the left garden Saturday and Labor day morngoods must be sold within two weeks. ing as Ipswich has no game schestrengthen the team materially as he is fast and can hit. Driscoll will pitch at Reading, while Dolan will probably work at North Woburn. Parker Duggan will be on the mound against Hyde Park at Atlantic and his friends will come down in bunches to see him work.

Miss Ethel Hatfield was the recipient

of an agreeable surprise Wednesday evening, when some twenty young friends called unexpectedly at her home on North Central avenue, Wollaston, and proceeded to make merry with games and music. So carefully were the plans of the young people carried out that Miss Ethel was taken entirely Another Chapter From Atlantic unawares. An original program of games, interspersed with vocal and instrumental selections by William Gignen and John McCarthy, furnished an evening full of merriment. During the course of the games Miss Hatfield was presented with several substantial gifts of sport on Saturday and Labor Day, as tokens of the esteem of her callers. Refreshments were served and the

young folks departed at a late hour

SURPRISE PARTY.

after a very enjoyable time. Among the surprisers were: Robina Atkins, Helen Ketchum, Louise H. Baker, Helen L. Croucher, Hadassah, Ethel Sutermeister, Bertha Salisbury, Mr. and Mrs. Richard Hatfield, Roy Waring, George Gignen, John Mc-John Conway, Albert Fuller, Fred Fuller, Clarence Cassidy, William Caldwell, Eric Card and Chester F. Barlow.

CONTRIBUTED \$135.

Five Milton Automobile Fined That Sum.

The town of Milton gathered in the sum of \$135 from five automobile drivers which Chief Pierce had in the district court this morning. All of the parties were captured Tuesday while returning from the races.

Henry C. Rand of Boston got off with a fine of \$15 and Philip B Heintz of Boston with a fine of \$20.

Frank A. Andrews of Boston who was going through the town at a speed of 52 miles per hour and Ellis W. Holton of Malden who was making 40 miles per hour contributed \$25

George W. Coleman a Cambridge banker was arraigned on two complaints. The first charged him with going at a speed of 40 miles an hour and the second with going around corner at intersecting streets at a speed of 30 miles per hour. The court fined him \$95 on each

ATLANTIC VS. MAKARIA

On Championship

The question of who is the champion, Atlantic Prof. or Makaria, is still in the air. Both lay claim to it. Last week the press agent of Makaria in a signed communication gave their version of the matter. Today the press agent of Atlantic has a word to say He says:-

"Makaria and its clever press agent, Howard, have been heard from again. Makaria has beaten all the dub teams in this section and are now trying to make the people of this city believe that they are a baseball team while Atlantic supporters claim that the Glover A. C., an 18-year-old team would make a formidable opponent for the "church boys."

Howard is out again slinging the hash, but makes it a clever piece of business to stay away from Atlantic. In his latest correspondence to the Ledger, he says that Makaria will never play at Atlantic again, and wants the management of the north end team to play on neutral grounds, if they don't want to come up to his links again. Well, Howard must think that the Atlantic management just dropped into the game.

He has had everything his own way this year, as far as the games are concerned, as Atlantic went to Merrymount park on two occasions, while the church boys deliberately showed that they possessed "cold feet" when they refused to come to ward 6 playground and compete with Atlantic on celebration day. Atlantic gave Makaria the preference over a number of teams to play on that day, but Howard, Ganzel and the rest of the "High

All the talk of the discovery of the

North Pole and the decidedly chilly

weather makes one think that winter is fast approaching. It looks as though there was much

activity of jaws in this country when 10,000 tons of chewing gum are used in a year to say nothing of tons of

the way and probably there will be several touches of summer before we settle down to regular fall weather, so don't put on your furs yet. Boston is keeping in the progressive

van, and that she will continue to do so is evidenced by the recent order of the Cunard Steamboat Company for a odor of liquor can be detected from 20,000-ton liner for the Boston- Liver- their breaths and the authorities are

A benevolent citizen of Newton evidently is a friend of the dumb animal and shows it in a practical way for he has given to that city six drinking fountains to be placed in all the public squares.

Paper milk jars costing half a cent each are now being used by New York feur an eight weeks vacation and a milk dealers. So successful is their use from a sanitary and economical point of view that they will doubtless take the place of the glass jars now in use in all sections of the country.

Vacationist say that in all their wanderings they are glad to get back to Quincy and it looks good to them. It would be hard to find a city with more natural beauty than Quincy and taken all in all it is a pretty good place to

live in after all.

Miss Jessie Waterman of Cambridgeport were married on Wednesday so that now Cambridge has a lady to assist its chief executive in social affairs. It is up to Mayor Shea of Quincy to follow the good example of his brother mayor and go and do likewise.

Looks as though now was a good time to lay in a supply of shoes for it is announced that the price on all foot wear is to be materially increased. Local dealers say they have not marked up their goods yet but if prices increase through the winter they may have to. One is sure of a square deal when trading at home with old established firms.

After all the trouble this country has had with bugs brought from foreign shores it is to be hoped offiicals at the Smithsonian Institution at Washington won't take any chances with the tse-tse fly found in the trophies sent home by ex-President Roosevelt. The fly is said to cause the sleeping sickness so common in Africa. It is a kind of sleepiness this country doesn't care for.

OLD AGE PENSIONS.

State Actuary Robertson G. Hunter has just completed a table of rates for an "immediate annuity policy," which may now be issued by those savings banks of Massachusetts that have opened insurance departments.

There has been some demand in the past few months from people who the structure distroyed by fire at the would like to arrange with a savings bank for an annuity of old age pension upon payment of a lump sum of money. Annuity pensions of this it has rained but nine times on Sept. character are very extensively used 1 during all these years. abroad. They are offered on more or less favorable terms by most life insurance companies in this country, but for commercial reasons they have never been extensively pushed, since caused by the increasing demand, in there is more for the companies in other forms of insurance.

The rates for these annuities in force at the State Actuary's office

Quincy Daily Ledger down he gets an assurance of an income of \$91.22 during the rest of his life. Women are longer lived than men so that their rates are necessarily a little higher. A woman of this age would receive \$81.56 a year upon payment of \$1,000.

> The corresponding annuities which \$1,000 would buy at age 65 are \$108. 20 and \$95.80. At age 70 they would be respectively \$131.91 and \$117.04.

> The actuarial force at Mr. Hunter's office is now working out rates for a deferred annuity contract under which a younger person depositing a lump sum of money can arrange to be paid an annuity after reaching a certain age, 60 or 65. This will be a particularly attractive proposition to any far sighted young man or young woman who has a little ready money and who wants to make sure that his old age will be safeguarded. It is expected that there will be two varieties of this policy, one involving no return of the original premium in case of the prior death of the insured and the other calling for its return to the insured's beneficiary with 3 per cent.

ALL SORTS.

COOK'S CLAIM TO THE POLE

It Seems Probable That It Will Not Go Unchallenged

Speed In Which Trip Was Made Seems Incredible, as He Must Have Traveled Nearly Twenty Miles a Day on an Average In a Temperature Eighty-Three Degrees Below Zero-About the Magnetic Pole

London, Sept. 3 .- Dr. Cook's narrative of his thrilling journey to the North Pole, while it has not removed the doubts raised as to his having accomplished the feat he really claims, has at least set at rest the improbable suggestions advanced in some quarters yesterday that he attained not the North Pole, but the magnetic pole.

Captain Amundsen, in an interview at Christiania on this point, says: "Such a supposition is nonsense. The magnetic pole is situated on the American side and it is quite impossible that Cook could have been driven so far from his planned route. I feel certain that Cook has expressed nothing definitely about the result. I know him to be absolutely discreet and taciturn. Other people have misunderstood him and it will be necessary to await his arrival at Copen-

hagen for the real facts." The London newspapers are not wholly convinced by the narrative, the "odorless drunk." As many as and persist that it will be necessary to are unable to conceive how a task which has beat the ablest Polar explorers, provided with everything that money could purchase, could have been achieved in such a seemingly offhand and unpremeditated manner and with such ease and quickness. At the same time they pay tributes of

> admiration to Cook. Claim May Be Disputed

Boston, Sept. 3 .- The Transcript Dr. Cook will have to come out of the north armed and equipped with indisputable.data if he hopes to convince geographers that he has attained the North Pole. His story of the journey as printed in the New York Her-

Dr. Cook claims to have averaged fifteen miles a day on the last thirty days of his dash to the north. In a straight line from Heiberg island (which does not appear on the maps, and if it is where he states it is it must Hattie Morris of Flushing, N. Y. be about 150 miles north of Heiberg played detective and caused the arrest Land and off Cape Hubbard) the exobstacles which he had to go around. this 460 miles must have stretched Dispatches from Texas indicate that into 550 miles, for it must be remembered that he had to travel westward to overcome the eastward drift. Therefore he must have covered nearer twenty miles than fifteen miles a

This in 83 degrees below zero (the lowest temperature we have seen re-After allowing the water company of corded) where the heaviest kind of clothing was necessary, was a hurcucorroboration of his claims by the two Eskimos is of no value. Cook said to miles away.

> The fact that it took the explorer about thirty days to go and 360 days fastened with large screws and the to return is interesting, but of no value | crevices were sealed with parrafine. in establishing his claim.

Welcome Awaits Cook Copenhagen, Sept. 3 .- Denmark, where explorers and scientists are generally credited with knowing more about the polar regions than the rest of the world, has accepted Dr. Cook's statement as a fact. A monster ova-

tion is being prepared for him here. A welcome such as no other person ever received here awaits him on his arrival Saturday aboard the steamer Hans Egede. The city is in a revel of delight that at last the long-sought goal has been reached.

Benevolent Doubting Tone Paris, Sept. 3 .- The Paris morning newspapers are characterized by a benevolent doubting tone with regard to Dr. Cook's reaching the Pole. They are influenced principally in this attitude by interviews with scientific ex-Chelsea is perparing to build a new plorers, such as Melville and Bald-

A GREAT SCOOP

New York Herald's Exclusive Right to Cook's Story Was Not Respected New York, Sept. 3.-The New York Herald's great scoop was the only authorized version of Dr. Cook's discovery of the North Pole, wired by Cook himself. The Associated Press and many other papers used the story, but full credit is due to The Herald only, which was half a day ahead of every other paper in the world.

The cablegram was a very valuable piece of news matter, secured by foresight and enormous outlay. Very properly it was copyrighted. It is a matter of regret that the Associated Press and a number of newspapers should have yielded to the temptation to appropriate a portion of this copyrighted cablegram without the consent of the owners. Both as a matter of copyright law and professional courtesy, the exclusive rights of the New York Herald to this phenomenal cablegram should have been respect-

It has become increasingly difficult In recent years for any newspaper to get an exclusive piece of big news, on account of the ramifications of telegraphs, cables and telephones. Nevertheless, it is likely that the great New York Herald cablegram from the discoverer of the North Pole will be recognized as a news achievement worthy of a chapter in journalistic

CLARENCE BURGIN, Treasurer

Serial Story by Louis Joseph Vance (Copyrighted) SYNOPSIS.

THE BLACK

CHAPTER I-In London Philip Kirkwood, a young American painter learns that the San Francisco disaster can familiarize himself with the merits to return home to the stricken city has cost him his fortune and decides of the controversy between the inte- His elderly English friend, Brentwick visits him, and he meets George B. Calendar, an American whom he believes to be an adventurer. II-Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar re-ceives a note of warning from a fashasked by the American, who admits derstood that they expect to show that the Cunningham claims were not estable popular either in the land of sents. III-Kirkwood takes Dorothy Calenwithout giving a reason that he fears dar to a seemingly unoccupied house at No. fice or the interior department Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress The latter is knocked unconscious by a fall lownstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two -Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen in love with the girl, flee from the mysteriou house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a Tampa was to be wiped off the map Mrs. Hallam in fashionable Graven street,

> nizes her as the woman who warned Cal endar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam ouse in search of Dorothy. Kirkwood accompanies him at his request to an unsavory locality on the Thames. VIII-Calendar meets his daughter in the company of a man named Mulready, evidently his companion in some strange nefarious enterprise. Mulready, it seems, has tried to kidnap Dor

there. He meets Mrs. Hallam and recog

othy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Pancras station, where he is to take the midnight train for his steamer flavored drinks with the county home here, where he had been He is now thoroughly in love with Dorothy. best syrups put in two an inmate for several years. Miller IX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in Frognall street. He enters the house to seek

his missing purse and finds the young man whom he had knocked down still unconsciou after six hours. Kirkwood's ministrations to him are interrupted by the entrance into the house of a woman in evening dress. XI and XII-The woman is Mrs. Hallam, and the been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internelly. goyne. Calendar, she says, is her late hus band's cousin. The jewels are in the black oag, Mrs. Hallam declares. Kirkwood doubts

He decides to defend the girl.

her story and suspects that Dorothy is an

innocent partaker in some mysterious plot

In the bows old Bob lifted up a stentorian voice, summoning one William. In answer to the third ear racking hail a man, clothed simply in dirty shirt and disreputable trousers, showed himself in the doorway above, rubbing the sleep out of a red, bloated countenance with a mighty and grimy fist. "'Ello," he said surlily. "Wot's th'

"'Oo," interrogated old Bob, holding the boat steady by grasping the stage, "was th' party wot engyged yer larst night, Bill?"

"Party name o' Allytheer," growled the drowsy one. "W'y?" "Party 'ere's lookin' for 'im. Where

will I find this Allytheer?" "Best look sharp 'r yer won't find 'im," retorted the one above. "'E was at anchor off Bow creek larst night." Kirkwood's heart leaped in hope. "What sort of vessel was she?" he asked, half rising in his eagerness.

"Brigantine, sir." And again the boat was flying down In midstream, the leaden water, shot with gold of the morning sun, parting sullenly beneath its bows. Hugging the marshy shore, they rounded the Blackwall point, the boatmen pulling hard. Young William looked to Kirktrood, caught his eye and nodded. "Here?"

Kirkwood rose, balancing himself gainst the leap and sway of the boat.

"Sumwhere's 'long o' 'ere." From right to left his eager glance swept the river's widening reach. Vessels were there in abundance, but no brigantine, no sailing vessel of any type. The young man's lips checked a cry that was half a sob of bitter disappointment. He sat down suddenly. "She's gone!" he cried in a hollow

The tired boatmen eased upon their pars, and old Bob stood up in the bows, scanning the riverscape with teen eyes shielded by a level palm. The boat drifted listlessly with the

"Mile," said the elder man. yer for five bob extry." "Done!"

Young William dashed the sweat from his eyes, wiped his palms on his hips and fitted the sweeps again to the wooden tholes. Old Bob was as ready. With an inarticulate cry they gave way.

CHAPTER XIV.

THE old boatman seemed inclined toward optimism when the boat lay alongside a landing wood had clambered ashore. "Yer'll mebbe myke it," the water-

man told him, with a weatherwise survey of the skies. "Wind's freshenin' from the east'rds, an' that'll 'old 'er

"'Tis th' shortest walk, sir. I 'opes yer catches 'er. Thanky, sir." He caught dexterously the sovereign

which Kirkwood, in ungrudging liberality, spared them of his store of two The American nodded acknowledgments and adieus, with a faded smile deprecating his chances of winning the race, sorely handicapped as he was. He was very, very tired and in his heart suspected that he would fail. But if he did he would at least be able to comfort himself that it was not for lack of trying. He set his teeth on that covenant in grim determination. Either there was a strain of the buildog latent in the Kirkwood breed or else his infatuation gripped him more strongly than he guessed.

Yet he suspected something of its power. He knew that this was altogether an insane proceeding and that the lure that led him on was Dorothy Calendar. A strange, dull light glowed her. He'd go through fire and water in her service. She was costing him dear, perhaps was to cost him dearer still, and perhaps there'd be for his guerdon no more than a "Thank you, Mr. Kirkwood!" at the end of the passage. But that would be no less than his deserts. He was not to forget that he was interfering unwarrantably. The girl was in her father's hands, surely safe enough there-to the casual mind. If her partnership in her parent's fortunes were distasteful she

endured it passively, without com-He decided that it was his duty to remind himself from time to time that his main interest must be in the game itself, in the solution of the riddle. Whatever should befall, he must look for no reward for his gratuitous and self appointed part. Indeed, he was all but successful in persuading

A hapchance native whom he presently encountered furnished minute station of the Southeastern and Chatham railway, adding comfortable information to the effect that the next eastbound train would pass through in ten minutes-if Kirkwood would mend his pace he could make it easily, with time to spare.

Kirkwood mended his pace accordingly, but, contrary to the prediction, had no time to spare at all. Even as be stormed the ticket grating the train was thundering in at the platform. Therefore a nervous ticket agent passed him out a first class ticket instead of the third class he had asked MISS FOWLER, formerly with Mr. Edward for, and there was no time wherein to Arnold, announces that you can get funeral have the mistake rectified. Kirkwood

you suggest something? I've got to he turned to shut the door the coaches were moving.

A pipe helped him to bear up while the train was making its two other tryne an' go to Sheerness, sir. Yer'd stops in the borough of Woolwich. It Office 1518 Hancock St., Opp. Music Hall consoled him little that none disputed with him his lonely possession of the compartment, that he had caught the Sheerness train or that he was really losing no time. A sense of deep dejection had settled down upon his consciousness, with a realization of how completely a fool's errand was this of his. He felt foredoomed to failure. He was never to see Dorothy Calendar again, and his brain seemed numb with disappointment. Presently he toppled limply over on the cushions and fell fast asleen.

GERMANS ARE GOOD LOSERS

commence work paving a portion of On That Account They Receive an Ovation When They Win

Marblehead, Mass., Sept. 3 .- In the third of the international sonder vacht races the German challengers scored a victory, Captain Protzen steering the Hevella around a triangular course with excellent judg-

The German yachtsmen not only captured first honors, but the Margarethe crossed the line in second place, while the Seehund II came in yachts to finish was the Wolf, while twenty seconds behind her came the Seehund II. Next came the Ellen, winner of Tuesday's race, while trailing in the rear was the Joyette, victor in Monday's contest, and favorite before the starting whistle was blown

To say that the German yachtsmer were delighted at the outcome of the third day's racing does not fully describe their feelings.

When the Hevella dashed across the ine and received an ovation from the multitude of steam and sailing vachts gathered about. Vice Admiral Barandon waved his hat and yelled something that few besides his fellow countrymen could understand, but it sounded exultant, while in the cockpit of the Hevella, Protzen and his two assistants doffed their caps and grinned broadly.

The result was a popular one, because the German yachtsmen have taken two severe beatings this week and everyone sympathized with them somewhat because they swallowed their chagrin without a whimper.

There is no telling what the outcom of the races will be. The Americans have won two races with Joyette and Ellen, while Thursday's victory gives the Germans a leg in the Taft cuj contest. Today the six boats wil meet again. Should either of the three winners to date win the fourth race only those three will fight it out for the Taft cup on Monday, the victor in the day's encounter taking the trophy, irrespective of whether she has won two races or one previously Should either the Wolf, Margarethe or Seehund II prove a victor today then that craft will meet the Ellen, Joyette and Hevella in the fifth race Only the winner of today's event and of the three races held this week can compete, so it means elimination for

For the Governor Draper cup the points stand as follows: Wolf, 13; Ellen, 13: Jovette, 11: Hevella, 11: Margarethe, 10; Seehund II, 4. The winner of the Taft cup is not eligible for the Draper cup.

The elapsed time of the boats in Thursday's race was: Hevella. 3:09:56; Margarethe, 3:10:55; Wolf 3:12:33; Joyette, 3:12:47.

THE MORNING FIRE.

The alarm from Box 321 at 8.48 this morning was for a chimney fire in a house on Trafford street. The chimney became overheated and set fire to some of the wall paper near the thimble. There was no loss.

TODAY'S COURT.

Frank L. Lovell was arraigned for neglect of family at Quincy and was ordered to pay \$5 per week. Alex. Cameron was arraigned for assault at Quincy on Annie Wright. Case placed or

probation. Byron W. Loud was sent to the state farm for drunkenness at Weymouth.

George H. McLaughlin was fined \$10 for drunkenness at Weymouth. T. J. McGoldbuck was arraigned for

drunkenness at Cohasset. Case continued until Oct. I. Harold Keefwood was fined \$15 for exceed ing the speed limit at the Blue Hills reserva

Philip B. Heintz was fined \$20, Harry C. Rand \$15, Ellis W. Holton \$25 Frank A Andrews \$25, George W. Coleman \$25, for exceeding the automobile speed limit a Milton and Coleman was fined an additional \$25 for going around a corner at intersecting streets at a speed greater than eight miles

per hour. Henry Schultz who runs a barber shop at East Weymouth, was fined \$50 and sentenced to three months in the house of correction at Dedham for violation of the liquor law. Alex. Pettit was arraigned for the larceny of a watch from H. G. Lambert. He was

fourd not guilty and was discharged. Antonio LaRosa, Alonzo LaRosa, Joseph Coleman, Antonio Charamado, Peter Charanado, Joseph Scilo and Joseph Miller were fined \$5 each and had their permits revoked for digging more clams than allowed.

Odd Fellows' Growth Boston, Sept. 3.-The Massachusetts grand lodge of the Independent Order of Odd Fellows, at its annual session here, reported a membership in the state of 58,810, an increase of Phone Quincy 181 616 during the past six months. QUINCY Charles B. Perry of Millbury was

ATLANTIC VS. MAKARIA

(Continued from page 1.)

ones" corresponded with the committee in charge of the events and wished and evening and there will be someplate, and the winner to take the cup. If that wasn't dictating to the chamions, nothing was.

his letter and explains what Morey ing a two-mile Marathorn race. the Malden high school pitcher has done this year. He gives a complete history of the fellow's victories. Morey is a fine ball player, and may be seen in an Atlantic uniform shortly. But Howard has no right to tell of that fellow's success. He is pitching for the Malden team and not for Makaria.

He then goes on telling of the strong lead Malden had up to the 7th inning in their game with Atlantic. fourth. The first of the American Atlantic led Malden all through the game. Dolan easing up at the end to allow the fellows a few runs. They crabbed three, while Atlantic rolled up 11. Then Malden trimmed Makaria

Atlantic always gave Makaria good deal in their city, as have other teams. Eggleton umpired the first with Atlantic against Makaria this year, and gave the champions a severe roosting. Then Eggleton was seen in a Makaria uniform later on.

If Atlantic and Makaria ever get together again, Charles O. S. Howard, the brilliant young general of the "church boys'" forces will be railroaded to the bench if he comes out on the field, with his score book in hand to question the ump's decision, as has been customary with him lately.

WILL NOT BE RADICAL.

Supt. Parlin, Believes in Evolution, Not Revolution.

A Boston paper is speaking of Supt. as Superintendent of the schools at Cambridge, says:

"Frank E. Parlin, recently of Quinlate William C. Bates as superinoffice yesterday. His first work, in connection with school management, conditions as to methods and teaching their permits. force. He will not, he says, make any radical changes for the present. "I believe rather in evolution than revolution," said the new superintendent, soon after his arrival at City Hall, yesterday: "I am told that certain changes all along the line have been ggested by one person and another from time to time, but certainly shall have to get acquainted with the situation before I take time to consider changes. We have gone back to the tenpayment system this year, and several teachers who had expected to give up educational work in September, not knowing of the rearrangement of payments, have not resigned until today. As schools are to open Wednesday next we shall have to look about immediately for teachers to fill these vacancies. The return to the old method of paying will no doubt

prevent like contingency again." Mr. Parlin comes to Cambridge after a successful career at Quincy and as soon as he shall have gathered up the loose ends caused by Mr. Bates's long illness, there is no doubt that teachers, pupils and parents will see satisfactory progress in school matters. The new superintendent will not at once make his home in Cambridge for his wife's health will not permit him to move her from Quincy at present.'

LAWN PARTY.

Friends of Fr. Roche Going to His Lawn Party at Watertown.

Many of the friends of Rev. A. F. Roche, former pastor of St. Mary's church will attend the lawn party to be held at Watertown by him Saturday in aid of the new convent. The affair will be held in the afternoon them to have the money turned into thing doing all the time. One of the events of the afternoon is a tug of war between a team from West Quincy and a Neponset team. There will Then again, Howard comes out in also be sports of various kinds includ-

A COMING RUNNER.

Franz R. Marceau Wins Mile Running Race at Barnstable Fair.

Franz R. Marceau of Wollaston avenue the Wollaston miler, who came so quickly into prominence as a runner by his performances at the meets held at various places this summer, was again victor in the mile race at the Barnstable County Fair this week. Marceau was scratch man and beat out Whitney who held a handicap of 85 yards. Whitney won second place in the mile at the interscholastic meet held this spring. Marceau has gathered in many good things in the way of prizes this summer and next spring with the benefits of a year's experience on the track is bound to make people sit up and take notice.

LOSE PERMITS.

Clam Diggers Took More Clams Than Allowed by Law.

Seven Squantum clam diggers were in court this morning on a complaint charging them with digging more clams than allowed by law, at Quincy. The men were Antonio LaRosa, Alonzo LaRosa, Joseph Coleman, Antonio Charamado, Peter Charamado, Joseph Scilo, and Joseph Miller.

Each of the men held permits issued by the Board of Health, which Parlin who assumed his new position allowed them to dig four quarts of clams a week, for bait, in the district restricted by state law. It was alleged that the men not only dug the ey, who was elected to succeed the four quarts ,allowed by law, but that they had been in the habit of digging tendent of schools in Cambridge, took from one-half to one bushel a day, which they sold to summer hotels at the beaches. The court imposed a will be to survey the ground, study the fine of five dollars each and revoked

CAR PLANT PROBE

Changes of Peonage Are Said to Have Been Substantiated

Pittsburg, Sept. 3 .- Combing the way through the conditions existing at the Pressed Steel Car company's plant at Schoenville, where a strike of 3500 employes has been in progress for seven weeks, with great diligence, Government Agent Hoagland, under the direction of United States District Attorney Jordan, who has been investigating the charges of alleged peonage at the car plant, is said to have found new evidence to substantiate the charges.

Nothing can be learned, however, as to the nature of the new facts reported to have been brought to light. Balls and entertainments of various sorts are being held by the strikers to raise money for their commissary fund. Large donations of meat and other provisions have been received by the men.

AMERICA EN ROUTE.

The Amusing Diary of a Boston-Portland Pullman by Louise I. Mac Whinnie.

"Is this our section? Sunny side? on the Michigan Central-" And the voice on the shady side goes on. Look at the hooks for our coats-and town" have a great sale. how wide the windows are-and the screens ,how easily they work!"

It is the B. & A. Chicago Pullman that is puffing out from the South Station, carrying in its wake a merry and morose, a gay and gloomy set of fellow-travellers bound for points farther west. America en route! Let's follow her as she journeys.

First Day.-Immaculate men and women with crisp stocks, men's faces freshly shaven, and women's hair 1 to No. 12. carefully groomed-linen collars rammant and nails rosy from Ougaline. No boredom here and even the shady side seems sunny. Would you like a bag for your hat? Ring for the porter. Would you like a pillow for your head? Ring for the porter. Would you like a table for cards? Ring for the porter. And the bell rings often and long, for the heavy, black man who says "thank you" in three different tones-ten cents, a quarter and fifty cents. But why shouldn't the bell ring often for him? Some of the passengers gave him fifty cents at the start, which ,to them, insures a safe fourney to the Pacific, and they tie up their hats or deal out their cards with a "We pay for what we get" mir which no one disputes-the first day out.

No. 12 upper birth does not glance at No. 12 lower. The people "at the other end of the car" are distinctly separate from this end-there are women in brown and green and red, men with blue ties and men with black, but no one person is distinguished-merely distinguishable. Does one venture a general pleasantry, he is speedily chilled. After a few hours, some are discovering that they cannot ride backwards, others are taking a mental inventory of the girth of the man who is to occupy the birth above them. Night approaches, and there is an austere solemnity over all. The porter begins to make up the beds. The procession starts.

Kimonos, given by friends to the departing, "just the thing for the train," pass in quick succession. White hands pull the heavy green curtains together, and big men struggle manfully in two feet of space. All is stillsave for a murmured "yes, ma'am" of

supper asks the woman in No. 10 lower meals a day amply sufficient and if she has slept. Much hinges on the should you lean over the shoulder of the reply. If the one questioned happens doughty financier, you'd find him to be favorably disposed-and the ordering a steak and his wife a weather is hot-it may mean that only one berth is made up, later on. Collars seem a bit wilted, but surely they scenery, now of the distant west, is can go two days. Shirt waists, less more novel, hence more appreciated. aggressively stiff, betoken a little See that field of waving corn-and is drooping of the lofty attitude of the that alfalfa? No indeed-alfalfa does previous day. A diner is on-shall not look like that-No. S's brother has it be oatmeal or wheat cakes? It's a ranch-and herewith a spirited dismever one order for two, for this is cussion ensues which ceases only vacation time and only the second when a tunnel shuts off the field-and day out.

gorgeous post cards of rocky canons remark is eminently proper. and mighty falls. "But we have never As the day progresses, time-tables

way. So you buy them. Later you discover that the raging torrent is a dammed little waterfall you passed at night-but the folks at home will never know the difference-and 'twas such a pretty card!

The plague has begun. Few are immune, and from now on each little Mighty poor cars. Why, when I was wayside station will be flooded by an exodus of tourists, "But haven't you anything of local color?"-and tinted while the sunny side exclaims, "Great! mill-ponds and "the oldest house in

> There's scenery along the way. Yes; but don't you like to play flinch?

Familiarity, grinning, garrulous Familiarity takes a hand. Now the car inmates are becoming distinguished. The man with the blue tie is a prospector, "knows lots of interesting things about the country"; the woman in brown is going to visit a married daughter in Omaha. The Personal has been infused into everyone from No.

The rugged ,sweeping hills of New England are vanishing and the level flatness of the Middle States appears, but- are you building down or up on your ace? The Mennen's talcum powder of the Berkshire fields has given way to the Schiltz that-you know the rest.

Night again comes on-agreeable acquaintances have been made-the curtains do not pull together quite so closely for one must have a little air, of course. Tired, but content, the passengers fall asleep-the second day out.

Third Day .- How the car did lurch in the night! and how unnecessarily hard they bumped when they shifted engines! You forgot to mail your letter-you've lost an important time table. What a miserable dinner that was you had last night! You get better than that at home-and such service. You gave the waiter your whole order at once and he didn't get half of it. The idea of charging extra for

The women are discovering peoples real nature," when they get a chance at the dressing-room. It's so thoughtless, when one has one's own nails to manicure hair to brush and puffs to adjust. Did you notice the woman in blue? She's been there first each morning and has stayed at least half an hour.

The men look at their shirts and sigh furtively, "Will it go another day?" As for the women's clothes, how sad it is to watch the downfall of a fresh shirtwaist-to see the carefully dressed hair of the first day out fall into the inevitable carelessness of the third day! One cannot thrust in hairpins at the right places-at fifty miles an hour.

Breakfast again. The liberal eaters Second Day.—The woman in No. 10 of three days ago now consider two cereal-one order for two.

Back to the regular car. The sugar beets appear. Everyone's Time tables are consulted and ac- agreed on beets. A wearied pessimist cumulate. No. 11, in his zeal over a in the drawing-room section would proposed California trip, forgets the like to know how many times he has proprieties and discusses it animately heard, "How I do miss New England recently accosted a gentleman on the with No. 9. Post cards enter-great, hills-this country is so flat." But the

seen those places." What difference does that make? You will, on your miles to the next large city? Yes! JOYETTE WINS that's a glorious sunset. Wouldn't a post-card of it be beautiful! Night falls again.

Fourth Day .- No. 6 acted very dising. Isn't this tipping system in NOW Has Two to Her Credit In America a disgrace? What! the diner has been taken off-what shall

There is a hurried scramble for clothes-collars are discarded-linen dusters cover a multitude of discrepancies, and a rush is made for the station lunch counter as the train stops. Coffee, scrambled eggs, ham are rapidly gulped down and the erstwhile elite of the drawing-room section and Pullman rush madly back to the train-with Uneeda biscuits and Zuzus close beneath each arm. The man who demanded everything on the menu the night before, has the most for his money this trip as well for he has found coffee for five cents while the others paid ten.

There's a delay on the road-"regular Rio Grande trick" says a man who has never been over the road before. The train has stopped at a deserted little spot in Oregon, and there is a mountain to climb! Out the passengers swarm to travel the trail of a low hill-though one might infer 'twas a spur of the Rockies. Wearied some fall back, not from the difficulty of the climb-no indeed!-but because altitude, thin air, affected hearts have occurred to them and serve as an excuse to return. The few sturdy travellers proceed-on, on, through the sage-brush; and ever and anon wafted down to a tired straggler at the foot is heard, "You paid thirtyfive cents-why, I paid fifty and we didn't have ro-lls!"

Exhausted ,after the unusual exercise, again to the train the tourists made their way. Short naps are taken and they wake just in time-all together-to ask the porter to make their beds at once.

Fifth Day.-Many of the original passengers have left the train and have been duly pulled apart and put together again by those who remain. Those who are still in the car are weary of themselves and of each other. How can a man be agreeable when he's down to his last collar or a woman be attractive when she knows her hair is a sight? The plush seats are hot and stuffy-the trains do not follow schedule time, and even postcards fail to arouse the people from this apathy. The same jokes have been laughed at twice, comments are trite. White hands now petutantflip of the green baize seems to say, "One night more of this." The foibles of each passenger have been discovered. The prospector no longer interests, but rants.

The mountains glower on either-side the prairie dogs in the underbrush jump up and laugh at you, and the poplars of this desolate West-rigid, forbidding trees-drive you wild as they stand serene in their stiff primness. They remind you of the day long ago when you left home, as neat and well set up as they.

Good news! The few left of those who started from Boston so many days ago are due in Portland, their destination, at sunrise.

Sixth day.—Portland, the Rose City. How interesting! Where is the best place to get a room and a bath?-Boston Transcript.

He Was the Same Man. A prominent merchant of Sheffield

street with: "Good morning, Mr. Johnson. How

is coal today?" "Well," responded the other, "I am not much acquainted with the coal

market, but I can ascertain the priceif it will accommodate you." "I beg pardon," laughed the merchant. "I really thought you were Mr. Johnson, the coal dealer. You

certainly resemble him." A few days later the merchant entered a tram car and, seating himself

beside a gentleman, exclaimed heartily: "Well, Mr. Johnson, I'm glad to recognize you today. I made a laughable mistake one day last week. I mistook another man for you and, addressing him very familiarly, asked how coal was. He looked amused and replied that he did not know much about coal, but would inquire if it would accommodate me. Then I looked at him and saw that he was a perfect stranger. It really was laughable, Mr. Johnson, but he looked so much like you."

"Yes," responded the gentleman, looking more amused, "and I am that same party again."

The merchant recognizes no more

coal dealers .- London Tit-Bits.

FOURTH RACE

the Sonder Races

HEVELLA FIRST LED FLEET

Yankee Skipper Quick to Take Advantage of Favoring Breeze-Brooklyn Boat Will Capture Either Taft or Draper Cup-Interesting Contest Witnessed by President Taft and

Marblehead, Mass., Sept. 4.-Friday's international sonder yacht race, the fourth of the series for the President Taft and Governor Draper cups, was won by the Joyette, owned of August in the year one thousand by Commodore Childs of Brooklyn, in the presence of the President of the United States, Secretary of the Navy Meyer and a host of other interested onlookers.

The Joyette was extremely fortunate to win the race, as Hevella, the German challenger, led the fleet of six vachts at the end of the first trip over the windward and leeward course, while Joyette was an even three minutes behind her, in fourth

Going out to windward for the second time Joyette split tacks with the fleet and took a long hitch to the southeast, while the other racers stood inshore on the port tack Hevella footed very fast, but Joyette. sailing off by herself, ran into the fresh breeze that her skipper, W. W Swan, had scented before completing that the Brooklyn boat had worked into the lead. Had one of the German boats followed the request of the committee to give chase to any American boat that split tacks the result might have been different.

Captain Protzen of the Hevella devoted himself to the Ellen for too long a time. He finally saw from afar what a stiff breeze Joyette was getting and so made in her direction, but it was too late. Joyette crossed her bow with minutes to spare and was far ahead of all the boats at the turn. It only required a simple spinaker run to the finish for Joyette to receive the winner's whistle and an ovation.

Joyette's victory give her two legs in the Taft cup and ties her with the Ellen for the Draper cup. All the ly draw the curtains and the final, boats which have not won a race in the series, Wolf, Seehund II and Margarethe, are now eliminated from the remaining contests, and on Monday Joyette, Hevella and Ellen will fight it out for the Taft cup. Should Joyette win on Monday she will take the Taft cup and the Ellen will get the Draper trophy. If the Ellen wins on Monday then she and Joyette will have a marine duel on Tuesday to settle the question about the Taft cup, and the loser gets the Draper trophy If the Hevella should happen to capture the next race then she and Joyette will sail against each other, and if the presidential trophy goes to Germany, the Draper cup will become the property of W. M. Childs, owner of Day except Saturday, 8.30 A. M. to 3 P. Joyette. In other words the Joyette M. is bound to win one of the two cups, no matter what the outcome is of the remaining one or two contests.

The official time at the finish was: Joyette, 2:24:06; Hevella, 2:28:16; Ellen, 2:30:56; Margarethe, 2:34:56; Seehund II, 2:35:26; Wolf, 2:36:05.

IT WAS NO JOKE

Roommate Looks Calmly On

Ayer, Mass., Sept. 4.—Placing a evolver at his right temple and a drawn knife at his left breast, in the presence of his roommate, Alfred Burgess, a mechanic, 24 years old, committed suicide when the shot entered his brain. He was too weak after the bullet wound to press the knife as he intended.

Burgess had previously placed the revolver to his temple and said to his companion: "Want to see me shoot myself?" The revolver missed fire. Then he tried the double means, saying: "I'll make sure of it this time." His roommate thought it was a joke and watched him without an effort to prevent the act.

In Memory of Champlain Plattsburg, N. Y., Sept. 4.-The New York state Champlain tercentennary commission has voted on a site for the permanent memorial to the discoverer of the lake. A high bluff at Cliff Haven, N. Y., has been chosen. The memorial itself will probably be an heroic statue of Cham-

ty, Boston, with a summer outing at Squantum. Here two prominent Dem-Democratic party should nominate whomever it desired to be governor. It was perfectly natural probably for him to take a rap at the Payne tariff act and he imparted the somewhat astounding information that a great number of Republicans in the state are greatly disturbed over the passage of that measure. If that is so, it will undoubtably be in evidence at the state election on Nov. 2. It is very evident that Mr. Vahey not open to Republicans or to other Democrats in general.

Mr. McLeod expressed the opinion record there. that victory was within the Democratic grasp, and he made a strong plea that they should take possession Murray is extremely disappointed beof it. Taken altogether, Mr. Mc- cause, as he claims, he had re-Leod's speech was optimistic and en- ceived assurances from Mayor Fitz-

Really, however, it is very well known that Democrats with opportunities for knowing the sentiment of Lawrence H. Sullivan of the Charlesthe state are not laying any heavy town district in the field, although he wagers on a Democratic victory this had withdrawn some time ago. Mr. fall. There does not seem to be any- Murray evidently thinks Sullivan was thing to indicate any such result. On put into the fight to prevent his own the contrary, the evidence all seems success. It is charged by some of Murto point to a Republican victory of ray's friends that Sullivan, who the usual magnitude.

Vahey an Easy Winner

Democratic gubernatorial nomination. far as can be observed it fell flat. ever chosen. and if he succeeds in getting a few delegates, they will come almost exclusively from his own section of the state. Democratic leaders in Boston do not think he will get enough votes in this city to make any showing whatever. The same is true of the suburbs around the city.

of Mr. Coughlin fell rather flat, it is equally true that there is no particular enthusiasm for Mr. Vahey. It is conceded, however, by a large part of the Democratic leadership that, tion, in view of the fact that no one Office. else of particular prominence or popularity desires it. If Col. Gaston had ALBERT J. DURAND merely said the word at the time his name was mentioned in connection with the nomination, he would have been named on the first ballot, probably by acclamation, or if not, by a very large majority of all the dele- Quincy 458-2.

The Democratic machine has never been successfully operated .without a considerable sum of money. It takes for the ordinary and perfectly legitimate needs of a campaign a fund of several thousand dollars, at the very least. It has always been possible to campaign was in progress, but this 10c. Goods. year, with no such canvass under way, Democrats think it will be extremely difficult to raise money in it would be different.

That was quite an event at Beverly this week when Governor Draper fraternal greeting. Massachusetts has one of the finest summer resorts in the country, and it is very fortunate, not only for Massachusetts, but for Mr. Taft, that he should select one of her shore towns as his summer residence. It was very fitting, under these circumstances, that the governor should pay his respects to the head of the nation during his stay, and show him the courtesy due him from a governor to the president. Real Estate, Both the president and governor are enthusiastic golfers. They are both great executives, each in his own corner School and Hancock Streets. sphere, and both have, to a remark-Able extent, the confidence of their-

constituents. Two Democrats In Field It is interesting to note that thus far there are two Democratic candidates for the Democratic nomination for the district attorney in the county of Suffolk. One of these is Councillor Edward P. Barry of South Bosdon, and the other is Felix W. Mc-

Gettrick of Boston. Barry has terved two terms as a member of the governor's council and was formerly a newspaper man. He is now a lawyer and his specialty is said to be the theatrical business. How that should particularly fit to him to be district attorney has not yet been made apparent. McGettrick came to Massachusetts from Vermont some years ago and was appointed assistant district attorney by John B. Moran while the latter held the office. Announcement of His Candidacy Fell McGettrick while in Vermont was in the federal service and his record there has been severely criticised in the cratic Nomination-Suffolk District past. The party leaders do not care for either one of these two candidates and it may be possible that some The Democratic campaign was other stronger man may be entered opened in a mild way by the Young for the nomination later on. In the Men's Democratic club of ward twen- meantime, District Attorney Arthur D. Hill holds the position, and many Democrats' predict that he will conocrats of the state, Ex-Senator James tinue to occupy it even after the elec-H. Vahey, candidate for the Demo- tion on Nov. 2. Cook Says He Has Absolute our idleness. The Eskimos were un-Proof of His Discovery

EXPLORER DEFIES HIS CRITICS at the Pole."

Spent Two Days at Pole, "Which said: Amounts to Size of 25-Cent Piece"-Smiled When Return Trip Was Be-When Stores Were Reached

London, Sept. 4 .- A special dispatch received here from Skagen says:

As the steamer Hans Egede steamed ward. by, I caught through my glasses a "We now began to suffer hunger. vision of a small man in a dark suit Our provisions were becoming exand peaked cap, shading his eyes depots. We entered Ringnesland and with his hands, as if straining to see on June 20 found the first animals on the welcome civilization after years our return-bear and seal. We shot in icy exile. It was Dr. Cook, the a bear. explorer. He was chatting with the to board the Hans Egede.

Somebody gave Cook a bouquet. Tears dimmed his eyes as he buried Here was lots of game, but we did not his face in their fragrance. "It's years dare shoot at it. We had only taken since I have seen flowers," said the a hundred bullets to the Pole, and explorer, with a quiver of emotion in now only fifteen were left. We went his voice.

I followed him to the cabin. His God I am back." face was tanned from exposure. He looked the picture of splendid health. Only when he smiled one noticed the loss of two teeth. "A fight with a polar bear did that," he said. "You can tell the world," the explorer continued, "that I am in better condition than at any time and look forward with an appetite to the festivities that are promised me. My dinner has been poor these last few years and I shall have to make up for it."

Dr. Cook then briefly described his journey. Regarding his discovery he

"Then came April 21. That was the great day. We looked for the sun. As soon as we got it I made careful observations. Great joy came over us. We were only sixteen miles from the desired spot. I said to myself, 'Bully for Frederick!' Then we went

"The last stretch was the easiest I ever made in my life, although I had still to make two observations and the ice was very broken here. But my spirits were high and I shouted like a boy. The Eskimos looked at one another, surprised at my gaiety. They did not share my joy. Stood on the Pole

"I felt that I ought to be there. !

made my last observation and found that I was standing on the Pole.

"My feelings? Well I was too tired to feel any sensation. I planted the Stars and Stripes in the ice-field and my heart grew warm when I saw it wave in the wind."

"How does the North Pole look?" he was asked.

"Well," said Cook, smiling, "it"

this ship. der the flag. That tube contains a struments."

short statement about my trip. I couldn't leave my visiting card because I didn't happen to have one

"Perhaps," the explorer added dryly, "I should have stayed there longer had it not begun to freeze in easy and the dogs howled fearfully. On April 23, therefore, I again turned my nose homeward, which was much easier, as you cannot turn your nose in other directions when you stand

The Return Journey

Describing the return journey Cook

"Fortune now smiled. We did twenty miles a day until we reached Too Tired to Feel Any Sensation, the omnious 87th degree. Then I but Heart Warmed After He Plant- felt the ice moving eastward, carryed Stars and Stripes—Fortune ing us with it. A terrible fog swept round us and kept us for three weeks. unable to make an observation. Durgun, but He Was Soon Overtaken ing those three weeks we got no by Hunger and Was a Happy Man further than the 84th degree. Than began a heavy walk towards Heibergsland and another three weeks of fog. When that cleared I saw we had drifted southwest to Ringesland, where we found open water and lower-high screw ice which stopped our way east-

hausted and we were unable to find

"And now our goal was the whalers at Lancaster sound. We followed the captain on the bridge, now smiling, drift ice to the south eight miles a now waving his hand. I was allowed day, but was stopped by pack ice in Wellington channel, which was impassable either by boat or sledge. into Jones' sound after walrus and bears, and found open, calm water. We met polar wolves with which some of our dogs made friends and ran

Held Up For Two Months

"Now we spent day and night in an open boat ten miles from shore. This lasted for two months, while storms often raged over our heads. At last we got ashore again, but we had no fuel and were obliged to eat birds raw. Next day we found fuel, and what a feast we had. But we suffered much hunger during this period. One night a bear came and stole our food. We had many fights with musk oxen. which attacked us. Our best weapon against them was the lasso."

The correspondent's story quotes Cook as saying in conclusion: "Say that the day we reached our

provision stores at Etah was a greater day than April 21. I long to get back to civilization, to move among my fellow men: I long to press my wife to my heart. I am the happiest man living. Tell the whole world I thank

GETTING IN LINE.

Democratic City Committee to Make an Aggressive Campaign.

A largely attended meeting of the Democratic City Committee was held last evening in Electa Hall, Johnson Building. The meeting was called to Braintree is now playing great ball order by Charles J. McGillvray, chair man of the City Committee, who outlined the campaign for the party in the State election in November. The question of finances was raised and i was found that the Treasurer had large balance left from last year, and the Clifton A. C. on the home grounds reported indications promising for an aggressive campaign. The candidacy of Councilman Flaherty for Representative from the Sixth District was received and enthusiastic support was pledged by the members from Wards 4, 5, and 6. The candidate from the Fifth District to oppose William R. Thomas, the present incumbent, has not yet been announced but will be reported to the Ledger in a few days. Papers for the nomination of delegates to the various conventions were issued which will be filed next Wednesday with Secretary Flynn.

BAND CONCERT.

The last concert of the season in the Blue Hills reservation, will be given on Sunday afternoon from four until six o'clock at the foot of Big Blue. The following program will be rendered by Post 68, G. A. R. band, Harry Bettoney, director:

AMUSEMENTS.

After a remarkably successful summer season Manager Morison announces for his farewell week next week that delightful comedy drama "Divorcons," the play made famous by Grace George and written by Victoria Sardou. "Divorcons" is a social play dealing in one of the perplexing social questions of the day, that of divorce. This piece while exposing the disgusting side of divorce proceedings also teaches a moral lesson beneficial to all. It contains crisp lines startling situations and all together is marked throughout with typical french humor. Receptions are planned for the Morison players during the week winding up with a monstrous reception to all of them Saturday night.

Keiths Theatre. Orpheum Theatre.

Keiths Theatre.

is familiar and over which enthusiasm can be aroused, was never better demonstrated than one afternoon recently in New York, when Cecil Lean, who had long been the star of the Kirke La Salle Company, sat on the back of a davenport, in his shirt sleeves and his coat over his arm and sang a song called "The Fan." This happened in a New York theatre and before the chorus was finished crowded houses were shouting like wild. Lean with the song caught the spirit of the ball game and every move he made was a picture. He woke up next morning to find himself the most talked about

Castle Square Theatre. For his second week at the Castle quare theatre, beginning next Mon ay, Mr. Craig announces another play new to Boston. It is "Glittering Gloria," and it is a roaring farce that other places. The ringing of the church bells and groups of people going to church on a Sunday morning of the land to church on a Sunday morning of the church o

its plot are of the sort that leave no time for anything but laughter. Gloria, who gives her title to the play, is the nuch photographed chorus girl of the Utopia theatre in London, and her experiences as the result of receiving \$25,000 diamond neckless as a present, start the fun and the mirth. In-ident piles upon incident, joke upon Joke, funny situation upon funny situa-tion, and the climax comes when the comedians are locked up in a trunk and carried off to the railroad sta-tion, there supposedly to remain for he longer part of a day. All in al ter or more laughable play for his econd production of the new seaso at the Castle Square.

HEAVY FINE.

Squantum Clam Digger Fined \$50 on Second Offense.

Judge Pratt imposed a heavy fine on Niles C. Neillson this morning for digging more clams at Squantum, on restricted flats, than allowed by law. Neillson was in court some weeks ago and paid a fine of \$5. Instead of being good, it is alleged that he continued to dig clams in violation of the law. with the result that he was again arrested by the state inspector. When the record was put in evidence this morning the court imposed a fine of

DELIGHTFULLY ENTERTAINED.

Miss Inez V. Allen of South Weymouth entertained a party of friends from Class 1909 of Bridgewater Normal school at her summer home in North Weymouth on Wednesday. The party left Quincy center about nine o'clock, and on arriving at the beach were given a delightful sail. On their return bathing was in order after which a bountiful lunch was served.

During the afternoon the girls enjoyed themselves, while sewing, talking over school days at Normal. As the sun began to sink in the west the party adjourned to the beach where they sang and cheered until after the sun set. At eight o'clock ,after singing "Alma Mater" and cheering their hostess, the guests departed.

In the party were, Misses Edith and Gertrude Bean of Haverhill, Miss Isabell Campbell and Margaret J. O'Brien of Hingham ; Misses Helen and Gertrude Burke, Miss Mabel E. Lovejoy, Miss Mercedes O'Brien of Quincy Miss Mabel F. Easton of Holbrook; Misses Catherine J. and Miriam Wellington of Waltham.

FALL AND WINTER FASHIONS.

The fall fashions are distinctly novel and many new, and what is better, becoming styles have been brought out-two and three piece suits, in separate coats and even in separate skirts. In dressy costumes of all sorts many new drapery effects have been evolved by the great French fashion designers. In its plainest form the overskirt drapery consists of a close straight piece of the fabric reaching to a variously pleated or shirred half skirt. In the more extreme effects such as the full draperies at the sides and back, the new washerwoman overskirts, the material is draped and gathered very much on the order of the overskirts of twenty-five years ago.

VARIETY IN THE NEW MODES. This fall no woman need despair. The new styles contain such a great variety of models that it is possible to clothe almost any figure becoming- ly new idea in the millinery world. A lasted by the American, who admits ly. For a slender woman the new charming Paris model is made in a cuirass frocks are extremely chic if large round shape that entirely covers ful daughter home. well made, but it must be remembered the head in dark brown velvet, elabo-dar to a seemingly unoccupied house at No. 9 that the variation of an inch or two rately draped with the folds caught Frognall street, in a shabby-genteel quarter drumming of a patent leather covered in length of yoke or cuirass will down by velvet covered buttons. It of London, where he leaves the girl at her make all the difference between a is trimmed rather high on the right request. IV-Drawn back to the house by frock that is becoming and one that side with a full brush of heron aigis the reverse.

The costume consisting of waist and skirt is again in fashion. This never striking novelty. A Rare Autograph.

"What is the most expensive autograph you ever sold?" inquired the re-

"That of Thomas Lynch, Jr.," answered the dealer. The reporter looked perfectly blank. "Never heard of him," he confessed.

"Well, he was a signer of the Declatration of Independence. He signed it as proxy for his father, who was ill at the time. Soon after he went to sea and was never heard of again. Now. autographs of Declaration signers are much sought by collectors. None approach in rarity those of Thomas Lynch, Jr. In fact, so far as I know, where is only one in existence.

"This is affixed to an autograph letter addressed by Lynch to George Washington, which lends it additional value. It was owned at one time by Jared Sparks, president of Harvard college. Subsequently it passed to Thomas Addis Emmet, from whom I bought it for the sum of \$4,000. I sold it to Augustin Daly, who was a keen autograph collector, for \$4,500. Later Emmet repented of letting the autograph go from his possession and secured it from Daly for \$5,250, presenting it

afterward to the Lenox library, New York, where it is now."-Philadelphia

The Origin of "Boz."

The origin of "Boz" is known to most readers interested in Dickens. A younger brother of the novelist was known in the family circle as Moses. in facetious allusion to one of the characters in the "Vicar of Wakefield." and this being pronounced in fun through the nose became "Boses" and so "Boz," which Dickens adopted as his early pen name. "Boz," he once wrote, "was a very familiar household word to me long before I was an author, and so I came to adopt it.

Before the real name of "Boz" became well known somebody invented and circulated the following smart epi-

OFFICE

A BOSTON GIRL'S BUDGET.

The Cock-adoodle-doo Hat Has Feathered out in Boston-Pathetic Story of a Starving Widow Who Stole Graham Crackers-Five Hundred . Dollars to a Wise Man's Wife-Trolley Tripping Suffragists Unfurl Banners on Boston Common.

From peach basket to egg basket is the evolution of the hat, so one thinks at first. Yet no. That fowl whose head projects just over the fair forehead while its pin feathers and tail feathers, faultlessly perfect, fall to the rear is on closer inspection seen to be a mere rooster. That cock-adoodle-doo hat the irreverent have already named it. It has appeared on Boylston street, the Regent street of the American Athens. The courageous maiden who was first in New England to wear it is doubtless already crowing, so to speak, over her less progressive sisters.

Legislators who like to have a lot of women running after them will have the time of their lives during the next session. That probably means that very few members of the Great and General Court of Massachusetts will really enjoy themselves once the law grist begins to grind. The forces of prohibition are organizing for the biggest fight ever made in the Bay State, and the Woman's Christian Temperance Union is about to canvass every member of each house to find out where he stands and why. And the suffragists are, also. out for business. They are saying that after all . Massachusetts is the eastern state that ought to lead in giving women the ballot, and that they don't propose to let New York head this procession if a little intelligent and persistent lobbying will turn the scale this way. Other causes will also take women to the State house committee rooms. Cruel laws, kind hearted men. How

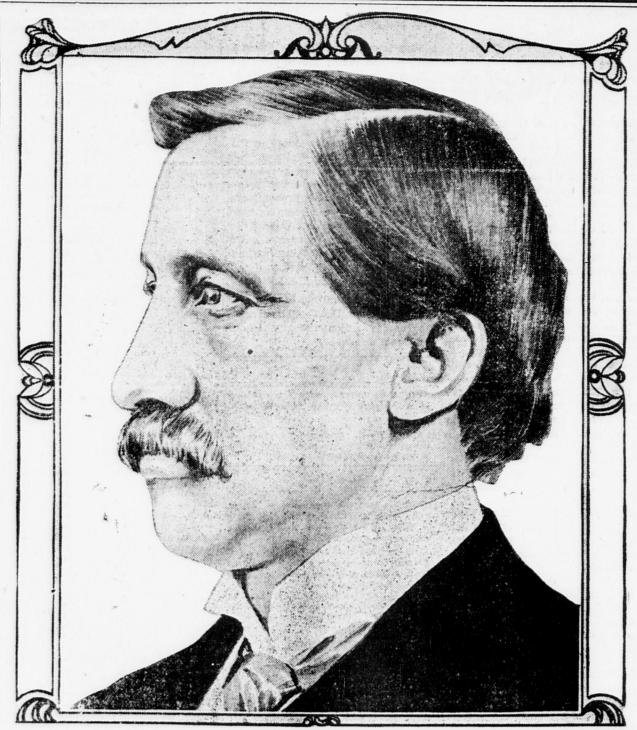

often is that antithesis witnessed in courtroom! Last week in Boston a twenty year old widow her husband lately killed in a quarry explosion her six week old baby sick and likely to starve, fell in a faint when charged with shoplifting. Starvation and hysteria were the cause. She had taken two boxes of graham crackers in grocery store when her little savings earned during a temporary job as waitress, had vanished. Strictly this young woman was a black hearted criminal who had sinned against the sacred institution of private property But a sympathetic judge found a way to put her on probation and some officers of the court exerted themmits she can earn enough to support ther than put such a "criminal" on probation. It ought to place her in tablish the most complete system of the charge of murder. charge of a physician with an allow- industrial training. ance for her necessities until such time as she is surely fit to go to work | Mormons, for a chance to speak, after again. That would indeed be con- having had otherwise successful meetservation of human life. But the law, made by and for near-savages of the

barbarous ages, is only just beginning to feel the modern impulse. Five hundred dollars to the wife of a wise man is something State Actuary making overtures to factory gate Robertson G. Hunter of Massachusetts is promising in a little leaflet that has been issued from his office, and which anybody may have by applying for it You read into it and you find there some interesting facts about a Brockton man who took out a \$500 saving bank life insurance policy last winter. He was unfortunate enough to die a few months later, leaving a wife and five children with no other protection The bank promptly paid his widow the \$500. She received, so Mr. Hunter avers about \$308.00 more from the bank than she would have received from one of the large industrial in- tions to cover as well as the regular surance companies for a similar policy at the same cost. On that showing is certainly looks as if this Brocktonian was a very wise man.

"I want my children to be able to earn fifteen dollars a week when they get out of school," said a husky looking parent at one of the hearings before the legislative committee on education last spring. To meet the desires of parents who have just that notion the Boston public schools will question theirs has certainly been a notion the Bostop public schools will question theirs has certainly been a open in a few days with a larger num- picturesque way of presenting the LIGHTNING'S NEAT ber of vocational classes than ever before. Printing and bookbinding, making of jewelry, electrical apparatus and furniture, commercial designing and advertising-these are a few of the trades which the municipality will undertake to teach. There used to be a prejudice against spending public money to impart knowledge of the processes of any particular business. The idea was to train all the faculties of brain and hand through the literary

Olmted, Le Roy, N. Y.

DR. FREDERICK A. COOK, AMERICAN EXPLORER WHO PLANTED THE STARS AND STRIPES AT THE NORTH POLE.

Dr. Frederick A. Cook, the American explorer who discovered the north pole, got his first arctic experience with Robert E. Peary, that other intrepid American who is now somewhere in the arctics battling with the ice and snow on a similar undertaking. Dr. Cook went with Peary on the polar expedition of 1891-2 as surgeon. He devised a route then by which he was convinced the goal could be reached, and in the years that intervened between his first and last arctic expeditions he never ceased to study the problem. He conquered Mount McKinley, in Alaska, after several attempts and went as surgeon with the Danish expedition to the antarctic seas. It was on July 4, 1907, that he undertook his second arctic expedition, which was destined to be crowned with success. John R. Bradley, a wealthy New York hunter of big game, fitted out a fishing schooner and went with Dr. Cook to the polar regions to hunt. They intended to steal a march on Peary and went quietly about their preparations. The hunt over, Bradley returned to New York, and Dr. Cook started for the pole accompanied by a company of Eskimos.

and manual studies so that the graduate of the public schools would be prepared to go out and very easily pick Second and Third Engineers Engage up the technique of any ordinary selves to secure for her a position in trade. CHURCH RE-OPENS. ANOTHER WIN Large Congregations Greet Pastor The Point church re-opened Sunday

after being closed for repairs during the month of August. The vestry social room and study have been frescoed, painted, papered and varnished. The work is neatly and tastefully done and the effect is pleasing and cheerful. The pulpit-platform has also been refurnished.

Sunday large congregations were in attendance at both the morning and evening services and enthusiastically welcomed the pastor, who, with his family has returned from Northfield day night called the fire department to and is again living at the parsonage 10 Farnum street. Because of the absence of Deacon Charles Sherburne superintendent of the Sunday school, baby was asleep in one of the rooms Rally Day will be observed Sunday, Sept. 19.

ANNUAL CRUISE.

Thirteen Boats Participated in Annual Cruise of Wollaston Club.

the Wollaston Yacht club was begun Sunday morning at 10 o'clock, and was participated in by a fleet of thirteen boats. The Thordis, flying the flag of Commodore Dawes, led the way followed by the Corneta, with Vice Commodore L. F. Crosscup.

Following them were the Pocahon tas, Capt. F. C. Merrill; Busy Bee, Charles Richardson; Leisure, Capt. W F. Reynolds; Leda, Capt. Frank Tay lor; Kitten, Capt. H. K. Ellis; Saquish ottom. Several lines of hose were Capt. F. J. Podbury; Curlew, Capt. C W. Dill; Sphinx Capt. E. A. Bean; Capt. Harry Jackson.

The objective point was Marblehead where the day was spent. The fleet returned to the club house Monday

NEPONSET BRIDGE. Fire Again Threatens Distruction of the Bridge.

The alarm from Box 62 at 1.45 Monday afternoon called the department to another fire on the Neponset bridge An alarm from the Boston side about the same time brought the fire department of that city also to the bridge The fire Monday was on the easterly side about 250 feet from the Quincy handicap tournament held on Labor end. It started underneath the bridge, Day except Saturday, 8.30 A. M. to S P. Sandicap tournament held on Labor each it stated as was the case a few weeks ago, and day at the courts of the Wollaston as was the case a few weeks ago, and was a hard fire to fight. The only way Thialfi, Dr. Soule to reach it was by boats, and from The play was interesting and close these, streams of water were played from start to finish as the scores upon it. It was also necessary to rip Peter Pan, Walter Kelly up some of the planking on the walk.

MISS ANN KEENAN.

The funeral of Miss Ann Keenan, godmother of Rev. William L. Sullivan, C. S. P. was held Sunday afternoon from her late home 40 Summe street and was very largely attended Services were held at St. John's church at 2.30 and were conducted by Rev. Patrick Scannell. The burial was in the St. Francis Xavier's ceme tery at Weymouth. The bearers were Richard Gray, Timothy O'Connell Louis Bonne, George Canole, John Doyle and Patrick Driscoll.

FOR THE IRIS

Large Fleet Competes in Quincy Yacht Club Open Race

Seven classes competed in the annual open interclub races, under the auspices of the Quincy Yacht club, Saturday. The races were sailed off the club house, Houghs Neck in a strong south-southwest breeze. This was the last scheduled yacht race of the Quincy club for the season and the races were watched by a large

Local interest centered in class D, the cape cat boats and all the old rivals were entered. It was the Iris day however and Rear Commodore Crane secured another victory beating the Emeline, Commodore Robbins, nearly a minute and a half on corrected time.

In class A, the Thordis of Comme dore Dawes of the Wollaston club was an easy winner as the Kit his only competitor was dismasted early in the

The Winona won in class B, the Thialfi had a walkover in class C, and the Zoe in class S.

The Jennie won the race for the open power boats and the Torment for the cabin power boats. The judges were John O. Hall, Geo.

J. A. KEATING 1357 Hancock Street Quincy, Oct. 13

DROWNED OFF HOUGHS NECK

PRICE TWO CENTS

Mrs. Molt, a Bride-elect, Swept From Yacht in Quincy Bay

Mrs Margaret Mott of 46 Norway tréet, Boston, aged 30 years was drowned in Quincy Bay off Houghs Neck Sunday afternoon by falling from a yacht in which she and a party of friends were sailing. Mrs. Mott, with a party of friends consisting of three other ladies and four men left South Boston Sunday on a yachting party to celebrate Mrs. Mott's approaching marriage the yacht being in

charge of Edgar E. Hammond. When the yacht reached Quincy 6-3, 6-4 Bay the wind had freshened consider-2-6, 6-3, 7-5 ably and all but Mrs. Mott and the 5-7, 6-1, 6-3 skipper had sought the cabin. When off Spindle island the skipper cautioned Mrs. Mott and told her that she had better go below. She persisted however in remaining on deck chatting with Hammond. A flaw of wind caused the boom to swing around and striking Mrs. Mott

knocked her overboard. Hammond shouted to those in the cabin and J. E. Mullaney was the first to appear. He had considerable difficulty in reaching the standing room of the boat owing to the swinging boom but finally managed to cast off the landed in the water. He started to swim toward the woman whose skirts had kept her affoat but she sank out of sight just as he reached her. He dived for her several times without getting her, meanwhile the yacht had ome about and it was necessary to pull him aboard with the boat hook to

prevent him also from drowning. The yacht then returned to Boston where the accident was reported to the harbor police and an effort was made Monday with the aid of the Quincy police to recover the body Mrs. Mott was a waitress and was

soon to be married.

HORSE RACING.

Many Quincy People at Races of Old Colony Driving Club. Many lovers of horse flesh from Quincy were present Monday at the races held on the Weymouth fair grunds under the auspices of the Old Colony Driving club. There were twelve events on the card all of which were well filled. No Quincy horses

were entered as far as known.

City Clerk's Office, Sept. 2, 1909. The voters of the City of Quino members of the Democratic Republican and Socialist Parties, are hereby notified to assemble at the voting places in their respective wards as designated in an order of the City Council passed Sept. 1, and approved by the Mayor Sept. 2, on

TUESDAY, SEPT. 21, 1909, hen and there to give in their votes or the nomination of candidates as

One Representative in the General Court from the 5th Norfolk District— Vards 1, 2, 3—and one Representative n the General Court from the 6th Nor-olk District—Wards 4, 5, 6. Also for the choice of delegates as follows:

By the Democratic voters, for the State, Councillor, County and Senatorial conventions, Wards 1, 2, 3, 5, 6, one each; Ward 4, two. By the Republican voters, for each of the conventions, Ward 1, four; Wards 2 and 4, two each; Ward 5, five; Wards 3 and 6, three each. By the Socialist voters, for the State convention, one from each ward. For the other conventions, Wards 1, 3 and 5, two each; Wards 2, 4 and 5, one

The polls are to be opened at twelve o'clock at noon and closed at nine o'clock in the evening. Nomination papers, signed as the law requires, must be filed as follows: By the Democratic voters, with the Secretary of the Democratic City Committee, between 7.30 o'clock P. M. Wednesday, September 8, and 7.30 o'clock P. M., Thursday, Sept. 9. By the Republican voters, with the Secretary of the Republican City Committee between 7.30 o'clock P. M. Wednesday, Sept. 8 and 7.30 o'clock P. M., Thursday, Sept. 9.

By the Socialist voters with the Secretary of the Socialist City Committee between 7.30 o'clock P. M., Wednesday, September 8, and 7.30 o'clock P. M., Thursday, Sept. 9. Blank nomination papers may be obtained from the Secretary of either of the parties above named. The voting places for the Caucuses have been designated as follows:

Chelsea's proposed new city hall reminds one of Independence hall, Philadelphia.

Such is fame—the newest fashion in women's hats has been named the The Result of Twenty-Tiree Dr. Cook hat. It is very tall, fuzzy and expensive.

Salem aldermen are demanding a new City Marshal, claiming the present chief is not keeping the city within that degree of decorum to which the old town has long been accustomed.

What is the matter with the Amer ican people anyway? Why not hurrah for Dr. Cook and America and later if proofs are not forthcoming air their

City Marshall Kingman of Brockton blames the interstate express business for the large number of arrests in that city during August; 175 out of 200 being for drunkenness.

It is about time for the wild beasts and birds to disappear for up to date 11,000 hunting licenses have been granted in this state. Every man with a gun however is not a born hunter so some may escape.

A church going judge at Washington has ruled that "Hell" is not a swear word so a policeman in that city who had his feelings hurt by being told to go elsewhere, had no redress as the judge discharged the prisoner

Just for a comparison read this item from the Bridgewater Independent of ten years ago. "Two automobiles have passed through town this week and were the object of much admiration as they glided gracefully along.

Because of purely malicious mischief the Education commission Boston has to expend some \$500 replacing broken window glass in the school buildings of the city, a thousand panes having been broken during vacation. It is a pity a different kind of pain cannot result for the wrongdoers.

Watertown is in luck. One man gives a site for a new High school building, another contributes \$40,000 towards the building itself. A noted architect gives the plan and superintends the construction, and still another comes forward with \$50,000 for a Town hall. That's doing something for your own town.

Milk has its uses in preserving life but never was it quicker in action than on Sunday at Portsmouth, when a milk man poured several cans of it over a man whose clothing had caught fire from his automobile. The man is in the hospital in a serious but not fatal condition, thanks to the prompt work of the milk man.

Walter M. Lowney says the reason why he located in Mansfield was because he found 200 to 300 acres of land near the railroad so that he can load and unload cars at the factory making a saving of \$30,000 a year for teaming alone. Railroads in all directions give special facilities for shipping. Cheap land, excellent railroad facilities are neard from since August, 1908, inducements that bring new business enterprises. Quincy can put up some | lar message sent from Indian Harbor, good railway frontage and would gladly welcome some big enterprises.

A great deal of the success of the public school and the progress of its pupils rests on the prompt enrollment of the children on the first day of the term. If any considerable number of pupils fail to attend school on the opening day or the first few days of the term, the work of the term is seriously handicapped because of the necessity for the teacher to halt her work when they do arrive and then tutor them so that they can catch up with the others, or hold the others back until the late comers shall have caught up in the work.

McGREGOR WINS.

OLD GLORY IS NAILED TO POLE

Peary Reached Goal April 6 Last

WAS HIS LIFE'S DREAM

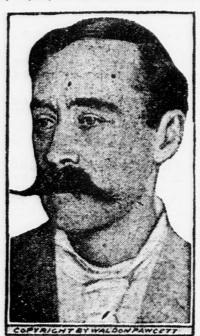

Brief but Specific News of Conquest of Frozen No.th

HE SAW NO TRACE OF COOK

Years of Study and Hardship

New York, Sept. 7 .- "Stars and Stripes nailed to the North Pole."

From out the Arctic darkness there was flashed this message which 21, 1908, the day that Cook un- vival had been abandoned by many, thrilled the heart of every layman. From the bleak coast of Labrador Commander Robert E. Peary gave to of the Far North will rest hereafter. the world the news that he had at- Though separated by about a year the tained his goal in the far north, while at the same moment in far-off Denmark Dr. Frederick A. Cook of aware of the movements of the other. Brooklyn was being dined and lionized by royalty for the same achievement.

ROBERT E. PEARY.

Commander Peary found no trace of Dr. Cook, who reported to the world last week that he had made the same discovery in April of the preceding year. This news reached here through Captain Robert Bartlett of the Roosevelt, Peary's ship, en route to Chateau bay, Labrador.

Undeniable Yankee grit has conquered the frozen north and there has been created a coincidence such as the world will never see again.

Two Americans have planted the flag of their country in the land of ice which men have sought to penetrate for four centuries; and each ignorant of the other's conquest has flashed, within a period of five days, a laconic message of success to the waiting

Cook, in his first message to his countrymen, was brief but noncommittal; Peary was even briefer, but specific. "Stars and Stripes nailed to the Pole," he said to the press. That was all, but never before have so few words conveyed to a people a ing and a request for him to "Hurry greater meaning or a greater patriotic home." satisfaction.

On Sept. 1, Dr. Cook sent out from the Shetland islands the first message of his success-a message which has aroused a storm of controversy around of her husband's success. Both she the world. Robert E. Peary, lost from view in the land of ice and unstartled the world Monday, by a simi-

However, statement is obtained from his own

Unprepared For Good News

In New York little preparation has been made to welcome home Commander Peary, for so suddenly came the news of his achievement that scientific societies were overwhelmed. While Peary's name is on the lips of everyone, his exploit cannot be discussed from a scientific viewpoint beare lacking. How fast he traveled, Polar regions. what great obstacles he met and overcame, what observations he took and the frozen north.

It is noted generally, however, that the home-coming of the two explor ers, practically at the same time, will afford an opportunity for the comservations of the land of mystery.

Peary of his safety. This message, almost overlooked during a day of excitement over his achievement, reached South Harpswell, where Mrs. Peary has been spending the summer. It contained both a touch of pathos and a quaint reference to his success. "Have made good at last," says the explorer to his wife. "I have the old | self to interviewers. Pole. Am well. Love. Will wire again from Chateau."

The message is signed simply "Bert," an abbreviation of Robert, Peary's first name.

Mrs. Peary sent a wife's charac-

By another strange coincidence in this chapter of coincidences, Mrs. Cook, too, was in South Harpswell, Me., when she received the first news and Mrs. Peary had gone for months without word of their husbands.

Life's Ambition Realized In reaching the North Pole Commander Robert E. Peary has achieved the ambition of a lifetime. As a boy, his day dreams were of an unexplored There was no qualification; it left land far to the northward, and such printed matter concerning the Polar read with absoring interest. Saddened by the bitter attacks which for the past few days have been an alleged interview with her was published in connection with the report that Dr. Cook had reached the Pole, Mrs. Peary at first denied her-

The press representative was met a the door by Miss Marie Peary, the 16year-old daughter of the explorer, and was told that Mrs. Peary was up Rear 1416 Hancock Street stairs and could not be seen. But the correspondent, fortified with his good teristic reply, with love and a bless- news, refused to be cast down and Marie, seeing the happy smile that wreathed the face of her caller, asked Mattresses made over, Furniture and quickly: "Have you any news?"

"Yes," he said. "Indian Harbor." The young woman leaned forward eagerly. "Oh, what is it?" she asked breathlessly.

"Your father has nailed the Stars and Stripes to the North Pole," said the man.

Miss Marie clapped her hands excitedly and called aloud to her mother up stairs, "Oh, come down mamma, come down. Papa has reached the Pole."

"Too Good to Be True" Mrs. Peary ran swiftly down and approached the correspondent with outstretched hands. Again he repeated the news. Mrs. Peary covered her face for an instant with her hands and exclaimed to the bearer of the great tidings: "God bless you!" And then: "It is too good to be true."

The correspondent quickly convinced her that the news was true, and while he was telling her all the information that had been available up to the time of his leaving the cination which the subject held for mainland another motorboat dashed up him deepening as he matured. As a to the shore and a man leaping onto the rocky beach ran up the sharp inprofession of civil engineer, enter- cline to the pine-girdled cottage on the cliff. It was Arthur Palmer, a West Harpswell storekeeper, with whom Mrs. Peary had made arrangements to have all messages from Peary delivered to her. In his hands Palmer moment and the excitement which fol- Greenland. His application was wife of his success. REAL ESTATE For Sale? Advertise in The Ledger. ran out into the street in the race, still a dominant factor in the race, for. looking back, he saw that Mrs. Hallake no other.

SYNOPSIS. CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides fore leaving his hotel for the boat train Kirkwood dines at the hotel. In forth his wants, jumped into the antithe dinning room he sees Calendar reeives a note of warning from a fashionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears whatever English board of railway diarrest, to escort his young and beautiful daughter home. Kirkwood consents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress. The latter is knocked unconscious by a fall for, much less anticipated. explain the mystery of the gloomy house. V-Dorothy and Kirkwood, the latter quesioning himself whether or not he has fallen In love with the girl, flee from the mysterious louse by the rear door. The girl takes with cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters out of his bones and looked back. the house to learn whether Calendar is there. He meets Mrs. Hallam and recognizes her as the woman who warned Calto her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam louse in search of Dorothy. Kirkwood eccompanies him at his request to an un savory locality on the Thames. VIII-Calendar meets his daughter in the company of a nan named Mulready, evidently his compan on in some strange nefarious enterprise. Mulready, it seems, has tried to kidnap Dor othy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Paneras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy. IX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in Frognall street. He enters the house to seek his missing purse and finds the young man whom he had knocked down still unconscious after six hours. Kirkwood's ministrations to gently to the water. wood that Dorothy, Calendar and Mulready are engaged in a plot to steal family jewels left to her son by his relatives, Colonel Burgovne. Calendar, she says, is her late hus-Innocent partaker in some mysterious plot. He decides to defend the girl. XII-The next norning Kirkwood in a rowboat, with two watermen, searches the Thames in vain for the Aletnea. The boatmen take him to Woolwich on his way to Shearness to inter-

(Continued from Saturday.)

A sudden jolt interrupted this pastime, and the warning screech of the brakes informed him that he had no CLARENCE BURGIN, Treasurer time to scheme, but had best continue on the plan of action that had brought him thus far-that is, trust to his star and accept what should befall without repining.

He rose, opened the door and, hold-

"I regret, Mrs. Hallam," he announced, smiling his crooked smile, "that a pressing engagement is about to prohibit my squiring you through the ticket gates. You understand, I'm that a pressing engagement is about the ticket gates. You understand, I'm that sails the seas.

Whereas, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court for Probate, by Thomas H. Buttimer of Hingham, who prays that letters testamentary may be issued to him, the executor therein named, without giving a surety on his official bond. ing it so, turned.

His irrepressible humor proved infectious, and Mrs. Hallam's spirit ran as high as his own. She was smiling demonstrated. cheerfully when she, too, rose.

"I also am in some haste," she averred demurely, gathering up her hand bag and umbrella.

A raised platform shot in beside the carriage, and the speed was so sensibly moderated that the train seemed to be creeping rather than running. Kirkwood flung the door wide open and lowered himself to the running board. The end of the track was in sight, and a man who has been trained to board San Francisco cable cars fears to alight from no moving vehicle. He swung off, got his balance and ran swiftly down the platform. A cry from a bystander caused him to glance over his shoulder. Mrs. Hallam was then in the act of alighting. As he looked the flurry of skirts subsided, and she fell into stride, pursu-

WYETH CHEMICAL CO.

GENTLEMEN—I wish to tell you of a fact which I regard as very remarkable. All my life I have been troubled with a quantity of dandruff on my head and in my hair. About a year ago I got a bottle of Sage and Sulphur and used it just once, expecting of course to continue the Sulphur and used it just once, expecting of course to continue the treatment, but neglected it for several days, and before I got around to use it again I found I was completely cured, my scalp remaining clean and smooth with not a trace of dandruff ever since.

TWO FOR EXCELSUS.

At Merrymount Park on Labor day afternoon in the second of a series of three games for the 18 year old championship of Quincy the Excelsus class completely shut out the Bigelow A. A. by a score of 3 to 0, allowing but one man to reach third base.

M. Chapman held the box for Ex celsus and received excellent support from the field. Saunders of the Bigelows was hit rather freely passing 6 to the first cushion.

In the first game of the series at Ward 2 playground on Saturday afternoon Excelsus trimmed the Bigelows to the tune of 8 to 5 in a ten inning One run apiece was scored by the

teams in the first inning, M. Chapman for Excelsus, reaching first on a hit to right, managed to steal around the bags and reach home. Mahoney for Bigelow flyed to left and scored on Olivers drive to right.

In the second McCarthy struck out but reached first. Conway was passed McCarthy scored on Crouchers hit to third. Billings flyed to left bringing in Conway. For Bigelow Pinel reached first and stole home on Keenan's bunt Tupper, cf Score at the end of second Excelsus 3, R. Ganzel, 3b

Neither scored in the third. In the ourth Pinel for Bigelow reached first Leach, c and scored on Cain's fly to right. No core in the fifth.

In the sixth for Excelsus McCarthy hit to third, stole second and third and scored on Conway's two bagger to center field. Score at end of sixth Excelsus 4 Bigelow 3.

Excelsus didn't score in the seventh. Mahoney for the Bigelows hit three imes to right and scored on Oliver's wo-bagger to the same place. Oliver came home on Avery's hit bringing Bigelow in the lead 5 to 4.

In the eighth M. Chapman scoring on Bannin, 1b Sass' steal to third brought a tie

In the ninth Excelsus left the field owing to several raw decisions of the pmp. Putting in a new one they returned and neither side scored.

The tenth was the inning for Ex elsus. Hitting Saunders freely and by nervy stealing 3 runs were brought in. M. Chapman reached first on a hit to short, then stole around the bags and scored. G. Sass put the wood to a two bagger, stole third and reached home on Fowler's fly to left. Fowler was brought in by McCarthy's two bagger, Score 8 to 5. Bigelow failed to score. The score .-

1 2 3 4 5 6 7 8 9 10 1 2 0 0 0 1 0 1 0 3-Batteries, M. Chapman and H. Chapman;

In the second game Excelsus by steady playing and good fielding whitewashed the Bigelows 3 to 0, all of the boys putting up a fine game. Excelsus did not score until the on a hit to left and was brought home on a two bagger by brother "Boodus." It was about the same story in the fourth when Conway hit to centre field and scored on Billings two bagger to left. Nothing more was doing until the eighth when Fowler flyed to right and was knocked home on Croucher's

the game closing with 3 runs to Excel-The game was a clean one throughout Excelsus scoring by heavy hitting and holding down its opponents by good playing and consistent team

The only time the Bigelows had a look-in was when Pinel reached third Makaria on a wild throw by McCarthy. Having defeated the Bigelows it is

possible that a game will be arranged with the Roger Walcott's, eighteenyear champions of eastern Massachusetts. Otherwise Monday's game was the closing one of the season. The score was as follows:-

1 2 3 4 5 6 7 8 9 0 0 1 1 0 0 0 1 -0 0 0 0 0 0 0 0 0 0-- (Saunders and Avery.

MAKARIA 9, ROYAL WHITE SOX 9.

At Braintree Monday Makaria and the Royal White Sox played a tie game it being called in the 10th or account of darkness. Bates started in for Makaria and Tupper went in in the 6th while Morallis lasted 7 innings and Perry pitched the last innings. Mr. Ganzel played the last 4 innings at first and caught 2 innings but the bunch was afraid to let him hit it and passed him every time. The runs came in bunches as the score shows, Makaria tying it up in the 9th and started things in the 10th with 1 out. third when M. Chapman reached first Wes Ganzel hit to Morallis who was playing second, he fumbled the ball Ganzel beating the throw. Joe Langdon who was umpiring called the batter safe which did not please Mr. Morallis who proceeded to hit Mr. Langdon in the face accompanied by choice remarks. Langdon gently pushed Mr. Morallis in the ribs with two-bagger. This ended the scoring his shoe and called the game on ac count of darkness.

Makaria had nothing to do with the incident in any way and their relations with the Braintree boys have always been the best. Following is the score by innings. Innings 1 2 3 4 5 6 7 8 9 R. W. Sox 1 0 0 0 4 0 3 0 1-

PEDDLER ROBBED.

Pleasure Party Cleans out a Fruit Peddler on Hancock Street.

Monday morning a four-horse barge, with a party of picnicers passed through Quincy. When near the High school the barge was stopped for a few minutes. Near by on the sidewalk was an Italian fruit peddler with a push cart. Before the Italian had an opportunity to protect himself the party had made a raid was between the Copeland's and on his cart and cleaned it out. They off. The police were telephoned but by the time an officer was started out on the trail of the party the barge was out of town.

SOLD FROM POCKET.

Officer Lyons Captures Abraham Breen Red Handed.

Many complaints have been received by the police that someone was doing a pocket liquor business at Quincy Point but it was not until Sunday that at least one of the parties was apprehended. Officer Lyons who has been watching for the fellow was the officer who landed the man.

Abraham Breen who resides on Broadway is the man arrested and it is alleged by the officer that Sunday morning he sold a pint and a half pint of whiskey from a supply which hehad in his pocket. His arrest followed and in court this morning he was fined \$75.

TODAY'S COURT.

Abram Bree n was fined \$75 for violation of he liquor law at Quincy. Thomas McNamara Charles Dingee and Patrick Murray were arraigned for violation of the liquor law at Quincy. Case contisuue until Sept 11.

August Carlson was fined \$10 for disturbing he peace at Quincy. George H. Warren Jr. was fined \$15 fo violation of the Metropolitan Park rules. Jacob Sellene was fined \$10 John Beaton \$15 Rosco W. Johnson \$15 and James K. Campbell \$15 for drunkenness at Quincy. Thomas

Councilman Russell offered an order for an incandescent light on Gilmore street, Wollaston. Referred to the Executive. Councilman Whiton offered an order

for a light on Carroll street. Reerred to Executive. Councilman Moir offered an order for two lights on Faxon road. Referred to the Executive.

LICENSE GRANTED. Councilman McDevitt moved and i was voted to take the application of Mary Melvin for a common victuallers license from the table. He then offered an order granting the license In reply to a question the Chief of

Police said that he had no complaint

against the place now. Councilman Bryant opposed the granting of the license. The committee had reported against it and the council should stand by the commit-

Councilman McDevitt did not intend to take any suggestions from any member. This woman is as good as any official of the city. Her nephew was ill at her house and during that time some liquor was brought there for his use. If she was selling liquor it was the duty of the police to raid

Councilman Gardner hoped the report of the Committee would be up-

Councilman Flynn said that as there had been no further complaint the woman had been punished enough and should be given a license. In reply to a question by Council

man Whiton, Chairman Hadlock of the License Committee said that the chief would not approve of the license. In reply to Councilman Whiton Chief Burrell said that the evidence that a large amount of liquor had been delivered to this place did not

late to raid. Councilman Whiton thought it too bad to deprive this woman from getting a living.

Councilman Nowland,-The Chief said that large amounts of liquor were delivered at this place and the woman addmitted that she had sold Jamaica Ginger and cider mixed. Councilman Bryant said the facts

are that the evidence in this case came to the Chief of Police by looking over the books of some months previous. The order was then adopted. Vote doubted. On a rising vote the order was declared adopted 10 voting yes and 9 no.

TAR SIDEWALK. Councilman Bryant offered an order for the construction of a tar concrete sidewalk on Grand View avenue in front of the estate of S. A. Chadborn.

Councilman McDevitt offered an or-Committee in reply to a question said der for the establishment of a juven-(Continued on page 4.)

RUNAWAY ACCIDENT.

Runaway in City Square Comes Near Seriously Injuring Two Ladies.

There came very near being a serious runaway accident in City Square Tuesday afternoon, and it is somewhat remarkable that the two ladies and infant thrown out, escaped without serious injury. An open buggy containing Mrs. Isaac Cutler, of Water street, her infant and a Mrs. Newton was being driven toward Quincy. When near the Adams Academy the wheel of the carriage struck a pole starting the horse. The animal came toward City

Square on the run and when near the First church Mrs. Newton pulled hard on one rein with the result that the buggy brought up with a crash against the stone posts. The three occupants were thrown out, and fortunately landed on the church lawn. The buggy was badly smashed but the norse was captured by Officer Murray before he could do any more damage. The ladies were taken into Hearn's drug store where it was found that beyond a bad shaking up they had escaped serious injury. The horse was sent to Mahoney's stable and the ladies sent home on an electric car.

-The municipal authorities of Berlin have decided to introduce another feature in the municipal administration of tuberculosis. Heretofore muni cipal effort has been confined to the maintenance of one or two homes for curable consumptives, but it is recognized that, as useful as this is, it alone cannot cope with this disease They have resolved, therefore, to devote more attention to preventive

Registration OF VOTERS

For the purpose of preparing the annual Register of Voters and of receiving evidence of qualifications from persons claiming a right to vote at the coming State Election, the Board of Registrars of Voters will be in session at the following places, from 7.30 to 9 o'clock, on the Evenings

FRIDAY, SEPT. 10, Council Chamber, City Hall.

THURSDAY, SEPT. 16, Council Chamber, City Hall. FRIDAY, SEPT. 24, Hose House, Ward

WEDNESDAY, SEPT. 29, Hose House, Ward 4.

FRIDAY, OCT. 1, Hose House, Ward 2. WEDNESDAY, OCT. 6, Hose House, Ward 6.

FRIDAY, OCT. S, Police Station, Ward TUESDAY, OCT. 12, Council Cham-

ber, City Hall. And also on WEDNESDAY, OCT. 13, at Council Chamber, City Hall, from 12 M. to 10 P. M.

which will be the final session before the election.

Every applicant for registration must appear in person before the Board and must present either a certificate from the Assessors or a Tax Bill or Notice from the Collector of Taxes, showing that he has been assessed a poll tax as a resident of the city on the first day of May last; if a naturalized citizen he must also produce for inspection his papers of

No person can vote at the caucuses or election unless his name has previously been placed upon the voting list of the Ward and precinct of which he was a resident on the first day of May last. The Registrars cannot until after the next election, add any names to the registers except th names of voters examined as to their qualifications between the preceding thirtieth day of April and the close of registration, which will be

WEDNESDAY, OCT. 13

at 10 o'clock, P. M. Examine the Voting Lists posted and see that your name is in its come to his notice until it was too proper place.

Explorer's Ship Is Storm **Bound Off Coast of Labrador**

NO DETAILS OF HIS TRIUMPH

May Push Southward to Cape Breton to Obtain Adequate Telegraph Facilities-All Doubt Removed as to Credit and Renown of Discovery of Whatever Question of Priority May Exist Between Claims of Peary and Cook-Mrs. Peary Prepares to Leave Eagle Island

New York, Sept. 8.-Robert E. Stripes to the Pole," on April 6, 1909, of Labrador, is figuratively lost to the world, homeward bound on his ship,

PEARY IN ARCTIC COSTUME

Never have the storms sweeping down from the north caused more bitter disappointment than when the waves of the Strait of Belle Isle were last night lashed into a fury, and to her his wishes in regard to her showed why the intrepid explorer has been unable to reach a telegraph of-The Brockton Fair is planning this fice, as he had planned when he first

Commander Peary, according to best reckoning, was in the vicinity Quebec, last night. But it is uncerto amplify the meagre news of Monday. Inadequate telegraphic facilities lute Miss Peary responded by dipping on the Labrador coast and the northwest coast of Newfoundland may move him to decide to proceed on southward to North Sydney, C. B., before he gives to the world details of his triumph in the far north.

May Be Heard From Today Peary had intended stopping at Chateau Bay, Labrador, possibly last night, but the telegraph station there was abandoned some time ago and the south before the world obtains more

foundland coast, Red Bay, and further south St. George Bay, are at hand, but whether Peary will avail himself athlete says he has won a prize at the of these points or continue to North Brockton Fair, his friends know that Sydney, where he will have every facility at hand, is a matter of conjecture. It is 450 miles from Chateau Bay to North Sydney, and the time of his arrival can only be guessed. But the Roosevelt may reach there late

> Herbert L. Bridgman, secretary of the Peary Arctic club, left New York for North Sydney last night. In addition to greetings from the Peary Arctic club, Bridgman carries this message from The Explorers' club, of which Commander Peary and Dr. Cook are both members:

> "The Explorers' club sends you heartiest congratulations upon your triumphant attainment of the long sought goal—the North Pole."

Anthony Fiala, who commanded one of the Ziegler expeditions to the Pole, is a member of the board of directors sending the message. Several additional messages, filed at

Indian Harbor, have been received judgment in suspense until the giving by associates of Peary, but none of out of the documents which must setthem give any further details of his onquest. In a message to Director Bumpus

of the American Museum of Natural History in New York, Peary announced that he is bringing home a valuable collection for the institution. Thousands of congratulatory messages have been sent in return to the his automobile as he was returning which are from Lieutenant Shackle-! Governor Odell.

ton, the English Antarctic explorer, and Major Darwin, president of the Royal Geographical society.

The National Geographical society called a meeting directly after receiving Peary's message Tuesday and quickly telegraphed a reply of hearty praise. The New York Zoological society sent its echo of the worldwide praise through its president in this city, while hundreds of less important messages winged their way northward to meet the returning

The announcement of Peary that he has discovered the North Pole rivets the attention of the entire civilized world. Whatever question of priority may exist between the claims of Peary and Cook, there can be no doubt that to the United States belongs the unquestionable credit and lasting re-Pole Belonging to United States, nown of discovering the North Pole.

The question of priority in reaching the Pole now absorbs attention in this country and Europe. That Peary will claim to be the first discoverer appears to be definitely assured from the following:

First, formal announcement has Peary, having "nailed the Stars and been telegraphed from Indian Harbor to all principal American and geoas told in his series of messages graphical societies of all nations, inflashed by wireless from the coast cluding Japan and Brazil, specifically announced that "the North Pole was discovered April 6 by the Peary Arctic club expedition under command of Commander Peary." Second, a London dispatch received from St. John's states that Peary claims that he was the first man to reach the North Pole. Aside from the priority, Peary's announcement of reaching the Pole appears to be universally accepted throughout the United States and the world at large, by scientists as well

> The capitals and great metropolises throughout the world continue to be stirred with excitement and admiration for the achievement by which America has solved the problem of centuries.

> as the general public, and there is an absence of the doubt and scepticism

which greeted the Cook announce-

Mrs. Peary "Packing Up"

South Harpswell, Me., Sept. 8 .-In the absence of Commander Peary, the task of bearing the honors attained by the explorer on his successful quest of the North Pole falls upon his wife, who has been spending the summer at Eagle ishland, the Peary summer estate, situated in the Atlantic ocean, near the entrance to Casco bay. Mrs. Peary has been the recipient of a steady stream of telegrams and letters of congratulation because of her husband's achievements.

Mrs. Peary has received no further message from her husband than that which came Monday, in which he announced that his expedition had been crowned with success. She is anxiously expecting a second message in which the explorer will communicate meeting him. Nevertheless. Mrs. Peary spent part of Tuesday in making preparations to start for Sydney, N. S., immediately upon receipt of band.

Marie Peary, "the snow baby, born above the Arctic circle, but a young woman of 16 years, was kept yachts and tug boats. Every craft possessing a whistle saluted as it passed Eagle island, and to each sathe Stars and Stripes, which were unfurled from the tall flagstaff upon the receipt of the news "Stars and Stripes nailed to North Pole.'

There were many visitors to the island, mostly from the surrounding summer colonies, and as there was a heavy surf pounding the rocky boundaries of the Peary summer home, nearly all got wet feet in landing.

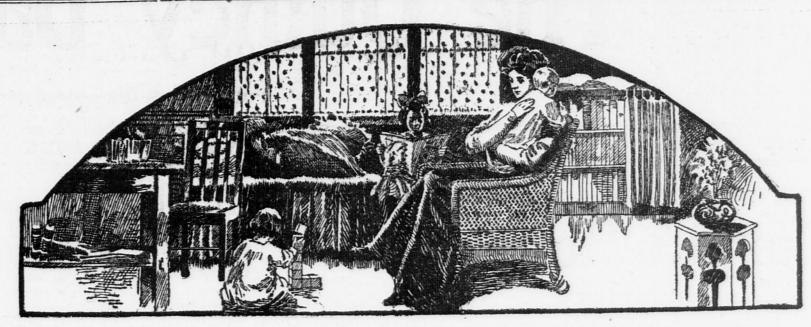

Britishers on Peary's Side London, Sept. 8.-The public and press show undoubted interest in the stories of the discovery of the Pole. The most striking feature in the editorial opinion of the English newspapers is the strong contrast between the unwavering confidence reposed in Peary's good faith and the attitude of suspicion towards Cook, which has been thrown into stronger relief since the world was startled by the news of Peary's success. This attitude begins to savor almost of unfairness towards

The same distinction seems to have been drawn officially, for while the Royal Geographical society hastened to send congratulations to Peary and decided to invite him to England to read a paper before the society, no such message of congratulation or invitation has yet been sent to Cook.

Italians*Withhold Judgment

Rome, Sept. 8 .- The Italian navy authorities, while following with the keenest interest every development in the matter of the discoveries of Peary and Cook, are of the opinion, now that definite proof is in sight, that the only wise course is to hold their tle the matter one way or the other.

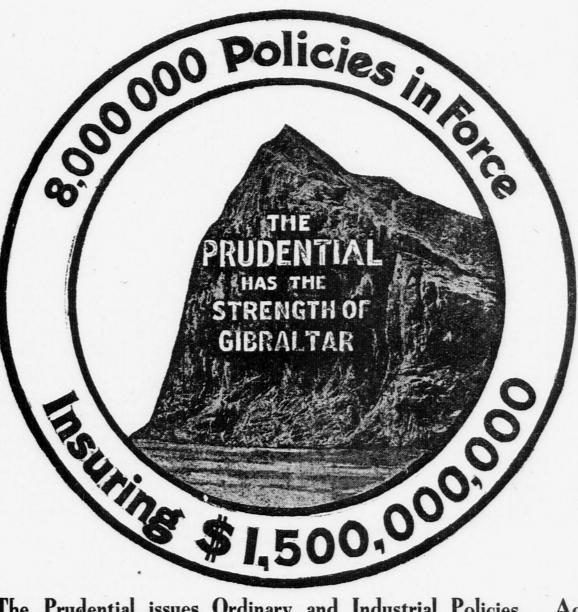

Killed by Fall From Auto Newburgh, N. Y., Sept. 8 .- Colonel Reuben L. Fox of New York city, for many years a prominent figure in the Republican politics of New York state, was killed here by falling from

Leave Your Wife a Fixed Monthly Income for Life!

The Prudential NEWEST-MONTHLY INCOME POLICY

Provides an Immediate Cash Payment at Death of Insured and a Guaranteed Monthly Income for Your Wife for Life.

COST IS LOW

Write NOW for particulars and cost for you. Give your age and age of Beneficiary.

Read what Leslie's Weekly says of The Prudential's Monthly Income Policy Toledo, Ohio.—I do not blame you for feeling

anxious regarding the future of your wife and child, and I agree with you that it is your duty to provide for them now, while you are making more than a fair living. Of course, in time, your savings will make them comfortable. But, as you say, in the meantime, in case of your death, they would be left without an income. At your age 30, it would cost you about \$100 a year to provide an income of \$30 a month for 20 years after your death. As this is only about \$2 a week, yo could set this aside without interfering material with your savings-bank deposits. \$30 a month would be \$360 a year, and that would at least keep the wolf from the door, and would be continuous benefit for 20 years. It would be well if you would write to "Department S," Prudential Life, Newark, N. J., stating your age and asking for a copy of its new Monthly Income policy.

GEORGE W. JONES

No. 1 Granite Street, Quincy

SYNOPSIS.

CHAPTER I—In London Philip Kirk-wood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick visits him, and he meets George B. Calendar, an American whom he be-lieves to be an adventurer. II-Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar receives a note of warning from a fash-ionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood consents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and polts the door. On the staircase he has a tussle with a slender man in evening dress. The latter is knocked unconscious by a fall lownstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two V-Dorothy and Kirkwood, the latter quesioning himself whether or not he has fallen in love with the girl, flee from the mysterious house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters the house to learn whether Calendar is there. He meets Mrs. Hallam and recognizes her as the woman who warned Calendar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam house in search of Dorothy, Kirkwood ecompanies him at his request to an unsavory locality on the Thames. VIII-Calendar meets his daughter in the company of a man named Mulready, evidently his companion in some strange nefarious enterprise. Mulready, it seems, has tried to kidnap Dor othy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Paneras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy. IX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in Frognall street. He enters the house to seek braining.

"How do I know?" objected the house of a woman in evening dress. XI and XII—The woman is Mrs. Hallam, and the injured young man is her son. She tell Kirkwood that Dorothy, Calendar and Mulready are engaged in a plot to steal family jewels left to her son by his relatives, Colonel Burgons.

"How do I know?" objected the skipper.

"I'm telling you. If you've eyes you can see," retorted Kirkwood savagely, seeing that he had erred in telling the truth. The amount he had named wood the part of the same as week days. Return, leave East Weymouth, 5, 6.30, 6.45, 7 a m, and every 30 mins. to 10.50 p m.) Sundays, 7.20 a m. then same as week days. Return, leave East Weymouth, 6, 6.30, 6.45, 7 a m, and every 30 mins. to 10.50 p m.) Sundays, 12.50 p m.) Sun govne. Calendar, she says, is her late husband's cousin. The jewels are in the black bag, Mrs. Hallam declares. Kirkwood doubts her story and suspects that Dorothy is an innocent partaker in some mysterious plot. He decides to defend the girl. XII-The next morning Kirkwood in a rowboat, with two watermen, searches the Thames in vain for the Aletnea. The boatmen take him to Woolwich on his way to Shearness to intercept the Alethea. XIV-On the train to Sheerness Kirkwood meets Mrs. Hallam, bent like himself, on finding Calandar. She tries to get his aid, but he refuses. He eludes her

him, "to put me aboard that briganat once.'

tobacco from cheek to cheek, grunted of him! inarticulately and swung deliberately on his heel, displaying a bull neck above a pair of heavy shoulders.

"Dirty weather," he croaked, facing back from his survey of the eastern skies before the American found out whether or not he should resent his insolence. "How much?" Kirkwood demanded

curtly, annoyed. The man hesitated, scowling blackly at the heeling vessel momentarily increasing her distance from the shore. Then, with a crafty smile, "Two pun,"

he declared. The American nodded. "Very well," he agreed simply. "Get out your

The fisherman turned away to shamble noisily over the shingle, huge booted heels crunching, toward one of

the dories. To this he set his shoulder, shoving it steadily down the beach until only the stern was dry. Kirkwood looked back for the last time, up the road to Sheerness. Nothing moved upon it. He was rid of Mrs. Hallam, if face to face with a sterner problem. He had a few pence over 10 shillings in his pocket and had promised to pay the man four times as much. He would have agreed to ten times the sum demanded, for the boat he must and would have. But he had neglected to conclude his bargain, to come to an understanding as to the method of payment, and he felt more

With one final twinge of doubt-the task of placating this surly dog was anything but inviting-the American strode to the boat and climbed in, tak. Pressed Steel Car Company, which ing the stern seat. The fisherman has been having such serious trouble shoved off.

he decided-"not at the price." "Why?" Kirkwood stared despairingly after the brigantine, that was already drawn far ahead. "Danger," growled the fellow-

'wind." sidering.

"Not at the price," the sullen voice iterated, and he looked up to find the cunning gaze upon him. "How much, then?" "Five pun I'll have, no less, for

riskin' my life this day." "Impossible. I haven't got it." In silence the man unshipped the tiller and moved toward the cleats. "Hold on a minute."

Kirkwood unbuttoned his coat and, freeing the chain from his waistcoat buttonholes, removed his watch. As well abandon them altogether. He had designed to leave them as security for the £2 and had delayed stating the terms only for fear lest they be refused. Now, too late, as ever, he recognized his error. But surely, he thought, it should be apparent even to that low intelligence that the timeboat itself.

"Take and keep them. Only set me aboard that ship!"

palm, eyes narrowing to mere slits in his bronzed mask.

"How much?" he asked slowly. "Eighty pounds together. The chain alone cost me twenty."

Division Superintendent.

FIREPROOF HOME.

Frank N. Hoffstot, President of the with its employes at McKees Rocks, In time the dory lay alongside the Pa., has distinguished himself among catboat, the fisherman with a gnarled country residents about New York by building an "absolutely fireproof" ficulty Kirkwood transshipped himself, home. Mr. Hoffstot's new home is at landing asprawl in the cockpit amid a Sands Point, Long Island, on the edge tangle of cordage slippery with scales. of a cliff 200 feet above the waters

pertness bringing the dory's painter He even has a steel-trussed roof for with him and hitching it to a ringbolt the house. The main structural parts abaft the rudder head. Then, pausing are made of "skyscraper blocks"somber eyes, he shipped the tiller and hollow terra cotta blocks of the kind bent to the halyards. As the sail rate used for fireproofing the tall buildtled up, flapping wildly, Kirkwood ings of Manhattan Island. The walls marked with relief, for it meant so are 12 inches thick-made of two rows much time saved, that it was already of 6-inch blocks, laid end on end, with the hollow spaces running ver-But when at last the boom was tically. Floors and partitions are of thrashing overhead and the halyards the same material. The steel-trussed roof rests upon the terra cotta walls.

The structure is said to be about the safest home ever put up in the Then, in two breaths, "Can't do it," vicinity of the metropolis. Many others have terra cotta walls, but few have so little combustible material in the other parts.

At a loss completely, Kirkwood found with modern instruments. If you find no words. He dropped his head, con disease we send you to a reliable oculist. Williams 1743 Hancock street.

Maxwell, Sarino Rossi, Mrs. Edward Tuck, Mrs. Fred Wester and Caris Zilnekos.

OF PUBLIC INTEREST

INFORMATION WANTED. Editors Ledger:

Will you kindly allow us space in your valuable paper to ask what valid reason Commissioner Bainbridge has to present for the Gridley Bryant school not being open to the children

at the required time. A few weeks ago when we were supposed to bid in open competition for the installation of new plumbing and sanitary fixtures of said building, being the lowest to bid and being denied, he was free in saving that he awarded the contract to one whom he thought would do the best job. How about his part of the contract? The building, according to reports, is not open, nor has Commissioner Bainbridge given any reason to parents;

pupils or teachers, not to mention municipal and school authorities, for his laxity in duty. It may not be remiss at this writing to mention a similar contract performed by us. The Mass. Fields school, under Commissioner Burke, practically a like building but with more work and fixtures was plumbed by us in the same time. Nor was there a loss of time to any one benefited by the work. Neither, were we required to give a certified check for

pay 85 percent as the work pro-It seems but just to all concerned

> Yours truly, J. E. Keniley & Co.

The new Quincy Market in the Adams building opened yesterday. new cash market.

NEPONSET

Greater Part of Draw Unsafe and Closed to Travel

Quincy seems to be having hard uck with its bridges, for not only is the Fore River bridge sadly in need of repairs, but the bridge between Quincy and Boston, known as the Neponset bridge, is still in worse condition. All that part of the draw, except where the street railway tracks are located, has been condemned as being unsafe for team travel, and last week a large section of the draw was closed to travel.

A stout plank fence has been built on the draw so that teams in order the car tracks. This part of the draw was strengthened some time ago so that it is considered safe. The remaining part however has been declared by engineers to be extremely dangerous, and as the timbers beneath it are in bad condition a heavily loaded team is likely to go through at any time.

In addition to this the Boston end of the bridge has long been in bad condition and fire has probably weakened the Quincy end to a considerable extent, although not enough to make t unsafe. Just how long the draw will be closed is not known but as there is a prospect of a new bridge being built it is probable that nothing out temporary repairs will be made for the present.

SCHOOL ARMY.

Schools Open Fall Term With a Large Attendance.

The fall term of the public schools pened Tuesday morning, when the five thousand and over children who have been enjoying a long vacation, tucked their books under the arm and

again marched to school. That some of the buildings will be more than crowded goes without saying, but just what the condition is will not be known until tonight when there is a general teachers' meeting.

The recent four room addition to the Lincoln building will relieve the condition there and may perhaps help out at the John Hancock and Adams buildings. The condition at the Washington building however is a serous one and will not be relieved until the completion of the proposed building at Houghs Neck.

In the Wollaston, Massachusetts Fields and Quincy districts the buildings are also overflowing and it will be necessary to use outsde rooms in John Michael, Miss Susan McRitchie, order to accommodate all of the

At the Willard building there is the usual number but when the Gridley Bryant school opens it will probably

two districts. The entering class at the High school will be about the same as last year, namely 700. As the pupils however have two weeks in which to enter it will not be definitely known until then just how many there will be in the new class. The building however will be able to accommodate all of them.

BARN GUTTED

Horses and Harnesses Saved.

SOUTH QUINCY

Another Fire at West Qnincy The fire department was called out

twice Wednesday night by alarms from Box 321 and Box 45. The first alarm came from Box 321 and was sounded at 7.50. This was for a brisk fire in the large barn of A. M. Dean & Co., granite manufacturers on Intervale street.

The fire had made quite a headway when discovered and as the barn contained 23 horses it was quite a job to get them out. The horses were without halters, being confined to their stalls by ropes placed across the ago today the peaceful quiet of rear of the stall. As fast as they Milton village was invaded by a were driven out many of the animals gathering from all the countryside tried to go back into the burning building and it became necessary for and four, assembled the actors in the the firemen to get between them and one event of national interest which the fire and drive them out with ever occurred in the town. An even brooms. There were also a lot of not only of national interest, but of harnesses in the barn but these were vital importance. If the value of a

The firemen were somewhat handicapped at the start by want of hose. Continental Congress is measured by due to an accident to the central station combination.

As this piece of apparatus was speeding up School street driven by John Faircloth, the wagon collided with an express wagon of Lyon's Randolph express. One of the horses was thrown and

driver Faircloth pitched headlong. He eagerly awaited the tidings. Here ,at however landed on a lawn and escaped unhurt. When the piece of apparaus arrived, at the fire it was burning brisk-

ly, making quite an illumination. Once at it the firemen soon had it under the pick of Greater Boston. Minis-Up stairs in the barn was a large all leading men of their towns. The quantity of hay that had been put in moderator, General Joseph Palmer of that day as well as considerable Quincy, one of the wealthiest and

grain. All of this was distroyed.

Chief Williams estimates the loss on the building and contents to be widely known and had won for his The cause of the fire is unknown. Hall." He gave lavishly of his means It appears that one of the men at the to the patriot cause, and served his able was in the building ten minutes country bravely on the field to the before the fire broke out and that

while there he went to the hay loft bold and irrepressible, who re-and fed the horses. Whether he acci-fused to be discreet and keep out of dentally was the cause of the fire or polititics. Dr. Benjamin Church emiwhether it was done to overheating of ment in his profession, but whose love the new hay is not known. The alarm from Box 45 sounded at gesting that he sell himself to the 12.17 and was for a slight fire in a enemy. A few months later facts double house on Hall place owned by were disclosed which resulted in his the Carey heirs. The fire was in the imprisonment and final banishment upper part of the building, which is from the country. David Rawson, who

brother, and was in a mattress. It is meeting utterance that "a day, an supposed that the fire was caused by a smoker falling to sleep. The fire was confined to the mattress, and although the house was killed in the war. These, among oth-

occupied by John Carey and his struck the note for Milton in his town

pretty well smoked up the loss will ers, were welcomed by the enterprisnot exceed \$5.

LADIES ENJOY FOOD TALK.

The second of a series of talks on Food by Miss Myrtie Ethelyn Robinson under the auspices of the Twentieth Century cooking school was given Wednesday afternoon in Colonial hall. This talk was fully as instructive

as the first one. Tottenham Muffins -who does not like them for breakfast, easily made and so good one could eat them every day in the year. Cocoa Doughnuts were something new, and so tender that they simply melted in one's mouth and Miss Robinson explained that cocoa and chocolate are no longer regarded simply as a confection but are perfect foods, wholesome, delicious, highly nourishing and easily digested.

Allredie Plum pudding could not be failure if the directions were followed.

Watermelon Cake fully resembled the name and was as delicious to eat as it looked and the ladies were told that the green color of the paste is produced from spinach.

Pineappie Trifle was liked by all and was very easily made. Coffee that is perfect is served every after-

noon. Mr. Strauss of New York explained alcohol stoves and lamps and told why denatured alcohol is much safer to use than kerosene and his demonstrations proved the fact. Miss Robinson has done all her baking this week with an alcohol stove with perfect results.

R. E. Foy & Co., have a large assortment of fruit, spices etc., in fact im season is here.

SCHOOL ARMY J. F. Gleason Supt. of the Water De-NUMBERS 5815 J. F. Gleason superintendent of the Water department of the City of Quin-

tractor. The resignation was accepted with regret. Mr. Gleason wants to leave Quincy as soon as possible, but New Pupils Number 602. Sevwill remain with the department until things are in shape. eral Buildings Crowded Mr. Gleason has been prominently identified with the water department

were laid by the old Quincy Water company remaining with them until A meeting of the teachers of the public schools was held Wednesday the city took up the franchise. He then entered the employ of the city afternoon at the office of the Superintendent at which time reports were re-Mr. Gleason was in Quincy during ceived as to the number of pupils in the laying of the original mains and the different schools. The total enthere is probably no person more rollment was 5815. This does not include the Gridley Bryant school which familiar with the condition of the mains and their locations than is he. which was not opened until this morn-

The number of pupils to enter the elementary schools for the first time One hundred and thirty-five years was 602. The number at each school

uilding being as follows:	
Adams school	74
Coddington school	60
Cranch school	38
John Hancock school	49
Lincoln school	65
Mass. Fields school	38
Quincy school	68
Washington school	63
Willard school	102
Wollaston school	45
Total	602

The number of the entering class at tion of Independence is determined by the Gridley Bryant school will not be known until tonight. As new pupils Most noteworthy of all the county have two weeks in which to enter the proceedings were those of Suffolk. chances are that the new pupils will Samuel Adams and John Adams at be considerable more than the numthe general Congress, with high hopes er stated.

As stated above the total enrollthe convention in Milton village, the ment of the public schools on the nation's destinies were shaped by the opening day was 5815. The number

y schools is as follows:-	
Adams school	523
Coddington school	602
Cranch school	373
John Hancock school	383
Lincoln school	501
Mass. Fields school	398
Quincy school	610
Washington school	522
Willard school	838
Wollaston school	359
High school	705
Total	5815

As the Gridley Bryant school had an enrollment of over 300 last year it is fair to presume that the total of the school this year will be nearly the same so that it is safe to say that at the end of the two weeks the total enrollment of the schools will not be far

from 6300. As stated in Wednesday's Ledger several of the school buildings are very crowded. This will be noticed particularly at the Quincy school where the total accommodation of the school was supposed to be less than 600 while they now have 610 enrolled. Additional rooms outside of the building will therefore be necessary.

-The Bean family held a reunion Wednesday in the Park Street church, Boston, but history does not relate whether the luncheon served was en-

QUINCY DIVORCES.

Quincy Divorce Cases Allowed at Dedham Wednesday.

Several Quincy divorce cases were disposed of before Judge William F. Dana, in the superior court at Dedham Wednesday. The Quincy cases were.

Mary E. Jenkins of Quincy vs. Frederick P. Jenkins of parts unknown They were married at Quincy Nov. 13, 1903. Decree nisi for desertion on July 15, 1905, with custody of minor child, William D. Jenkins.

Helmi Hendell of Quincy vs. Alfred Hendell of New York. They were married at Quincy March 4, 1906. Decree nisi for cruel and abusive treatment with right to resume her maiden name of Flinkman.

Estelle Mae Devaney of Weymouth vs. John P. Devaney of Quincy. They were married at Quincy July 25, 1902, and lived at Hingham and Braintree Decree nisi for neglect to support with right to resume maiden name of Sinnott.

Florence A. Jones of Quincy vs. Horace A. Jones of Quincy. They were married at Braintree Dec. 12 1900, and lived at Quincy. Decree nisi for infidelity with right of custody of minor child, Priscilla.

NATICK SCHOOL GARDENS.

The second annual exhibition of school gardens under the auspices of the Village Improvement society was an occasion of great interest to everybody in Natick. There is much beauty and comfort in a small yard neatly kept with vines shading the porch and a little garden of flowers for mother and the children to enjoy, and a street where every family takes good care of its own home and grounds is sure to be an attractive place. If the children who have done such good work in the school gardens, will continue to raise flowers and vegetables next year, others will join them, and by and by no home will be without its garden. Then all the little waste places will be cultivated as they are

in England. One of the youngest gardeners, who sold ten dollars worth of peas from his garden, showed great judgment in planting lettuce radishes, beets, etc., at different times so that more would be ready when the first planting was used up. Several boys are raising peanuts, and some have nice melons ripening.

One little girl has a beautiful flower garden and has given much pleasure to her friends by the bouquests she has brought them. Another from seven cents worth of seed has raised candytuft, asters, sweet peas, verbenas, cornflowers and nasturtiums. There are many other gardens just as worthy of mention, but the children do not need any such reward. The satisfaction of having produced beautiful flowers or delicious vegetables is sufficient return for all the effort they have put into the gardens. Their teachers and friends, however, see other results. The industry, perseverance and care necessary to procure a successful garden, help to strengthen these fine qualities in the children's character, while almost all the gardeners grow more gentle and begin to show that work among flowers and plants, awakens a love of beauty and exerts a refining influence upon the soul .- Natick Bulletin.

-For the past three years a persistent crusade has been waged against consumption amongst post office employees in France. Under these efforts, the number of cases has diminished 50 per cent, having been in 1906, 1,048 cases; in 1907, 808 cases, and last year the number fell to 505.

Salem got a big fire scare early this morning when fire broke out in a three story wooden building. The fire did a damage of \$6,000.

Dr. Cook won't be exactly hard-up if he accepts B. F. Keith's offer of \$5,000 per week to lecture at the Keith theatres on his experiences at the North Pole.

The order offered in the Council Tuesday evening by Councilman Mc-Devitt for the establishment of a juvenile police force to consist of 24 young men to be equally divided in the wards of the city should meet with favor. The order is now in the hands of the committee on Ordinances and should be favorably reported.

Something besides a hearty laugh General Hitchcock on his recent visit to the post office at Winsted, Conn. A stranger whether Mr. Hitchcock or Tom Brown is entitled to courteous treatment from government employes instead of the kind evidently handed out by the clerk of whom Mr. Hitch cock made enquiries.

Walking said to be one of the best exercises for health is being put to good test by Mildred Belknap of Dorchester. In the summer she walked from Maine over the White Mountain range and home to Dorchester over three hundred miles and recent ly took a 44-mile walk to Worcester. We doubt if there is another 13-year old girl can put up such a record. She is always accompanied by her

To get plenty of milk one must probrush their teeth at least three times a day. What a picture in the pasture! longer. Authority for this new edict is Farmer Schoepf of Philadelphia whose \$75,000 herd wear cream colored garments. What dairyman in Quincy will be the first to adopt the

Bishop Fallows head of the Emmanuel movement in Chicago is setting the spirits to work. He says: "That the spirits of the dead will be made business partners of the living and that they will share the private offices of the successful men of the future and that they will make and unmake the fortunes of tomorrow and that their hands will guide the fortunes of the world.'

A sewer for Houghs Neck and Germantown as discussed this week by the City Council is almost a necessity the summer population at these resorts requiring more up-to-date methods to keep up their reputation for healthfulness. Many out-of-town people are attracted to the Quincy shores who do not depend entirely on the salt breezes but expect also sanitary surroundings.

Householders are pleased that the collection of ashes, tin cans and bottles is to begin again. Cans and bottles have accumulated during the summer and the public dumps are too far away to be convenient for personal dumping. The question has also been asked if the city will this fall set apart a week for lawn and yard rubbish collection as it did in the spring. No inovation in recent years has been more appreciated than that week of spring cleaning throughout the city.

-The battleship South Dakota was dry docked recently at the Mare Island navy yard and 600 tons of barnacles were removed from the bottom of the vessel, according to a report to the navy department. This is an extraordinary amount of barnacles for one ship and is a matter of comment in the navy department. The ship had not been docked for many months and has been on a long cruise in the Pacific.

A favorite sale is that of manufacturers' ends which always brings out the thrifty housewife and the one now going on at Wadsworth's seems to be no exception to the rule.

13 Owing to extra space and large advertisements being spoken for, for the Saturday Ledger, regular advertisers contemplating changing their ad on that day are asked to send in the copy on Friday to insure accommodation and good results.

SAYS HE HAS

Peary Sends a Reassuring Message to His Wife

GIVES RIVAL THE LIE DIRECT

Says Brooklyn .Explorer Never Reached the Pole, Not Even Being Out of Sight of Land, and Claims Great Discovery-Scientists Inclined Further Developments - Steamer Roosevelt Crawling Homeward

The lie has been hurled concerning the discovery of the North Pole and the foundation laid for a controversy unparalleled in history. Commander Robert E. Peary is making uncertain progress southward off the coast of Labrador in his ship, the Roosevelt, but there came from him Wednesday a message as direct as his homeward journey has been slow. It challenges a situation which the whole world is discussing.

In. effect Peary discredits Cook's claims with the intimation that he (Peary) and he alone planted the American flag at the North Pole on April 6, 1909, and that Cook, who asserts that he unfurled the flag at the Pole on April 21, 1908, must substantiate his claim.

In the meantime Peary continues his nemeward journey on the ice-scarred Roosevelt and is at Battle Harbor, and a handshake was due Postmaster- Labrador, still more than 400 miles from North Sydney, C. B., the objective of the homeward cruise

through the Strait of Belle Isle. Mrs. Cook is in New York and Mrs. Peary has left her home in Maine on ner way to join her husband at North Sydney. Though pressed for a statement Mrs. Cook declined absolutely to say anything concerning her hus-

How News Is Received

By those who received word of Cook's discovery with skepticism, Peary's challenge was received with gratification; by those who had been neutral it came as another surprise in a series of remarkable happenings, while to Cook's supporters it was a signal for war.

Dr. Cook, if his plans do not miscarry, will sail for the United States on Sunday next and will arrive here vide cows with one-piece suits and by Sept. 21. By that time Peary will have reached home, but no one has as yet suggested the possibility of a The purple cows won't be in it much dramatic meeting of the two 'ace to

Peary's statement, reflecting on Cook's achievement, was sent Wednesday from Indian Harbor, Labrador, the point through which he first | ter there. It is understood that Wellreported his success by wireless. It had probably been delayed in transmission and read as follows:

"Authoritative and Correct" "I have nailed the Stars and Stripes to the North Pole. This is authoritative and correct.

"Cook's story should not be taken too seriously. The two Eskimos who land. Other members of the tribe corroborate their story."

About the same time Mrs. Peary received the following message under the recent floods in the outlying disthe same date, both having been sent via Cape Ray, N. F .:

"Good morning. Delayed by gale. Don't let Cook story worry you. Have him nailed.

The foregoing was signed simply 'Bert." an abbreviation of Robert while the message to the press bore of food. the single word "Peary" as its signature. To the press the commander had sent the dispatch, replying to an souls has entirely disappeared. The urgent request for an authoritative statement and some comment concerning Cook. This request had been sent to him immediately after he had flashed news of his discovery from Indian Harbor on Monday.

While Peary's assertion of Wednesday is of a nature that makes Cook's position one of defense, the Brooklyn explorer yet has supporters both at home and abroad. Many of the continental scientists are marking time pending developments, while those who have formed no decided opinions in this country have assumed a similar stand.

Brewer Thinks Both Successful Professor William H. Brewer of Yale, honorary president for life of the Arctic Club of America, of which both Peary and Cook are members, assumes that both have been successful. He telegraphed to New York as follows: "I believe that both Cook and Peary have reached the Pole."

Dr. Thomas S. Dedrick of Washington, N. J., who was surgeon of the Feary expedition of 1898-1902, promptly came to the support of Cook. He said:

"The charge (referring to Peary's statement of Wednesday) may lessen Cook's standing in popular estimation until his defense can be heard, but the scientific world will be affected only by scientific discrepancies. Cook will undoubtedly have scientific records and observations without Eskimo proof. If Eskimo proof is needed! warmer; light, variable winds.

there are enough admirers of fair play in the world to send impartial interpreters to the tribe."

The Eskimos Not Reliable Analyzing the Eskimo character Dedrick is inclined to think them unreliable, with "a temperatment which would lead him to agree for suavity's sake and because of immediate benefit with a man on the spot having a ship loaded with what is most dear to an Eskimo heart." This would be especially true, argues Dedrick, "if their former benefactor had departed homeward as Cook did, on a sled, with no halo of a ship's prestige."

In conclusion Dr. Dedrick said: "Suppose Cook next year went up and distributed presents as ships do and asked if his rival had gotten out of sight of land and they said 'No.' What matter would it make to the public? Other impartial parties may yet be to Suspend Judgment, Pending heard from. The whalers which arrive at Dundee this fall may also know what the Eskimos say."

The Roosevelt's Slow Progress With the Roosevelt at Battle Harbor, Peary should reach Red Bay, about sixty-five miles down the coast. easily by today, where he can put details of his expedition on the wires.

The progress of his ship from Indian Harbor southward has been extremely erratic. First delayed at Indian Harbor by rough weather and hampered in addition by lack of fuel, the veracity of Dr. Frederick A. Cook the Roosevelt has literally crawled of Brooklyn and further complicates homeward and news of her progress has been meagre and at times unreliable. This is due to the inadequate telegraphic facilities on the Labrador coast.

Aside from the message received by the press from Peary and the one received by his wife, came an additional dispatch to Charles A. Moore, president of the American Protective Tariff league, who is a warm personal friend of Peary. The message said: "The Pole is ours. Regards to Mrs. Moore."

In 1897 Mr. Moore's son, Charles A. Moore, Jr., accompanied Peary to

Taft Cannot Use Pole Commander Peary on Wednesday delivered the North Pole to President Taft, who replied, congratulating the explorer, but declaring he didn't know exactly what he could do with the Pole. Peary's message said: "Have honor place North Pole your

disposal.' To this the president replied: "Thanks for your interesting and generous offer. I do not know exactly what I could do with it. I congratulate you sincerely on having achieved, after the greatest effort, the object of your trip, and I sincerely hope that your observations will contribute substantially to scientific knowledge. You have added luster to the name 'American.'"

Wellman Gives It Up Tromsoe, Sept. 9.-Walter Wellman has instructed his agent to arrange for the return of all the explorer's property from Virigo bay, Spitzbergen, as well as the three men who were to have spent the winman has abandoned his plans for reaching the North Pole by airship next year.

RED CROSS CHRISTMAS STAMP.

Officials of the American Red Cross Society have completed their plans for placing on the market for holiday shoppers the Red Cross stamp which was so popular during the Christmas season last year. To meet the demand fifty million stamps will be printed. The Red Cross stamp for this year will be of an entirely new design, and will be placed on the market in every State in the Union on Nov. 1. In a competition in which 1200 designs were submitted Carl Wingate of New York was awarded first prize. Augusto Bissiri of South Framingham, Mass., second prize, and Miss Grace D. Gerow of Jersey City third prize. At the instance of the Red Cross Society Frank D. Millet, C. Y. Turner and Paul Bartlett were chosen by the Fine Arts Federation to pass upon the drawings. Mr. Wingate's design shows a large red cross in the centre: above it the legend, "American Red Cross, 1909." with a decoration of holly leaves and berries, and below the cross some scroll work containing the words, "Merry Christmas" and "Happy New Year." The lettering will all be white. The cross in the centre, the little crosses in the border and the holly berries will be red, and the other prominent features of the design will be green. Over thirty-million stamps were sold last year, the proceeds amounting to \$138,244.51. New York held ranking place in the list of sales, with \$21,-174.67. Two thirds of the proceeds from the sale of these stamps are used for the relief and prevention of tuberculosis all over the country, the remaining third being turned into the Red Cross fund to reimburse it for the expense of the making and distributing of the stamps.

SYNOPSIS. CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he believes to be an adventurer. II—Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar re-ceives a note of warning from a fashionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood consents. III—Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her request. IV—Drawn back to the house by curiosity, Kirkwood sees the door of the dark ouse ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a assle with a slender man in evening dress. The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two V-Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen n love with the girl, flee from the mysterious house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her Kirkwood leaves her in the cab and enters the house to learn whether Calendar is there. He meets Mrs. Hallam and recogendar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished VII—Calendar appears at the Hallam house in search of Dorothy. Kirkwood accompanies him at his request to an unsavory locality on the Thames. VIII-Calendar meets his daughter in the company of a man named Mulready, evidently his companon in some strange nefarious enterprise Mulready, it seems, has tried to kidnap Dor othy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Paneras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy, IX and X-Kirkwood just misses his train and finds himself almost penniless. After

her story and suspects that Dorothy is an

innocent partaker in some mysterious plot.

He decides to defend the girl. XII-The next

morning Kirkwood in a rowboat, with two

the Aletnea. The boatmen take him to

Woolwich on his way to Shearness to inter-

to get his aid, but he refuses. He eludes her

at Sheerness. XV-In the distance he sees

(Continued from yesterday.)

Mute and blind with despair and

wrath, he turned upon the man and

caught him by the collar, forcing him

out over the lip of the overhang. They

were unevenly matched, Kirkwood far

at his command. And the surprise of

his onslaught proved an ally of un-

guessed potency. Before he himself

knew it he was standing on the over-

hang and had shifted his hold to seize

the fellow about the waist; then, lift-

ing him clear of the deck and aided

by the lurch of the catboat, he cast

him bodily into the dory. The man,

falling, struck his head against one of

stunned him temporarily. Kirkwood

himself dropped as if shot, a trailing

reef point slapping his cheek until it

stung as the boom thrashed overhead. It was as close a call as he had known.

The knowledge sickened him a little.

Without rising he worked the paint-

er loose and cast the dory adrift, then

crawled back into the cockpit. No

pang of compassion disturbed him as

he abandoned the fisherman to the

mercy of the sea. Though the fellow

lay still, uncouthly distorted, in the

bottom of the dory, he was in no dan-

ger. The wind and waves together

would carry the boat ashore. For that

matter, the man was even then re-

Crouching to avoid the boom, Kirk-

wood went forward to the bows and,

covering, struggling to sit up.

vessell which he believes is the Alethea.

standing close in under the Essex shore. At times she was invisible. Again he could catch merely the glint of her canvas, white against the dark gloom of the littoral, toned by a mist of flying spindrift. He strained his eyes, watching for the chance which wandering about for two hours he is again in would take place in the rake of her Frognall street. He enters the house to seek masts and sails when she should come his missing purse and finds the young man whom he had knocked down still unconscious after six hours. Kirkwood's ministrations t for the longer that maneuver was him are interrupted by the entrance into the seferred the better was his chance of house of a woman in evening dress. XI and attaining his object. It was a for-XII-The woman is Mrs. Hallam, and the lorn hope. But in time the brigannjured young man is her son. She tell Kirktine, to escape Maplin sands, would ood that Dorothy Colondor and Mulroad be forced to tack and stand out past are engaged in a plot to steal family jewels the lightship, the wind off her port left to her son by his relatives, Colonel Burbows. Then their courses would ingoyne. Calendar, she says, is her late hus-

tersect. It remained to be demonhand's consin. The fewels are in the black bag, Mrs. Hallam declares. Kirkwood doubts strated whether the catboat was speedy enough to arrive at this point of contact in advance of or simultaneously with the larger vessel. He watched the catboat anxiously vatermen, searches the Thames in vain for quick to approve her merits as she displayed them. He had sailed small cept the Alethea. Nore lightship.

Sheerness Kirkwood meets Mrs. Hallam, bent like himself, on finding Calandar. She tries in summer winds and protected waters, never such a one as this. Yet he liked her. Offshore, too, the wind stormed with

added strength or possibly had freshened. For minutes on end the lee ward gunwales would run green, and now and again the screaming, pelting squalls that scoured the estuary would heel her over until the water cascaded in over the lee combing, and the rudder, lifted clear, would hang the slighter, but strength came to him idle until, smitten by some racing bil In the crisis, physical strength and ad- low, the tiller would be all but torn dress such as he had not dreamed were from Kirkwood's hands. Again and again this happened, and those were times of trembling. But always the catboat righted, shaking the clinging waters from her and swinging her stem into the wind again, and there would follow an abbreviated breathing spell, during which Kirkwood was at liberty to dash the salt spray from his eyes and search the wind harried waste for the brigantine. Sometimes the thwarts-a glancing blow that he found her, sometimes not.

Long after he had expected her te she went about, and they began to close in upon each other. He could see that even with shortened canvas she was staggering drunkenly under the fierce impacts of the wind. For himself, it was nip and tuck now, and no man in his normal sense would have risked a sixpence on the boat's chance to live until she crossed the brigantine's hows

SPIES FROM WALL STREET

Hang Around Harriman's Home In Search of Information

ALARMING RUMORS CONTINUE

Doctor and Spiritual Adviser of Railroad King Assert That He Is Better-No Doubt that His Condition Has Been Desperate-Six Physicians at Arden House at One Time

Turner, N. Y., Sept. 9 .- Edward H. Harriman is better. This statement is based on the assertion of the two men closest to him outside of his Immediate family. His medical adviser, Dr. Lyle, said so and his spiritual adviser, Rev. J. H. Mc-Guiness, made the assertion in almost the same language after visiting the sick man personally.

How far Harriman has improved and the precise state of his health is still a matter of conjecture and the subject of a succession of alarming rumors. The official information from OLD COLONY STREET RY. CO. the Harriman residence utterly failed to quiet these reports; and there seems to be some ground for the persistent if unconfirmed reports that he suffered a second attack of indigestion Tuesday and that Lyle's reassuring statement referred to his improvement from this second seizure.

There is no doubt that Mr. Harriman's recent condition has been desperate. Evidence of this was furnished by two empty oxygen tanks A yell of rage boomed down the that were sent down from Tower hill wind, but he paid no heed. Careless alike of the dangers he had passed and last evening to be returned to the manufacturer in New York. That those that yawned before him, he nizes her as the woman who warned Cal- trimmed the sheet and stood away on these attacks will be recurrent and the port tack, heading directly for the that they must grow increasingly ominous is the belief of even those who have no immediate fear for his life and profess to consider reports Y EANING against the combing, feet published in New York exaggerated. braced upon the slippery and Employes of the estate assert that treacherous deck, Kirk wood clung Harriman's wife and his children are keeping close indoors. Although the

> weather has been fair, they have not been seen rambling about the grounds or playing tennis since the crisis of Sunday. Mr. Harriman's friends have made no attempt to deny that during the last three days he has had other medical attendance than Lyle. One em-

ploye says that six physicians were at the house Sunday night. It is believed that the best specialists in the country are being rushed to the bedside and that some of them are always on hand. The lines about Arden house are drawn closer than at any time since Harriman's relapse once more attracted the attention of the financial world

to this placid countryside. tendent Ford of the estate sent out word last night that no more newspaper men would be allowed access to Lyle by either written message or telephone. He said the guard about the house had been strengthened and given peremptory orders to pass no one without his permission.

These precautions are not directed against the newspaper men so much as against a group of spies sent here boats, handy and swift, built to serve by Wall street interests. Several of these tried to mingle with the newspaper representatives last evening to information would be of no use in the stock exchanges on this side of the Atlantic after the closing hour, it might prove valuable in the markets abroad, which open before the New York morning papers have been read by Wall street.

IN PATH OF STEAMSHIPS

Revenue Cutters Will Attempt to Find and Destroy Dangerous Derelict

Washington, Sept. 9.-Directly in the tracks of the steamships plying between this country and Europe there floats a capsized vessel, 150 feet long, nearly level with the water and with a broken mast projecting about thirteen feet, aparently attached to the The treasury department has is-

sued instructions to revenue cutters along the New England coast to search for and to endeavor to destroy the

Body of Blackwell Burned Boston, Sept. 9 .- The body Henry B. Blackwell was cremated at

the Walk Hill crematory today. The services were conducted by Professor Borden P. Browne of Boston university. There was congregational singing and Mrs. F. J. Garrison presided at the organ. Later in the fall a large memorial meeting will be held.

Two Tragic Deaths

Portland, Me., Sept. 9 .- Death claimed two victims suddenly in this city Wednesday. Clarence Armstrong was dragged to death in a runaway accident and Hugh McGrath, a section foreman, was run over and instantly killed by a locomotive.

Wright's Performance in Germany Berlin, Sept. 9 .- Orville Wright made two successful flights over the Templehof parade ground, on the out-A . land flew 17 minutes.

What a Heap of Happiness it Would Bring to Quincy Homes.

Hard to do housework with an ach-Brings you hours of misery at elsure or at work. If women only knew the cause—that Backache pains come from sick kid-

'Twould save much nedless woe. Doan's Kidney Pills cure sick kid-

Mrs. George McDonald, living at 133 1-2 Quincy street Quincy, Mass., says:
"I have more faith in Doan's Kidney Pills than any remedy 1 have ever known and it gives me great pleasure to publicly endorse them. For at least six months I was feeling all out of sorts as the result of kidney trouble. I became tired easily and had but little strength or energy to do my housework. Pains through the small of my back annoyed me a great deal. A friend, knowing of my condition ,advised me to try Doan's Kidney Pills and I obtained a supply at the Cox Drug store. A short time after beginning their use, they helped me and I now feel like a different person." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United

CHALLENGE.

the Excelsus Class.

The Fore River Apprentice base ball team are very anxious to meet the championship of Quincy.

Both teams have won a number of games and each have lost some, Mrs. Frank C. Blake and son Bray- The Fore River team therefore issues a challenge through the Ledger to the a pleasant visit to Warwick Neck, R. Excelsus class for a game a week from next Saturday, Sept. 18 to settle the mestion.

Next Saturday the Fore River Apprentice boys will attend the picnic f the General Electric Co. of Lynn, at Wakefield. The boys will not only take their ball team along with them but a number of their track men as well. The ball team will again cross bats with the General Electric boys while the track men will endeavor to scoop in some of the prizes offered for the field events.

WAS SHOCKED.

Lineman Receives Slight Shock While on Top of Pole.

A lineman employed by the Electric Light Co. had a narrow escape from serious injury this morning by coming in contact with a live wire while on a pole on Copeland street. The man was at work among the wires when his hand touched a live wire Mr. and Mrs. J. H. MacClellan of completing a circuit. Fortunately he caped with a slight burn on one

A THRILLING CONTEST

Robertson Wins Automobile Race of 318 Miles For the Lowell Trophy

Lowell, Mass., Sept. 9.-George H. Robertson of New York drove his Simplex car 318 miles to victory over the Merrimac valley circuit and left Arlington street and Mr. and Mrs. trailing behind, or out of commission, George Weston of Newport avenue sixteen other aspirants for the Lowell spent Sunday and the holiday in trophy in the second national stock chassis race. Robertson completed the course in 5:52:1 2-5, at the rate year's race.

More than twenty minutes after cottages at Wollaston beach. A few Robertson had flown over the finish families left before the holiday, but line Al Poole, driving the Italian after Labor day a general exodus be- Isotta-Fraschini, flashed under the street has accepted a position as gan and most of the cattages are as- wire in second place, having jumped into that position on the last lap. > There were many minor accidents to fice for a day of thrilling pleasure

> The winner gathered in \$1000, while \$500 went to Poole, \$300 to Parker, and \$200 to Burman.

MARRED BY ACC DENTS

But Two Short Flights on First Day's Aviation Meeting In Italy

Brescia, Italy, Sept. 9 .- The aviation meeting, in which many noted aeronauts will take part, opened under conditions that were not altogether auspicious. Many thousands of spectators were forced to bear a number of disappointments, for with the exception of short flights by Curtiss and Bleriot, attempts of the other aviators to fly were failures. Several accidents occurred. Bleri-

ot collided with a tree and the propeller of his machine was broken. He himself was not hurt. Anzani also broke the propeller of his machine in a test flight, and Lieutenant Calderara came to grief in a Wright machine. which was damaged. The honors of the day went to Curtiss.

THE WEST SEEKS GLORY

Would Have President Taft Shift

Summer Capital From the East Washington, Sept. 9 .- Stirred by the fame Beverly is attaining and by the glory that once belonged to Oyster are urging that the summer capital the time of the earliest settlers to the be moved to the west. It is suggested that it ought to be beyond the Mississippi.

It is argued in support of the plan that the west is too little understood in Washington and that it would be valuable both to the president and to the west if he spent the summers there. Secretary of the Interior Ballinger holds it would result in a bet-Herman Schatzel who was arraigned for ter understanding of western needs.

> Lefebvre's Skull Fractured Juvisy-Sur-Orge, France, Sept. 9 -An autopsy performed on the body of M. Lefebvre, the French aeronaut who was killed by the falling of his aeroplane here, shows that death came as a result of a fractured skull. The accident is attributed to the breaking of the rudder of the machine.

Generous Gifts on Wedding Day Montclair, N. J., Sept. 9 .- Wedding gifts aggregating \$101,000 to education and charity were made known here last evening on the publication of letters from James N. Jarvie of this city, dated Aug. 28, the day he married Miss Helen Newton. Jarvie and his wife are now abroad.

CLOSING SMOKER.

Fore River Apprentices Want to Meet Quincy Yacht Club Will Award Seasons Prizes Friday Night.

The smoker and vaudeville show, which will wind up one of the most Excelsus class, on the diamond, to successful yachting seasons the Quinsettle the question of the 18 year old cy yacht club has ever had, will be held Friday evening at the club house.

In addition to the entertainment, and both claim to be the champions. Winslow, Commodore Robbins will present the seasons championship prizes and the prizes offered for the annual club run. Cigars will be burned, a lunch

partaken of and stories of the seasons racing told by various skippers It will be a grand good time.

CITIZENS' ASSO.

Lack of Quorum Prevents Meeting Being Held.

Lack of the necessary number to constitute a quorum prevented the meeting of the Citizens' Association called for Wednesday night being held.

The main business scheduled for he meeting was the appointment of a committee to nominate officers, to be oted for at the annual meeting which s to be held in October. Under the by-laws of the associa

tion this must be done in September and it will probably be necessary to call a special meeting for this pur-

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Martin H. MacConnell of Quincy, without giving a surety n his bonds.

You are hereby cited to appear at a Probate Court to be held at Brookline in said County of Norfolk, on the twenty-second day of September, A. D., 1999, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted. And the petitioner is hereby directed to give public notice thereof by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in Quincy, the last publication to be one day at least before said Court.

Witness, James H. Flint, Esquire, Judge of Said Court, this eighth day of September A. D. 1909. JOHN D. COBB, Register.

COOK STIGKS TO HIS GUNS

which will be in charge of Harry E. Says That He Will Furnish Proof That He Reached Pole

Copenhagen, Sept. 9 .- "I have been to the North Pole. As I said Tuesday night when I heard of Commander Peary's success, if he says he has been to the North Pole I believe

"I am willing to place facts, figures and worked-out observations before a joint tribunal of the scientific bodies of the world. In due course I shall be prepared to make public an announcement that will effectually dispel any doubt, if there can be such, of the fact that I have reached the Pole. But, knowing that I am right and that right must prevail, I will submit at the proper time my full story to the court of last resort-the people of the world."

This is Dr. Frederick A. Cook's reply to Commander Peary.

Coming so quickly upon other dramatic incidents of the week, Peary's dispatch denying that Cook achieved the triumph for which he has been feted and honored in Copenhagen beyond the lot of any other private person has been read here with feelings of amazement and concern.

But Dr. Cook himself seems in no wise disturbed. He was perfectly cool and apparently unmoved when confronted with telegrams from the United States, saying that Peary had denounced him as an impositor. His demeanor has not changed in the slightest from the day he landed at Copenhagen.

Dr. Cook's friends had urged him to their utmost to make any statement possible for the public, but he had said repeatedly that all he had to say for the present was that he possessed proofs that he visited the North Pole on April 21, 1908. Those proofs were convincing and would in due time be given to the world.

Regarding the controversy of his alleged taking of Peary's stores, Cook asserts that he has written and other satisfactory evidence that Peary took his stores, perhaps believing him dead. "Harry Whitney is personally acquainted with all the facts and, perhaps, what he has to say when he returns may be interesting," added the explorer.

Peary Men Appropriated Depot Dr. Cook told Captain Sverdrup and nother friend the day after he lander here that he hoped there would be no unpleasantness over supplies with the Peary party; that he found some of Peary's men in possession of one of his depots and had turned them out unceremoniously.

It is settled that Cook will send a ship back to bring to America the two Eskimos who accompanied him on the last stage of his journey to the Pole as well as some of the party who were sent back when the start of the last stage began. Cook's purpose in bringing his Eskimo comrades to America is to have them relate their stories of the trip to the Pole.

Dr. Cook's apparent confidence is the greatest factor working in his support in Copenhagen. Those who have had the opportunity to talk with him are only of one mind-that he is an absolutely sincere, simple man, or deserves a pedestal in history as one of the greatest actors. When the latter alternative was suggested to him, he merely expressed the conviction that time, even if there was no other evidence, would confirm him in his statements because, with the rapid advance of the means of travel, his Louis J. Smith's route would soon be visited by others who could pass judgment on his testi-

mony. The general attitude here is one of suspended judgment, until the evidence is produced. Cook's lecture before the geographical society caused a profound disappointment because the people expected more convincing proofs than Cook had given. He contented himself in his lecture with repeating what had already appeared In the form of statements to the newspapers.

Bradley Has Nothing to Say New York, Sept. 9.-John R. Bradley, who financed the Cook exploration party, declined to give any statement that would reconcile the conflicting statements made by him and by Dr. Cook in his lecture in Copenhagen as to the objects of the Cook expedition, saying that matters were becoming so mixed he would have nothing more to say in the controversy that had arisen.

Bradley said in this city that the plans were carefully laid. Cook said in his lecture that "about the middle of 1907, when we started; the Pole was no part of the program, which aimed altogether at study and recreation, with the Pole possibly as a future problem."

Ex-Councilman and Mrs. W. E. Piper

The Quincy Daily Ledger

Published in the City of Presidents

Entertain Friends at Seasonable Feast It was a jolly party that gathered on the lawn, in the rear of the residence of Ex-Councilman and Mrs. Walter E.

Piper at 76 Centre street, Thursday evening to partake of a corn roast Republican Contests in Wards The lawn was prettily decorated with many colored Japanese lanterns and the ladies and gentlemen stooping about the red hot coals of a hard wood fire, presented a weird scene, as each diligently turned his or her ear of corn until it was roasted to the right consistency.

Butter was then applied and with a pinch of salt the feast was on. It mattered not how black the ear of corn had become or how much of the black was transferred to the white

faces. Everything went the corn tasted so good. Several declared that roast corn was their long suit and as ear after ear disappeared in their direction the claim went undisputed. In addition to the corn there was bright red tomatoes, some of these, which were also treated to the roasting process, being pronounced to be excellent. After all had their fill of orn an adjournment was made to the

were served. Whist was then in order, and for the next few hours the rubbers of bridge were closely contested. The evening was declared by all to have been one of rare enjoyment and Mr. and Mrs. Piper were heartily congratulated on the success of their roast.

INQUEST.

Killed at South Quincy.

An inquest was held before Judge Avery this morning on the death of a man supposed to be George A. Ryan, who was killed by the cars at South Quincy, June 23.

The body of the man was found that norning, just south of the Quincy Adams station, with both legs cut off and otherwise cut up. From a tag found in his pockets it was learned that he was employed at the Fore River and that his name was George A. Ryan. He was supposed to reside at 154 Commercial street, Boston, while his home was said to be in East Walpole. The police however were never able to find any trace that the man had any relatives, and in fact were unable to find out anything

about him. It was supposed that he came from Boston on a late train and that he was walking up the tracks when struck by the Double Iron freight

FELL FROM TRAIN.

Brakeman Jameson Seriously Injured at Braintree.

Two Quincy men, Daniel Barnes and Patrick Danahy, returning from Weymouth at 10.30 Thursday night found Soloman C. Jameson, a freight brakeman lying by the tracks just west of the Weymouth station. Physicians called found he had sustained severe cuts and bruises about the head and a fracture of the right foot. The injured man was sent to the Massachusetts General Hospital. It is supposed that he accidentally fell from a passing freight train.

TRAVEL DELAYED.

The Quincy bound track of the street railway company was obstructed for nearly an hour between eight and nine o'clock last night by the breaking down of a heavy team. Cars were obliged to back to Elm avenue and use the other track from there to the car barn. The team was on Hancock street near the junction of Standish avenue bound for South Braintree with a load of merchandise when the nut of one of the rear wheels worked loose and a minute later the wheel was off bringing, the wagon down on the track. The driver jumped and was uninjured. Assistance was obtained from the car barn near by and the load was jacked up and removed.

WILLIAM KING, JR. Funeral Services Thursday Largely

Attended. The funeral of William King, Jr. was held from his late residence, Kent street, Thursday afternoon Sept. 9th. The services were conducted by the Rev. Richard Armstrong, Pastor of Christ's church. The body was escorted to the cemetery by Socialists

COOK-PEARY CONTROVERSY

Rate of Travel From Pole Now Eliminated as a Factor

PEARY'S REMARKABLE TIME

Considered Evidence In Favor of Cook's Claim to Have Reached the Goal-University of Copenhagen Confers Degree Upon Brooklyn Explorer, Who Is About to Sail For the United States-Bridgman Still Has Doubts of Doctor's Successful Quest-Both Peary and Cook Discovered "Great Nail," Is the Opinion of Dr. Stickney

The two explorers upon whom the world's eye has been fixed during the past few days spent Thursday busily preparing for their advance to the United States. Dr. Cook, in Copenhagen, announced that he had definitely arranged to sail tomorrow on the Oscar II for New York city. Commander Peary, according to fragmentary wireless reports, is still delayed at Battle Harbor, Labrador, probably either awaiting the completion of repairs to the Roosevelt, or the arrival of coal.

Peary's figures of his return journey from the North Pole are the best evidence vet offered in favor of Cook's claim to have reached that spot. The That bridegroom at Montclair, New record of between twenty-five and of the chief points urged against the this now must be eliminated from any criticism made of his journey.

> What the corroborative data are on which the two explorers base their position is still withheld-from Cook because of his determination to bide his own time in presenting his evi-

Dr. Cook appeared Thursday at a high official function. The University Robbing orchards is not so popular of Copenhagen conferred upon him the as it used to be. It costs more to get degree of Sci. D. (doctor of science), fruit in that way than the thieves thereby recognizing, it is pointed out want to pay. When the owner of a by his friends, in an important official garden or an orchard has planted a manner, his claim to the discovery of tree and watched its development, has the Pole. Cook has cancelled his enseen fruit appear on the branches and gagement to lecture before the Geogradually approach the condition graphical society of Brussels and will reach New York about Sept. 20 or 21. fruit, it is a great aggravation to find Captain Amundson will probably ac-

Dr. Cook's plan to send a ship from back to civilization his two Eskimo companions on his exploration trip cannot be carried out until next year, for Danish officials have informed him that it is now too late in the season for a trip to Etah. The expedition, it is stated, will be made early next spring.

In scientific circles, both in America and abroad, the prevailing inclination seems to be to await direct word from both explorers before arriving at a conclusion as to their respective achievements, and although a belligerant attitude is still preserved in the two camps, open hostilities are large-

What Bridgman Says Sydney, C. B., Sept. 10.-Herbert L. Bridgman, secretary of the Peary

German Seltzer is a very Arctic club, who is to meet Commander Peary, arrived here last evenng. He said that it was perfectly evident that Peary and Harry Whitney were together for several days and that it would be a reasonable deduction that Whitney had informed 2) glass bottles for 5 Peary of Cook's claims, and that Peary would gather all available testimony to refute the claim, having heard the Eskimos' stories that Cook 'had not been out of sight of land."

> "I do not think," continued Bridgman, "that Peary is bringing Cook's two Eskimo witnesses or he would have mentioned the fact. It would not have been an easy thing to bring them down, as they might die. Their testimony would be no more valuable in the United States than as given before the members of the Peary party while north.

> With regard to the offer of the United States coast and geodetic survey to arbitrate the controversy, Bridgman said:

> "I know that Commander Peary will be perfectly satisfied to abide by its verdict. Peary has a commission from the survey to take certain obtervations and data and will submit his results to the board.

"Cook's two witnesses," continued Bridgman, "are from 16 to 20 years special military guards have returned of age. The other six Eskimos, who feclined to go, returned with Cook's etters to his wife, John R. Bradley and Rudolph Francke, dated Cape Chomas Hubbard. Peary found that he letters were not written where dated. The Eskimos told of the numper of sleeps passed since they parted company with Cook, but it may be that the natives did not tell the truth to Peary. It will depend largely on the natives' testimony whether or not

In further explanation, Bridgman said he supposed Francke showed the Cook letters to Peary, which naturalnatives who brought them south.

Danish Explorers Hard to Deceive covered the Pole, in the opinion of Dr. William Stickney of this city, who accompanied Peary as surgeon in that if the Danish people, who are more acquainted with Arctic conditions than any other race on earth, accept Cook's story, he thinks that duction has been made in prices. other nations should do likewise. Denmark owns Greenland and a vast earth and Danish explorers, according to Stickney, would not be easily deceived.

Regarding Peary Stickney says that he is more familiar with the conditions in the far north than any other man. Peary, he says, is a man of pleasant demeanor, but is inclined to be of a quick temperament. The doctor thinks that Peary regards the Arctic regions as his personal property and was far from pleased when he heard Cook had entered the exploration Cook with mis-representation, the

not be depended upon to tell the payers, but the city has now been truth. All of them knew Peary, he given permission to raise the water says, and the commander would always have them on his side because he had distributed gifts among them liberally on all his expeditions in order to obtain their aid in his attempt to reach the Pole.

Dewey Thinks Both Men Won-Hot Springs, Va., Sept. 10 .- "I have no doubt it will be found that both Peary and Cook reached the goal of their great ambition," commented Admiral Dewey, who is spending the summer here.

"In view of the regrettable controversy that has arisen in the matter," said the admiral, "I have nothing to say regarding the merits or demerits of the respective claims of the two explorers. In the meantime I prefer to believe that the claims of each of these distinguished Americans is true. Their achievements in the past are so great that it does not seem possible that either of them would risk his reputation in a falsehoold. Anyway, the records of their astronomical observation will tell their own story."

Right About Face London, Sept. 10.-The immediate effect of the publication of Peary's brief account of his journey here is a certain revulsion of feeling in favor of Dr. Cook, and the adoption of a more judicial and impartial attitude toward both explorers.

One of the chief reasons for the reaction in Cook's favor is the unexplained swiftness of Peary's sledge journey to and from the Pole. This Copenhagen to Greenland to bring is regarded as having disposed of one of the strongest arguments against the probability of Cook's feat and has placed the possibilities of Arctic travel in an entirely new light.

Comment is made on the fact that Cook does not mention meeting with open water, which would retard his journey to the Pole. One of the leading British medical journals points out that, according to the usual idea, microscopical examination of water to detect the presence of algae in the sea, such as Cook records having done, would be practically impossible. because the water would freeze under examination.

The general opinion is that little of a convincing character will be obtained by an examination of the Eskimos, and that evidence of real value will be secured only by an expert comparison of the two men's records of scientific observations.

WHOLESALE VACCINATION

Twelve Hundred Passengers on Steamer Undergo the Operation

Boston, Sept. 10.-The White Star liner Romanic, from the Mediterranean, was held at quarantine for nearly five hours, while 1200 steerage passengers passed in review before two surgeons, halting long enough to be vaccinated.

The cause of the wholesale vaccination was a case of chickenpox which developed in the steerage. Although every steerage passenger had been vaccinated previous to sailing, each was obliged to undergo the operation before being allowed to

The victim of chickenpox, a child, was placed in the quarantine hospital for further observation.

Strikers Slowly Returning to Work Stockholm, Sept. 10.-The strikers are resuming work somewhat slowly, but normal conditions are returning. The order prohibiting the sale of intoxicants has been rescinded, the civil guard has been disbanded and the to their quarters.

Prince Kunl In Boston Boston, Sept. 10.-Prince Kunioshi Kuni, cousin of the emperor of Japan, reached Boston last night and will go to Beverly today to meet President Taft.

Wage Scale Rejected Chicago, Sept. 10.-The wage scale offered by the Chicago City Railway China Packing, Screens Repaired company to its employes was rejected Cook was where he claims to have by an overwhelming vote in a referen-

GETTING WISDOM IN WALES.

ly aroused curiosity toquestion the Expectations Reversed-More Taxes Instead of Less. In 1896 the gas and water works

If Rhonda, Wales, were taken over Commander Peary and Dr. Cook diswere told that the profits which then went to the stockholders would be applied toward the reduction of taxes. the expedition of 1897. Stickney says The result has been the exact reverse of the prediction, for both plants have had deficits which have had to be made up by taxation, although no re-

In the last year of private ownership the profit on the gas works was frozen territory at the top of the 10 per cent on the investment. Last year there was a loss of \$11,425, which has to be paid out of taxes and which is equivalent to increasing the price of gas 8 cents a thousand feet. The writer in the Western Mail who gives these figures assigns as one of the causes that much less gas is made per ton of coal than was the case when the plant was under private management. The result is the more remarkable because there are now six times as many consumers as there were in

The situation in the waterworks is field. He thinks that if Peary charged even worse. In its last year of operation the company made a profit of charges were made in a moment of \$21,530, which municipal management has changed into a loss of \$14,165. The Eskimos, says Stickney, can- This also has to be borne by the taxrates to figures 20 to 25 per cent more than those of the company

> Wise Counsel. In 1905 Norwich, Conn., purchased the local gas and electric plants, the amount invested being \$590,000. Three years later the electric generating plant was shut down, and a contrac for current was made with a private

> When the plants had been under city management for a year Martin E. Jensen, ex-treasurer of the city, stated that after allowing every possible credit to the city and setting aside only 5 per cent for depreciation the loss on the electric plant for thirteen months was \$16,723. In closing the article in which this statement appeared Mr Jensen wrote:

"Examination of local municipal accounting covering a period from 1867 to 1905 convinced me that cities con ducting their affairs through unpaid and untrained commissioners run hopelessly into debt because appropriations are overspent. I except the gas and electrical commissioners who have not had time to make history.

"To those contemplating going into municipal lighting under Norwich conditions I would say, 'Don't!" "

Can't Get Rid of It. The city of Bath, England, has for some time been trying to dispose of the electric plant which it purchased Phone Quincy 181 in 1896. A purchaser was found, and mutually acceptable terms were agreed upon, but the board of trade (a parliamentary board corresponding to our public utilities commission) refuses t permit the sale. This may deter other British cities from making risky experiments.

MORTGAGEE'S SALE

By virtue of a power of sale con ained in a certain mortgage deed given by Asa O. A. Sewell to the Wey outh Savings Bank, dated August 12 1902, and recorded with Norfolk Deeds ok 928, page 212, for breach in th onditions of said mortgage and for the purpose of foreclosing the same, will be sold at public auction, on SATURDAY the second day of October A. D. 1909, at ten o'clock in the forenoon, on the premises, all and singular the premises described and coneyed by said mortgage deed namely Quincy, with the buildings thereon eing lot No. 37 on "Plan showing ands owned by the Edison Park Land Associates in the City of Quincy Mass.," made by H. T. Whitman, Surveyor, dated October 1895, recorded with Norfolk Deeds, Plan Book 20, Plan 01, bounded and described as follows viz:—Northeasterly on lot No. 42 on said plan, fifty (50) feet; Southeastery on lot 38 on said plan, ninety-eight and fifty-four hundredths (98.54) feet Southwesterly on Charles Street, fifty (50) feet, and Northwesterly on lot No 36 on said plan, ninety-eight and fifty four hundredths (98.54) feet, contain ing according to said plan 4927 square eet of land being the same premises conveyed to me by Herbert T. Whit-man and Charles C. Barton by a trustees deed dated November 6th, 1901 and recorded with said Deeds libro 908 page 523, and subject to the restric-tions contained in said deed. Said premises are sold subject to all outstanding tax titles or unpaid taxes or assessments.

Terms, \$100 in cash at sale and the alance within ten days thereafter.

WEDS STUDENT

Impressed by His Story of Effort to Become a Lawyer

SOLD STOCKINGS FOR LIVING

Woman Favorably Impressed by His Appearance at Her Home and She Takes Him In and Marries the Same Day-Son Applies to Court For Ap. pointment of Conservator

Hartford, Sept. 10 .- By offering for sale some stockings at the home of Mrs. Matilda Treat, a wealthy widow of 72, in order that he might raise sufficient money to carry him through his junior year at the Yale law school. Charles R. Goddard, 20, met his future wife two weeks ago.

A week ago they were married by Rev. William D. Love of this city, although the announcement of their marriage was not made until yester-

Mrs. Goddard has a son old enough to be her husband's father, and when the son returned from his vacation he learned that she had married the young Yale law student. He immediately applied to the probate court for the appointment of a conservator.

TEL.

Sixte

争争点

Mrs. Goddard is said to be worth about \$50,000 and Goddard has been forced to work his way through the Yale law school. This summer he took the agency for a stocking house and offered his wares for sale from house to house.

When he appeared at the home of Mrs. Treat she was favorably impressed by the young man's appearance, and sought information regarding him. His story of his efforts to become a lawyer impressed her and she took him into her home, marrying him the same day.

The son, who is an insurance and real estate dealer in this city, read of the marriage announcement, but did not suspect that the Matilda Treat was his mother until he returned home.

"THE DEMOCRATIC LEAGUE"

New York Men Plan to Bring New Organization Into Existence

Saratoga, N. Y., Sept. 10.-Out of the Democratic conference, which began a two days' session here under the guidance of men who hold a prominent place in the party's Ma-OUINCY tory, there promises to grow a permanent organization to be known as The Democratic League," as pro-

posed in a resolution. The resolution was referred to the 'committee on plan and scope" composed of a representative from each of the senatorial districts of the state. These committee members were chosen last night by the delegates from the various counties comprising the districts. This committee is also charged with formulation of a

declaration of party principles. Two sessions of the conference were attended by over 400 delegates. It took on the character of a state convention, with ringing speeches, cheering delegations and a band playing

lively airs. While all the speakers urged cooperation for the rehabilitation of the Democratic party and declared that the conference was not directed against any leader or leaders, the utterances of some of them were looked upon as thinly veiled attacks upon certain leaders of the present state

organization. VENUS HAS LONG DAYS

Each One as Long as 228 Days of Our Year, Says Professor Lowell Worcester, Mass., Sept. 10 .-Professor Percival Lowell of the Lowell observatory, Flagstaff, Ari., in a lecture last night on Venus, illustrated by photographs and drawings, said that recent observations and calculations had shown that the day in the planet Venus was as long as 228 days

of our year. One hemisphere, he said, is continually facing the sun, and on account of its long contact with the sun's rays has been literally baked.

Dismissal From the Army Washington, Sept. 10.—The president has approved the sentence of dismissal imposed by a general court martial in the case of Lieutenant Clarence S. Nettles, U. S. A. Nettles was convicted of neglect to pay many private debts, making false statements to the war department and giving a worthless check.

Mayor on Balloon Trip Lowell, Mass., Sept. 10 .- Mayor Brown accompanied Charles J. Glidden in the balloon Boston in a flight made in connection with carnival week. The balloon was in the air for about two hours, during which it traveled a distance of thirty miles.

College Educator Resigns Worcester, Mass., Sept. 10 .- Professor Rufus C. Bentley, dean of the faculty of Clark college, has resigned because, as he says, of the encroachment by President Hall of the uni-

versity on the provisions of the found.

CHAPTER I-In London Philip Kirk-

(Copyrighted)

Joy welled in his heart. He forgot all that he had undergone in the prospect of what he proposed still to do in the name of the only woman the world held for him. Unquestioning he had come thus far in her service; unques tioning, by her side, he was prepared to go still further, though all humanity should single her out with accus-

They were watching him aboard the brigantine. He could see a line of wood, a young American painter, learns that the San Francisco disaster heads above her windward rail. Perunintelligibly against the gale. He neilieves to be an adventurer. II—Be-fore leaving his hotel for the boat His every faculty was concentrated on train Kirkwood dines at the hotel. In the dinning room he sees Calendar rethe supreme moment now at hand.

Calculating the instant to a nicety, ceives a note of warning from a fash-ionably dressed woman. He is then asked by the American, who admits he paid off the sheet and pulled up the tiller. The catboat pivoted on her heel. without giving a reason that he fears arrest, to escort his young and beauti-With a crack her sail flapped full and rigid; then, with the untempered dar to a seemingly unoccupied house at No. 9 like an arrow under the brigantine's bows, so close that the bowsprit of the of London, where he leaves the girl at her latter first threatened to impale the sail; next, the bows plunging, crashed down a bare two feet behind the cathouse ajar. He throws off a cockney who tries to detain him, enters the house and boat's stern.

Working in a frenzy of haste, Kirkwood jammed the tiller hard alee, The latter is knocked unconscious by a fall bringing the cat about, and, trimming lownstairs. Kirkwood is then rejoined by the mainsheet as best he might, found Dorothy, who is glad to see him but does not himself racing under the brigantine's leeward quarter, water pouring in generously over the cat's.

Luffing, he edged nearer, handling in love with the girl, flee from the mysterious his craft as though intending to ram house by the rear door. The girl takes with the larger vessel, foot by foot shortening the little interval. When it was says, she is to take to her father. VI-In a four feet he would risk the jump. He crawled out on the overhang, crouching on his toes, one hand light upon the tiller, the other touching the deck, ready-ready.

the house to learn whether Calendar is Abruptly the Alethea shut off the there. He meets Mrs. Hallam and recogwind; the sail flattened and the cat endar in the hotel. As Kirkwood talks dropped back. In a second the distance had doubled. In anguish Kirkto her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go wood uttered an exceeding bitter cry. to the door to call Dorothy in and find Already he was falling far off her that the girl and the cab have vanished. counter.

VII-Calendar appears at the Hallam A shout reached him. He was dimly house in search of Dorothy. Kirkwood conscious of a dark object hurtling accompanies him at his request to an unthrough the air. Into the cockpit, savory locality on the Thames. VIII-Calendar meets his daughter in the company of a splashing, something dropped-a coil of rope. He fell forward upon it into ion in some strange nefarious enterprise. Mulready, it seems, has tried to kidnap Dorwater eighteen inches deep and for the first time realized that but for that othy in Kirkwood's cab. Calendar and Mulline he had gone to his drowning in anready quarrel, after which the girl and the other minute. The cat was sinking.

two men row off to board a vessel referred to As he scrambled to his feet, clutchas the Alethea, leaving Kirkwood to find his ing the life line, a heavy wave washed vay in a cab to St. Pancras station, where he over the waterlogged craft and left is is to take the midnight train for his steamer. all but submerged, and a smart tug on IX and X-Kirkwood just misses his train and the rope added point to the advice, finds himself almost penniless. After which, reaching his ears in a bellow wandering about for two hours he is again in like a bull's, penetrated the panic of Frognall street. He enters the house to seek his wits. his missing purse and finds the young man

Calendar, she says, is her late husabove his head to ease its constriction band's cousin. The jewels are in the black bag, Mrs. Hallam declares. Kirkwood doubts when the tug should come, leaped on her story and suspects that Dorothy is an the combing and overboard. A green innocent partaker in some mysterious plot. roaring avalanche swept down upon He decides to defend the girl. XII-The next him and the luckless catboat, over-

whelming both simultaneously.

watermen, searches the Thames in vain for The agony that was his during the next few minutes can by no means be Woolwich on his way to Shearness to interexaggerated. His senses were blotted Sheerness Kirkwood meets Mrs. Hallam, bent out in blackness. Then he was breathlike himself, on finding Calandar. She tries ing once more, the keen clean air stabto get his aid, but he refuses. He eludes her bing his lungs, the while he swam unsupported in an ethereal void of brilliance. His mouth was full of something that burned, a liquid hot, acrid and stinging. He gulped, swallowed, slabbered, choked, coughed, attempted Time out of reckoning he was forced to sit up, was aware that he was the focal center of a ring of glaring, burnto kneel in the swimming cockpit steering with one hand, using the bailing eyes, like eyes of ravening beasts, ing dish with the other and keeping and fainted.

his eyes religiously turned to the belly-His next conscious impression was ing patch of sail. It was heartbreakof standing up, supported by friendly ing toil. He began reluctantly to conarms on either side, while somebody cede that it could not last much longer. was asking him if he could walk a And if he missed the brigantine he step or two.

He was partly seated, partly held up, on the edge of the cabin skylight, an object of interest to some half dozen of icy spray that piled in over the men, seafaring fellows all, by their windward counter, keeping the bottom | habit, clustered round between him and the windward rail. Of their numbut intermittent efforts with the bail- ber one stood directly before him, ing dish. And the two, brigantine and dwarfing his companions as much by cockleshell, were drawing together his air of command as by his uncommon height-tall, thin faced and sal-But that his voice stuck in his low, with hollow, weatherworn cheeks. parched throat he could have shouted a mouth like a crooked gash from ear in his elation when eventually he to ear and eyes like dying coals, with gained the point of intersection an which he looked the rescued up and eighth of a mile ahead of the brigan- down in one grim, semi-humorous. semi-speculative glance. In hands both freeboard as most slowly the catboat huge and red he fondled tenderly a squat brandy flask whose contents had apparently been employed as a first tual triumph was not yet. He had still aid to the drowning.

As Kirkwood's gaze encountered his to carry off successfully a scheme that for sheer audacity of conception and the man smiled sourly, jerking his contempt for danger transcended all head to one side with a singularly derisive air.

"Hi, matey!" he blustered. "'Ow goes it now? Feelin' 'appier, eigh?" "Some, thank you - more like a course and hung in the eye of the drowned rat." Kirkwood eyed him sheepishly. "I suppose you're the man who threw me that line? I'll have to wait till my head clears up before I bailing dish now altogether out of can thank you properly."

mind-while he watched the oncoming "Don't mention it." He of the lanvessel, his eyes glistening with antici- tern jaws stowed the bottle away with fealous care in one of his immense coat pockets and seized Kirkwood's antine, lying down to it and snoring hand in a grasp that made the young man wince. "You're syfe enough now. My nyme's Stryker, Capt'n Wilyum Stryker. Wot's the row? Lookin' for a friend?" he demanded suddenly as

shortening the interval with mighty, leaping bounds. On her bows with each instant the golden letters of her

Signs, Signals and Flags Used by the Various Companies.

COLORS OF THE BIG FUNNELS

In Some Cases They Are Very Much Alike, but the Night Lights Used by the Vessels of the Different Lines Are Quite Distinctive.

It is said that but comparatively few of the many thousands of persons that haps she was of their number. He each year patronize the various lines waved an audacious hand. Some one of steamships crossing the Atlantic replied, a great shout shattering itself are familiar with the various distinguishing signs and signals employed by ther understood nor attempted to reply. the vessels of, the respective companies. Yet it is a very easy thing to tell at a glance to what line any given ship belongs-the American line, for instance.

About all that one must remember in the case of the vessels of our own line is that the funnels are black, each with might of the wind behind her, she shot, its white band. When you see an Atlantic liner at night with a blue light forward, a red light amidships and a blue light aft you know at once that she is of the American line.

All Cunarders show a red funnel with black rings and a black top, while the night signals consist of a blue light and two roman candles, each throwing out six blue balls.

There are but two of the leading transatlantic lines the ships of which carry cream colored funnels-the North German Lloyd and the Holland-America lines. The first employs a perfectly plain funnel without any other green borders. Signals displayed at and every 30 mins. to 11.45 p m. night by these lines are, in the case of the North German Lloyd, two blue red lights, one forward and one aft, and, in the case of the Holland-America line, a green light forward and aft, with a white light under the bridge.

Two lines use buff tunnels, the White Star and the Hamburg-American, the difference between the two being that, while the former shows a black top, the latter is plain buff throughout. White Star night signals are two green lights flashed simultaneously.

Quite a number of lines carry black funnels-the American with a white band, as mentioned above; the Anchor, which is entirely black; the Bristol, with a variegated and fancy touch, the black smokestack being relieved by a white band in the center and a blue star in the middle of the white band. In the regular service of the Hamburga black top.

The Scandinavian-American and the Wilson lines have red and black funnels, black in the first case with a red

has a black top similar to the funnels

At night the Anchor line of vessels p m, then 11.30 p m. Sundays, 7.50 a m, then same as week days. shows a white light, then a red. The one aft and one amidships, all flashed together. The Scandinavian line employs one white-red, followed by one turn, leave West Quiney, 6.00 a. m, then same as week days. Return, leave West Quiney, 6.00 a.20, 6.50 p.m. out two red lights about sixty feet Sundays, 7.30 a m, then same as week

It will be observed from the fore going that the night signals of all the different lines vary, while the funnels in some cases are very similar. This, however, does not lead to confusion, for in determining the line to which a vessel belongs one must also take into consideration the flag or pennant she flies. Every line, of course, carries a different "house flag," as it is called.

The flag of the Cunard line is red with a golden lion in the center, while that of the White Star vessels is of the same color, but swallowtail in shape and containing a white star. The house flag of the Red Star line is exactly the same as that of the White Star company with the colors reversed -flag white, star red.

The flag of the Hamburg-American line is an elaborate affair-white and blue diagonally quartered with a black anchor and a yellow shield in the center. The North German Lloyd flag is a handsome one, showing a design of a key and an anchor crossed in the center of a laurel wreath in blue on a white field.

The Atlantic Transport line flies a pretty flag of red, white and blue horizontal bars, with stars.-Edwin Torrisse in Cincinnati Commercial Trib

Mr. and Mrs. William H. Glover, Celebrate Wedding Anniversary.

Mr. and Mrs. William H. Glover, two of Quincy's longest residents, celebrated the fifty-eighth anniversary of their marriage Thursday evening, at their home at 12 High street. The celebration took the form of an informal affair at which relatives, and long time neighbors called to offer their congratulations and to wish the nappy couple many more years of wedded happiness.

The evening hours were passed in pleasant manner in social conversation during which Mr. and Mrs. Glover were presented with many tokens of good will by the guests. Refreshments were served during the

Both Mr. and Mrs. Glover were born n Quincy and have always made their early education in common with other young men of his time, learned the trade of a boot maker. This business he followed for many years, not relinquishing it until boots went out of style and machinery took the place of hand work. Mrs. Glover's maiden name was Rideout and she was a sister of the late James Rideout.

Three children have been born to them, a daughter who passed away a few years ago and twin sons, Walter S. and William S. Glover who also reside on High street, and who as-Thursday evening.

HARRIMAN'S END WAS PEACEFUL

Brilliant Mind Retained Integrity Almost to the End

Arden, N. Y., Sept. 10.-Edward H. Harriman, the greatest organizer of railroads the world has known, met the only lasting defeat of his active life in death. Secluded in his magnome here. Mr. Glover was a son of nificent home on Tower hill, sur-John Glover and after obtaining his rounded by members of his family, physicians and nurses, he succumbed to an intestinal disorder after a fight against disease which will rank for sheer grit with his remarkable struggles in the financial world.

The exact time of his death is known only in that limited circle of relatives and associates who had so effectively shielded Harriman from all outside annoyances during his last illness. The time was given to the world as 3:35 p. m., but Mrs. Mary Simons, sister of Mrs. Harriman, sisted their parents in receiving said that the end had come more than two hours previous.

Whether this apparent discrepancy has any bearing on the current belief that every effort was made to lessen the influence of the financier's death on the New York stock market is problematical. But it is significant that the time of his death, as officially announced, was just thirty-five min-E. B. Hill, assistant to manager of utes after trading had ceased on the

Mr. Harriman died peacefully and almost to the end his brilliant mind retained its integrity. After a relapse on Sunday he sank steadily and soon after the noon hour Thursday there came a relapse which marked the approach of the end. His wife, his three daughters and his two sons, who had been constantly with him, assembled at the bedside and a carriage was hastily dispatched for Mrs. Simons, whose home is here in Arden, three miles from the Tower hill mansion.

Driving hurriedly up the mountain side Mrs. Simons entered the silent house in time to be present at her brother's death. At the bedside she joined the wife and chidren, who, with Dr. W. G. Lyle and Orlando Harriman, a brother, and the nurses, formed a group at the bedside. No spiritual adviser was at hand. The swiftest automobile in the Harriman garage had been dispatched for Rev. Dr. J. H. McGuiness, an Episcopalian rector of Arden parish and Mr. Harri-Guiness was not at home. When found later, although rushed up the mountainside at breakneck speed, he did not arrive until death had come to Arden house.

With the secrecy that has been maintained at the Harriman residence unbroken to the every end, news of Harriman's death was conveyed to New York before it came to Arden and the valley below. Then, by way of New York, the report spread quickly and confirmation was sought at the residence by telephone. During the past ten days rumors have been so persistent and variable that little credence was at first given the report, and it was a shock when a voice on the hill replied: "Yes, that is correct. Mr. Harriman died at

The speaker was evidently an employe.

Soon afterward the hundreds of workmen engaged on the uncompleted E. Smith. Each lady was presented estate learned of their master's death when a page came out on the lawn quit work. Mr. Harriman is dead. A hush fell over the group and the workmen, dropping their tools, trudged silently to the flat cars and descended on the private incline railway that bore them from the mountain top to their homes below.

Mr. Harriman will be buried in the family plot in the little graveyard behind St. John's Episcopal church at Arden. He will rest beside his oldest son, Edward H. Harriman, Jr., who died twenty-two years ago, soon them all to come to their seventeenth .. after the family first came to Arden. A shaft of blue stone, quarried from the steep sides of Tower hill, marks the grave of baby Edward, and it is probable that a similar stone of modest size will be erected over the fill, father of Mrs. James Crag was last resting place of his distinguished held Thursday afternoon from the father. The service will be held Sunresidence of his daughter at 127 day afternoon next and, it is under-

physician throughout his last illness, his illness or the cause of death, but the general understanding is that there was no operation.

In keeping with the simple arrangements for the funeral an undertaker from Turner, N. Y., the nearest railroad station to Arden, was J. C. Thayer was fined \$15, John F. Kedian pressed into service last night to per-\$15 and Andrew H. Gardner \$25 for exceed- form the last services that human ing the automobile speed limit at Milton. hands will render to the dead man before interment. One of the men who assisted the embalmer said the body bore no signs of any recent operation.

list. Williams 1748 Hancock street. | the little country graveyard on the

hillside near here, far removed from the scene of Harriman's business triumphs, is the first evidence tha they intend to maintain Arden a their home. The unfinished palac that covers Tower hill and the great estate that surrounds it was one Mr. Harriman's dearest hobbies.

For weeks the leaders of the finan cial world, certain that Harriman Illness would end fatally, have bee preparing for any contingencies hi end might bring about. That ampl preparations have been made to prevent any serious disturbance of the financial situation is the general be-

Though Harriman is dead, his tremendous interests will be carried on without interruption. So firm is the foundation of his great constructive work in the railroad world and so thoroughly organized are his varied interests that no fear is felt in the financial world. Such is the feeling in New York.

A Big Birdcage. New York zoo is what is known as "the flying birdcage." This magnifiin the world, being 55 feet high, 72 feet wide and 150 feet long. Large oak and other trees grow in this cage and the birds live within its wire net ting bounds in the utmost freedom. The frame of the cage is built of iron pipes, which are covered over with thin meshed netting.

"You write too much," said the critic to the author. "But, my friend," replied the author, I've got to live."

"How about your readers?" "Ah, well, we were all born to die!" -Atlanta Constitution.

Parried.

"And that young man kissed you on the lips! Why didn't you offer him your hand?" said the father. "Oh, I didn't have to, papa," said the girl. "He's going to ask you for that."-Yonkers Statesman.

A Case For Sympathy. The Proud Mother-This boy do grow more like 'is father every day. The Neighbor-Do 'e, pore dear? And 'ave you tried everything?-London

> Toasts Him as Sportsman and Literary Note. a Promoter of Peace

> > Beverly, Mass,, Sept. 10 .-President Taft, on board the cruise yacht Mayflower, toasted the German emperor as a true sportsman and contributor to the peace of the world.

The occasion was the presentation of the Taft cup to Commodore Childs whose boat, the Joyette, won the first honors of the German-American sonder class yacht races.

The crews of the three German and three American boats which were contestants in the races were on board the Mayflower, together with the per sonal representative of the German emperor, Vice Admiral Barandon The latter responded to the president's toast.

The day was marked by a striking display of democratic American simplicity. The president mingled informally with more than 150 guests on board the Mayflower, the dress for the occasion was entirely informal and at a buffet luncheon the president spoke frankly of his admiration for Emperor William and sent him many informal messages of good will and friendship.

ALL JOHNSON'S WAY

Champion Accredited With "Newspa per Decision" In Bout With Kaufman San Francisco, Sept. 10.-Jack Johnson and Al Kaufman battled ten rounds in a no decision contest here Johnson, however, had a clear lead in every round and easily earned the unofficial decision of the newspaper

According to agreement, if both men were on their feet when ten rounds had been fought no decision was to be given. Referee Smith, however, said that Johnson was entitled to the verdict.

Halifax Man Wins Marathon Race Lowell, Mass., Sept. 10.-Hans Holmar of Halifax won a full distance professional Marathon race of 26 miles, 385 yards, over the Merrimac valley circuit in 2:43:37. Patrick Dineen of Boston was second and John Haves of New York third.

NEWS IN BRIEF

While alighting from a moving passenger train James Thomas of Fair Haven, Vt., was thrown under the wheels and killed.

Daniel Coates, superintendent of the Commercial Pacific Cable company at Shanghai, and John Goddard an oculist, both died at Shanghai it is believed, of cholera. General Edward H. McCook, ex-

governor of Colorado and former minister of the United States to Hawaii, died at Chicago of Bright's disease.

DRESSMAKING

First Class Dressmaking in all its branches

Tailor Made Suits a specialty MRS. N. E. BROWN 42 Revere Road ormerly of 5 Hancock Court. Sept. 8-6t

The closing social event of the Quincy yacht club was the smoker and vaudeville show which was held Friday evening at the club house. This function practically marks the end of the racing season, although there is one more launch race scheduled. The evening was also the one on which the championship and club run prizes

were to be awarded. The evening was rather stormy, to ensure a large attendance, vet vachtsmen are accustomed to water and there was a good attendance, and a

good time. The evening opened with a vaudeville show in which some of Kelley's sleight of hand and card manipulator mystified the audience by the quickness of his hand and he was followed found that his left leg had been by Hazel Richmond, sero-comic singer, George Donaldson, monologist, Annie Golden Hebrew sero-comic singer and Thurston & Gay in a

comedy sketch. Then came the awarding of the season's prizes by Commodore Robbins.

A BOSTON GIRL'S BUDGET.

Some Beans Which the Hub Has Only Only Once a Year-The Late Henry Story-No Bally British Flag for the motion on the table. Mayflower Descendants.

No place like for Boston for beans, Beans and Beanes. The first named kind, it is hardly necessary to observe, are assembled in our midst at frequent intervals throughout the year. The two latter varieties have just been paying their annual visit to the centre of cultivation and plain living-holdin one of those reunions which bring folk of the same name together so pleasantly. It is said that there are now in the Bean family association more than 1100 descendants of John Bean, the emigrant, who settled in Exeter, N. H., in 1660. These present day Beans really ought to erect somewhere a statue of their revered ancestor. A natural place for it would be thte part of Boston's new white city of education and culture which verges upon the ball grounds, the scene of so many triumphs and failures of the redoubtable Bean eaters.

By long odds the most picturesque of Boston's many grand old men was Henry B. Blackwell, advocate of woman suffrage, who has just died. Strangers invariably turned to look as he passed. He was a thoroughly useful citizen.. it need hardly be said, whose interest was keen in a hunrdred and one reform movements. His inspiration dated from the remarkable school of English radicalism of the middle nineteenth century. He was in spirit as well as nationality a compatriot of Robert Dale Owen. To British thoroughness and solidity of attainments he joined a certain American alertness which lasted down to his latest years. The story of his persistent courtship of the sucragist Lucy Stone, whom he found whitewashing a ceiling at her modest home in West Brookfield deserves to be memorialized in a poem.

Returning vacationists, with whom Boston is filled just now, are very apt to tell stories about the quaint sayings of heir country neighbors. These can probably be matched by equally amusing anecdotes of the absurd things xity people say when "down on the farm," but they always serve to provoke a smile. As evincing rural interest in astronomy a young lady just back from northern Vermont says that shortly after the recent eclipse of Mars she asked a good lady at whose house she purchased supplies whether she had noted the obscuration of the planet the night before. "Nope," was the reply, "they was tellin' as how i years, and I guessed I shouldn't remember then how it looked this time, an' so I thought I'd better go to bed.' This woman had something of the complacent New England attitude of Margaret Fuller, who once said, rath er natronizingly after a period of cogitation on the howness of the what "I accept the universe."

Good for Miss Mildred Belknan of Dorchester, aged 13. She walked on Labor Day all the way to Worceser, a distance of 44 miles. This feat would have broken all records for a young person of that age and sex, except that Miss Mildred herself already held a better one-that of last Memorial Day when she reached Providence, a distance of 47 miles. She claims to have enjoyed the last trip all the way along. Her father who acompanied her, found it pleasant during the first 30 miles, but after that he was kept going mainly through the persistence of his athletic daughter. It is interesting to note that in these days of easy jaunting about the country by motor car and trolley the fine old exercise of walking is still by no means neglected.

If all the babies were brought up by old maid aunts there would probably the no need of this conference on infant welfare which is announced to be held in New Haven next November. As, however, most of them are luckless enough to have nobody but mothers to minister to their needs, and as some mothers do not find that maternal instincts always and infallibly ALBERT J. DURAND tell them how to avoid the diseases and disorders peculiar to infant life, the convention ought to serve a very useful purpose. Boston, which has long been one of the world's greatest centres of medical conservatism, will be well represented by Professor C. E. A. Winslow, of the laboratory of sanitary research of the Massachusetts Institute of Technology. Mr. Winslow is chairman of the important

educational section of the conference Of course they were a lot of bally Britishers who sailed the leaky old Mayflower overseas in 1620, and they undoubtedly flew the flag of the English admiralty. But their descend- M. ants, men and women, who met at Plymouth this week, were far from being unanimous in rushing to make that foreign flag the emblem of their society. Permission to do so had been gained in advance from the other side. There were those in the management of the society who thought that it would be a graceful thing to do, a tribute to the entente cordiale that is supposed to embrace all Anglo Saxon -countries. But the fighting blood of '76 was aroused. One delegate intimated that a million men had died to keep the stars and stripes aloft and that he didn't intend to be a party to any flaunting of the English colors in the land of the brave and the free where men bow the knee to no king Real Estate and Fire Insurance except Mr. Harriman. A Maine man got up and said that the Pilgrims went to Holland expressly to get from in under the shadow of that flag and that there is no evidence of Governor Bradford's ever having used it at Plymouth

and -Well, those who see in this country a great battle ground between forces of provincialism and cosmopolitanism will be interested to B. Blackwell Was a Picturesque know that the proposal to adopt the Character-Tells Another Good Rube | ancestral emblem was lost by laying

KIDNEYS WEAK BODIES.

Kidney Diseases Cause Half the Common Aches and Ills of Quincy People.

As one weak link weakens a chain, so weak kidneys weaken the whole body and hasten the final breaking

Overwork, strains, colds and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except

kidney help. Doan's Kidney Pills act directly on he kidneys and cure every kidney ill. Quincy cures are the proof.

GRAVE IS CUT IN SOLID ROCK

Remains of Harriman Will Lie In a Private Graveyard

SIMPLE FUNERAL SERVICES

Only Relatives, Personal Friends and Country Neighbors Will Pay Last told losses. Tribute of Respect-Financier's Kind Heart Shown by His Charities -Cancer Said to Have Caused If Carried Out It Will Affect Six Thou-Death-Great Railroad Organization Undisturbed by His Demise

Arden, N. Y., Sept. 11.-Arrangements for the funeral of Edward H. Harriman were completed at a family council in the silent library of the great house on Tower hill which he did not live to see finished. First his family, then the simple folk of this valley and Hillside, who for wenty years regarded him as their friend and benefactor, will pay their tributes of respect. The day's ceremonies will end with a burial service and interment which will be attended only by relatives and personal friends.

Family services will be held at Arden house at 10 o'clok Sunday morning and holy communion will be celebrated at 11 o'clock at St. John's Episcopal church, Arden. This service will be open to employes of the estate and residents of the neighbor-

The burial services will take place at St. John's at 3 p. m. This will be conducted by Rev. William C. Doane, Episcopal bishop of Albany, and Archdeacon Nelson of St. John's the Divine of New York, assisted by Rev. J. H. McGuiness, rector of St. John's church, Arden. Interment will follow in the Harriman private burying ground, a stone's throw from the church.

Seventy men toiled on the Arden hillside in the pouring rain all day Friday, preparing for the funeral of their late master. Six were blasting a grave from the solid rock of the private graveyard near St. John's church; the others were smoothing the three miles of road over which the body will be carried to its last resting place. All afternoon the Sabbath-like stillness of the green hillside was broken by the noise of explosions.

The grave is being blasted and quarried out of the blue stone which lies but a few inches below the surface of the ground. After the top layer of earth was scraped away workmen began their toilsome progress through the rock. The task will not be finished until late today.

With a majority of the 500 men employed on the Harriman estate idle, Arden, Turner and vicinity has little to do but discuss Harriman's death and the questions it raises. Until the death certificate is filed with the town clerk at Highland Mills, there is no way of ascertaining the verdict of his physician, Dr. Lyle.

An appreciation of Harriman that reflects the prevailing sentiment here was expressed by Dr. McGuiness, his

"The keynote of Mr. Harriman's character, I should say, was his democratic simplicity," he said. "He never lost his contact ith life. Of course I don't know how he was in his office, but in his personal relations with those who knew him he was the most accessible man one could imagine. Any workman on the place who wanted to see Mr. Harriman had only to speak the word.

"In his charities he was unostentatious and modest to a degree. Wherever possible he wished his name kept covered and he never conceived of charity as the act of signing a check payable to some impersonal organization. He put his thought and 1. Detroit, 9; Cleveland, 1. himself as well as his money into his

"His human sympathies were quick and wide. I recall that when the wife of one of the laborers on the estate 1. Chicago, 9; St. Louis, 3. was seriously ill, he called me five times on the telephone-both here and from his office in New York, both during his business hours and his leisure—to inquire about her.

"Again: When the nurse with whom the children grew up left the family to enter service elsewhere, she expressed the wish before she died that she might be buried in Arden. Mr. Harriman had the body brought here at his expense and sat in the front

"Then I recall the case of a small boy who was inadvertedly omitted from the list of those whom Mrs. Harsonally that he was not left out."

Death Due to Cancer New York, Sept. 11.—Two beliefs

That the financial world had thoroughly discounted the great man's death and dissipated all fear of a panic, was attested by one of the most remarkable scenes in the history of

the New York Stock Exchange. There, instead of a downward movement of stocks, a sensational and spectacular advance occurred, while in London and Berlin railroad and industrial securities showed unusual strength.

In all quarters, paradoxical as it may seem, the so-called Harriman stocks were strong, and those of a speculative turn who "went short" on the theory that heavy declines would follow Harirman's death suffered un-

STRIKE IS THREATENED

sand Fall River Mill Hands

Fall River, Mass., Sept. 11.-A strike that would affect the 6 00 operatives of the Iron Works mills, controlled by M. C. D. Borden, is threatened by the action of the weavers of those mills in unanimously agreeing to quit work Monday unless their request for a 10 percent increase in wages is granted.

The Iron Works mills are not in the Fall River Manufacturers' association, where the wage question is controlled by the sliding scale system, but Borden has followed the scale of the Manufacturers' association in paying his employes.

The same wages are now paid in the Iron Works mills as are paid in the other mills of the city under the sliding scale agreement, but it is understood that there are also some minor matters which the weavers wish

ESSEX COUNTY'S GREATEST PARADE

Grand Army Veterans Reviewed by President Taft

Beverly, Mass., Sept. 11.-President Taft's review of the parade of the Grand Army posts of Essex county today is responsible for the finest public decoration that the city has ever seen. From every building along the mile-long line of march flags, banners and bunting are displayed in lavish style. Pictures of the president are in all the shop windows, and large crayons of him are suspended before the principal buildings.

For over a quarter of a century the city has not had a parade of the Grand Army of any considerable size so that the 1600 old veterans who marched through the streets today before President Taft made the greatest G. A. R. parade ever held in the county of Essex.

KILLING OF MISS MILLMAN

Fritch, Held In \$10,000, Denies That He Was Responsible Therefor

Detroit, Sept. 11.-On the request of Prosecuting Attorney VanZile, the inquest scheduled for last night into the death of Miss Maybelle Millman of Ann Arbor was postponed until

Sept. 24. The continuance of the coroner's inquiry followed the remanding of Dr. Feorge A. Fritch in bonds of \$10,000 Fritch still is held on suspicion of murder in connection with the Millman case and has not secured bonds-

Dr. Fritch made a public declaration before being locked up a second time, denying that he performed a surgical operation upon Maybelle Hillman but admitting that she visited his office about two weeks ago.

the possibilities of the great empire building on the shores of the Pacit ocean with more clearness than Harriman. Though small in body and even in brain, he was not small in his grasp of things. He thought in terms of the continent, planned in millions, built with systems. His Greatest Monument. Harriman has often been compared to Jay Gould. In my own opinion, he was a bigger man than Gould and a

better one. With all the abuse that has been heaped upon him he is entitled to that which his own deeds carved out. He was not as shrewd a man on the Stock Exchange as Gould, not as "foxy" perhaps, if you like the term, but he had infinitely bigger ideals and more audacity to plan and execute great undertakings. Gould was essentially a financier Harriman was that and more, and it is the "more" that will redeem him The romance of the Pacific railroads Edward H. Harriman the man ever and steamship lines and of his other great railroad deals cannot be wiped off the slate. Whatever we may think of Harriman in Wall street or Harrinasium, club and debating society, for man in politics or Harriman in insurance or Harriman in Chicago and Alton, his work on the Pacific empire, both this side and on the seas, will little ones and was spinning about the fire the imagination and compel respect. Good and evil mingle in all men. This is the good of Harriman.

> It was recently stated that Harriman controlled 18,000 miles of railway, or six times across the contimen; that, in addition, he directed 54,-000 miles of steamship lines, making 72,000 miles of transportation in all; that one could go from New York hard to estimate in recent years is the government as well, and is a leading to Hongkong without ever leaving the 'Harriman lines and that he could return by another route on Harriman lines nearly all the way.

To show something of the man's great activities, the mere corporations terly merciless as an earthquake or a was not alone a stock manipulator, of which he was the head or with which he was officially connected may give a hint, although little more than a hint. He had been a member of the New York Stock Exchange since 1870. He was president of the Oregon Railroad and Navigation company, president of the Oregon Short Line, president of the Southern Pacific, president of the Texas and New Orleans Railroad com pany, president of the Southern Pacific Coast railway, president of the Oregon and California Railroad company, president of the Central Pacific Railroad company, president of the Louisiana and Western Railroad company, president of Morgan's Louisiana and Texas Railroad and Steamship company, president of the Pacific Mail Steamship company, president of the Railroad Securities company, president of the Southern Pacific Terminal company, president of the Portland and Asiatic Steamship company, president of the Union Pacific, chairman of the executive committee of the Wells Fargo company, director of the Illinois Central Railroad company, director of the Baltimore and Ohio Railroad company, director of the Erie Railroad company, director of the Colorado Fuel and Iron company, director of the Western Union Telegraph company, director of the National City Bank of the Pere Marquette Railroad company. director of the San Pedro, Los Angeles rector of the Susquehanna and Western Railroad company, director of the he resigned during the Hughes investi-

The Income Tax Issue to Be Considered-State Already Assesses Such Tax-Representative Tolman

activity now, both at Republican and doubt about the exact attitude to be Democratic state headquarters. It is taken by Republicans. In fact, it beginning to be realized that there is may not be considered necessary to to be an earnest campaign by the take any binding action in regard to Democrats to elect James H. Vahey it, but leave it to the individual memgovernor, and that a sharp canvass bers of the legislature to act upon will have to be made to offset it. It their own convictions. No doubt many is realized that the Democratic city of them would do so any way, regardand town committees have been organized in a pretty effective manner, such as has not been in evidence since the years when Colonel William A. Gaston was either running as the Democratic candidate, or was at the head of the organization and attempt- Essex district leaves the field to Repnent; that these lines employ 80,000 ing to put the machine into thorough fighting trim.

One of the elements which always labor vote. It is true that it has always been arrayed against Mr. Draper so far as it was possible for the leaders of the labor movement to control it, and that, so far as may be judged, it is the same situation this year as in the last four preceding it, but not all move as a political engine of their Barry and Felix W. McGettrick. own selfish ends. The fact that they have never scored against him has disheartened most of the leaders.

Buncoed In 1904 Labor men recall with some bitterness that they were urged to vote against Governor Bates because of his attitude on labor measures, and that they helped defeat him and elect William L. Douglas, only to find that Mr. Douglas as governor took almost identically the same attitude upon such bills as had the man they had defeated. The Democratic party had simply used the labor issue to elect their candidate, and when he had assumed office and taken up the burden of responsibility he found himself compelled to follow in the footsteps of his predecessor as a matter of public duty. It is mighty easy to promise any old thing when a man is a candi-New York, director of the Chicago and date for office without much hope of Alton Railroad company, director of winning, but if an accident lands a man in office he has to think twice before acting, and consider all the and Salt Lake Railroad company, di- people rather than a certain class.

Last year was presidential year, and there was a full vote cast. It New York Central Railroad company cannot be expected that any such vote and many more, to say nothing of the on either side will be thrown this Equitable Assurance society, of which fall. Just how much it will fall off he was once a director, but from which is uncertain, but the Republican vote always shrinks more than the Democratic. Then there is the vote cast last year for the Independence league, now defunct as a political organization. That amounted to 23,000, and the Democrats claim the most of it. understood that Edward H. Harriman | The Republicans think it will be split, the greater part going to the Democrats and perhaps a quarter of it finding its way back into the Republican

fold. Republicans are not claiming a trelooked for in off years.

campaign will be made than was originally intended. It is not in the Re-

gathering. There are over 1800 delegates, and with Governor John L. Bates as chairman of the committee on resolutions, and ex-Mayor Edwin U. Curtis of Boston as president there be. of the convention, there will be paid by the purchaser in oratory of a pleasing sort, and interest. It is quite probable that Senator Lodge will be present, and if so the delegates are not likely to let him get FREDERICK H. DARLING. away without an important speech. There will be plenty for all the participants in the oratory to talk about, what with the special session of congress, the new tariff bill, the advancing wave of prosperity and the record of President Taft.

There is a good deal of speculation as to what is being done in regard to the income tax. The great majority of the Democrats and some of the Republicans favor the election of men to

the legislature who will vote to give the congress right to impose such a

There has been no national income tax since Civil war times. It was adopted as a war measure, but relinquished after that. It is felt now that if once the right is granted the income tax as a national matter will come to stay. That, of course, would compel the states now assessing an income tax to relinquish it in favor of the national government. Massachusetts already lays such a tax, and it would diminish the state's revenues by so much to turn the right over to the nation. The state convention is expected to take some stand upon that issue. The Democratic party, having none of the responsibilities of provid-Has Clear Field-Hill as District ing revenue for the commonwealth, will put a plank in its platform indorsing the national income tax There is apparently a good deal of measure. There seems to be some less of the attitude of the state con

ROYALTY CALLS ON PRESIDENT

Prince and Princess Make Informal Visit to Beverly

NOT THEIR FIRST MEETING

Became Acquainted When Taft Was Guest of Mikado-Interpreter's Services Required at Ceremonies, Which Were Not Attended by Mrs. Taft-Princess' Costume Makes a Hit With Women Who Saw It

Beverly, Mass., Sept. 11.-Presi-

dent Taft received the mikado's cousin, Prince Kuni of Japan, and the Princess Kuni, with their suite, at his summer cottage on Burgess Point. The president met the prince and princess when he was the guest of the mikado on his trip around the world, and while he entertained them at tea he took occasion to recall his visit to the Land of the Chrysanthemum. The prince came over from Japan to represent the mikado at the Hudson-Fulton celebration in New York.

Accompanying the prince and the princess were Colonel Kurita, military aide to the prince; Wallame McCathran, representing the state department at Washington; Captain Cheney, U. S. A., representing the war department, and Mme. Nagasaka, lady

in waiting to the princess. President Taft's greeting to the prince and his party was most cordial. The exchange of courtesies between the distinguished visitor and the chief magistrate were more or less stilted; however, because of the necessity of employing an interpreter throughout. The president asked after the health and well being of the emperor and all of his family. In return, the prince expressed the sincere hope of the emperor that the president and all of his family would be found in the best of health.

After the formal toasts had been drunk, the prince and princess and their attendants sat down to tea with the president and his guests. Mrs. Taft did not attend the ceremonies. Owing to her superior rank, Princess Kuni was first to be presented to the president.

After the call on the president, the prince and princess motered to the home of Henry C. Frick and thence to the home of W. J. Boardman to pay, brief calls. Miss Mabel Boardman, who was in the Taft Philippine party several years ago, was among those at the Montserrat station to meet the prince and princess as they stepped from their private car.

Much of the pleasure of the trip was marred by a drizzle, which continued from the time the party left Boston until it returned. It failed to dampen the good spirits of the princess, who kept smiling all the time as if she was enjoying the trip immensely. She was handsomely gowned in white crepe do chine, with a cloak of ecru-colored Japanese silk, trimmed with sapphire blue fringe and tassels.

The cloak was the admiration of all the women who saw it as the princess entered and left the train at the Montserrat station, where a number of sightseers gathered to see the first royal visitors at Beverly this year.

WILL NOT TAKE CHANCES

No Mail Delivery at Residences Where Vicious Dogs Roam at Large

Washington, Sept. 11.-Mail carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large. As a protection to mail carriers, the following regulation has been adopted by the postoffice department:

"Carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large. Persons keeping such dogs must call at the postoffice for their mail.'

Drowned In Two Feet of Water Ashland, N. H., Sept. 11 .- Arthur Fugere, aged 55, a native of this town, was drowned in two feet of water on the shore of Squam lake. It is supposed that he lost his balance and fell from a landing into the water, striking his head on the bottom of the lake with sufficient force to render him unconscious.

Tips From Agricultural Commissioner Augusta, Me., Sept. 11.-Marked indications of an upward trend in Maine farm life and the importance and necessity of agricultural and industrial instruction in the Maine public schools are the keynotes of thought expressed in a report by State Commissioner of Agriculture Gilman.

Young Hunter Instantly Killed Calais, Me., Sept. 11 .- Paul Eye of this city, aged 12, was accidentally shot and killed at Woodland while hunting with a party of young friends. A bullet from a 22-calibre rifle entered his forehead, causing instant death.

OPENS BRANCH OFFICE.

Almost everyone has heard of or knows something of The Prudential Insurance Company of America, Home Office, Newark, N. J., often called the Gibraltar life insurance company, because of its use of the Rock of Gibraltar as a trade-mark.

This big company has established a branch office in this city and is conducting business in both branches of insurance, Industrial and Ordinary. insurance was unknown in the United States. Introduced on this continent by John F. Dryden, founder and present chief executive of The Prudential, the Industrial plan at once found favor with the public.

The premiums are collected weekly from the homes of the insured and much of the thrift and economy of the wage-earning population may be traced to Industrial insurance. The habit of saving required to meet the weekly premiums unconsciously, but surely, inculcates similar habits of thrift and saving in other directions.

In extending its field of operations to this city The Prudential offers a splendid opportunity for our young quick if hustle and ability are shown.

REGISTRATION.

The first meeting of the board of Registrars to revise the voting lists was held Friday evening in the Council Chamber at City Hall. Twentyone names were added as follows: Ward 1 precinct 1, three; Ward 1 pre-Address by N. cinct 2, seven; Ward 2, precinct 2 two; Ward 3, precinct 1, three; Ward 3, precinct 2, two; Ward Four, precinct 2, two; Ward 5, precinct 2, two.

He met him at the beach and asked if he could get him some booze. McNamara replied "yes give me your money." Officer Donovan said that he handed him 60 cents and that he en- all. tered Dingee's place and in a few minutes returned with a pint of whiskey. Again on Aug. 29 and Sept. 1, he gave McNamara 60 cents and a few minutes later was handed a pint of whiskey. On these occasions other officers testified that they saw Mc-Namara enter the studio of Dingee and come out again a few minutes later and hand over the liquor.

The claim set up by the defense was that McNamara and Dingee were runners for Murray.

When the case against Murray was called McNamara and Dingee were used as witnesses against him. After hearing the evidence the court discharged McNamara and Dingee and fined Murray \$75.

SYNOPSIS.

CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he be-lieves to be an adventurer. II—Be-fore leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar rethe dinning room he sees Calendar receives a note of warning from a fashfonably dressed woman. He is then
asked by the American, who admits
without giving a reason that he fears
arrest, to escort his young and beautiful daughter home. Kirkwood consents. III—Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house. Heavy raps at the front door startle the two 'V-Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen in love with the girl, flee from the mysterious house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters the house to learn whether Calendar is there. He meets Mrs. Hallam and recognizes her as the woman who warned Calendar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam house in search of Dorothy. Kirkwood accompanies him at his request to an unsavory locality on the Thames. VIII-Calendar meets his daughter in the company of a an' never was, an' never will be!" man named Mulready, evidently his companion in some strange nefarious enterprise Mulready, it seems, has tried to kidnap Dorothy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his else? way in a cab to St. Paneras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy, XX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in Frognall street. He enters the house to seek his missing purse and finds the young man whom he had knocked down still unconscious after six hours. Kirkwood's ministrations to knowledge that he had dared greatly him are interrupted by the entrance into the for nothing. But for the necessity of you" house of a woman in evening dress. XI and keeping up before Stryker and his XII-The woman is Mrs. Hallam, and the crew the young man felt that he could injured young man is her son. She tell Kirkwood that Dorothy, Calendar and Mulready left to her son by his relatives, Colonel Burgoyne. Calendar, she says, is her late husband's cousin. The jewels are in the black an unaccustomed impulse of compasbag. Mrs. Hallam declares. Kirkwood doubts sion, which, however, he artfully conher story and suspects that Dorothy is an cealed. Blandly ironic, returning to innocent partaker in some mysterious plot. his impersonation of the shopkeeper, He decides to defend the girl. XII—The next "Nothink else we can show you, sir?" morning Kirkwood in a rowboat, with two he inquired. watermen, searches the Thames in vain for "I presume you couldn't put me the Aletnea. The boatmen take him to Woolwich on his way to Shearness to inter- ashore," Kirkwood replied ingenuously. cept the Alethea. XIV-On the train to Sheerness Kirkwood meets Mrs. Hallam, bent ed him his back. "'Ere, you," he calllike himself, on finding Calandar. She tries ed to one of the crew, "tyke this awye! to get his aid, but he refuses. He eludes her Tyke 'im below an' put 'im to bed; at Sheerness. XV-In the distance he sees give 'im a drink an' dry 'is clo's. vessell which he believes is the Alethea. Mebbe 'e'll be better when 'e wykes After a struggle with a covetous boatmen, who steals his watch and chain, Kirkwood knocks him overboard into his dory and seizes his cathoat to sail to Alethea. XVI- an' no 'ope for 'im." Kirkwood is nearly drowned when the eatboat sinks and reaches the Althea only to be told by Captain Stryker, a facetious ruffian. that the vessel carries no passengers.

(Continued from yesterday.)

"Yes; your passengers. I presume they're below"-"Passengers!"

in pitiful pleading, and Stryker looked

round him blankly. "Where's Miss Calendar?" the young man demanded sharply. "I must see

The keen and deep set eyes of the Kirkwood's perturbed countenance. 'Wot're you talkin' about?" he demanded brusquely.

"I must see Miss Calendar or Calendar himself or Mulready." Kirkwood paused and, getting no reply, grew restive under Stryker's inscrutable regard. "That's why I came aboard," he amended, blind to the absurdity of the statement, "to see-er-Calendar."

"Well, I'm d-d!" Stryker managed to infuse into his tone a deal of suspicious contempt.

Judging from the incessant rolling and pitching of the brigantine, the stood it as long as he could, then surskipper clouded as they returned to crashing thunder of seas upon her rendered with an "If you've got any sides, the eldritch shrieking of the gale, more of that tobacco, captain, I'd be as well as from the chorused groans glad of a pipe." and plaints of each individual bolt and timber in the frail fabric that housed sion crept into the captain's small blue his fortunes, the wind had strength- eyes. ened materially during his hours of forgetfulness, however many the latter might have been.

A wild night, certainly. Probably by that time the little vessel was in the middle of the North sea, bound for Antwerp.

The first color of resentment ebbing "Why?" insisted Kirkwood, nettled, from his thoughts left him rather interested than excited by the prospect. "D'you mean to tell me you come off He found that he was neither pleased nor displeased. He presumed that it money on personal belongings in Antwerp than anywhere else. It has been "Well!" cried Mr. Stryker, rubbing observed that the first flower of civare. You might try next door, or I pledge of his signet ring, scarfpin, him with money enough for a return A giggle from his audience stimulat- to London by third class, at the worst.

other matter, the Calendar affair, he presumed he was well rid of it-with a sigh of regret. It had been a most enticing mystery, you know, and the woman in the case was extraordinary,

to say the least. The memory of Dorothy Calendar made him sigh again. And he sat up bumped his head, groped round until his hand fell upon a doorknob, opened the door and looked out into the blowzy emptiness of the ship's cabin proper, whose gloomy confines were made visible only by the rays of a dingy and smoky lamp swinging violently in gimbals from a deck beam.

Kirkwood's clothing, now rough dried and warped wretchedly out of shape, had been thrown carelessly on a transom near the door. He got up, collected them and, returning to his berth, dressed at leisure, thinking heavily, disgruntled-in a humor as evil as the after taste of bad brandy in his mouth. He had slept away some eighteen or twenty hours. He felt stronger now and bright enoughand enormously hungry into the bar-

Abstractedly, heedless of the fact that his tobacco would be water soaked and ruined, he fumbled in his pockets for pipe and pouch, thinking to soothe the pangs of hunger against breakfast time. His pockets were empty-every one of them. He assimilated this discovery in patience and cast an eye about the room, to locate, if possible, the missing property. But naught of his was visible. So he rose and began a more painstaking search.

The cabin was at once tiny, low ceiled and depressingly gloomy. Its furniture consisted entirely in a chair or two, supplementing the transoms and lockers as resting places, and a center table covered with a cloth of turkey red, whose original aggressiveness had been darkly moderated by libations of liquids, principally black coffee and burnt offerings of grease and tobacco ash. Eight bells sounded, and, from the commotion overhead, the watch changed. A little later the companionway door slammed open and shut, and Captain Stryker fell down, = rather than descended, the steps.

Without attention to the American he rolled into the mate's room and roused that personage. Kirkwood heard that the name of the second in command was 'Obbs, as well as that he occupied the starboard stateroom aft. After a brief exchange of comment and instruction Mr. 'Obbs appeared in the shape of a walking pillar of oilskins, capped by a sou'wester, and went on deck. Stryker, following him out of the stateroom, shed his own oilers in a clammy heap upon the floor, opened a locker, from which he brought forth a bottle and a dirty glass, and, turning toward the table, for the first time became sensible of Kirkwood's

"Ow, there you are, eigh, little bright eyes!" he exclaimed, with surprised animation. "Good morning, Captain Stryker,"

said Kirkwood, rising. "I want to tell But Stryker waved one great red paw impatiently, with the effect of

sweeping aside and casting into the discard Kirkwood's intended speech of "Did you 'ave a nice little nap?" he

interrupted. "Come up bright an' smilin', eigh? Now I guess"-the emphasis made it clear that the captain believed himself to be employing an Americanism, And so successful was he in his own esteem that he could not resist the temptation to improve upon the imitation-"na-ow I guess yeou're abaout right ready, ben't ye, to-hev a drink, sonny?"

"No, thank you," said Kirkwood, smiling tolerantly. "I've got any amount of appetite."

"'Ave you, now?" Shryker dropped his mimicry and glanced at the clock. "Breakfast," he announced, "will be served in the myne dinin' saloon at eyght a. m. Passingers is requested not to be lyte at tyble."

Depositing the bottle on the said table, the captain searched until he ful prognosis of Captain found another glass for Kirkwood and

"Do you good," he insinuated, push ing the bottle gently over.

"No, thank you," reiterated Kirkwood shortly, a little annoyed.

Stryker seized his own glass, poured out a strong man's dose of the fiery which Kirkwood sought Stryker's eye ceptive-thin ice of despair over pro- concoction, gulped it down and sighed. found depths of exasperated rebellion. Then, with a glance at the American's Overhead on the deck a heavy woebegone countenance, he filled his

The fumes of burning shag sharpened the tooth of desire. Kirkwood

An intensely contemplative expres-

"I only got one other pyper of this 'ere 'baccy," he announced at length, "an' I carn't get no more till I gets 'ome. I simply couldn't part with it hunder 'arf a quid."

Kirkwood settled back with a hopeless lift of his shoulders. Abstractedly Stryker puffed the smoke his way until he could endure the deprivation no longer.

"I had about 10 shillings in my pocket when I came aboard, captain, and a few other articles."
"Ow. ves. so you ad, now you men. "Ow, yes; so you 'ad, now you men-

Stryker rose, ambled into his room and returned with Kirkwood's possessions and a fresh paper of shag.
While the young man was hastily filling, lighting and inhaling the first ing, lighting and inhaling the first strangling but delectable whiff the captain solemnly counted into his own palm all the loose change except three large pennies. The latter he shoved over to Kirkwood in company with a miscellaneous assortment of articles.

One Probable Cause of Peary's Delay in Labrador

NEWFOUNDLAND IS STIRRED

Seamen Who Are Supposed to Know Something About Stores Left For Cook Tell Varying Stories About Their Having Been Appropriated by Peary-Commander's Wife Thinks It Time For Him to Become Acquainted With His Family-Cook Has Assurance of Danish Sympathizers as He Leaves Copenhagen on His Journey Homeward

St. John's, Sept. 11.—Commander Peary is expected to sail from Battle Harbor, Labrador, where he has remained since last Wednesday, for North Sydney, C. B., today. The Roosevelt is at Battle Harbor and the wireless station at that point is still working overtime on Peary's detailed account of his far northern journey.

It is understood that Peary's long stay at that point is not so much for the purpose of coaling, but was decided upon as a stopping place where Peary could send the account of his trip to a syndicate of newspapers of which the New York Times is the

It is not known here what time Peary expects to reach North Sydney, but mariners acquainted with the Roosevelt do not look for her appearance at the Cape Breton port before Monday or Tuesday. Much will depend on the weather conditions in the strait of Belle Isle and upon the state of the vessel's machinery. Unless it is necessary to put into Blanc Sablon for a fresh coal supply Peary will possibly not stop at any port until he HERBERT A. HAYDEN reaches North Sydney.

The Peary-Cook controversy is of intense interest throughout Newfound-Office at C, F. Pettengill's, 1391 Hancock land, and while the majority of the people favor Peary, there are some who criticize him.

Captain Moses Bartlett of Brigus, who commanded Dr. Cook's schooner, Have your Clothes Washed by the John R. Bradley, which was fitted out at Gloucester, Mass., in 1907, issued a public statement as follows:

"Dr. Cook is correct in stating that Peary took his provisions after the steamer Erik returned to Brigus last fall. Three of her crew who belonged to Brigus told me that when Peary arrived at Etah that summer he took possession of all the stores I had left there the previous fall for Cook, of course it could be entered by its against his return from the north. Those men say they helped to move the stuff from where I left it. They are now on the Labrador coast.

"This supply consisted of two dory loads of stores, food and kerosene, which our crew piled on the beach, and then placed the dories over them bottom up, piling stones around and above them to make a cache.

At Annatook, thirty miles north, where Cook landed, I had previously put ashore two years' supplies for Cook and five tons of hard coal. The Any work in this line will be John R. Bradley was laden with stores and ten tons of hard coal. When Cook landed we gave him half the coal and the stores, except what we required to bring us home. Cook could not steal Peary's provisions because Peary had none on any part of the coast, having used up all the pro-Automobile and Bicycle Tires visions left there by previous expeditions in his 1905-06 trip."

Richard Pike, chief engineer of the steamer Erik, which served as an I have as good a Vulcanizing outfit as can auxiliary vessel for Peary last year by e found in any of the Boston Vulcanizing conveying stores and coal to Etah to supplement those on the Roosevelt, Molds to fit any size easing. Tubes Vulca-said that Peary did not take Cook's provisions nor were they put on board of Peary's ship. Pike said:

"Peary left two men of the Roosevelt, the boatswain and one fireman, with the immense accumulation of supplies he left at Etah when the Roosevelt went north and the Erik came south. These men, apparently in mistake, took some of Cook's stores that were also cached there."

Another member of the Erik's crew, who refused to have his name published, said that the stores were taken by an understanding with Francke, Cook's assistant, in part payment for his passage from Etah to the United States. The stock of ivory, furs, skins and curiosities which Francke and Cook had accumulated were accepted as the equivalent of passage money. The seaman said at that time Cook was regarded as dead, as he belongings were regarded as legitimately available for this purpose. Francke, the story goes, was given to understand that in return for these sailed. Shortly before 4 o'clock gifts, a relief expedition would be or- three motor cars appeared. Dr. Cook ganized as a sort of sideline by the Roosevelt's crew to search for Cook first and various officials were in the and bring him back should he have others. The people broke through been found alive.

"Hudson-Fulton celebration comclub's steamer with North Pole in naval parade. Heary congratulations.

The probability is. Bridgman says that the Roosevelt easily will reach New York in time to participate in the festivities. Questioned concerning the report that the yacht John R. Bradley, which conveyed Dr. Cook to Greenland, would be in the parade, Bridgman said it had been sold, but place in the parade, the Roosevelt certainly would not participate.

COOK LEAVES COP NHAGEN

Explorer Given a Generous Sendoff as He Starts For Home

Copenhapen, Sept. 11.-Dr. Frederick A. Cook has left Copenhagen on the first stage of his journey nomeward, apparently happy and confident and with the cheers of a great crowd ringing in his ears. Formal farewells were exchanged between Cook and committees of the Geographical society and the University of Copenhagen. As he departed the explorer stood alone on the high bridge of the yacht Melchior, which took him to Christiansand, raising his hat in response to the shouts of the

The yacht arrived at Christiansand today at noon, where the steamship Oscar II started for the United States as soon as Cook had been transferred to her deck. The Oscar L will arrive at New York on Sept. 21.

Before the gang plank of the Melchior was drawn up there was a pleas-Cook for returning to the United States under the Danish flag. "Greenwork, but we in Denmark believe in Other days admission charged. you absolutely.'

"I want to thank you," said Cook in reply, "for the great honor that is mine in going home on a Danish steamer. Since I cannot reach home on an American steamer or an expedition vessel, it is fitting that I should go on a steamer of the land which has given me such happy days. You have made my return so happy that the tortures of the past are forgotten. You have been my friends; you have fought my battles. With a had been missing, and his stores and full heart I say farewell to the people breakfasted and thence started to exof Denmark."

The water front was crowded for an hour before the vacht Melchior and Commander Sverdrup were in the the police barriers as the cars were passing and women threw flowers at Cook. THE SATURDAY

Makaria Puts Up Great Game at Melrose. Other Games

The protested game in the Old Colony league between the Rocklands and Quincys was played Saturday afternoon on the Water street grounds, the home team retaining their late reputation by losing by a score of 3 to 0.

The attendance at the game was not as large as usual for the local fans do not care to attend unless the home team win once in a while. Of late the Quincys have been going down the toboggan slide and unless they take a brace will end the season at the botom of the list. In Saturday's game there were a number of new men in the Quincy team but they did not show up particularly well. The score by innings:

Rockland 0 1 0 0 0 1 0 0 1-3 8 1 Batteries, Martin and Smith; Patterson and

MAKARIA 9 BARRY 6.

At Melrose Saturday Makaria defeated the fast Barry team of that city and broke the long string of victories to its credit. The team had won 16 straight games until Saturday when Makaria walked in to their record good and hard. The features of the 40c game were the pitching of Michael, who held the home team down to four hits, only nineteen men forcing him in the first six innings.

The hitting of Makaria was timely and generous. McKenzie led with our out of 4, two baggers, and Ganzel had three out of 4. One a two bagger. Castlee had two, one being a double and Tupper landed two.

Makaria played a much more snap by game than the score would indirate as the rough field and the poor ground rules accounts for five of the six runs scored by the Barry's. Mc-Mullin was retired in the seventh and Joe Harris, of Boston Americans fame, went in to pitch. He was wild, to say the least, as the boys scored one run and two hits off him in the

second innings. Drake pitched the last innings and only three men pased him. Curtis as isual saved a rally in the ninth. G McMullin hit to left for what looked good for about three bases but Hovey was there with the goods and it was sure out after a grand stand catch. Again in the ninth he landed the second out by catching a bad foul in the trees. The score.

9 down

The opening game of soccer foot ball in Quincy was played Saturday between the two old rivals the Mc Gregors and Fore River. Unfortunately Quincy is not to be represented in the soccer league this season but that will not prevent some good games be-

ing played in this city. Saturday's game was a hot one and resulted in a tie. Both sets of forwards did some fine work and the battle was a royal one from start to o finish. The summary:

AUGUST WEATHER.

Reported by L. A. Wells of the Blue Hill Observatory.

Characteristic summer weather prevailed during August with normal temperatures and about the usual total rainfall. The highest temperature reached was 93 degrees on the 8th and the lowest was 47 degrees on the 31st. The drought of July continued during the first half of August but was effectually broken by the rains of the 17th and 18th. The total rainfall of the month was 4.22 inches and fell on nine days. On the 17th 2.15 inches, or more than half the monthly total, was recorded and this is the greatest daily rainfall since

Sept. 29, 1907. There was less cloudiness than usual and the total amount of sunshine of 267 hours was 34 hours more than the average, while the mean relative humidity was the lowest on record for August. There was more than the customary amount of wind and the maximum velocity was 48 miles per Woburns by a score of 4 to 1. The hour from the northeast on the 17th. The prevailing wind direction was northwest which is unusual for 3 0 0 0 0 0 1 0 -4 8 2 August when it is commonly from the 0 0 0 0 0 0 0 1 0-1 4 2 southwest. Thunderstorms occurred Batteries, Harrington and M. Doherty; Ford on the 20th and 29th, the latter being and Whitney.

CUP PRESENTED.

Quincy Yacht Club Challenge Cup Now With Boston Club.

The formal transfer of the Quincy Yacht club challenge cup to the Bos tended the picnic of the apprentices of ton yacht club took place Saturday the General Electric Co., at Wakefield evening at the Hull club house of the Saturday and brought home most of Boston club. The fleet officers of the Quincy club left the club float early Not only did they win the 100 yard in the evening in the launch Lady dash, 440 yard run and two par, mile May, having with them the coverted boat race but they also captured the cup, which the Ellen of the Boston ball game by a score of 8 to 3. The club had won in the series of races

After the banquet given to the fleet officers of the two clubs, the cup was 0 1 0 0 4 2 1 0 0-8 11 2 turned over to the keeping of the Boston club by Commodore Robbins. It was accepted by Commodore Douglas of the Boston club, who briefly responded. Walter Burgess the toast R. A.; Casey, F. R. A., second. Time master then introduced the several Rear Commodore F. F. Crane, and Ex-Commodores Eben W. Sheppard and Fred B. Rice of the Quincy club, and C. P. Curtis the owner of the Ellen and who sailed her to victory.

It is probable that the trophy will again be challenged for by the Quincy club next season, and that a great effort will be made to bring it back

YOM KIPPUR.

New Year Celebration by Jews Begins Wednesday.

Quincy Jews, in common with the 100,000 Jews of greater Boston will assemble in their synogogue at sunset Wednesday to welcome in their new year, 5670, in the Jewish calendar. Solemn and impressive are the ceremonies that will usher in Yom Kipper, the Day of Atonement.

PERCENTAGES OF THE IRIS

Three Championships Result of Season's Racing

The Y. R. A. of M. percentages for the yachting season just closed, as given out by A. T. Bliss, secretary of the association, show that Quincy boats showed up well, particularly the speakers of the evening who included Iris who won the championship in class D. She had fifteen starts and won 1174-6 percent, an average of 75 percent. The standing of the yachts of this class was as follows:

Cent 15 1174 6 78 3 Arawak, Henry C. Nickerson Emeline, Herbert W. Robbins 14 893 6 63 8 Busy Bee, Walter J. Coombs 14 794 7 56 Hustler, Robert J. Carpenter Josephine, Tupper & Hardwick 11 517 8 47 (Almira, Ira M. Whittemore 13 595 1 45 Strideaway, W. A. Tillotson 10 418 0 41 9 Mudjekeewis, Edgar W. Emery. 1 74 4 7 Dolly II, Wallace W. Arnold C C, George H Cary

The Iris was also a winner in the nterclub series of races with 47 points with the Emeline of Commodore Robbins second with 40 points. In class A the championship goes to the Alpha of the South Boston club made vacant by the resignation of with 52 points while the Thordis of Commodore Dawes of he Wollaston club was second with 44 points. In class S the Zoe of the Wollaston club owned by F. Stuart won the championship with 51 points and the Peter Pan second wih 50 points. The summary of Class D was as follows:

CLASS D, CATBOATS. Iris, F. F. Crane Emeline, H. W. Robbins Hustler, R. J. Carpenter Busy Bee, W. Coombs Almira, I. M. Whittemore Josephine, Tupper & Hardwick 24 Arawak, H. C. Nickerson Strideaway, W. A. Tillottson 14

Not only did the Iris win the championship in the Y. R. A. and Interclub series but she also won the cock-of-the-walk penant in the races and Fotis Emanuel at Brockton. of the Quincy yacht club. Rear Com modore Crane certainly has every rea son to feel proud of the work of his boat this season, and as he announced himself, when presented with the Quincy yacht club penant it was the No matter what other part of house proudest time of his life. Rear Commodore Crane is a thorough sportsman and when Commodore of the Quincy club did much to encourage

good sport. All of the prizes captured by the Iris the past season have been placed on exhibition in the office window of Rear Commodore Crane ,on Temple street and make a very pretty pic-

GOOD FISHERMAN.

Word was received from Harris Landing, Me., this morning to the effect that C. F. Pettengill had made record catch of salmon, when he landed a beauty that balanced the scales at 10 1-2 pounds. This beats the record of the season. The best previous record was a 10 1-4 pound salmon taken from Rangely lakes. It took Pet half an hour to land his catch. He has also made a great record at trout fishing. No one would

ever suspect that he was a fisherman MISS ALICE FOLEY Teacher of Singing

OUTING AT QUINCY.

Employes of Oliver Ditson Co., Have Dinner and Sports in Quincy.

The annual outing of the employes of the Oliver Ditson Co., of Boston was held Saturday afternoon at Music hall Atlantic. It was planned to hold the outing a Merry Mount park, permission of the Park Commissioners having been obtained for that purpose. The storm of the morning made the field so damp however that it was decided, to hold the outing at Music

About 250 were in attendance, including the officers of the company and Mayor Shea who were the guests of the day. Dinner was served early in the afternoon after which there was a series of sports on the playground near the depot. These included a ball game between the married and single men which was won by the single men with a score of 5 to 3. The

field sport resulted as follows: Potato race, won by Brown; threeegged race won by Fitzgerald and Gilchrist; 75-yard dash, won by Gilchrist; 50yard dash, won by Adams; pie-eatng contest, won by McCormic: relay race, won by Brown, Adams, Barry and McGee.

NEW TREASURER.

Special Meeting of the Granite City Club Saturday Night.

A special meeting of the Granite City club was held Saturday evening to fill the vacancy in the office of treasurer, caused by the death of W. W. Ewell. John Q. Cudworth was elected to fill the vacancy. The office of member of the House Committee Mr. Cudworth was filled by the election of Mark L. Read, Jr.

S. G. EMANUEL.

Word was received last week by ablegram of the death at Constantitople of S. G. Emanuel of the candy store in City square. Mr . Emanuel who has been ill for several montas decided to go home to Greece and in his journeyings reached Constantinople where he died on Friday. He was born at Sparta, in which city he will probably be burled. He came to Quincy fifteen years ago and has since been located here and in Brockton doing a large candy business in both cities. He is survived in this country by two brothers with whom he was associated in business, one in this city

The deposed Shah of Persia wil have to wabble along on a pittance of only \$180,000 annually. No wonder he is revising his harem downward.

Concrete fences for baseball parks is the latest suggestion. That would not be fair to the great American small boy.

Great things come in bunches nowadays. It will soon be quite possible to aviate to the north pole, in all probability.

"A New Jersey Woman laughed at her husbands efforts to commit suicide, says the Savannah Press. That was heroic treatment, of course, but we oan think of nothing more likely to correct a trouble of that kind.

The desire to Postmaster Genera Hitchcock to eliminate the annua postal deficit does him credit, and it is hoped that he will not abandon hi purpose.

It is said that this year's cranberry crop will be a record breaker whereas and whereupon, we suppose, the turkey crop will be something more than a bank account breaker.

How much longer are Quincy people going to put up with the poor service of the baggage room department at the Quincy depot? Any old time rather than prompt service seems to be the rule.

It is to be hoped that the exper ence in the discovery of the pole will not be repeated when Mars is reached. Percival Lowell of Boston and Prof. Todd of Amherst college have focused their telescopes on Mars for years and some day will have something worth while to report.

It is said that more than passing mention should be made of the poor service on the Houghs Neck line of electrics. When it takes as long to go to Houghs Neck as it does to Dudley street there is certainly something wrong which should be remedied. A passenger Saturday afternoon said took 50 minutes from City square to reach the Houghs Neck terminus. A system of block signals below Quincy woods would be a saving of time.

SEX AND WAGES.

Women ticket agents on the Chicago elevated road have declined an advance in pay. They found that when their wages reached \$2 a day the company proposed getting rid of them and employing men in their places. Therefore when a small increase was granted them that moved them a notch nearer the \$2 rate and industrial death they promptly declined to accept the sum offered. Rather than get larger pay than common for a week For sale at every Drug Store in or two and then lose their jobs they put up cheerfully with what they have been getting, in the hope that the job will last. Women working in Brock ton shoe factories do not have to sub mit to such competition with men that in order to hold their places they have to agree to cut prices on their work; they have their own duties to perform and they receive high wages and in sist on getting them. In this Chicago instance is apparently the same old story that women have faced for so many years ,of being accepted as workers simply because they would take less wages than men; and they are-in Chicago-content to accept work for the lower pay, realizing that there is no other way in which they can hold their jobs. It is an example of how badly some industrial affairs in this world work out for both ,the women underpaid, and the men driven out of jobs because they wouldn't work at the prices the elevated people were willing to pay.-Brockton Enterprise.

-The Waltham board of health has unanimously adopted a report of a special committee recommending that the aldermen be asked to appropriate money for a hospital for tuberculous patients. The board of health believes \$10,000 will be sufficient.

NEW LABOR ORGANIZATION.

less interested in a unique little labor organization recently formed in Malden among women who do housework by the hour. The first object of the organization is to protect the woman who goes from house to house to gain a livelihood and who often, it cannot be denied, meets with rather unsisterly, not to say inhuman, treatment at the hands of the more forunately placed women. Their denands are a minimum wage scale of 20 cents an hour; a working day of not less than five hours ; substantial meals at regular hours while employed and car fares in addition to wages when employment is at greater than walking distance. They promise in return-competent workers, no intemperate or untrustworthy women, no cribbing of time or stretching of short jobs, and the furnishing of a substitute when regular employee annot work. They attempt to exact nothing that the reasonable human eing is not ready to give in return or competent service, and their uarantee leaves little to be desired Their plan and its principles could e established in other cities and towns with benefit to employer and employee. Women sometimes lose all patience and close their doors against all sorts of houseworkers, doing it themselves in preference to seeing i half done the while their home suffered and they pay the price of competent labor. The woman who wil organize a union of day houseworkers in cities and towns throughout the State on the basis of the one outlined above and hold both sides responsible will be conferring a favor on humanty that is bound to have beneficial reults far outreaching the scope intend-

TRI-CLUB CUP MEET.

ed .- Framingham News.

At the Weymouth Fair next Thursday there will be great rivalry between the Brockton, Dorchester and Old Colony Driving Club which have entered 40 horses in the "Tri-Club Cup Meet" in mile and half mile heats.

The fair will continue three days and other features will be base ball, nusic, stage shows and balloon ascensions. Take electric cars via. East Weymouth, or train to South Wey-

his way, owing to the faulting of the trail by the movement of the ice.

fuel and alcohol. The wind continued forming open water all about us. At the end of the fourth march we came mained here from March 4 to March

shaped like a football by excessed rehorizon for a few minutes, and then time I had seen it since Oct. 1.

Across 84th Parallel

Daily Double March of Fatigued Fortunately, on March 11 the lead was practicable, and leaving a note for Marvin and Borup to push on after us by forced marches, we proceeded Copyright, 1909, by The New York northward. The sounding of he lead gave 110 fathoms. During this march we crossed the 84th parallel and traversed a succession of just-frozen leads Marconi Wireless, Cape Ray, N. F.) from a few hundred yards to a mile in Sept. 12 .- The steamer Roosevelt, width. This march was really simple. bearing the North Polar expedition of

On the 14th we got free of the leads and came on decent going. The temperature was 59 below.

The following morning I sent Han-Aug. 18, 1908, setting the usual course for Cape Sabine. We had on sen with his division north to pioneer a trail for five marches, and Dr. board twenty-two Eskimo men, seventeen women, and ten children, 226 Goodsell, according to the program, started back to Cape Columbia. At night Marvin and Borup came spin-From Sape Sabine north there was ning in with their men and dogs clean open water to Cape Albert, and steaming in the bitter air like a squadfrom there scattered ice to a point ron of battleships. Their arrival reabout abreast of Victoria Head, thick lieved me of all anxiety as to our oil weather and dense ice bringing us From here we drifted south some-

In the morning I discovered that McMillan's foot was badly frostbitten. A glance at the injury showed me that the only thing was to send him back to Cape Columbia at once. The arrival of Marvin and Borup enabled me to spare sufficient men and dogs to and eighteen dogs. go back with him.

This early loss of McMillan was separallel: but there was no alternative.

lected, and the sledge loads brought up to the standard. The sounding and a quarter and had covered a disgave a depth of 325 fathoms. We were over the continental shelf, and, as I had surmised, the successive leads Land to Cagni's farthest north. crossed in the fifth and sixth marches composed the big lead and marked the continental shelf.

Ice Begins to Move

On leaving this camp the expedition comprised sixteen men, twelve sledges and 100 dogs. The next march was satisfactory as regards distance and character of going. In the latter part there were pronounced movements in the ice, both visible and audible.

At the end of the tenth march, latitude 85.23, Borup turned back in command of the second supporting party, having traveled a distance equivalent to Nansen's distance from this far to his farthest north.

From this point the expedition comprised thirteen men, ten sledges and seventy dogs. It was necessary for Marvin to take a sledge from here, and I put Bartlett and his division in advance to pioneer the trail.

I had no reason to complain of the going for the next two marches, though for a less experienced party, less adaptable sledges, or less perfect equipment it would have been an impossibility.

Last Words to Marvin

At our position at the end of the second march Marvin obtained a satisfactory sight for latitude in clear weather, which placed us at 85.48. On the next two marches the going improved, and we covered good distances. In one of these marches a lead delayed us a few hours. The next day Marvin obtained another satisfactory sight on latitude, which gave the position as 86.38, or beyond the farthest north of Nansen and Abruzzi. and showed that we had covered fifty minutes of latitude in three marches. In these three marches we had passed the Norwegian record of 86.14 by Nansen and the Italian record of 86.34 by Cagni.

From this point Marvin turned back in command of the third supporting party. My last words to him were: "Be careful of the leads, my boy."

The party from this point comprised dogs.

ing the fall and winter instead of The north march was over good going, but for the first time since leavous season, led me to expect less ing land we experienced that condiopen water than before, but a great deal of rough ice, and I was prepared a hazy atmosphere in which the light a board, and as hard. to hew a road through the jagged ice is equal everywhere. All relief is for the first hundred miles or so, and destroyed, and it is impossible to see

away on Bartlett's trail, and I for his party, fagged out and temporarily on the trail again. As the going was A few hours later we arrived at discouraged by the heart-racking now practically horizontal, we were Crane City, under the bluffs of Cape work of making a road. I rallied unhampered and could travel as long Columbia, and after putting four members of the expedition, seventeen them a bit, lightened their sledges, and sent them on encouraged again.

A Narrow Escape

During the next march we traveled through a thick, low-lying, smoky snow, and temperature in the minus haze drifting over the ice before a marked our departure from the camp biting air from the northeast. At the christened Crane City. In the sec- captain camped beside a wide open ond march we passed the British lead with a dense black water sky record made by Markham in May, northwest, north and northeast. We 1876-82.20-and were stopped by built our igloos and turned in, but open water, which had been formed before I had fallen asleep I was The weather and going were even by the wind after Bartlett passed. In roused out by a movement of the ice this march we negotiated the lead and and found a startling condition of afreached Bartlett's third camp. Borup fairs- a rapidly widening road of had gone back from here, but missed black water ran but a few feet from our igloos. One of my teams of dogs had escaped by only a few feet from Marvin came back also for more being dragged by the movement of the ice into the water.

Another team had an equally narrow escape from being crushed by the ice upon Bartlett, who had been stopped blocks piled over them. For the rest by a wide lake of open water. We re- of the night and during the next day the ice suffered the torments of the damned, surging together, opening At noon of March 5 the sun, red and out, groaning and grinding, while the open water belched black smoke like a more, the air, the sky, and the bitter flection, just raised itself above the prairie fire. Then the motion ceased; wind burning the face till it cracked. the open water closed; the atmosphere disappeared again. It was the first to the north was cleared, and we of Greenland. Even the natives comrushed across before the ice should open again.

The next march gave us a straight way of six miles to the north. Then with hard snow. This was a good long march.

The next march was also a long one. It was Bartlett's last hit. He was very solemn and anxious to go further, but the program was for him to go back from here in command of the fourth supporting party, and in the main party.

Bartlett's Far North

Bartlett took a satisfactory observa- party. tion for latitude in clear weather, and that showed that the continued north | the march. wind had robbed us of a number of miles of hard-earned distance.

Bartlett took the observation here, as had Marvin five camps back, partly to save my eyes, but largely to give an independent record and determination of our advance. The observations completed and two copies made, one for him and ther other for me, Bartlett started on the back trail in for twenty years, mine at last! command of my fourth supporting party, with two Eskimos, one sledge

When he left I felt for a moment pangs of regret as he disappeared in riously disappointing to me. I had the distance, but it was only moconfidence in him for at least the 86th mentary. My work was still ahead, not in the rear. Bartlett had reason The best sledges and dogs were se- to take pride in the fact that he had bettered the Italian record by a degree tance equal to the entire distance of the Italian expedition from Franz Josef

The Lucky Five

the disappearance of B turned to the problem before me. For success now, in spite of my years. I felt in trim-fit for the demands of the coming days and eager to be on the trail. As for my party, searching for a practicable place to my equipment and my supplies, I was make a sounding. in shape beyond my most sanguine dreams of earliest years. My party might be regarded as an ideal which from our left, and from that time unhad now come to realization-as loyal til our departure in the afternooon of and responsive to my will as the fingers of my right hand.

Four of them carried the technique of dogs, sledges, ice and cold as their the maximum 12. heritage. Two of them, Hansen and Ootah, were my two companions to the farthest point three years before. Two others Egingwah and Sigloo were in Clark's division.

The fifth was a young man who had never served before in any expedition, but who was, if possible, even more willing and eager than the others for the princely gifts-a boat, a rifle, a shotgun, ammunition, knives, etc .which I had promised to each of them who reached the Pole with me; for he knew that these riches would enable him to wrest from a stubborn father the girl whose image filled his hot young heart.

He Plans Five Marches

I had no fault to find with the conditions. My dogs were the very best, the pick of 133 with which we left Columbia. My supplies were ample for forty days, and with the reserve represented by the dogs themselves could be made to last fifty. While my men got their loads ready

for the next marches, I settled on my program. I decided that I should strain every nerve to make five marches of fifteen miles each, crowding these marches in such a way as to bring us to the end of the fifth long enough before noon to permit the im- a sounding. All my wire, 1500 fathmediate taking of an observation for latitude

Notches In His Belt

At a little after midnight of April 1, after a few hours of sound sleep, I hit nine men, seven sledges and sixty the trail, leaving the others to break up camp and follow. As I climbed the pressure ridge back of our igloos I set another hole in my belt, the third since I started. Every man and tion, frequent over these ice fields, of dog of us was lean and flat-bellied as

It was a fine morning. The wind my Eskimos had gone crazy. They of the last two days had subsided, and | yelled and called and danced themthe going was the best and most equa-

I set a good pace for about ten hours. Twenty-eight miles took me 1. The remainder of the party got journey. I came upon Bartlett and lel. A few hours' sleep and we were have come back so easily."

ten hours and were half way to the had at last our chance to sleep. eighty-ninth parallel.

The ice was grinding audibly in evat Cape Columbia, which I had end of the march we came upon the back into equilibrium and probably sagging due northward with its release from the wind pressure. Again there was a few hours' stop,

and we hit the trail before midnight. We marched somehing over ten

hours, the dogs being often on the trot, and made twenty miles. Nearing the Goal

We stopped in sight of the 89th parallel, in a temperature of 40 degrees below. Again a scant sleep and we were on our way once more and across the 89th parallel.

This march duplicated the previous one as to weather and going. The last few hours it was on young ice, and occasionally the dogs were galloping. We made twenty-five miles or It was like the great interior ice cap plained of the bitter air. It was as keen as frozen steel.

A little longer sleep than the previous ones had to be taken here, as we came more heavy old floes covered were all in need of it. Then on again. Ut to this time, with each successive march, our fear of an impassable lead had increased. But on this march, by some strange shift of feeling, this fear fell from me completely. The weather was thick but it gave me no uneasiness.

A rise in temperature to 15 below there were no supplies for an increase reduced the friction of the sledges, and gave the dogs the appearance of having caught the spirits of the

In twelve hours we made forty obtained for our position 87.48, and miles. There was no sign of a lead in

The Pole at Last!

I had now made my five marches and in time for a hasty noon observation through a temporary break in the clouds, which indicated our position as 89.57. I quote an entry from my journal, some hours later:

"The Pole at last! The prize of three centuries, my dream and goal cannot bring myself to realize it. "It all seems so simple and common

place. As Bartlett said when turn-

ing back, when speaking of his being in the exclusive regions which no mortal had ever penetrated before: "'It is just like every day!'" Of course I had many sensations that made sleep impossible for hours

despite my utter fatigue-the sensations of a lifetime; but I have no room for them here. The first thirty hours at the Pole were spent in taking observations; in going some ten miles beyond our cause, if any you have, why the same should not be granted. right of it; in taking photographs, planting my flags, depositing my records, studying the horizon with my

telescope for possible land, and

Ten hours after our arrival the clouds cleared before a light breeze April 7 the weather was cloudless and flawless. The minimum temperature during the thirty hours was 33 below

The Return Journey

We had reached the goal, but the eturn was still before us. It was essential that we reach the land before the next spring tide, and we must strain every nerve to do this.

I had a brief talk with my men. From now on it was to be a big travel little sleep, and a hustle every minute. We would try, I told them, to double march on the return-that is, that is to start and cover one of our northward marches, make tea and eat our lunch in the igloos, then cover another march, eat and sleep a few hours, and repeat this daily.

As a matter of fact we nearly did this, covering reguarly on our homeward journey five outward marches. Just as long as we could hold the trail we could double our speed, and we need waste no time in building new igloos.

In the afternoon of the 7th we started on our return, having double fed the dogs, repaired the sleds for the last time, and discarded all our spare clothing to lighten the loads. Five miles from the Pole a narrow

crack filled with recent ice, through which we were able to work a hole with a pickaxe, enabled me to make oms, was sent down, but there was no bottom. While the captain, Marvin, and,

as I found out later, Borup, had been delayed by open leads, we seemed to bear a patent charm, and at no single lead were we delayed more than a couple of hours. On April 23 our sledges passed up

the vertical edge of the glacier fringe a little west of Cape Columbia. When the last sledge came up I thought selves helpless. As Ootah sat down on his sledge he remarked in Eskimo:

The Devil Is Asleep "The devil is asleep or having trou-

as we pleased and sleep as little as pounds of pemmican into each of the we wished. We made twenty miles in faithful dogs to keep them quiet, we

Never shall I forget that sleep at Cape Columbia. It was sleep, sleep, ery direction, but no motion was then turn over and sleep again. Two visible. Evidently it was settling days we spent here in sleeping and drying our clothes. Then for the ship. Our dogs, like ourselves, had not been hungry when we arrived, but simply lifeless with fatigue. They were different animals now.

We reached Hecla in one march and the Roosevelt in another. When we got to the Roosevelt I was staggered by the news of the fatal mishap to Marvin. He had been either less cautious or less fortunate than the rest of us, and his death emphasized the risk to which we had all been subjected. The rest can be quickly told. McMillan and Borup had started for the Greenland coast to deposit caches for me. Before I arrived a flying Eskimo courier from me overtook them with instructions that the caches were no longer needed, and that they were to concentrate their energies on tidal observations, etc., at Cape Morris K. Jessup and north from there.

The Roosevelt's Cruise

These instructions were carried out, and after their return in the latter part of May McMillan made some further tidal observations at other points. The supplies remaining at the various caches were brought in, and on July 18 the Roosevelt left her winter quarters and was driven out into the channel and pack of Cape Union.

She fought her way south in the center of the channel and passed Cape Sabine on Aug. 8. We picked up Whitney and his party and the stores at Etah. We killed seventy-odd walrus for my Eskimos, whom I landed at their homes. We met the Jeanie off Saunders island and took over her coal and cleared from Cape York on Aug. 26, one month earlier than 1906.

On Sept. 5 we arrived at Indian Harbor, when the message: "Stars and Stripes nailed to North Pole, was sent vibrating southward through the crisp Labrador air.

In conclusion Peary praises the courage and skill of his companion explorers, Bartlett, Borup, Marvin, McMillan and Goodsell, and their Eskimo helpers.

GEORGE W. JONES

No. 1 Granite Street, Quincy

SYNOPSIS.

CHAPTER I-In London Philip Kirk-

wood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he be-lieves to be an adventurer. II-Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar receives a note of warning from a fash-ionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood consents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark ouse ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress. peared to wrestle with an obdurate The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two. V-Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen in love with the girl, flee from the mysterious house by the rear door. The girl takes with you'd escyped from 'is tender care her a small black gladstone bag, which, she but, findin' the world cold, chynged says, she is to take to her father. VI—In a cab Kirkwood escorts her to the house of a Without waiting for a really Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters door to. Kirkwood, divided between the house to learn whether Calendar is there. He meets Mrs. Hallam and recog- stumbling about for some time, and nizes her as the woman who warned Cal- then a hush fell, grateful enough whil endar in the hotel. As Kirkwood talks to her he hears a man leave the house Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam house in search of Dorothy. Kirkwood accompanies him at his request to an un savory locality on the Thames. VIII-Calendar meets his daughter in the company of a man named Mulready, evidently his compan ion in some strange nefarious enterprise Mulready, it seems, has tried to kidnap Dor othy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Pancras station, where he is to take the midnight train for his steamer He is now thoroughly in love with Dorothy, IX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in Frognall street. He enters the house to seek his missing purse and finds the young man whom he had knocked down still unconscious after six hours. Kirkwood's ministrations to im are interrupted by the entrance into the ouse of a woman in evening dress. XI and XII-The woman is Mrs. Hallam, and the injured young man is her son. She tell Kirkgood that Dorothy, Calendar and Mulready re engaged in a plot to steal family jewels left to her son by his relatives, Colonel Bur-

(Continued from yesterday.)

that the vessel carries no passengers.

goyne. Calendar, she says, is her late hus

He decides to defend the girl. XII-The next

morning Kirkwood in a rowboat, with two

watermen, searches the Thames in vain for

he Aletnea. The boatmen take him to

cept the Alethea. XIV-On the train to

Woolwich on his way to Shearness to inter-

at Sheerness. XV-In the distance he sees

vessell which he believes is the Alethea.

After a struggle with a covetous boatmen,

who steals his watch and chain, Kirkwood

knocks him overboard into his dory and

eizes his catboat to sail to Alethea. XVI-

Kirkwood is nearly drowned when the cat-

which the American picked up piece met his regard blandly.

"Anything I can do?" he inquired, in suave concern. "Why, there was a black pears

carfpin" gave that to me, 'count of me 'avin' imprisonment throughout the voyage, syved yer life. 'Twas me throwed you even to escape recognition. that line, you know."

"Oh," commented Kirkwood briefly. The pin had been among the most valuable and cherished of his belongings. tives so hot headed, so innately chiv-"Yes," nodded the captain in remi- alric, so unthinkingly gallant, so exniscence. "You don't remember? Likely 'twas the brandy singin' in yer 'ead. You pushes it into my 'ands-almost weepin', you was-an' sez, sez you, mon sense. "I couldn't leave her to 'Stryker,' you sez, 'tyke this in triflin' the mercies of that set of rogues. And toking of my gratichood; I wouldn't heaven knows I was given every reahinsult you,' you sez, 'by hofferin' you son to believe she would be aboard money, but this I can insist on yer this ship! Why, she herself told me acceptin', an' no refusal,' says you."

"Oh," repeated Kirkwood. one, an' I'm not the man to offend you."

"Oh. indeed." gulfed it noisily and got up.

"Guess I'll be turnin' in," he vol-

"I was about to ask you to do me a service," began Kirkwood. mockery.

Kirkwood quietly produced his cigar case, a gold matchbox, gold cardcase and slipped a signet ring from his finger. "Will you buy these," he asked, "or will you lend me £5 and hold them as security?"

Stryker examined the collection with exaggerated interest strongly tinctured with mistrust. "I'll buy 'em," he offered eventually, looking up. "That's kind of you"-

"Ow, they ain't much use to me, but Bill Stryker's allus willin' to accommodate a friend. Four quid, you

"They ain't wuth over four to me." "Very well. Make it four," Kirkwood assented contemptuously. The captain swept the articles into

one capacious fist, pivoted on one heel at the peril of his neck and lumbered the door, he turned back in inquiry. , "I sye, 'ow did you come to get the impression there was a party named Almanack aboard this wessel?"

"Calendar"-"'Ave it yer own wye," Stryker conceded gracefully.

"There isn't, is there?"

"You 'eard me."

"Then," said Kirkwood sweetly, "I'm sure you wouldn't be interested." The captain pondered this at leisure "You seemed pretty keen abaht seein' 'im," he remarked conclusively.

"Seems to me I did 'ear the nyme sumw'eres afore." The captain apmemory. "Ow!" he triumphed. "I know. 'E was a chap up Manchester peace. wye. Keeper in a loonatic asylum 'e was. That yer party?"

"No," said Kirkwood wearily. "I didn't know but mebbe 'twas Excuse me. Thought as 'ow mebbe but, findin' the world cold, chynged

Without waiting for a reply h lurched into his room and banged th amusement and irritation, heard hir

"Ow, there you are, eigh, little brig eyes !"

it lasted, which was not long, for no sooner did the captain sleep than a Sheerness Kirkwood meets Mrs. Hallam, bent penetrating snore added itself unto like himself, on finding Calandar. She tries the cacophony of waves and wind and to get his aid, but he refuses. He eludes her tortured ship.

Kirkwood, comforted at first by the blessed tobacco, lapsed insensibly into dreary meditations.

Of one or two things he was convinc ed-for one, that Stryker was a liar worthy of classification with Calendar oat sinks and reaches the Althea only to be and Mrs. Hallam. His impregnable cold by Captain Stryker, a facetious ruffian, conclusion was that those whom he sought had boarded the Alethea, but had left her before she tripped her anchor. That they were not stowed away aboard her seemed unquestionable. The brigantine was hardly large enough for the presence of three perby piece and began to bestow about sons aboard her to be long kept a sehis clothing. When through he sat cret from an inquisitive fourth—unless, back, troubled and disgusted. Stryker indeed, they lay in hiding in the hold, for which, once the ship got under way, there could be scant excuse. And Kirkwood did not believe himself a person of sufficient importance in Calendar's eyes to make that worthy en-"W'y, don't you remember? You dure the discomforts of a 'tween decks

> With every second, then, he was traveling farther from her to whose aid he had rushed, impelled by mo-

> septionally idiotic! "What else could I do?" he defended himself against the indictment of comthat she was sailing!"

"If I for an instant thought you his had cost him a pretty penny, first wasn't sober when you done it- But and last. His watch was gone beyond no; you're a gent, if there ever was recovery, his homeward passage forfeited. He no longer harbored illusions as to the steamship company presenting him with another berth in lieu Captain Stryker thoughtfully meas- of that called for by that water soaked ured out a second drink, limited only slip of paper then in his pocket-courby the capacity of the tumbler, en- tesy of Stryker. He had sold for a pittance, a tithe of its value, his personal jewelry and had spent every unteered affably, yawning and stretch- penny he could call his own. With the money Stryker was to give him he would be able to get back to London and his third rate hostelry, but not "Yes?" with the rising inflection of with enough over to pay that one week's room rent. or"Oh, the devil!" he groaned, head in

The future loomed wrapped in unspeakable darkness, lighted by no least ray of hope. It had been bad enough to lose a comfortable living through a gigantic convulsion of nature, but to think that he had lost all else through his own egregious folly, to find himself reduced to the kennels!

Stryker, emerging from his room for breakfast, found the passenger with a hostile look in his eye and a jaw set in ugly fashion. His eyes, too, were the abiding place of smoldering devils. and the captain, recognizing them, considerately forbore to stir them up with any untimely pleasantries. To be sure, he was autocrat on his own ship, and Kirkwood's standing aboard was nfl, but then there was just enough yellow in the complexion of Stryker's unsteadily off to his room. Pausing at soul to incline him to sidestep trouble whenever feasible. And, besides, he entertained dark suspicions of his guest-suspicions he scarce dared voice even to his inmost heart.

ate voraciously and vociferously, pushto relieve the mate. The latter, a days. stunted little cockney with a wizened countenance and a mind as foul as his countenance and a mind as foul as his tongue, got small change of his attempts to engage the passenger in conversation on topics that he considered same as week days. Return, leave East versation on topics that he considered fit for discussion. After the sixth or discharged a poisonous bit of insolence and retired to his berth, leaving Kirkwood to finish his breakfast in

The yacht racing season in Massa-

husetts waters came to a close Sunday with the annual rendezvous and parade of the yachts of the Y. R. A. of M. The sky was clear and there was a good sailing breeze and the hundred or more yachts made a pretty sight as they passed in review and headed for City Point. All of the yachts were in holiday dress, and those who had been fortunate enough to win penants had them flying from the mast head. All of the class D boats, the most of whom are members of the Quincy yacht club, as well as the yachts of the Wollaston and Squantum club took part in the parade. The start was at 2.30 and when City Point was reached they again passed in re view of the committee.

STILL ALARMS.

Apparatus Called to House of G. H. Brown Twice This Morning.

The Central station apparatus was called out twice this morning, on telephone alarms for a chimney fire in he house of George H. Brown on Elm street. There is no bottom outlet to the chimney and the soot took fire. A telephone call was sent to the central station about 9.30 and the Combination responded. About 11 oclock Wollaston. the soot in the chimney again took fire and another telephone call was ent in. This time the chimney was cleaned out. There was no loss alhough the house was no loss although the house was more or less smoked up.

OF PUBLIC INTEREST

Should Retain Gleason.

Quincy Ledger: One of the worst mistakes out city has ever made is in allowing our superintendent of construction in the Water department to quit the job. I have no more inerest in Jed Gleason than I have in Peary or Cook-but I am tremendously interested in the welfare of our city. Jed is the one man politicians cannot make a tool of and look for him where you will you will find him on his job. It is a disgrace to Quincy, that a plant with the possibilities of the water department after a steady and rapid growth of twenty years fails to pay its expense with rates far in excess of sister cities. If Gleason had been placed at the head of the department with full power ten years ago we should now be receiving a dividend with much reduced water rates. With the present administration we expected improvements on this line but we are still looking.

Some figures regarding Massachusetts savings bank deposits which have recently been given out afford just grounds for pride among Bay State citizens. Whatever reasons tion that Americans are the most extravagant of all peoples the charge cannot apparently be laid against the

MASS. SAVINGS INSURANCE.

thrifty workers of the Commonwealth. The compiler of the statistics, ranging from 1850 to 1908, was able to show that there has been a notable increase in every particular-in the Continuous test of over 100,000 tons in number of depositors, the total number of deposits, the average size of in dividual deposits and the proportion of the deposits to the population. People certainly are saving some now. In Massachusetts there were in 1850 only 78.823 depositors in the savings banks. There deposits then aggregated \$13 660,000. The corresponding totals or 1908 were 1.973,926 and \$709.519 000. Sixty per cent of all the popula tion of Massachusetts, is now represented by depositors in the savings banks whereas only 8 per cent. were so represented in the middle year of the nineteenth century. Some of the actual figures are as

follows:		
Year	Depositors	Deposits
1850	78,823	\$43,660,00
1860	23,068	45,054,00
1870	488,797	135,754,00
1880	708,395	218,007,0
1890	1,083,017	353,592,0
1900	1,535,000	540,403,0
1905	1,829,487	662,808,0
1906	1,908,378	634,081,0
1907	1,971,644	706,940,0
1908	1 973 926	709.519.0

It was the remarkable growth of the savings institutions of Massachusetts the integrity and efficiency with which they have been managed and the fact that insurance is only a special form of savings that led to the proposition of combing savings and insurance in a single institution. That the alliance would work favorably to the surance department was maintained while the savings insurance measure From Sept. 13, until further notice was under consideration of the legislature. It has since been a matter of experience at the Whitman Savings Brockton that the insured are very apt to become depositors in the savings department of the bank. Thus the whole cause of thrift is helped along by the establishment of a new agency

EDITORS AT NORWOOD

Massachusetts Press Association Guests of J. S. Cushing

The sucess of the Norwood Press is known far and wide as a book printing plant, and it was a treat for the nembers of the Massachusetts Press Association and their ladies to be the guests on Monday of the Proprietors. There are really three companies who work together under one roof as one family: J. S. Cushing & Co., who do the composition, proof reading, engraving and electrotyping; Berwick & Smith Co., who do the printing; and E. Fleming & Co., book binders. Alogether these firms employ about 500 men and women, and the establishments being equipped with monotypes which make and set type; the latest nachines for electrotyping; self feedng presses, and machines which bind 10,000 or more books of different edi ions in a day; were of great interest o newspaper men who have job printing departments and even to the

The members of the Press Associaion met at the United States Hotel in Boston, and filled a special electric ear which carried them through to Norwood. It was a delightful trip of about 15 miles on a beautiful Septem ber day, especially from Forest Hills through Roslindale and Dedham.

Capt. J. Stearns Cushing who was instrumental in establishing the Nor wood Press at Norwood, first enter ained the newspaper men at his grand esidence known as "The Colonial, delightfully situated on a large es ate with a commanding view. Mr. Cushing welcomed his guests very cordially and introduced his wife and daughter, and also his business asso ciates of the Norwood Press. They were given the freedom of the house and grounds, and enjoyed a sumptuous pread in a tent erected on the grounds. A photographer took several snap shots. Later Capt. Cushing explained the makeup of the Norwood Press, how it came to locate in Norwood, and also of the athletic grounds se of the "Norwood Pres Club," which was organized largely through the efforts of Mr. Berwick o the Berwick & Smith Co., for the use and benefit of all employees. The newspaper men visited the clubhouse and admired the commodious quarters well equipped with bowling alleys oilliard and pool tables, athletic apparatus, piano, reading room, baths kitchen, etc. The grounds were en closed and include a base ball field ennis courts, cinder track, etc. Em ployees of the companies are direc ors, and the fees are nominal.

At the head of the bindery is Wollaston gentleman, Charles T. Baker, who divides his time between Bos ton and Norwood. Through his kindness the writer had an excellent on portunity to inspect the whole estab ishment.

The Norwood Press and the eople of Norwood are loyal to J tearns Cushing, but others claimed is services. He has been president of he Boston Typothetae, trustee of the Norwood public library, commodore of the Winthrop Yacht club, commander of the Ancient and Honorable Artilsavings bank which established an inwood Board of Trade, a 32d degree Mason, and will next year be a member of the Governor's Council. Already the Republicans of the Second Councillor district, which includes bank and the People's Savings Bank of Quiney and Braintree are united and will give him an unanimous nomination. Councillor Bemis has set a high mark for any councillor to follow, but Mr. Cushing enjoys a close friendship with Gov. Draper, and like the gover nor he is a modern captain of in dustry, and the state would be fortu nate in securing his services as an ad viser of the chief executive. The newspaper men regretted that they ould not stop longer at Norwood.

RONALD McDONALD.

The funeral of Ronald McDonald for more than twenty-five years a resident of West Quincy engaged in the provision business was held this morning from his late home at 20 Town Hill street and was very largely attended. Mass was celebrated at St. Mary's church by Rev. Henry common ever yday, because we live Grady. The regular choir with Miss mnaturally, overeating, overworking, Rena Bizzozera as organist sang the taking little exercise, gradually caus- Gregorian mass. At the offertory Mrs. J. F. Fennessey sang Pie Jesu.

There was a wealth of beautiful flowers. The burial was in the family that can't be permanently cured with lot at St. Mary's cemetery the bearers Dr. Leonhardt's Hem-Rold is the being Charles Smith, Michael Mc-

FORE RIVER NOTES. The Apprentices Under J. E. Neary Planning for the Winter.

The first of the series of games beween the Fore River Apprentices and Excelsus club will be played on the lower field at Merrymount park Saturday afternoon. The Fore River Apprentices are

rack team. They will shortly go into practice at the Y. M. C. A. gymnasium A night school for the study of Mathematics pertaining to the work at the yard will open early in October. The session of the school will be from 4.30 to 5.30 o'clock. A nominal fee of twenty-five cents will be charged.

The work in the Fore River Apprentice school will open the first Monday in October.

The boys feel very much elated over their success in the track events at the picnic of the General Electric boys at Wakefield last Saturday.

GIVEN RECEPTION.

Cast of Mikado Entertained by Knights of Columbus.

Quincy Council Knights of Colum-

ous gave a reception Monday evening o the cast of the Mikado which was given last spring in Music hall; it was neld in Electa hall. The evening was spent in rehearsing the whole opera and for two hours all the company ang. Then they adjourned to the arge hall and enjoyed dancing the emainder of the evening. Refreshnents were served during the evening Joyce's orchestra furnished the music both for rehearsing of the opera and the dancing and it was thoroughly en-

FOOT BALL

forming a basket ball and an indoor Quincy High to Have Strong Front of Practice Begins

The local football season started Monday afternoon when Capt. Russel Bates called out the candidates for the High school team for the first time this year. About thirty candidates reported and they were immediately put to work. There will be about twenty more men who will report within a day or so and by Friday the practice will be in full swing.

There is a very good nucleus for a team as there will be several who played either regularly or sub on last year's team. Among them is Brown, who was injured last year and forced to be out of the game all the season. Johnson ought to make a good bid for center. This youngster was one of the finds of last season and should show great form this year as he has aken on several pounds in weight. Back from last seasons team there are Sayward, Hearn, Edwards, Prout, and Russ. Bates and there are several more who failed to return at the beginning of school but who are expected back the first of next week.

Several of last years players have charge of the team and as near as possible the policy of the past year and a crowd of night owls soon will be pursued. The institution of a second team last year will be followed out this year in the same manner, as it was found that the interest increased a great deal by having two teams. There will be practice every day this week and any, "old grad." who has the time is asked to turn out and help to coach the team.

At present there are several of the players of the past two seasons with hem and there is every indication that a fast light team will be the result. Speed must be the end worked for and there is no reason why there should not be one of the fastest football teams even seen at the local school. Watch these columns for daily news of the team and for the schedule which will be out in a few days.

be unable to report for the preliminary practice with the rest of the team to give him a good rest before starting

Coach Gammons of the Brown foot ball team says that the men in his charge will know the rudiments of the game before they learn any tricks. He has the right idea all right and the only one which will make a team successful. Start at the beginning and go just as rapid as the men can learn and the team will round out as fast as it should.

A note of perhaps local interest the fact that Leo Leary will not coach the Boston schoolboys this fall as he has resigned from the force of Municipal instruction. He will be greatly missed by the city teams but his absence may make a difference to the teams about Boston.

As near as can be learned the Harvard season tickets will not be issued this year to niclude the Cornell, Yale and Dartmouth games.

The Melrose high school will have an outside coach this year in the person of James E. O'Connell formerly of the Harvard football team. This has been necessitated by the poor teams which have been turned out at Melrose in the past few years.

Newcomb street, West Quincy. To S. L. Young for a blacksmith

EXPLOSION OF WATER HEATER

Wrecked When Boiler Bursts

The gas hot water heater used for exhibition purposes in the office of the Citizens Gas Light Co., on Granite street blew up with a loud bang shortly after midnight Monday, throwing clouds of dust and pieces of broken glass in all directions. Officer Duane had passed the building but a minute before the explosion came, and had he been in front of the building he would probably have sustained serious injury.

When the boiler burst it was forced upward through the ceiling tearing a great hole in the plastering. It also blew out both of the plate glass windows in the front of the office but strange to say the glass in the door remained intact. Another peculiar thing was that the glass globes on the chandeliers in the main office were not broken although some of them were within three feet of the boiler.

The water pipes were broken by the explosion and before the water could be shut off it had run into the basement doing some damage. Officers Duane and Bishop were not long in discovering the cause of the explosion gathered on the street.

Word was sent to the emergency gangs of the water department and of the gas company and the water and gas was shut off. The boiler spent its force when it hit the ceiling and it then dropped back on the floor.

The hot water boiler was located in the front of the building and was used for demonstrating purposes. It was connected with both the gas and water mains. The boiler is a presure one and the only cause assigned for the explosion is that some one who had been showing the boiler to a cusomer, late in the afternoon forgot to shut off the gas. The result was that steam was generated and having no vent, it did the only thing it could do,

that was to explode. It was very fortunate that the exion occurred in the night, rather than during the day, when there are always more or less people on the street, some of whom would probably have been injured by flying glass.

-The Hudson-Fulton stamp, with the Half Moon sailing up the Hudson on one side and the Clermont steaming down on the other will be issued to the number of 50 000,000.

Res. Eben Prescott, Braintres, 121-4 The Omaha board of education has decided that pie is a brain food.

If Barnum were living, he'd bring the Pole within reach of us all.

The fall millinery openings run mainly to plumes, and XX with yellow backs.

Can't President Taft's swing around the circle be extended to take in our new territorial possession-The pole.

An Indiana University professor de nounces coffee as more harmful to the human family than whiskey. Next! The state of Chili, which owns the

railroads, is going to electrify The Chilians have aptly been called the Yankees of South America. It was characteristic of Mrs. Rus-

sell Sage of New York that she ob served her eightieth birthday by giving ten thousand dollars to a church. Dr. Cook's patience, persistence

endurance, capacity to resist hunger and other hardy qualities proves that he is a splendid type of a Democrat.

Hasn't the country had enough o tariff talk? Why wouldn't it be better now to say nothing and saw wood for awhile, and see how the Payne law works.

It is announced that there will be real investigation of America by the English suffragettes. Some of them will get married if they don't look out, and then the poor husband gets all the talk.

It is to be hoped that Dr. Wiley will be so strongly supported by the public that the corrupt efforts of the coterie of food manufactures to evade the law and to get rid of him will be defeated

Gov. Joseph Brown, Georgia's new executive, is entitled to great credit for his refusal to lend himself to the doctrine that there is one kind of law for the rich and influential and another for the poor and lowly.

Quincy's grand old elms are looking as sere and brown as though swept by fire. No one is to blame as it is simply impossible to combat existing conditions and bugs. In some cities the elm trees are being replaced by maples and if things continue New England will not have any elm trees to point to with pride.

Houghs Neckers are a church going people and all through the summer St. Frances Church-by-the-Sea has had targe congregations which still continue although the summer season is practically over. Morning cars have also brought up many passengers to the uptown churches. A church going community generally means a law abiding community.

* The Citizens Gas Light Company is advertising a remarkably low figure for piping an eight or nine room house. If you are building you should see them or if you wish to pipe your old house it will pay you to talk it over with them.

THE NEW COUNTY FAIR.

The county fair season is in full swing. Some good ones have already been held, some of the best are yet to come. The county fair is an institution. It is entitled to a place rectional.

The character of the fair has changed in reecnt years, from which some argue a decline in influence. This is a mistaken notion. The fair has changed, the people who support and attend it have changed and the one has merely responded to the change in the other. As the cities gradually gain in population in comparison with the rural districts the urban influence will become more pronounced in the county fair. The people of the country demand more of the attractions which the cities can afford. They are less satisfied with the purely agricultural features of the

old fair.

If the competitive exhibits were all hat made a fair, the argument of its decline might be better sustained. This feature is important, but not allmportant. The gathering together of the people is more important. City people love solitude for rest. They like to spend their holidays afar from he crowd where they can look for miles across lakes or fields without having their landscape marred by other human beings. Country people, on the other hand, love to congregate where crowds gather their rest is in

This is the strong appeal of the new ounty fair. It affords opportunity for people from distant parts of the county to meet, to exchange experiences and inquire about absent relatives and friends. It is the old home idea. Agricultural exhibits should be encouraged for they are valuable; live stock competitions are likewise educational factors. But the uplifting, liberalizing tendency of the reunion cannot be overlooked. "Uncle Biff" says: Beats all how these county fair do change. Used to hev pumpkins an' jam an' such. Now they're exhibitin' home grown airships .-Cleveland Plain Dealer.

-Germany not only leads European countries with the greatest number of school children, 9,750,000, but with the greatest annual expenditure for school purposes, \$130,000,000. She has an enormous advantage in being the best educational country in the

SAGE FOR DARKENING THE HAIR.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a of sage leaves and applied it to their hair with wonderfully beneficial effect. Nowadays we don't have to resort to the old-time, tiresome method of gathering the herbs and making the This is done by skillful chemists better than we could do it ourselves, and all we have to do is to for the ready - made product. Wyeth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by all first-class druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt

PEARY GETS

among educational agencies. Its tendency is civilizing, uplifting, cortendency is civilized. Navy Solidly Behind Him

SCHLEY L'KES COOK'S STAND

Arctic Club of America Will Recognize Doctor as Discoverer of Pole, Because of Action of Danish Government-Secretary Osbon Has Severe Criticism For Peary-Says He Has Been Untruthful

New York, Sept. 14.—That Polar polemics could not only generate but maintain unabated such heat needed the proof of seeing and hearing to believe, but with Dr. Cook homeward bound and Commander Peary now in touch with the correspondent, comment and criticism lack none of their previous acidity and have rather gained than lost in volume.

Previous assumption that Pears would have the United States navy solidly behind him, was not borne out in a letter from Rear Admiral Schley (retired), made public by Captain Osbon, secretary of the Arctic Club of America, of which Cook is a member. The letter, under date of Sept. 11 from Pocono Manor, Pa., runs in part as follows:

"I like Cook's attitude immensely in this unfortunate, unnecessary and unwise controversy. He certainly has been dignified and manly in the stand he has taken in this matter."

Captain Osbon followed up his letter from the admiral last night with a lecture on 'Who discovered the North

"Dr. Frederick A. Cook," he said, "was for two years my wife's physician. I saw him two or three times a week and we chatted many hours. He was secretary of the Arctic club the real reason, Whitten declares, while I was chairman of the executive committee. If I have ever known a man of integrity, probity, sincerity and modesty it is Dr. Cook. "I have known also the other fel-

low-known him to depart from truth by large margins. A man who will open a cablegram and keep it four days from his superior, a man who could prevent the club from giving a dinner to the Duke of the Abruzzi, is capable of other things.

"He has also opened letters addressed to me. One letter opened by him he inscribed 'opened by Peary' happened a second time I told him that if he opened more of my letters I should be very energetic with him.'

details of his discovery was attribut- The most startling is that Peary ed to his desire not to anticipate the reached the Pole with but one Eskipublication of his book. "But as soon as the other claimant got within reach of the wireless," said the captain, "he sent dispatches to everybody he could think of, but delayed in informing the mother of the unfortunate Marvin, who perished during the expedition.

"Dr. Cook is but an ordinary physician," the speaker continued. "The other, being in the navy, is supposed to have received the training of a gentleman, yet when Cook heard that Peary had discovered the Pole he congratulated him. When Peary heard of Cook's claim, he wired that the negro servant. doctor had handed the public a gold brick. Some men dig pits under themselves.

"There is a mystery in the disappearance of Mr. Whitney, who is coming home with Cook's papers. I think," Osbon continued, "he got on board the Roosevelt, took his letters and left for his own ship, the Jeanie, because of Peary's attitude. This matter of the Jeanie shows how Peary brags. It was heralded that the Jeanie was fitted out by the Peary Arctic club, when, as a matter of fact, the club gave only \$1000 and the Whitney family contributed \$5000."

After a meeting of the executive committee of the Arctic Club of America last night Dr. Stebbins, its chairman, gave the club's attitude on the controversy.

"The Arctic Club of America," he said, "has nothing to do with the controversy over the discovery of the in connection with the case, was re-Pole. All that the Arctic club recognizes is that Dr. Cook is the discoverer of the Pole and that Peary reached there. Our only desire is to honor the discoverer. Neither side has proved its case to America, but since the Danish government has recognized Dr. Cook, we feel that the burden of proof now falls on his opponents.

"The Arctic club," Stebbins continued, "will present to Cook a gold medal, showing in bas-relief Cook standing on the top of the globe, waving the Stars and Stripes."

Preparations to honor Cook are more advanced than those for Peary, because the latter's arrival is more distant and his plans as yet more nebulous. Singing societies of Brooklyn have arranged to go down the harbor in a chartered steamer to welcome their hero with lyric praise. Bells will ring and whistles blow from fac- Sun rises-5:24; sets-5:55. tories, ferries and all the water craft, of the bay.

On the other hand, in response to the equally great interest in Peary, warmer; moderate south winds.

Canadian government.

abundantly equipped for Cook's expedition, having supplies for at least three years. He confirms Cook's charge that Peary's men took Cook's provisions, adding that not only did the crew of the ship take Cook's stores that were at Etah, but boats were sent to Annotok, thirty miles distant, to remove Cook's provisions which were stored there.

Whitten admits that he does not snow whether this removal was by arrangement between Rudolph Francke, who was left in charge of the provisions, and Peary, or Peary's representatives, but he thinks that in any event it was a strange thing to do in view of the fact that Cook was then away on the ice floes and might return and find his provisions

The boatswain also makes th statement that both Cook's and Francke's collections of ivory and skins, some of them very valuable were likewise taken. He says that the trouble with Peary's previous expeditions had been the lack of supplies. Instead of remaining away for three years, Peary was compelled to return after about fifteen months, being that he did not have enough supplies to remain longer.

and sent it to me. When this thing ance, all of which Herbert Bridgman, secretary of the Peary Arctic club declares to be imaginary.

The feeling against the explorer is thought to have been engendered because Peary's plan of campaign necessitated sending the men back as nembers of supporting parties.

To Bartlett this necessity of turning back when he had gone as far as the 88th parallel fell as a crushing blow to the ambitions of years. Friends of Bartlett resent the fact that the captain did not get as near the Pole as did Matthew Henson, Peary's

HARRIMAN POLICIES CONTINUE

Lovett Chosen as Head of Executive Committee, While Loree Is Slated to Become President of Road-Both Share Honor of Close Familiarity With Harriman's Dreams For Boom ing Undeveloped Territory

New York, Sept. 14 .- The continuance, temporarily at least, of the Harriman policies in the management of Union Pacific, Southern Pacific and the chain of allied railroads, was made certain when Robert S. Lovett, E. H. Harriman's personal counsel and close friend, was elected to succeed him as the head of the executive committee of the Union Pacific rail-

L. F. LOREE.

To further strengthen the dominance of the "Harriman idea," Jacob H. Schiff and William Rockefellerboth heavily interested in the Harriman enterprises-were elected directors in place of Harriman and the late H. H. Rogers, respectively, and were chosen to places on the executive commfttee.

The Union Pacific still remains without a president, as Harriman occupied this position also. It is understood, however, that an operating man-probably L. F. Loree, president of the Delaware and Hudsonwill be elected for the place at the annual meeting of stockholders to be held on Oct. 12. Proxies for this meeting already in the hands of Lovett and Alexander Millar, secretary of the Union Pacific, seem to guarantee that the election will be dictated

by the Harriman interests. The office which Lovett has assumed is the most important in the management and financial supervision of the Union Pacific. Lovett's close associations with Harriman, particularly during the last weeks of the latter's life, make him, in the opinion of the Harriman lieutenants, peculiarly fitted to assume the responsibilities of the position. He and Loree, the slated candidate for the presidency, share the honor of a close familiarity with Harriman's plans and dreams for the undeveloped territory over which he hoped to push the aszendency of his railroad systems.

The directors of the Southern Pacific will meet today. It is taken for granted that their action is fully forecasted by yesterday's meeting and that Lovett will be seated as chairman of that executive committee also in Harriman's place, with Jacob H. Schiff or some other partner in the firm of Kuhn, Loeb & Co. at his right hand as director and member of the executive committee.

Wall street manifested more than usual interest in Monday's election in view of the rumors to the effect that a member of J. P. Morgan & Co. would be elected to the Union Pacific board. No such change developed, and as it stands today the executive committee remains, in the parlance of the street, a "Kuhn, Loeb-Standard Oil" board. For, besides Lovett, Schiff and William Rockefeller, the members are H. C. Frick, President Hughitt of the Chicago and Northwestern, and Frank A. Vanderlip of the National City bank, New York.

The failure of the Morgan interests to gain a place on the reconstructed board was a surprise to Wall street, where last week's rumors had been given general credence. It is pointed out, however, that possibly the Morgan interests, fearing disastrous results from any radical changes now, may have purposely postponed the selection of a representative until the regular annual election in October.

Arbitrators to Settle Labor Trouble Stockholm, Sept. 14.-The Swed: ish government has intervened to settle the dispute between the Employers' union and the Confederation of Labor, which was the cause of the recent general strike in Stockholm. Arbitrators have been appointed for this purpose.

City Square,

CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he believes to be an adventurer. II—Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar re-ceives a note of warning from a fashlonably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood consents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. Frognall street, in a shabby-genteel quarter kling, Stryker went on deck. of London, where he leaves the girl at he request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress The latter is knocked unconscious by a fal downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house Heavy raps at the front door startle the two V-Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen in love with the girl, flee from the mysteriou house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a

cab Kirkwood escorts her to the house of Mrs. Hallam in fashionable Craven street where, she declares, her father is to meet her Kirkwood leaves her in the cab and enters the house to learn whether Calendar is there. He meets Mrs. Hallam and recog nizes her as the woman who warned Calendar in the hotel. As Kirkwood talks to her he hears a man leave the house sylin' in." Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished

Mulready, it seems, has tried to kidnap Dor

othy in Kirkwood's cab. Calendar and Mul-

ready quarrel, after which the girl and the

two men row off to board a vessel referred to

way in a cab to St. Pancras station, where h

is to take the midnight train for his steamer.

He is now thoroughly in love with Dorothy,

IX and X-Kirkwood just misses his train and

finds himself almost penniless. After

wandering about for two hours he is again in

Frognall street. He enters the house to seek

his missing purse and finds the young man whom he had knocked down still unconsciou

after six hours. Kirkwood's ministrations to

him are interrupted by the entrance into the

house of a woman in evening dress. XI and

XII-The woman is Mrs. Hallam, and the

injured young man is her son. She tell Kirk-

ood that Dorothy, Calendar and Mulready

are engaged in a plot to steal family jewels

eft to her son by his relatives, Colonel Bur-

goyne. Calendar, she says, is her late hus

pand's cousin. The jewels are in the black

bag, Mrs. Hallam declares. Kirkwood doubt

her story and suspects that Dorothy is an

innocent partaker in some mysterious plot

He decides to defend the girl. XII-The next

watermen, searches the Thames in vain for

the Aletnea. The boatmen take him to

Woolwich on his way to Shearness to inter-

cept the Alethea. XIV-On the train to

Sheerness Kirkwood meets Mrs. Hallam, bent

like himself, on finding Calandar. She tries

to get his aid, but he refuses. He eludes he

at Sheerness. XV-In the distance he see

vessell which he believes is the Alethea

After a struggle with a covetous boatmen

who steals his watch and chain, Kirkwood

knocks him overboard into his dory and

seizes his catboat to sail to Alethea. XVI-

Kirkwood is nearly drowned when the cat

oat sinks and reaches the Althea only to be

old by Captain Stryker, a facetious ruffian

that the vessel carries no passengers. XVII-Stryker badgers and robs Kirkwood, who be

lieves that Dorothy and Calendar had been

first to his hand the familiar bulky red VII—Calendar appears at the Hallam house in search of Dorothy. Kirkwood volume. accompanies him at his request to an un savory locality on the Thames. VIII-Calen dar meets his daughter in the company of a man named Mulready, evidently his companion in some strange nefarious enterprise

Some previous client had left a marker between the pages-and not an ordinary bookmark by any manner of means. Kirkwood gave utterance to a little gasp of amazement and instincas the Alethea, leaving Kirkwood to find his tively glanced up at the companionway to see if he were observed.

> as Stryker descended in pursuit of the ever essential drink. "Find it?" he demanded, staring blindly with eyes not yet focused to the change from light to gloom at the young man, who was sitting with the

> either side of him. In reply he received a monosyllabic affirmative. Kirkwood did not look up. "You must be a howl," commented

the captain, making for the seductive morning Kirkwood in a rowboat, with two locker. "A-what?" in the dark. W'y don't you go over

to the light? I'll 'ave to 'ave them

paw, hesitating a moment to watch

his guest. "Mykes it seem more 'omelike for you, I expect," he observed.

"What do you mean?" halmanack, ain't 'e? Can't get one,

(Continued from yesterday.)

CHAPTER XVIII.

aboard the Althea, but had left her.

O the tune of a moderating wind the morning wearled away. Kirkwood went on deck once for distraction from the intolerable monotony of it all, got a sound drenching of spray and was glad to dodge below and dry himself.

He had the pleasure of the mate's company at dinner, the captain remaining on deck until Hobbs had finished and gone up to relieve him, and by that time Kirkwood was through. Stryker blew down with a blustery show of cheer. "Well, well, my little man!" (It happened that he topped Kirkwood's stature by at least five inches.) "Enj'yin' yer sea trip?" "About as much as you'd expect,"

snapped Kirkwood. "Ow!" The captain began to shovel food into his face. Kirkwood watched him, fascinated with suspense. It seemed impossible that the man could continue so to employ his knife without cutting his throat from the inside. But years of such manipulation had made him expert, and his guest, keen-

hope. Between gobbles Stryker eyed him furtively.

ly disappointed, at length ceased to

"Treat me all right?" he demanded Kirkwood started out of a brown study. "What? Who? Why, I suppose I ought to be-indeed, I am grateful," he asserted. "Certainly you 'ear?"

saved my life, and"-"Ow, I don't mean that." Stryker gathered the imputation into his paw and flung it disdainfully to the four winds of heaven. "Bless yer 'art.

you're welcome. I wouldn't let no dorg drownd 'f I could 'elp it. No;".

he declared, "nor a loonatic, neither." He thrust his plate away and shifted sidewise in his chair. "I 'uz just wonderin'," he pursued, picking his teeth meditatively with a penknife, "'ow they feeds you in them as-ylums. 'Avin never been inside one myself, it's on'y natural I'd be cur'us. There was one of them instituotions near where I was borned-Birming'am, that is. I used to see the loonies playin' in the grounds. I remember just as well! One of 'em an' me struck up quite an l acquaintance"-"Naturally he'd take to you on

sight."

"Ow! Strynge 'ow we 'it it off, eigh? You myke me think of 'im. Young chap 'e was, the livin' spi't an' himage of you. It don't happen, does t, you're the same man? He was "I am glad to say that Doan's Kidallus plannin' to run awye an' drownd 'isself."

He wore the joke threadbare even to his own taste and in the end got small of his back and a constant heavily to his feet, starting for the feeling of languor. Hearing of Doan's companionway. "Land you this arternoon," he remarked casually, "come the Cox Drug Store and began their turn, leave East Milton, 5.55, 6.15, 6.45 am, and every 20 mins. to 11.45 pm. Sundays, 7.25 am, then same as week I don't know, though, as I 'ad ought in a short time his general health to let vou loose."

Kirkwood made no answer. Chuc-

In the course of an hour the Amer ican followed him. The Alethea was within the wide jaws of the western New York, sole agents for the United Scheldt. Kirkwood approached the States. captain, who, acting as his own pilot, was standing by the wheel and barking sharp orders to the helmsman. "Have you a Bradshaw on board?

sked the young man. "Steady!" This to the man at the wheel, then to Kirkwood, "Wot's that, Hancock st., Quincy. You may watch me lud?" Kirkwood repeated his question.

Stryker eyed him suspiciously for a thought. "Wot d' you want it for?"

"I want to see when I can get a boat back to England." "H-m-m! Yes, you'll find a Bradshaw in the port locker, near the for'ard bulkhead. Run along now an' pl'y

an' mind you don't go tearin' out the pyges to myke pyper boatses to go Kirkwood went below, found the designated locker and, opening it, saw

The strap removed, the book opened easily, as if by force of habit, at the precise table he had wished to consult.

He was not, but for safety's sake he moved farther back into the cabin and out of the range of vision of any one on deck-a precaution which was almost immediately justified by the clumping of heavy feet upon the steps

Com- the grand jury by the district court at mander Latimer of the U. S. Navy Quincy on the charge of the murder tory is a mile square and power and July 25. store houses are to be built later.

Dr. and Mrs. George O. Welch of Fergus Falls, Minnesota are spending a few days with Mr. and Mrs. Edmund R. Wade. Dr. Welch is superintendent of the state insane hospital at Fergus Falls and Mrs. Welch is treasurer of the National Federation of Women's clubs and formerly was a teacher in the Quincy schools, and may be remembered as Miss Pheobe Lyon.

A surprise party was tendered Miss Catherine Creedon at her home at the corner of Bates avenue and Grove street. Fifty to sixty friends were present. During the evening Joseph Duggan presented Miss Creedon with a beautiful gold bracelet. Refreshments were served and instrumental and vocal music enlivened the evening's entertainment.

A novel form of benevolence is in force in the Sunday school of the Wollaston Unitarian church. On the Sunday following his or her birthday each pupil brings as many pennies as they are old. These are deposited in a bank and when full are used for some bank and when full are used for some charitable purpose. By this means last summer a large party of city waifs were given a day's outing in Wollaston enjoying the sea shore and country immensely.

BRIEFS

o revise the voting lists will be held Thursday evening.

Mrs. Frank S. Patch of Alleyne terrace left on Monday for Maine for a brief visit.

The new Y. M. C. A. Physical direc-

or, C. M. Gifford is expected to arrive in Quincy today. A series of six whist parties and

lances is to be held by J. J. Joyce at Farnum hall. Mr. and Mrs. John Q. Cudworth of Saville avenue left Monday on a two

weeks' trip to the White Mountains.

Helen McGuinness of Norfolk Downs vere the guests of Harvey Guy of Houghs Neck during the past week.

ASSAULTED OFFICER.

Romeri Convicted at Dedham for Assault on Court Officer.

Giuseppe Romeri of this city was onvicted before a jury in the Superor Court at Dedham, yesterday, of asault on Court Officer William M. Marden of the District Court on Mar.

Romeri has a bad record. Dec. 28, 1905 he was sent to the State Farm for being idle and disorderly. Feb. 12 of this year he was fined \$10 and ordered to give bond to keep the peace or one month for assault on F. Wesey Fuller. He was committed to jail

n default. March 29 he was in court again on Mr. Fuller's complaint that he had as "a knight of the Golden Rule, a threatened to burn Mr. Fuller's property and also had threatened Mr. Fuller with bodily harm. For not devotion to principle, of the expresfurnishing a bond of \$100 to keep the tion of high character, of the exerpeace for 30 days he was committed cise of a pure, honest mind, and the to jail. It was on this last occasion that he assaulted Court Officer Marden. The officer made a complain Mrs. John L. Gardner, Jr., is the against him for assault on an officer and he was convicted before Judge Avery in the district court and senand Mrs. Gardner are moving this tenced to one year's imprisonment in month from Claremont to Keene, N. jail. Romeri appealed from this sennce and was held in \$500 bail for the present sitting of the Superior Court For not furnishing bail he was committed to jail and has since been awaiting trial. He will be sentenced

GRAND JURY.

True Bills Found Against Quincy Defendants.

The Norfolk grand jury which re ported Monday found true bill: against two Quincy defendants. William C. Nash charged wi rson at Quincy, April 27, 1909.

Jeremiah Carev charged with brea ng and entering at Quincy. Other indictments were on charg

ng Charles W. Fennimore with asaulting Leslie Grant at East Milton with interest to murder on April 10. This was the case where it is al leged Fennimore entered the variety store of Grant and after demanding his money drew a revolver and shot

The most important action was the finding of no bill against William S. taking formal possession. The terri- of William Hannaford at Weymouth

MRS. NONA SHAW.

The next meeting of the registrars TRIBUTES TO revise the voting lists will be held USEFUL CITIZEN

Henry B. Blackwell

A unique and picturesque personali-Henry B. Blackwell of Boston, editor long and busy life. of the Woman's Journal at the age of

eloquence to those whom he looked

pon as oppressed. He was especially a champion of women, and it is as such that he will e chiefly remembered; but in addition warm and wide. He addressed scores of meetings of protest at the time of he great Armenian massacres 14 years ago, and of late he has been in fregroms" and the deportation of politieal refugees. Despite his great age, nis addresses on these occasions were ull of energy and fire, and generally alled out more applause than those of any other speaker. At the last such meting that he attended-the one held in Boston a few months ago o welcome Jan, Pouren after Uncle Sam refused to surrender him to Russia-Mr. Blackwell received a creater ovation than Pouren himself. His immense popularity with Armenian and Russian Jewish audiences was due in part to his uncommon eloquence and in part to their feelng that he represented the old ideals

American liberty. The celebration of his eightieth pirthday was a notable occasion, oringing together a large assemblage of the best remaining representatives of old New England. Mrs. Julia Ward Howe paid tribute to her "esteemed friend and champion of voman's rights and human freedom. Rev. Charles G. Ames described him hero of humanity," and Hon. John D. 🖪 ㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋㅋ Long, spoke of his "half a century of outbirth of a large generous heart."

Mr. Blackwell, in his response, recalled his marriage in 1855 to Lucy centlest and most heroic of women, as he loved to call her and he told low he had promised her to devote his life to the suffrage movement No man ever kept a promise more loyalty. At the time of his leath he had been for nearly years the editor of the Woman's Journal and the secretary of the New England Woman Suffrage Association. He never accepted any salary for his services either from the paper or from the Suffrage Association but, on the contrary, put money liberally into both. He had travelled almost all over the United States, lecturing in behalf of woman's ballot, at his own expense. A life of such devotion to principle commands respect, even rom those who did not share his riews on the woman question.

When Henry B. Blackwell made his first speech for woman suffrage, in 1853, women could not vote any- office at residence, 45 Davis Street, where, except at municipal elections in Sweden, and at school elections in Ontario and Kentucky. Today women vote for all officers in Wyoming, Colorado, Utah, Idaho, Norway, Finand, New Zealand and Australia. They have municipal suffrage in Engand, Scotland, Ireland, Canada, Kanas, Denmark, Iceland, and a number of cities in Europe. They have school | Canada deal. Investment secured. Profits affrage in half the States of the liberal. Address "G. E. H.," Quincy Ledge nion, and tax suffrage in Iowa, Mon Office. ana, Louisiana, Michigan, and the reater part of New York State. Durng these 56 years there has been nore advance in women's educational industrial and property rights than in all the preceding centuries. The world for women has been revolutionized in the direction of larger freedom. And no other man has

worked long or so hard to bring

about this change as Henry B. Black-

Mr. Blackwell strongly disapproved

friends assembled at the chapel of the tractions. Big day Thursday. Crematory in Walk Hill street, Forest Personal Friends Pay Tribute to Hills, for the funeral services. Rev. Borden P. Browne, LL. D., dean of Boston University, presided. He read selections from the Scriptures, taking the fifteenth chapter of 1st Corinthians. He also offered prayer and made a few brief remarks touching especially upon Mr. Blackwell's unselfish devotion to those ideals which y has passed away in the death of had been close to him throughout his

Congregational singing added greaty to the services. The hymns used, Energetic and successful as a man all of them especially favorites of the of business, and gifted with remark- deceased, were "Jesus, I My Cross ble powers as a public speaker, he Have Taken," "When I Survey the had withal a strong streak of chivalry Wondrous Cross," and "Jesus Lover and devoted both his money and his of My Soul," the singing being led by a friend of the family. Mrs. Francis J. Garrison of Lexington, for years a close friend of the Blackwell family was organist. For a voluntary she played Handel's "Largo," and a Schuis humanitarian interests were bert selection as the company de parted from the chapel.

Later arrangements will be made for a memorial service for Mr. Blackwell which will enlist the services of quent demand to speak at Faneuil men and women who had worked with Hall meetings in behalf of Russian him and been in heary sympathy with freedom and against Jewish "Po- those principles which he always advocated.

TODAY'S COURT.

ALL THREE DID **GOOD SERVICE**

Practical Politics Says a Good Word For Quincy Men

The current issue of Practical Politics has some very pleasant things to say of Senator Hultman and Representative Thomas and Langelier. Of Senator Hultman it says in part:

"Even the most captious critic flaw in the record of Eugene C. Hultman of Quincy in his first year in the senate as the representative of the lst Norfolk district. Capital and labor he treated alike, showing no fear of or favor to either, acting on all matters as his own judgment dicecognized as one of the really big v justified this estimate of him. His reputation as a "good fellow," gained during his three years service in the lower branch, he maintained in the senate, and it might be said in passing that being known as a "good fellow" does not hurt anyone in advancing legislation. Sen. Hultman also upheld his reputation of being one of the hardest workers on Beacon hill. Likewise he exhibited the same refreshing frankness as a senator that he was known for as a representative. His word given that he was with a certain measure was as good as his bond, but he never gave it until he had carefully examined into the merits of the measure."

L. F. R. Langelier.

The most important work of Representative Langelier was on the Committee of Harbors and Public Lands. This was a most important commit tee during the last session.

"For that reason Louis F. R. Langeier of Quincy was looked upon as one of the fortunate members when BURKE, Real Estate Agent, Room 4, Savings was known that he had been ap- Bank Building. pointed by Speaker Walker to a place n that body and later elected clerk. "Among the many petitions from arious coast and river towns for imrovements was one for dredging Fore iver, a most important work if the prosperity of the big ship building yards there were to be fostered by

the state. The committee, in view of Gov. Draper's recommendation, voted the report reference to the next legislature, Rep. Langelier dissenting. When the report was accepted by the nouse he at once became busy, and, through the hardest kind of hard work, managed to force a reconsidera- street. tion. It was a year for the roadroller, however, and Gov. Draper's riends were determined he should have all for which he asked. As a result the Fore river bill, important as t was from a business standpoint, was made a point of administrative attack, and despite the efforts of Mr. Langeier it was referred to the next legis-

"Mr. Langelier showed his earnestness and value as a legislator on the other Quincy measure, he working hard for the bill permitting the city to erect and maintain public landing places, and also against the bill providing for the elimination of party lesignations and the other important political proposition to allow the mayor a place on the school commit-

WILLIAM R. THOMAS.

As a member of the Committee on letropolitan Affairs Representative Thomas did efficient work.

"No member of the committee gave nore careful attention to the Boston charter bill than Rep. William R. Thomas of Quincy. His three years as city solicitor of his city gave him a close acquaintance with municipal affairs which proved very valuable in dealing with the charter for the metropolis. He informed himself fully as to conditions in Boston by questioning those who appeared at the hearings. Several of the changes made by the committee in the finance commission draft were proposed by Rep. Thomas.

He devoted considerable time too to the various transit bills which wearied his committee until in desperation they bundled them all up and turned them over to the various state commissions familiar with them. He supported all of the labor bills excepting that to allow peaceful picketing, which he didn't believe in. For his own city he got legislation allowing the building of a city landing, much needed in the harbor town."

WAR AGAINST

Granite Workers Interested

Proposed Day Camp

That the granite workers of Quincy

are interested in the day camp plan

o battle with the great white plague,

known as tuberculosis is shown by

the letter in this month's Granite

'utters' Journal from the pen of its

Quincy correspondent. In speaking of

joint meeting of the unions he

"There was one subject up for dis-

cusion that too much cannot be said

infavor of, but as the hour was late

in favor of, butthe hour being late,

nost of the members had gone home

before the subject was taken up, the

subject matter was laid over until our

next meeting, which will be held on

Wednesday, Sept. 15. The subject

above referred to is in regard to es-

tablishing a day camp in Quincy, for

the care of any one who may become

afflicted with that dread disease tu-

erculosis. This movement is being

carried along by the efforts of the Re-

lief Committee of the Anti-Tubercu-

losis Association. The land for the

site of this camp has been given to

the city, and has been inspected by

two experts on the subject, and they

pronounced it perfect. I am informed

that they require the sum of fifteen

hundred dollars to start this camp

and as this sum will have to be raised

by subscription, I, for one, think that

we as a body of union men should

give these people all the encourage

ment that lies within our limited

powers; certainly a donation of twen-

ty-five cents is not very much for any

of us to give ,especially when we take

into consideration the fact that we do

not know how long it will be before

ome of us may contract the disease

and if any of us should happen to be

so unfortunate, I am sure that we

would be only too glad to accept such

care and treatment as this camp could

and would give us. Quoting a part

of the letter that I have received from

"With the establishing of a day

the entire care by the city of all our

ubercular cases right here in Quincy

which is so deplorable," etc. I often-

times think that if Andrew Carnegie

which in a few years at the best be-

come a burden and drag on the peo-

given and interesting was composed of the following selections: Miss 'Marion Wright and Miss Annie Ryden gave a mandolin duet. A solo by Donald McKermick was well received as was also some readings by Miss Beatrice Budd. James Neal one of the Fore River football players rendcred a few songs which were enthusifurnished part of the music and they were assisted by Provost's orchestra ladies lodge and daughters of John there were refreshments and then dancing was in order until twelve. The committee in charge were Andrew Stewart past worthy master

EPWORTH LEAGUE.

New Treasurer Elected by West Quincy League.

The regular monthly business meeting of the Epworth League was held in the vestry of the Hall Place M. E. church, Monday evening. The meeting was called to order by the president at 8.15. After the usual devotional exercises reports from the treasurer, also the first, second, third and fourth vice presidents were read

The resignation of the treasurer Ernest Williams was accepted, to take effect at once and a vote of thanks extended to him for his faith ful work in the league. Joseph Francis was elected to fill the vacancy occasioned by the resignation of Mr. Williams.

Business adjourned at nine o'clock after which games and a social were enjoyed in charge of Miss May Wil lliams. Refreshments were served under the direction of the fourth vice president, Miss Maud E. Hodgkinson.

ROAD HOUSE.

Alleged Resort in Quincy to be Brok-

The arrest of Caroline M. Libbey, for keeping a disorderly house at Quincy will probably break up a joint that has been the source of much talk at Atlantic. The house in question, which it is alleged the woman kept, is located on Squantum street at the corner of the boulevard. It is alleged that the house is the mecca for numerous automobile parties and that some high times have been held there the past summer. It has been on the part of Atlantic citizens.

The many friends of Mrs. Alva Polk formerly of Wollaston, will be pained to learn of her death, which occurred at her home in West Roxbury Tuesday afternoon. Mrs. Polk had made her home in Wollaston Park for about fifteen years and by her cheer-Automobile and Bicycle Tires ful desposition and friendly manners had endeared herself to a large circle of friends. Failing health compelled ther to give up her home in Wollaston about two years ago. Funeral servicles will be held from her late home, 69 Montello street Bellevue Station, West Roxbury, Thursday afternoon at 3 lo'clock

PRICE TWO CENTS

PRISON TERM

Less than 12 years

Not less than twelve years and not

more than fifteen years in State's pri-

son was the sentence meted out to

Charles W. Fennemore by Judge De-

Courcy in the Superior Criminal

Court at Dedham Tuesday after Fen-

nemore had pleaded guilty to a

charge of assaulting with intent to

kill Wesley M. Grant, a Milton store-

keeper. Fennemore had previously

pleaded not guilty. In court today

thirteen witnesses testified for the

Government. In a rather melodrama-

ic manner Fennemore in his defence,

hold the Court that it was a cold

Saturday night and that he and his

wife had only five cents between them

and nothing to eat. He said he fired

the saot in a moment of nervous ex-

citement and that his object was to get

money, not to commit murder. He

said that he was reputed to be an

Anarchist, but that that was incor-

rect, adding that he might be a Social-

Wesley Grant testified that on the

hight of July 10 a stranger entered his

store and asked for tobacco. After

getting the article he turned and was

confronted by a masked man who

held a loaded revolver. As he stepped

away from him the man fired. The

bullet struck him under the right eye,

went through and came out under the

left eye. Dr. Carlton A. Rowe of

Milton said that had the bullet deviat-

ed ever so slightly death would have

resulted, and Chief of Police Maurice

Pierce told of finding a black mask,

Fennemore is twenty-five years old

Square will be paved.

Director at the Young Men's Chrisian Association arrived in Quincy today and immediately made arrange-

Tuesday at the football field the igh school squad were put through little more strenuous practice than iew men out so that there were three eams on the field and they were divided into squads and put to work under the different coaches at tack ling, falling on the ball and running lown under punts. The heaviest work done was a short practice toward the latter part of the afternoon in breaking through. From the work Tuesday fore that there is going to be a team representing the red and blue this year which will be about as speedy as ever was turned out at the school. Among new men out Tuesday was Harold Hill last year's star end and Busty Arthur who also did good work n the end. The material for end his year is all that could be desired and the center of the line is well fixed s regards material. The tackle positions however will be hard to fill be cause of the light weight of the candidates. In the backfield there is wealth of material for all positions except quarterback and here as in the tackles the material is very light

Summer still lingers and is appar ently a welcome guest.

Dartmouth as well as Harvard college has a new president.

President Taft is not only 52 years old today but celebrates the event by

starting on his tour of the west. His smile is sure to bring him a hearty welcome from those fortunate enough to greet him. Gov. Draper has accepted an invi-

tation to attend the Brockton Fair but has decided on Friday instead of the usual Wednesday which has always been Governor's day.

Under the new tariff laws French exports are increasing so rapidly as to cause alarm among French manufacturers, especially those dealing in hides, they fearing a loss of the tanning industry.

William Lloyd Garrison who died on Monday at his home in Lexington, like his father the abolitionist, was a well known character, a reformer and a publicist.

In the death of Jean Paul Selinger Boston has lost one of its best known artists. He was a portrait painter of rare ability being especially pleasing in depicting child life.

Judging by the speedy autoists hailed into court this part of the criminal court must receive substantial financial support in conducting its business.

The reading public will heartily en- tion to prizes that he might win. dorse Rev. C. D. Gray, D. D., of the Stoughton Street Baptist church, Bos- go to south Italy and Austria, but ton, who in a sermon Sunday evening business interests make it advisable said that Dr. Grenfel the beloved for him to proceed to the United physician of Laborador was a greater States, where he probably will make hero than either Cook or Peary.

Fitchburg is discussing whether i can afford to pay its mayor \$2,000 a year salary, believing it too much for a city of its size to pay. It has been brought out that several much smaller cities pay their mayors as much or more while there is a majority that pay very much less.

Boston is to have a Chinese Temple on Tyler street near Beach which when completed will be one of the sights of the city, for there is none other in this country except the one

AN OLD-TIME PRESCRIPTION

in a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon re-

Paris, Sept. 15.-Glenn H. Curtiss sailed for New York today on the Kaiser Wilhelm II from Cherbourg, in spite of tempting inducements for flights at Frankfort and Berlin, where he has been offered a guarantee of \$5000 and \$4000 respectively, in addi-

Curtiss has received other offers to flights during the Hudson-Fulton celebrations in New York. His aeroplane. which was held at the frontier awaiting his decision with regard to the Frankfort engagement, will be shipped immediately to America.

PYRAMID IN BURIED CITY

Explorers Find Place In Mexico Probably Occupied in Time of Toltecs Mexico City, Sept. 15 .- An important archeological discovery was announced here by Professor Mena, who headed a government expedition to Otumba, in the state of Mexico, which has uncovered a buried city of great antiquity.

A pyramid sixty feet in height and measuring 200 feet square at the base has been exposed. The remains indicate that the city was built and occupied in the time of the Toltecs.

Trolley and Auto Collide

Syracuse, N. Y., Sept. 15 .- In a collision between an automobile and a trolley car Mrs. James McKay was killed, her husband sustained a fractured skull and Timothy Conklin and his wife were seriously injured.

Vesuvius Waking Up Rome, Sept. 15.-Vesuvius again is active. Guides report rumblings, followed by slight seismic shocks. The small internal craters have been unusually active in the last few days.

Nobleman Kills Self With Poison London, Sept. 15.-Sir Ralph D. R. Moor was found dead in bed. His death was due to poison, and it is believed that he took his own life. He was born in 1860.

When Your Joints Are Stiff

and your muscles sore from cold or rheumatism, when you slip or sprain a joint, strain your side or bruise yourself, Painkiller will take out the soreness and fix you right in a jiffy. Always have it with you, and use it freely. COOK HAS NOT BEEN TO POLE

Peary Says He Is Only White for Cape Columbia, but it proved to Man Entitled to the Honor

WILL STAND BY STATEMENT

Assumes a Less Aggressive Attiude Toward His Rival, Declaring That from the same complaint. He Awaits Latter's Authorized Statement-Silent Regarding Charges That He Took Cook's Stores-Tells Why He Had No White Witness When Goal Was Reached-The Roosevelt Little the Worse For Her Hazardous Trip

Battle Harbor, Labrador, Sept. 15. -Via Wireless Telegraphy to Cape Ray, N. F .- "I am the only white man who has ever reached the North Pole, and I am prepared to prove it.'

This statement was made to a press epresentative by Commander Robert E. Peary in reply to a question on the Peary-Cook controversy. Continuing, "I have already stated publicly that

Cook has not been to the Pole. This reaffirm, and I will stand by it, but decline to discuss the details of the matter. These will come out later. "I have said that Dr. Cook's state

ment that he had reached the Pole should not be taken seriously, and that "I have him nailed' by concrete proofs to support my statement. In six months you probably will get the whole story. It would not be policy for me to enter upon a full debate with the subject as it now stands. To do so I would be giving out much inips, Newcomb avenue and Cherry formation of which other uses could be made. I intend to wait until Dr. Cook has issued his full authorized statement.

"Up to the present time there have een only newspaper accounts of Dr. Cook's alleged Polar trip, and these may or may not be accurrate. When Dr. Cook has time to issue a complete authorized version of his journey will be the proper opportunity for me to make public the information which I have. After that the jury, in other words, the people and the scientific bodies of the world, will pass judgment on the matter, and there will be nothing left of Dr. Cook's case but his own assertions that he has reached the North Pole. "In the meanwhile, it is my determination not to deal with debates for

the reasons already stated.' Talked With Cook's Eskimos Bearing on the Cook controversy, Peary was asked: "Are the Eskimos who were with Dr. Cook in his dash the Pole on your ship?

"No, but I talked with them "Have you heard that any Eskimos were ever at the Pole before yours?" "No, never. No inducement that could be offered them would tempt them out on that sea of ice until I went there. They knew by experience the liability of the ice breaking up and carrying people to death." "Why did you not have a white

witness at the Pole?" "Because after a lifetime of effort dearly wanted the honor for myself." Commander Peary declined to discuss the charges that he took supplies at Etah belonging to Dr. Cook, but declared that Captain Bartlett could not throw any light on this point because he had not been in Greenland since Peary went there last. Radolph Francke had begged piteously to be taken out of Green-

land. He was suffering from scurvy. The Death of Marvin Commander Peary spoke feelingly of the death of Professor Marvin of Cornell university, who, at the head of one of the supporting parties, broke through a lead of thin ice on the return trip. The body was not recovered and his personal effects were buried in the ice. A cross, bearing his name, his college and the date of his death was erected at Cape Sheridan. This is seventy-three miles from the point north of Cape Colum-

The health of the party in general was good, according to the statement the blood flowing from Attell's face of Dr. Goodsell, the surgeon of the expedition. Two Eskimo children were born and are still living. There was an absence of scurvy, due chiefly to the experience of the commander in the selection of food and supplies necessary for the health and care of the party. In addition, there was an abundance of fresh meat, which the expedition was able to secure through Peary's knowledge of the country. Bartlett, Marvin, McMillan and Borup suffered from frostbitten feet

bia, where he was drowned.

more severely than the others. Two Eskimos Disabled Two of the Eskimos were disabled

at Cape Columbia, one suffering from frozen feet and the other from a severe inflammation partly due to the same cause. Goodsell gave them surgical attention and left them in their igloos until his detachment returned from the northern trip. One of the disabled Eskimos was hauled on the sledges to the ship at Cape Sheridan, -Save the broken lens; we can a distance of ninety miles. On the

child with a fractured shoulder. He had no trouble in keeping busy. There were some cases of snow-blind-

Commander Peary was ill for one day about six weeks previous to Feb. 15, which was the day that Bartlett left the Roosevelt with his division be nothing serious, and all the men were in the pink of condition when the start was made.

Professor McMillan was confined to his bed for a month on the trip through Smith sound, immediately after leaving Etah. He suffered from a moderate fever of rheumatic type. Goodsell also suffered for some time

Vast Territory Unexplored

Speaking about the unexplored area in the Polar regions, Commander Peary said that there were 1,000,000 square miles of unknown territory between the Pole and Behring straits previous to his expedition. He had not yet figured out by how much that quantity was reduced.

Commander Peary intimated that the Roosevelt would not be allowed to participate in the Hudson-Fulton naval parade if the schooner John R. Bradley was similarly honored. The Bradley is the vessel upon which Dr. Cook made his northern voyage.

The time of the Roosevelt's departure from Battle Harbor is still indefinite, and the vessel will reach Sydney several days after Cook will have joined his wife in New York. Thursday or Friday has been set for her departure from Battle Harbor.

Newspaper Enterprise After a stormy passage up the west coast of Newfoundland and through the Strait of Belle Isle, from Sydney, Cape Breton, the tug bearing the press representative arrived at this lonely whaling and mission settlement. A squall of rain was blowing over the harbor as the Thomas steamed in.

The Arctic steamer looked little the worse for her second trip to the Polar regions. Along the rail were gathered the members of her famous

Captain Bartlett invited the Thomas to lay alongside and the correspondent to come aboard without delay. The correspondent clambered over the bulwarks and proceeded direct to the cabin to meet Commander Peary.

The commander's greeting was most cordial. "This is a new record in newspaper enterprise," he said, "and appreciate the compliment."

The correspondent at once began questioning the successful explorer regarding the merits of Dr. Cook's claim to have reached the Pole. The commander declared positively that he would not further discuss this subject until the main point, whether Cook had actually reached the North Pole or not, had been decided by others. He then dictated his statement

FAMOUS ARCHITECT DEAD

Charles McKim Received Many Honors at Home and Abroad

New York, Sept. 15 .- Charles F McKim, head of the firm of McKim Mead & White, architects, died suddenly at his country home in St James, L. I., of heart disease. Mc-Kim, who was 62 years old, was a graduate of Harvard and of the 'Ecole des Beaux Arts, Paris. He had received honorary degrees from Harvard, Bowdoin and other colleges.

McKim's death leaves William R. Mead as the only surviving member of the partnership which the two, with the late Stanford White, formed in 1879, and which has produced some of the most brilliant and important architecture, particularly of public buildings, in the United States.

McKim was a member of many learned societies, art commissions and clubs. In 1903 King Edward awarded to him a royal gold medal.

QUINCY SAVINGS BANK

CLARENCE BURGIN, Treasurer bute by adopting suitable resolutions

AS SUCCESSOR OF HARRIMAN

J. P. Morgan, Jr., Made Director of National City Bank

MEANS FINANCIAL HARMONY

Active Working Alliance Between "Standard Oil Bank" and "Morgan Bank" Will Result In Their Control of Harriman Roads-Changes In Southern Pacific Directorate Precisely the Same as In Union Pacific

New York, Sept. 15 .- J. P. Morgan, Jr., was elected to the late E. H. Harriman's place on the board of directors of the National City bank. By Wall street the election is regarded as one of the most significant of the week's financial developments. presumably indicating that harmonious relations exist between the Morgan and the Kuhn, Loeb-Standard Oil groups of financiers.

J. P. MORGAN, JR.

Added weight was given the event because it followed so closely upon the recent reports that the Morgan interests were about to take an active interest in the government of the Harriman roads and that the younger Morgan was slated as the ultimate successor of Harriman in the command of the Union and Southern Pacific systems.

The National City bank is controlled by the Kuhn, Loeb-Standard Oil interests, which have assumed a commanding position, for the time being at least, in the executive committee of the Union Pacific. George W. Perkins of the firm of J. P. Morgan & Co. is already a director of the bank, and the additional recognition given the firm was taken to mean not merely the existence of an "entente cordiale," but the consummation of an active working alliance between the two great groups of American finan-

The National City bank, referred to by the general public as the "Standard Oil bank," has resources aggregating more than \$300,000,000, while the First National, known as the "Morgan bank," has resources approximating \$150,000,000. The tremendous resources of the two combined is at once apparent.

The commanding position which the National City bank interests now hold in the Harriman railroads is indicated by the fact that four of the six members of the reconstructed executive committee of the Union Pacific are directors in the bank, J. A. Schiff, William Rockefeller, F. A. Vanderlip and H. C. Frick. Rockefeller and Schiff were elected Monday, when the size of the committee was increased and Judge Robert S. Lovett was made chairman, filling the vacancy made by Harriman's death.

The changes made in the Southern Pacific directorate at the meeting Tuesday, as a result of Harriman's death, were precisely the same as those made in the Union Pacific directorate Monday, and were in line with the general expectation. Lovett succeeded Harriman as chairman of the executive committee, while Schiff and Rockefeller were elected directors and made members of the enlarged executive committee. As was the case at the Union Pacific meeting, no action was taken in the matter of electing a successor to Harriman as president.

Brooklyn Girl Champion Swimmer New York, Sept. 15 .- The annual Coney island swimming race for the women's championship of the world and a \$500 gold medal was won by Miss Ethel Byington of Brooklyn, aged 18, who made the distance, 210 yards, in 3:41 4-5. She finished less than a yard ahead of Miss Elaine Golding, another Brooklyn girl, who has held the title for the past five

Resolutions on Harriman's Death New York, Sept. 15 .- The directors of the Union Pacific, which Edward H. Harriman organized out of comparative chaos and made the nucleus of his 60,000 miles of railroad control, paid him their formal trion the death of their former leader.

had put a check mark against "Queensborough-dep-11a10." And now he saw it clearly. Dolt that he had been not to have divined it ere this! The Alethea had run in to Queensborough, landing her passengers there that they might make con

Serial Story by Louis Joseph Vance (Copyrighted)

SYNOPSIS. CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. the boat train from Flushing did not His elderly English friend, Brentwick, arrive at Antwerp till after 10 at night visits him, and he meets George B. Calendar, an American whom he be-lieves to be an adventurer. II—Be-

fore leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar re-ceives a note of warning from a fashionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood con-sents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her and Stryker knew his business, there r 6 13 abc request. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who ries to detain him, enters the house and bolts the door. On the staircase he has a ussle with a slender man in evening dress.

Dorothy, who is glad to see him but does not explain the mystery of the gloomy house. and see what Kirkwood had seen, Heavy raps at the front door startle the two. An hour later he went on deck. The V-Dorothy and Kirkwood, the latter quesskies had blown clear, and the brigantioning himself whether or not he has fallen tine was well in land bound waters in love with the girl, flee from the mysterious ouse by the rear door. The girl takes with and still footing a rattling pace. Antwerp was in sight. her a small black gladstone bag, which, she says, she is to take to her father. VI-In a A troublesome care stirring in his cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, deck, but Stryker was very busy, enwhere, she declares, her father is to meet her tirely too preoccupied with the han-Kirkwood leaves her in the cab and enters dling of his ship to be interrupted with the house to learn whether Calendar is there. He was about 55 years of age and leaves a son and two daughters.

BIG BUILDING COLLAPSES

Fire Breaks Out Long Afterward and Completes Work of Destruction

Lowell, Mass., Sept. 15.-Following the collapse of the five story frame tannery owned by the American Hide and Leather company in this city, in which three men were intotal membership of the school nearly jured, the ruins caught fire, causing 300 taxing the accommodations of a property loss which may reach both school-room and boarding halls \$250,000. The men injured will reto their utmost and making it neces- cover. The cause of the collapse is not known, but an investigation will be held to determine the fault.

When the building, which was used to sort and wash hides before the ing a disorderly house at Quincy. Case con actual tanning process, caved in, there were twelve men at work within. Without warning they found themselves covered by a mass of debris. Beams tumbled about them, planks splintered overhead and bales of skins fell around and upon them. What had been a building was soon but a collection of wreckage.

Three hours after the collapse lime. which is used in washing the skins, caught fire and set the wrecked timbers ablaze.

FOUL PLAY SUSPECTED

Funeral of Woman Postponed Until Investigation Is Made

Milford, N. H., Sept. 15 .- The authorities of Milford and Mount Verthat has done yoeman service in pro- non are investigating the death of cials the funeral, which was to have been held today, has been deferred to be hot, or whether it be cold and enable the medical referee to examine the body.

Mrs. Boutwell was found in bed in an unconscious condition last Saturday night by her husband. There was a long black bruise under the woman's ear. Investigating further, Boutwell found part of his wife's set the doorstep.

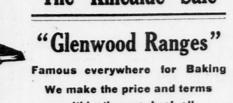

It is reported that a man was seen ternoon, acting peculiarly. The report is being investigated.

New Move In Millman Case Detroit, Sept. 15.-A reward of \$1000 is offered by the county authorities for information leading to the apprehension and conviction of the person or persons responsible for the death of Maybelle Millman, whose dismembered body was found in Ecorse creek.

ELECTRIC SHOW IN BOSTON.

An attraction that will draw thousands of visitors to Boston in November will be the great Electric Show which will be held in Boston, Nov. 15th to 25th. Already hundreds of novelties have been submitted to General Manager Chester I. Campbell, and from present indications the highest attainments and most modern electrical achievements will be represented. In fact, the possibilities are unlimited in making an exhibition of this character of great interest and educational value to the general public. The diversity of exhibits will

prove a veritable "wonder world." and illumination, which will give the tremely harmonious and beautiful

Particular attention is being given to industrial exhibits, which will represent manufacturing processes of all kinds in actual operation, and show the great strides that have been made by the manufacturers since the electric motor has been in use.

There will also be comprehensive exhibits of modern electrical appliances in every day use, all the novelcomfort giving devices. When it is Adams has voted to abandon the is now put in modern housekeeping, old separate ticket system, it will astonish even those who have thought they were up-to-the-times. There will be something of interest o expense as the reason for the change. the laymen, the expert, the manufacturer, the jobber, the housekeeper, the ladies and even the children.

HUDSON-FULTON CELEBRATION.

A Concise history of steam navigation, with handsome colored illustrations of famous boats, has just been issued by The Prudential Insurance Company of America, Home Office, Newark, N. J.

The book has been put out at this time because of the interest in steam navigation due to the Hudson-Fulton celebration at New York.

The book contains fourteen illustrations, all printed in colors. The picture on the front cover is especially attractive, and shows an Indian viewing from the hills the discovery of the Hudson River by Hendrick Hudson in the Half Moon in 1609.

Portraits of Hudson and Fulton also appear, and the Half Moon is also shown on its trip up the Hudson River.

The book contains illustrations of all the leading Hudson River steamboats, from the little Clermont of 1807 to the magnificently equipped Robert Fulton of 1909. With the pictures are included a description of the boats. The record of the progress of steam avigation in this country is one of which the Americans may be proud, for it is said to be one that has never

been equalled by any other nation. In addition to the steamboats, a beautiful colored picture of the famous record-breaking ocean liner Mauretania is also shown, as she appears when leaving New York for Europe.

On the last page The Prudential in dicates its own great size by stating the party adjourned to Norteman's that a line of its policyholders standing shoulder to shoulder would ex-

REUNION OF

Historical Address by Elisha mense garage and repair shop on Henry W. Long's Plan For President Taft Sets a Prece- Norfolk County Association Packard at Brockton

Packards from all over New Eng- however, are all Germans and are land gathered in Brockton Wednesday at the annual reunion of the descendants of Samuel Packard. Dinner was served at G. A. R. hall at noon, President Abbott W. Packard, delivering the address of welcome and cited some reminiscences of the early days of the family.

During the social hour Elisha Packard of Quincy the Vice President of the association, told where some of the Packards were and what they were doing he also stated that the Quincy Camp of Sons of Veterans was named after Col. Abner B. Packard of the 4th Massachusetts Regiment. He also stated that Packard was spelled "Pickard" in France, "Packert" in Germany and "Paccard" in Quincy Jewish Residents Observe Italy. In discussing family affairs with another Packard he discovered that his wife's ancestor, John Beale, came over on the same ship with his ancestor, Samuel Packard. It was quite a singular happening and he is glad to know that his wife is "in the

family. Mr. Packard's grandmother was the mother of 18 children, all of whom grew to advanced ages. He also

learned this at the reunion. "I feel sure you will be interested ing history of the Packard family and as there are many in Quincy of that name the history is of particular lo-

"Ie feel sure you will be interested to learn why Samuel Packard who evidently was fairly well-to-do, should voluntarily leave the beautiful mother country and try to make a new home for himself and family in a strange land, inhospitable, barren and full of

find that Rev. Robert Peck, vicar of the established church in Hingham, England, was removed by Bishop Wren for desecrating the chancel, removing the altar rails, also for praying in private. Peck thereupon decided to come the following officers: to America where he could do as he pleased. A large number of his parishioners and other sympathizers, including our illustrious ancestor, were induced to sell all their belongings at great sacrifice and accompany him.

"Selecting Hingham, which at that time had a population of less than 100 people, it was easy for the brilliant Peck to obtain control, and he be came Pastor Hobart's assistant minister—a position he filled until some years later, hearing that Wren himself had been removed, and forgotten his promise to stick by his friends, left them to shift for themselves and return to England; assumed the rec-

torship of his old parish.

Packard who had a large land grant in a nearby settlement, now Bridge water, removed thither. And it is a fact that of the several thousand Packard descendants in America, over one-third are residing in southeastern Massachusetts which shows they are not of a roaming nature, or adventur-BRUCE & MYATT EXPRESS Quincy Savings Bank of excitement, but not enough the dangers of the equator or the Arctic regions. IS RUNNING ON SLOW SCHEDULE

dent For His Long Tirp

Chicago, Sept. 16.-After travers ing the two great states of Massachusetts and New York, President Taft last night skirted the southern shores which he reached just before noon today, making his first important stop on a 13,000 mile tour of the west and

The presidential train consisted of three cars, with two empty coaches ahead as buffers. Wherever the train stopped on its run from Boston there were large crowds at the railway stations and the president was greeted with enthusiastic cheers.

The day was typical of many that are to come, and the president was prevailed upon to make a number of five-minute speeches from the rear platform of his car at points not included in the itinerary.

In Massachusetts Mr. Taft spoke at Worcester, Springfield and Pittsfield. Entering New York state the president was greeted at Albany by Governor Hughes and both made little talks to the depot throng which cheered the state and federal executives with equal enthusiasm. Governor Hughes became the president's guest on the run from Albany to Syracuse and had dinner with him on

the car Mayflower. President Taft was in rare good humor. He seemed thoroughly happy that the journey toward which he has been looking for several months had at last begun. He thanked those who came to greet him in the different cities, and said he believed that the lond and arduous trip would bring him into closer touch with the people than any other plan which could be devised. Mr. Taft said that the more he could see of the country and the people during his term of office, the better president he would make. On behalf of the people of the state of New York. Hughes bade the president Godspeed and a safe return to his

duties at Washington. Starting from Boston a little after 10 in the morning, the president headed straight for the west. It was his 52nd birthday and he received many congratulations and messages of good will. At Pittsfield some enthusiastic admirers fairly filled the president's car with flowers. The throng which lined the way from the hotel to the station in Boston was of the places of interest which his but a forerunner of those encountered along the way. Even at places where the president's train did not stop, he said that the Massachusetts dethere were many to wave him a greet-

The president set a precedent for the entire trip by electing to run on a slow schedule. The New York Central lines surrounded the train with every precaution for its safety. There always were three men on the of the traffic department were aboard from the start.

Vice President Sherman made a vain effort to see the president at Utica, Sherman's home city. It was dance and in the interesting features not known that the vice president was at home or would be at the station. The train stopped about thirty seconds for orders. Sherman clambered aboard the rear end and was making his way toward the president's room when the conductor, not knowing the vice president was aboard. gave the signal to go ahead. Sherman shouted to one of the attaches that he was not able to go on to Syracuse and hopped off. But he left behind a five pound box of candy as a birthday present.

HERE IS RELIEF FOR WOMEN.

If you have pains in the back, Urinary, Bladder or Kidney trouble and want a certain, pleasant herb relief from Women's ills, try Mother Gray's "AUSTRALIAN-LEAF." GRAND ARMY

Meeting in Quincy

The session of the quarterly meetng of the Norfolk County Associations of G. A. R. and W. R. C. were resumed Wednesday afternoon at Hibernian

The Woman's Relief corps immedately proceeded to finish up the busiless of the session which was uncomoleted when adjournment was made or dinner.

Mrs. Eliza A. Penniman presided and the election of officers resulted as follows: President-Miss Susie Tuckerman.

Senior Vice President-Mrs. Vinng of Weymouth Junior Vice President-Mrs. Clara Wentworth of Ayer.

Chaplain-Mrs. Butman. Treasurer-Mrs. Scott of Hyde Park. Conductor-Mrs. Fletcher. Guard-Mrs. Niles. It was voted to hold the next con-

ention at Milton the third Wednes-

day in December. The officers will be nstalled at that meeting. After the business meeting was inished the G. A. R. men filed into the hall. Mrs. Laura Holt of Quincy had charge of the program and it was an interesting one. One of the special features was a "whistling song," sung by A. F. Bicknell of Weymouth He received great applause and was called on several times. The follow-

ing pregram made the afternoon an interesting one to all those present, Address by the Chaplain. Quartet Weymouth G. A. R.

Peary's Negro Attendant Says He Was at the Pole FOUR ESKIMOS WITH THEM

Personally Assisted In Raising the American Flag and Led Cheers For Old Glory In the Eskimo Tongue-Natives Danced For Joy When Goal Was Reached-Three Observations Taken During Two Days Spent at About the Same as Elsewhere In

Battle Harbor, Labrador, by Wire-Stripes twice at the North "Pole," said Matthew Henson, Commander Peary's negro lieutenant and the only other civilized man, according to Peary, who ever reached the Pole.

"Having spent eighteen years with Commander Peary, and a considerable portion of that time in the Arctic," said Henson, "I have acquired a knowledge of the dialect of the Northern Greenland Eskimos, who are probably superior to any other. It is necessary for successful dealing with

"We arrived at the Pole just before the commander, myself, four Eskimos and thirty-six dogs, divided into two World's fairs come thick and fast detachments equal in number and headed respectively by Peary and myparty at 87 degrees, 53 minutes, where we separated from Captain have a British flag to erect on the ice at this spot, so that the photograph might show this as the farthest north to which the banner of England had been advanced.

"I have kept a personal diary during this historic dash across the ice field. Our first task on reaching the Pole was to build two igloos, as the weather was hazy and prevented accurate observations to confirm the distance traveled from Cape Columbia. Having completed the snow house, we had dinner, which included tea made on our alcohol stove, and then retired to rest, thus sleeping one Hoisting of Old Glory

"The Arctic sun was shining when I awoke and found the commander alfrom tent poles and tied with fish

"We had figured out the distance pretty closely and did not go beyond midday April 7 and were not moved until late that evening. The haze had cleared away early, but we wanted some hours to take observations. We made three close together.

"When we first raised the American flag its position was behind the igloos, which, according to our initial observations, was the position of the Pole, but on taking subsequent observations the flag was moved and placed 150 yards west of the first position, the difference in the observations being due perhaps to the moving ice.

"When the flag was placed Commander Peary exclaimed in English: 'We will plant the Stars and Stripes at the North Pole.'

"In the native language I proposed the Eskimos had been trying to reach that spot."

Henson, who reached the "farthest north" with Peary three years ago said that conditions were about the same at the Pole as elsewhere in the Arctic circle. All was a solid sea of ice, with a two-foot lead of open

Side by Side With Peary Continuing his story Henson said: The report is absolutely untrue that did not go to the Pole. I went the whole distance, side by side with the commander and just as far as he did." Henson added that he knew that some on board did not wish him to get to the Pole if they could prevent it,

but he knew that before he started. He also said that he saw Peary write the records which were left in the ice. All the Eskimos who were with them, except one, understood English, and

believe there is a little difference in

one of them could count a hundred. "At the Pole," continued Henson, "we could see no open lead, and we went no distance beyond the flags. The ice near the igloos was at least ten feet high and the flags were placed on the hummocks twenty feet high. The ice on the Pole is about the same as on the journey up, all rafted in between with small floes. Nearly all the winds we had were from the northeast. Peary had three ther- Sun rises-5:26; sets-5:52. mometers and the coldest day was 57 Moon sets-7:27 p. m.

Henson learned from the Eskimos hat for three days in Whale sound ast month they saw a cloud of smoke and there was an odor like brimstone. The natives were greatly frightened and Henson thought a new volcano had erupted and so informed them.

Henson made his first trip north in 1891. He went there because he was interested and kept on going year after year. Of Peary he spoke in terms of highest praise.

Prefers North Pole to Southland Mattthew Henson was born in Washington, but lived for a time in Florida. He says he prefers the North Pole, because it is too warm and there are too many mosqutos in the south. He is quite proud to be the first negro to go the farthest north. He says he cares less for glory than earning a living for his wife in New York. He is in good health, but lost twenty pounds in the Journey's End-Conditions There sixty-eight days' march to the Pole and return, and now weighs 135 pounds. The only frost bites he sustained were on the cheek and fingers. Speaking of the Eskimos, Henson

said they could draw as good a chart Sept. 16.—"We hoisted the Stars and of that country as any person. They do not know the length of a mile, but can estimate distance very exactly. To one who knows the language they will tell dates within a few days. The Eskimo women can reckon just how many days the men are out. The men cannot take observations, but they know what they are taken for.

HUNT FOR SOUTH POLE

Scott Expedition Will Endeavor to Get Ahead of Peary

St. John's, Sept. 16.-The mail poat from Labrador reports that Commander Peary and Captain Bartlett noon April 6, the party consisting of have already settled on an expedition to the South Pole. On board the Roosevelt they have furs, sledges and other equipment necessary for such an expedition.

London is interested

London, Sept. 16.-The report which has reached here that Peary and Bartlett have decided on a South Pole expedition will create a great stir in geographical circles. Although Captain Scott's expedition was decided upon before the arrival of the news of the Cook and Peary exploits, it admittedly was pressed forward with the intention to forestall a possible American expedition and because of quickened interest in Polar explorations to the Antarctic.

Captain Scott's expedition still depends upon the raising of the necessarv funds, at least \$200,000 being required. A considerable portion of this already has been promised and there is little doubt that the report that Peary is likely to start for the South Pole will stimulate the public and hasten the subscription of the remainder.

DEATH ENDS HONEYMOON

Young Man Asphyxiated and His Bride of a Few Days Dying

Providence, Sept. 16.-Married but a few days, Mr. and Mrs. Arthur ing expenses \$21,000, or that sum for 170 street lights. Within the next two years it will be necessary to expend about \$40,enjoyed but a brief honeymoon, the young husband being dead and Mrs. Tetrault dying as a result of gas asphyxiation in their room at a local hotel. Medical Examiner Perkins plant. states his belief that the case was one of accident.

The couple were found in bed, the husband dead and the wife uncon- zens made jack-o'-lanterns of pumpscious. One gas cock was wide open. kins and invited the council to inspect It is supposed that the gas was the new lighting plant. At that time turned on accidentally when the elec- threats were made openly that the tric lights, on the same fixture, were poles would be forn down unless the being turned off.

On Tuesday evening Tetrault shyly asked the hotel clerk for a room. He stated that he and his wife had just been married. The couple breakfasted at 10 a. m., Wednesday, and were not seen thereafter until the door of their room was forced last night after a belloy smelled gas.

The clothes of each indicated the recent marriage ceremony. Among their effects was a birth certificate which showed the husband to be but 19 years old. Mrs. Tetrault appears to be a few years older than her deceased husband.

MRS. BOUTWELL'S DEATH

Medical Examiner Finds It Was Not Due to Foul Play

Milford, N. H., Sept. 16 .- A finding that death was due to natural causes was returned by the medical examiner in the case of Mrs. Mary J. D. Boutwell of Mount Vernon.

Mrs. Boutwell's death occurred last Saturday night after she had been found by her husband in an unconscious condition in bed. The discovery of a bruise at the back of the woman's ear led to a suspicion of foul

After the verdict of the medical examiner was given the body was turned over to relatives for burial. Mrs. Boutwell was 50 years old.

Pilot Would Have Saved Ship Havana, Sept. 16.-While attempting to enter this port without a pilot the Spanish bark San Antonio, from Barcelona, struck a rock and sank in the main channel. The crew were taken off in tugs, but it may be impossible to refloat the vessel.

WHOSE FAULT?

Was It Bad Luck or Mismanagement? The Taxpayers Take No Pleasure In Feeding Their White Elephant.

The municipal electric light plant of Frankfort, Ind., was brought into prominence recently by the bursting of flywheel, which damaged it to the extent of \$12,000 to \$15,000 and caused great inconvenience to the factories and business houses that depended on the plant for light and power. The accident is said to have been due to incompetent supervision.

About a year ago a disinterested citizen of Frankfort wrote to an inquirer: We have a city of from 10,000 to 12,000 ing plant] was something over \$80,000. While the city has no report, from data on file I should judge that the cost was about \$120 [per street arc lamp]. City taxes have been doubled since the installation of the municipal lighting plant. Service is extremely poor and while it Service is extremely poor, and, while it appears to be the pet of councilmen, there is not a taxpayer in this city who does not regard this plant as a white elephant. Last year we had 170 lights, and the re-ceipts from all sources from the lighting plant were something over \$37,000, while the total expenses were something over \$58,000, thus making the net cost of operat-

000 on machinery and repairs. tax levy and a large surplus of cash that you wish to get rid of, my advice to you would be to build a municipal lighting

This was the city where a few years ago the feeling in regard to the poor service became so bitter that the citiservice improved.

MADE IT A LIFE STUDY

Dr. J. S. Leonhardt Found the Cause and Cure of Piles.

Dr. J. S. Leonhardt, the celebrated specialist of Lincoln, Neb., proved after years of study, that the cause of piles is internal-bad circulation. Then he perfected Hem-Roid ,an internal remedy, and in 1000 different cases it cured 98 per cent. By Dr. Leonhardt's order Hem-Rold is sold under an iron-clad guarantee. If it fails, the money is paid back.

Governor Johnson on Operating Table Nearly Three Hours

S SUFFERING GREAT PAIN

Difficult and Prolonged Task In Removing Abscess Connected With Intestines-One Doctor Pronounces It as One of the Most Terrible Operations of the Kind He Ever Wit. nessed-Bare Chance For Recovery

Rochester, Minn., Sept. 16 .- Dr. C. F. McNevin, house physician at St. Mary's hospital, issued the following bulletin on Governor Johnson's condition: "Governor Johnson's condition is

very bad. Pulse irregular and fast. Temperature subnormal." The governor was operated on in

St. Mary's hospital here by Dr. William J. Mayo, assisted by Dr. Charles Mayo, for a deep-seated intestinal abscess.

Governor Johnson was on the operating table for two hours and fiftythree minutes. As soon as he had recovered from the effects of the anesthetic his first words were for Mrs. Johnson, who came at once to his

Dr. William Mayo will not make any personal statement regarding Governor Johnson's condition or pros-

About 3:30 p. m., a bulletin was issued from St. Mary's hospital signed by Dr. C. F. McNevin, which read as follows:

"Governor Johnson passed through the operation successfullly. He is doing nicely." A half hour later another and more

explicit bulletin was issued by one of the surgeons, but it was unsigned and when asked whose signature should be attached to it, he said: "Sign it St. Mary's hospital. The bulletin read: "The doctors found a small, deep-seated abscess

connected with the intestines. It was a difficult, serious and prolonged optration. Governor Johnson stood it well and rallied. The chances are for his recovery, although he will not be out of danger for five days. He is suffering great pain."

A number of physicians witnessed the operation. Dr. H. H. Witherstein of this city, also a state senator, is known to have given the governor's private secretary, Frank A. Day, a gloomy view of the case, saying that it was "one of the most terrible operations of the kind he ever wit-

BALLINGER IS UPHELD

President Authorizes Dismissal of Glavis From Government Service

Albany, Sept. 16 .- A statement in which President Taft announces his findings upon the charges against the conduct of the interior department of the government by L. R. Glavis, chief of the field division of the general land office, in connection with the Cunningham coal land claims in Alaska, exonerating Secretary Ballinger of the interior department and observing that Glavis' case embraced only "shreds of suspicion without substantial evidence," was made public here

The president grants Ballinger's request for authority to dismiss Glavis from the service of the government "for unjustly impeaching the official integrity of his superior officer," and takes occasion to review evidence in the so-called "water power trust" and other cases to refute the charges that the secretary of the interior is out of sympathy with the policy of the administration in favor of the conservation of natural resources.

LIED ABOUT BRIDE'S AGE

Bridegroom Gets Four Years In Prison Instead of Parental Blessing Baltimore, Sept. 16 .- For swear-

ing falsely to the age of his sweetheart to get a marriage license, William Moore was sentenced to four years in the penitentiary by Judge Forsyth at Ellicott City. Moore obtained a license to marry Elizabeth Saylor of this city, representing that she was 18 years old when in fact she was scarcely 15.

The pair were married Aug. 9 and later came to the home of the girl's mother. The latter had the bridegroom arrested. His trial and conviction followed. The bride's mother is endeavoring to have the marriage aunulled.

Chinese Students Start For America Pekin, Sept. 16.-Forty-seven students have been accepted to go to the United States and study, under the arrangement by which that part of the Boxer indemnity that was returned to China by America is to be expended for educational purposes. They left for the United States today in charge of Tong Kai Son, a graduate of Yale.

Stole Money From Government San Francisco, Sept. 16.—Eugene Pearson, former chief clerk in the depot quartermaster's office of the United States army in this city, was sentenced to one year and one day in \$1140 from the government.

CYRUS PATCH & SON, Inc.

Office, 1422 Hancock Street, Quincy

CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he becalendar, an American whom he believes to be an adventurer. II—Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar receives a note of warning from a fashlonably dressed woman. He is then asked by the American, who admits without giving a resent that he form without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood con-sents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her equest. IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark nouse ajar. He throws off a cockney who ries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not explain the mystery of the gloomy house. Heavy raps at the front door startle the two. -Dorothy and Kirkwood, the latter qu loning himself whether or not he has fallen In love with the girl, flee from the mysterious house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters he house to learn whether Calendar is there. He meets Mrs. Hallam and recog-

Ball and Base Ball Teams

team and the best practice so far this many guests at the Davis house had rendering any account to her, though A large squad turned out at the year was the result. Two good teams were lined up against each other with another team doing signal practice in one corner of the field. Veal and Bugler two new men showed up well Wednesday and Mel. Chapman the baseball player looks pretty good. A good scrimmage was indulged in during the afternoon and good progress made, as there were several new men who showed unlooked for ability

in the back field. Today, the team will be started on signal practice and by the last of the week ought to be running fairly well. Saturday there will be a short game of ten minute halves between two teams picked from the squad. A week from Saturday the first game is scheduled with Brookline High at Quincy and there will have to be some rush work done, but all the coaches feel sure that they can put a speedy team on the field with the material at hand now.

Next Monday it is hoped that Phil Rice and Phil Clapp will be back at school and able to report. They ought to strengthen the team a great deal, Rice especially as the line is A. W. Stetson and A. F. Macleod are light and he is one of the few heavy

> The instructors of the Boston High schools have decided to run three teams in each school, the first, second and freshman teams.

This gives every man a chance to play and outside of keeping an interest in the sport it is going to do just what all school instructors are aiming o do, that is to promote the physical George W. Jones says after you have welfare of he greatest number of shaken that straw, just call on him students possible and let, not only the members of the first team get the benefit of the training and the exercise, G. A. Sullivan and George Rein- but the largest number that can be halter are at the White Mountains for handled. There is a chance now for the local high school manager to arrange some games with the second teams of these schools for the High

school second team. Pete Cannon the captain of the Roxbury high school football team has Nason are sorry to hear that she is been ruled out of playing on account of studies. This means a very great loss to the team suffering the loss of The Copeland club and St. Mary's a man and a veteran so early in the will cross bats on the Water street season. The local boys can well take heed and make sure that their work loes not suffer. A man can work just as well for his team by studying as by playing a star game.

"Honey" Curtis and "Jimmy James H. Penniman and family of Michaels are at the Weymouth Fair Wessagussett team for a prize. "Honey," will hold down the left field Julius Fuller of Hall place left while "Jimmy," is making the opposing batters take the airline route.

It seems as though the Atlantic-Makaria controversy was getting rather stale. If either team was very anxious to play it seems as though there would have been games arranged by this time. Although in full justice to the Makaria it must be in he matter of arranging for a series of games. It is a case now with both Probation officer Francis A. Spear teams of "putting up" or "shutting play the sport and soon it will be a case of continuing it until next season with all the intermittent discussions as to what each one would have done if they had played.

CLASSIFIED ADVERTISING.

The large number of classified advertisements ordered for publication in the Boston Evening Transcript, petition and order, by registered mail especially on Wednesday and Saturappreciation of the good will of so before said first Monday of November many advertisers, and at the same time to ask the favor that they send and there show cause why the prayer their copy as early as possible, so results.

MUNICIPAL CAUCUSES.

Melrose Citizens Agitating the Subject of Doing Away with Them.

A movement is on foot in Melrose to do away with the municipal caucuses and the matter will be brought up at the coming meeting of the Republican City Committee. The matter, which has been agitated for some years, was brought to a head this Newsy Items of Local Foot year by the fact that of the three enter the caucuses. The other two candidates will run on nomination papers. It is believed that if caucuses were abolished it would be fairer to all concerned.

> A disastrous fire visited East Wakefield, N. H., early this morning and cy passed their vacation in this town the past summer.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c. and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of

Commonwealth of Massachusetts.

To Honorable the Judges of the lar

Respectfully represents Mary fule of Quincy, in the County of Nor olk aforesaid, that she is the owner n fee of a certain estate situated in aid Quincy, being the same premis onveyed to your petitioner by deed Ella M. Freeman dated April 20, 1909 and duly recorded in the Registry of aid County, Book 1108 Page 532. That the record title to said estate encumbered by an undischarged

nortgage, which mortgage was give by Ebenezer Cleverly to H. Barker e l, trustees of the Quincy Loan Fu Association dated March 13th, 243 Page 247 and of which mortgage py is herewith annexed and marked

That your petitioner has the estate f the mortgagor in said premises, that said mortgagor and those having his estate therein, including your petition have been in uninterrupted possion of the land for more than twenty years after the expiration of the time limited for the performance of the co litions thereof; that there has been ayment on account of the debt sec by said mortgage within more than wenty years after the expiration o the time limited for the performan of the condition thereof, and there h been no other act within said time recognition of its existence as a vai rtgage: That said mortgage now a valid mortgage and ought to b discharged.

Wherefore your petitioner prays that after such notice by publication or otherwise as the court may order, said shall find that said mortgage ught to be discharged and shall enter decree reciting the facts and find-

ings. By her Attorney STARR KEYES. A true copy Attest; CLARENCE C. SMITH,

Commonwealth of Massachusetts. Land Court Norfolk, ss.

(Seal) Upon the foregoing petition, it is ordered that the petitioner give notice of all persons interested in said peti ion to appear before the Land Court, at Dedham, within and for our said ounty of Norfolk, (where appear ances and answers may be filed with John H. Burdakin, Register of Deeds attested copy of said petition and this order to be published forthwith once a week, for three successive weeks, in he Quincy Daily Ledger, a newspape published in Quincy, in said County o Norfolk, the last publication to b fourteen days at least before said first Monday of November next; by serving each known respondent within the Commonwealth with a like attested copy of said petition and order, fourteen days at least before said first Monday of November next; and by serving a like attested copy of said commonwealth, as soon as may be, and n any event fourteen days at least of said petition should not be granted. By the Court.

Attest: CLARENCE C. SMITH, September 14, 1909. A true Copy Attest; CLARENCE C. SMITH,

Marriages In Spain.

Spanish woman the power of appeal-

ing to a magistrate if she wishes to

escape from a union which is distaste-

ful to her, and the magistrate may

take her from her father's house until

she is of age and her own mistress,

while if she determines to marry a

man of whom her parents disapprove she may also place herself under the protection of the law, and she cannot be deprived of her share of the family estates. On reaching her majority she enjoys the same privileges as her brother with regard to property. She may inherit, will, buy and sell. But when she marries she again reverts to the position of a minor, and her husband has entire control of her possessions, which he can squander without money without his consent. He may desert her and her children without incurring any punishment or much public condemnation. A Spanish lady confers on her husband the titles of

nobility and any privilege connected

therewith she may possess at the time

of her marriage.-London Queen.

Early Prejudice Against Potatoes. The way of the potato was said to have been barred by the prejudice that was never mentioned in the Bible. n the Lothians it came in about 1740, the year of the famine, from Ireland, but was confined to gardens till about 1754, when it was planted in fields about Aberlady. By the close of the century it was a general article of diet. Ramsay says that George Henderson went about 1750 for a bag of potatoes to Kilsyth, where the Irish nethod of field culture had lately been tried, and introduced the potato into Mentieth, where a few had been known, but only in kale yards. The old folks, however, did not take kindly to the new food. Old George Bachop, one of the Ochtertyre tenants, when old by his wife that she had potatoes for supper said: "Tatties! Tatties! I never supped on them a' my days and winna the nicht. Gie them to the herd and get me sowens." It is significant

Blackwood's Magazine.

that Burns, who sings the praises of

kale and porridge and haggis, should

have nothing to say of the potato .-

An old Cambridge friend of mine who had a good deal of the wisdom of the serpent in him had a farmer in his and recorded in said Registry Book parish in Norfolk whom he could not get to church. Whenever he pressed upon him his neglect or his bad example he was always met with the same excuse, "You be too young and do not know enough to teach such as I." At last he gave up the farmer in despair. But one day he happened to pass by the farm while his parishioner was engaged in killing a fine pig. My weighs thirty-four stone!" "What dost | developments of that disease. thou know of pigs?" replied the thirty-four stone. He added, much to my friend's gratification, "And thou wilt see me at church next Sunday, parson."-London Globe.

A Problem In Mathematics. The town of Sturgis, in Mississippl, is the only round square town in existence. By legal enactment the circle has been squared, and the mathematician may now proceed to calculate the area of a square circle. In the laws of Mississippi for the year 1886, on page

582, is found the following: "An act to incorporate the town of Sturgis, in Oktibbeha county, Missis-

sippi. "Section 1. Be it enacted by the legislature of the state of Mississippi that the town of Sturgis, in the county of Oktibbeha, is hereby incorporated and that the corporate limits of said town shall be as follows: Beginning at the quarter stake in front of Caleb November next, by causing a true and Hannah's residence and running 600 yards in every direction, making said corporate limits 1,200 yards square." Thus the circle is squared by the solemn declaration of the law .- Youth's

Companion.

Turks and Animals. In the matter of kindness to animals it is said that the Turk cannot be surpassed. Thus at Stamboul the wandering dogs are treated with great gentleness, and when puppies come into the world they are lodged with their mother at the side of the street in improvised kennels made out of eld boxes lined with straw and bits of carpet. And frequently when a young Turk happens to be flush of money he goes to the nearest baker's shop and buys a quantity of bread, which he distributes among the dogs of the quarter, who testify their gratitude by jumping up at him with muddy paws and sniffing muzzles.

In Mexican Presidential Chair Mexico City, Sept. 16 .- General Porforio Diaz, president of Mexico, celebrated his 79th birthday Wednesday. He was the recipient of greetings from many foreign parts, and hundreds flocked to the national palace to personally present their congratulations. The diplomatic corps and consular body presented felicitations, and General Diaz, who is in splendid health, feelingly answered these salutations.

PRESIDENT DIAZ.

A body of workmen who came to the palace expressed the hope that Diaz might yet rule Mexico for many years, and their enthusiasm moved the president to tears.

President Diaz has occupied the chief magistracy of the republic for thirty-two years. He has been again renominated to fill the term commencing in 1910 and ending six years

STRANGE MALADY TO BE BULLETINED

Government Is Concerned Over Prevalence of Pellagra

Washingon, Sept. 16.-So widespread has interest in pellagra become among the medical authorities and others throughout the country, that Surgeon General Wyman of the public health and marine hospital service has decided to issue a weekly friend said: "What a pig! Why, he | bulletin dealing exclusively with the

This step has been decided upon as farmer. "I only wish he weighed as a result of requests from practically much." When they next met the farm- all of the state boards of health, er, to his surprise, told my friend that which are watching the progress of the pig had been found to weigh just | the disease, particularly in the south, with much concern.

BIG STRIKE RENEWED

More Than Three Thousand Men Quit In Schoenville Car Works

Pittsburg, Sept. 16.-The carworkers' strike at the plant of the Pressed Steel Car company in Schoenville, which, it was thought, was settled on Wednesday of last week, after costing nine lives and heavy financial loss, began anew when between 3000 and 4000 employes of the car works left their work and quietly dis-

persed to their homes. The workmen now allege that the car company officials have broken faith with them regarding the discharge of imported bosses brought here during the recent eight weeks' labor dispute.

The car plant officials say that they will probably discharge what few imported workmen are yet in the plant in a second effort to resume business

and keep their plant running. There are fifty deputy sheriffs on guard at the car plant. Little or no trouble is anticipated, however, and it is believed that the car works will again be in full operation by tonight.

DEALING IN CANNED MEATS

British War Office Sells Stocks to Chicago Houses at Big Profit

London, Sept. 16.-Taking advantage of the prevailing shortage in and the enhanced prices for canned meats, the thrifty British war office is reported to have reaped a handsome profit by selling back to certain Chicago houses large stocks of canned meats ordered before the prices ad-It appears that these supplies are

not wanted immediately, and that under its contract the war office may replenish its reserves when it desires at the old and lower prices. Officials of the war department decline to either confirm or deny this story.

Curtiss' Record Lowered Saint Cyr, France, Sept. 16 .-Santos Dumont succeeded in leaving Back Bay 208 | the ground with his aeroplane after a preliminary run of seventy metres. This beats the record made by Glenn H. Curtiss, which was about-seventy two metres.

> Colton Takes Office Nov. 1 Washington, Sept. 16.-George P. Colton, who will succeed Regis H. Post as governor of Porto Rico, will assume his office Nov. 1, according to arrangements completed at the war department. Colton is now in Canada.

all goes well. At the present time the leading citizens of the town are planwill have free access to it. It will in all probability be a building near the Cunningham gymnasium and central to all parts of the town. The erection of a building of this sort would be one of the best things possible for the town. It is something that every town or city should have and it certainly speaks well for the progressiveness of her citizens, that Milton should plan a swimming pool while her neighbors are contenting themselves with the bath tub at home. Another improvement this winter will be two new bowling alleys which have been put into the Cunningham Harmon, lhb gymnasium building. These are not quite finished as yet but in about a Capt, Bates, fb month they will be open to the pub-

SUPERIOR COURT.

Several Quincy Cases Disposed Thursday by Judge DeCourcy.

Several Quincy cases were disposed of Thursday by Judge DeCourcy in he superior court at Dedham.

Lorenzo Crugnoli of Endicott street, Boston for breaking and entering the lwelling of Mary E. Donnelly at Quiny, Aug. 7, was given three years in ne House of Correction. He pleaded harge of a break at the house of ames T. Bent on the same evening. No sentence was given on the latter

a large squad successfully. It is hoped that more of the old foot ball Crugnoli was captured while enterng the Bent house and later identiplayers will see their way to the foot fied by the Donnelly woman as the ne who had broken into her house. Augustus L. Tirrell for assault on a vent any work today, and the lay off oung girl at Houghs Neck was given may do some of the stiff ones good and ix months in the House of Correction. Guiseppe Romeri for assault on Court officer Marden at Quincy was o'clock Saturday there will be a ter given six months in the House of minute scrimmage between the two squads. The way they lined up at the Correction.

John A. McDonald was sentenced to 0 months in the House of Correction or larceny at Quincy. McDonald is he man who three years ago hired a eam at Penniman's stable and failed o return with it. He served time in Pennsylvania and upon his release few minutes the ball of the American went to Providence where he was arested for the Quincy police.

William Oswell and Fred Jacobson the two men who broke into Galagher's express office and stole over

Jeremiah alias Daniel Carey got entering the blacksmith shop of Fred Langdon at Wollaston.

Fred Nutting was sentenced to foureen months in jail for an unnatural act at Quincy.

PROGRESSIVE FIRM.

In accordance with the progressive policy of the well known firm of R. E. Foy & Co., grocers and marketmen of Quincy and Water street, Quincy Adams, a two-ton Rapid auto truck the president inquired if all the chilhas been purchased.

This truck, beginning today, will make daily trips to the Boston markets, to procure fresh goods for the hundreds of customers of the Foy

The advantage of this automobile service will be seen at once, and it his stay in Chicago. Recalling that will doubtless greatly enlarge the list it was in this same hall during the of regular customers.

The truck will go to Boston every norning, returning loaded with the best the market affords. The trip from the Boston markets to Quincy Adams consumes about one hour. While it has always been the policy of this concern to carry only strictly fresh goods, the addition of the auto truck service will greatly improve former conditions and the peoole of Quincy will benefit by it.

On days when the demand for goods is unusually large, the truck will make two trips to Boston.

TWELVE HOURS

Taft Welcomed to Chicago by 150,000 Children

Chicago, Sept. 17 .- President Taft during a stay of twelve eventful hours in Chicago, plunged with a will into the long program of entertaining that awaits him on his long western and southern itinerary. With fine weather and crowds that fairly fought to catch a glimpse of the chief executive this the first city to be visited, set a high mark of enthusiastic welcome which the president seemed deeply to appre-

From the moment he stepped off the rear platform of his private car at a temporary station on the outskirts of the city until he retired late last night on board the train which pealed. took him to Milwaukee this morning, the president's journeyings of thirty miles or more over the city's streets suilty to this as well as to a similar and parkways led him through lanes of massed humanity that were kept open with the greatest difficulty on the part of the police.

Beginning with an automobile trip to review 150,000 school children, four deep on either side of the park boulevards, the president's day was eplete with incident. He attended and spoke briefly at a luncheon of the Commercial club, viewed an exhibit of ambitious plans for the improvement and beautification of Chicago attended the regular National league baseball game between the Chicago champion "Cubs" and the New York "Giants;" dined quietly with the Hamilton club at the Congress hotel; made a notable address to a mass meeting in Orchestra hall last evening, and as a finale attended for a Bankers' association at the auditorium.

Mr. Taft was deeply impressed by the greeting of the schoolchildren. each one of whom waved a little \$100 in money were sent to the re- American flag and sang and cheered as he passed. The president bowed and smiled and waved his hand to the hree months in jail for breaking and enthusiastic youngsters. The school yells of the young people frequently stirred the president to hearty chuckles. Girls as well as boys participated in the uproar and they bore the burden of the singing.

The singing was led by cornets stationed at intervals. Of the many banners under which the cavalcade passed two attracted particular attention. One huge affair read "God Bless Our President," and another "Greetings from 100,000 Railway Employes." Of Ella F. Young, the new superintendent of Chicago schools, dren were hers. "Every one," replied Mrs. Young.

The President's Address The president received an uproarous greeting from a mass meeting when he reached Orchestra hall last night to make the only set speech of campaign of a year ago that he faced an audience of more than 1800 workingmen and made one of the crucial addresses of his candidacy, the president assured his hearers that he had not forgotten his campaign promises and the platform declarations of his party.

Speaking with great earnestness the president declared that no question before the American people today is more important than the improvement of the administration of justice, and announced his intention of recommending to congress the appointment of a commission to take up the question of the law's delay in the federal courts. The president said he hoped that the report of this commission. when rendered, would serve also as a guide to the states of the union in effecting remedial legislation.

Mr. Taft devoted the entire first part of his speech to the subject of labor and said he intended to recommend to congress in his first message legislation to carry out the platform promise as to injunctions-that no infunction or restraining order be issued without notice except where irreparable damage would result from delay, in which case a speedy hearing should be granted.

The president declared anew his belief in organized labor and congratulated the leaders of the movement upon having "set their faces like flint against the doctrines of social-

Taking up next the subject of the courts the president asserted with WEST QUINCY earnest emphasis that the administra-

ace to American civilization. shamed of the fact as Americans night well be, he declared that the poor man has not now an equal opportunity with the rich litigant in civil suits and said it was his purpose to do what he could to place the poor man on a more equal footing.

HAD SON ARRESTED.

Father Follows Him to Boston and Causes his Arrest for Larceny.

Unless he is fortunate enough to secure bondsmen, to protect his appeal Joseph W. Canale will have to remain in jail until the term of the October grand jury. Joseph was arrested in Boston Thursday afternoon or the larceny of a watch and clothing from his father's store on Water street. The father was near, at hand at the time the larceny was committed and followed his son to the depot and

n to Boston on the same train. When the train reached Boston his ather hailed an officer to whom he old his story with the result that the oung man was arrested. Afterward e was sorry and in court this morning pleaded to have the boy put on probation. The court however sent him to the reformatory and it was from this sentence that the boy ap-

LARGE ADDITION.

Street Railway Co., to Build Addition to Car Barn.

Work is to be commenced early ext week building a large addition to ne street railway car barns on Hanock street. The present car barns ontains ten tracks. These will not egin to accommodate the cars in use n this division and it has been necesary to keep many of them out doors where they are exposed to all kinds of

eather. The new barn will be built on the asterly end of the present barns. It will be 185 feet deep and 75 feet ide and will furnish room for six racks which will accommodate about thirty cars. The present barns acommodate fifty cars. This means that when completed eighty cars can be

COST 215 LIVES.

"Sane" Fourth of July This Year Results in Large Loss of Life.

According to the American Medical Association journal the celebration of he glorious Fourth this year resulted in 215 lives, which was by far the largest total deaths by the Independence Day celebration for five years. This is in face of the fact that the sentiment in favor of a "sane Fourth had reached its height.

Tetanus, or lockjaw, was responsible for 125 of the lives lost, of which Boston had five and Lawrence five.

An item states that a boy took sick and fell from a pole. Cook or Peary would have to be pretty sick to let go of their hold on the pole.

The fall suits won't be so likely to suit as the cost is said to be much in advance of last year. Looks as though it would be the same old suit for most of us.

A buried city has been discovered in Mexico. There are several in the U. S., that might be placed in that class but Quincy isn't one of them being very much alive and progres-

While Thanksgiving is the national family reunion day the summer now marks the larger observance for it is on broader lines including all who bear the same name or are descendants of those of the name. These family reunions have become pleasing features of the vacation season Fortunate are the men, women and children who are tied by blodd to good families and bear a name that is rather to be chosen than great riches. Pride in a family name is righteous conceit and we pardon the enthusiasm of the old folks in the country, who show us the photographs of sons and daughters who have made good in the cities. Reunions bring them all together about the family tree where they take a just pride in their achievements and learn to remember the worth of rugged parentage and ancestors.

TRGED TO COMPLETE EDUCATION.

Pupils that drop out of school be fore graduation in order to go to have all been substantially provided waukee to return later and complete set aside by Harriman during his lift the high school course. Special classes will be formed to prepare such pupils for high school work. The ex- is witnessed by Charles A. Peabody. periment will be tried by Milwaukee for the first time the coming school ance company, who drew it, and C year. It may result in a great reduction of the number of pupils that drop out and never complete the course either in the grade school or the high school. Educators have lately given much attention to the large percentage of pupils that drop out. Some believe that more manual training would financial aid in his early struggles in hold pupils in school. A good many the market, when aid was most valupupils drop out because their parents are not financially able to keep them in school. Later the financial condition of parents might warrant the return of the children to school. But the children in the meantime have fallen behind former classmates and humbly enter classes composed of younger children. These were the considerations that led the Milwaukee school board to try the plan of special classes for next year. The courses will be so arranged that pupils in special classes may advance as rapidly as they can learn. The plan seems to afford at least a partial solution of the problem presented by the large percentage of pupils that drop out before completing the course of study. The Milwaukee experiment will be earefully observed .- Haverhill Ga-

-Tina Lerner, the young Russian planist whom Loudon Charlton is to bring from Europe in October for her second American tour, is only twenty years of age, and yet her reputation is world-wide. Morover, she is an extremely beautiful young woman, with dark eyes and rich olive skin that have served as an inspiration to more than one portrait painter of note Miss Lerner's playing made a profound sensation in the few cities in which she was heard last year, and her return for a transcontinental tour will be awaited with interest.

Harriman's Property, Real and Personal, Goes to Widow

MAY AMOUNT TO \$100,000,000

Mrs. Harriman Believed to Have Become the Wealthiest Woman In the World-Sons, Daughters and Other Relatives Substantially Provided For-Document Disposing of Vast Estate Is Remarkable For Brevity

New York, Sept. 17 .- A hundred brief words, weighted each with ap-Residence G. T. Magee, Quincy 75-2 proximately \$1,000,000, and containing in their entirety the last testament of E. H. Harriman, make his widow, Mary Averell Harriman, one of the wealthiest women in the world. It is perhaps, the briefest will on record for the disposal of an estate of such magnitude. All his property is left to Mrs. Harriman.

MRS. E. H. HARRIMAN. Wall street estimates that Mrs

Harriman will inherit in realty and personal property between \$175,000, 000 and \$100,000,000. Harriman's private fortune is supposed to have been greater than this by many millions, but there is reason to believe that his unmarried daughters, Mary and Carol, his married daughter, Mrs. Robert L. Gerry, and his two sons. William Averell and Roland, a boy of 14, together with his surviving sister, Mrs. Simons, and other relatives, work will be encouraged by Mil- for in gifts out of hand and trust funds

The will is dated June 8, 1903, and president of the Mutual Life Insur-C. Legethoff.

Mrs. Harriman was Miss Mary Averell, daughter of A. J. Averell, a wealthy banker of Rochester, who made his money in the Rome, Watertown and Ogdensburg Railroad company. She brought her husband able to him. He never needed it again, for his administrative ability soon won him the support of Kuhn, Loeb & Co., the National City bank and the powerful Standard Oil clique. Their thirty-six years of married life -Mr. Harriman was married in 1873 -it has always been said, were idealy happy.

On Mrs. Harriman's shoulders will rest the management of the 43,000 acres of woodland, pasture land and fertile black bottoms in the Ramapa valley and on the steep sides of Tower hill; the completion of the great house on which its master had already lavished \$2,500,000 without living to see it finished; and those plans of public benefaction-parks and forest reservations-which it is known that Harriman cherished, though he makes no mention of them in his will.

If the estate measures up to expectation, Mrs. Harriman, according to common estimate here, is the wealthiest woman in the world. Mrs. Hetty Green's holdings have been estimated at \$40,000,000, those of Mrs. Frederick C. Penfield, who was Anne Weightman of Philadelphia, at \$80,-000,000, and those of Mrs. Russell Sage at a like amount.

The will was filed Thursday with the surrogate of Oraange county at Goshen. It will not be appraised until Mrs. Harriman so orders in due course of law as sole executrix. The will reads as follows:

"I, Edward H. Harriman of Arden, in the state of New York, do make, publish and declare, this as and for my last will and testament, that is

"I give, devise and bequeath all of my property, real and personal of every kind and nature, to my wife, Mary W. Harriman, to be hers absolutely and forever and I do hereby nominate and appoint the said Mary W. Harriman to be executrix of this

"In witness whereof I have hereunto set my hand and seal this eighth day of June, in the year nineteen

"GRANDFATHER CLAUSE"

Democrats Want It Embodied

Maryland State Constitution Baltimore, Sept. 17.—The campaign on the question of the adoption of an amendment to the state consti tution, which is designed to disfranchise a large number of negro voters was formally opened last night at

Democratic mass meeting here.

National interest has been arouses pecause of the denunciation of the proposed amendment by Presiden l'aft and because of the declaration of state Republicans that the suprem court of the United States will be asked to pass upon its validty should t be adopted at the election nex November. The supreme court has never passed upon the so-called "grandfather clause" which is em podied in the amendment.

Addresses in favor of the adoption of the amendment were delivered by Governor Crothers and United States Senator Raynor.

THE DEATH OF SUTTON Doctors Disagree as to Whether

Wound Could Be Self Inflicted Washington, Sept. 17.—Disagreng with Surgeon Spear, who declared that the appearance of the body of lieutenant James N. Sutton, U. S. M. C., whose death at Annapolis two years ago has recently been the subject of an investigation, indicated that suicide was possible, Dr Vaughan, who also attended the autopsy on the body, declares that there vere no indications of a close dis harge of the pistol which killed him His examination of the body lee Jaughan to believe that Sutton die not die by his own hands. His ful eport of the autopsy is in the hands of counsel for Mrs. Sutton, who expects to soon make a statement regarding the report.

GLAVIS GETS HIS WALKING PAPERS

Dismissed From Office by Di rection of the President

Washington, Sept. 17.-L. H. llavis, chief of the field division of he general land office, with headuarters at Seattle, was dismissed rom the service by telegraph by Sec etary of the Interior Ballinger.

The summary removal of Glavis given Ballinger in a letter to him rom President Taft. The president, n directing the dismissal, vindicated Ballinger and other officials of the in terior department of the charge rought against them by Glavis in connection with the so-called Cun ningham group of coal land cases in

TURNED BACK WITH REGRET

Soundings of Sea In One Place Disclosed Depth of 2000 Fathoms Without Bottom-No Divine Service on Board Ship-Trout and Musk Oxen Plentiful-Many Trophies Brought Back by Explorers Battle Harbor, Labrador, Sept. 17.

-Captain Bartlett of the steamer Roosevelt intends to go to Cornell university to study civil engineering. He enjoys the distinction of having been nearer the North Pole than any other white man of the party except Commander Peary. He commanded Peary's last supporting party and shook hands with Peary and bade him goodbye and good luck 127 miles from the Pole. Captain Bartlett was very sorry to

turn back. At Peary's request he enth Rhode Island became unpopular took and recorded the observation with some of his command, and a at \$7.53, wrote his certificate and rumor spread that he would be shot made copies of both papers. He gave at the next engagement. He heard of one copy to Peary and retained the it. It was customary when guns had other. The captain has sent his been loaded for some time to have records and his diary to his mother in

"The last observation, other than those made by the commander himself, was made by me," said Bartlett. "I could realize that were at last so near the Pole, I wrote the record of that observation with the closest at-"After parting company with Peary,

did not immediately turn back, but continued onward for six miles to allow for the ice movement and to make sure that I really had obtained the British record. Then, with two Eski mos, one sledge and eighteen dogs, I turned south and started on the homeward journey, sad at heart that it was not my fortune to be able to go on with the commander. But I was in his hands, to go when and where he directed.

"The return trip to Cape Columbia was uneventful. Two dogs were killed and thrown to the rest of the pack. When the whole party had reassembled we found the Roosevelt in good condition, and averaged six knots on the trip south.

Captain Bartlett made the interesting statement that one of his soundings well on towards the Pole disclosed a depth of 2000 fathoms without bottom. let down and bottom was not reached.

Asked at what point farthest north he had seen the Bible Bartlett said would judge that laundresses did not that there may have been a copy on exist there at all-do their washing in the Roosevelt, but divine service was ing according to said plan 4927 square not held on board. No missionaries were met among the north Greenland tribes, who, he said, have never been | tees deed dated November 6th, 1901 Christianized and never heard of a

Professor McMillan, whose feet were badly frostbitten and who reluctantly consented to be sent back to winter headquarters, is now well and strong. McMillan says that there are wonderful trout lakes in the north and musk oxen in thousands. According to the natives, they had shot musk oxen throughout the winter, showing that they do not migrate. McMillan gathered specimens of bird life in greater variety and number than previous Arctic expeditions. Not less than twenty-five different varieties of birds were seen north of the 82nd parallel. He has already prepared many specimens. He also has many eggs of a variety never before found.

There are two young foxes on the Roosevelt, which is filled with stuffed birds, heads, horns and other trophies. One of the Eskimo dogs which went to the Pole with Peary is being taken to the United States for breeding purposes.

George Borup, the official photographer of the expedition, has a thousand negatives. .ISfiwork Ethehgere.ffaiyfi in-h

settle in his old home at Bucksport, Me. The crew of the steamer will be paid off in New York.

Post's Resignation Accepted San Juan, P. R., Sept. 17 .- Pesi-

dent Taft's letter accepting the resignation of Governor Post, effective Oct. 31, has been received by the governor. The inauguration of George R. Colton as governor of Porto Rico will take place Nov. 1.

French Flag Outrage Macon, France, Sept. 17 :- The colors of the 334th reserve regiment, torn to shreds, were found in the barrack latrines. It is believed that the outrage is the work of an anti-militarist soldier.

SOUTH TEXAS.

In its annual industrial edition ssued Sept. 1 The Galveston News makes a special feature of South Texas. The industries of this section of the state are taken up one by one in special articles, showing the progress made. These articles were written only after a careful investigation of actual conditions. They show a wonderful diversity of agricultural products such as can not be found in any other portion of the country. In many instances illustrations of successful fruit and truck growing operations are given, while the reproduction of photographs adds to the value of the issue. The important questions of drainage and irrigation in South Texas are treated in a page article in the South Texas section of the issue.

-When George Hamlin, the tenor, was a youngster of six or seven, he was as full of questions as a civil service examination. His chief delight was to ply a favorite uncle with queries of a sort that no one but an maginative six-year-old could possibly devise. One day he rushed indoors, all excitement. "Uncle Jim," he demanded, "where does the bole go when we close the window?" And though Uncle Jim devoted considerable thought to the problem, he hasn't framed an adequate answer yet.

—Save the broken lens; we can match it. We grind them at 1473 Hancock st., Quincy. You may watch the operation. Williams. Tel. 279-3.

CYRUS PATCH & SON, Inc.

Office, 1422 Hancock Street, Quincy

SYNOPSIS. CHAPTER I-In London Philip Kirkwood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he believes to be an adventurer. II—Before leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar re-ceives a note of warning from a fashionably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood consents. III-Kirkwood takes Dorothy Calendar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her equest. IV-Drawn back to the house by suriosity, Kirkwood sees the door of the dark ouse ajar. He-throws off a cockney who ries to detain him, enters the house and olts the door. On the staircase he has a

assle with a slender man in evening dress. The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Dorothy, who is glad to see him but does not xplain the mystery of the gloomy house leavy raps at the front door startle the two -Dorothy and Kirkwood, the latter questioning himself whether or not he has fallen n love with the girl, flee from the mysterious ouse by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a cab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters he house to learn whether Calendar is there. He meets Mrs. Hallam and recognizes her as the woman who warned Cal- turned sidewise on the box and began endar in the hotel. As Kirkwood talks to smoke and swing his heels, surveyto her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam and serene in the assurance of a genouse in search of Dorothy. Kirkwood erous tip when he lost his fare. But, accompanies him at his request to an un- as for the latter, she made no move savory locality on the Thames. VIII-Caleniar meets his daughter in the company of a man named Mulready, evidently his companon in some strange nefarious enterprise Mulready, it seems, has tried to kidnap Dorothy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Pancras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy, IX and X-Kirkwood just misses his train and finds himself almost penniless. After wandering about for two hours he is again in

Frognall street. He enters the house to seek als missing purse and finds the young man whom he had knocked down stll unconscious after six hours. Kirkwood's ministrations to him are interrupted by the entrance into the ouse of a woman in evening dress. XI and XII-The woman is Mrs. Hallam, and the injured young man is her son. She tell Kirkrood that Dorothy, Calendar and Mulready goyne. Calendar, she says, is her late husbag, Mrs. Hallam declares. Kirkwood doubts her story and suspects that Dorothy is an nnocent partaker in some mysterious plot. He decides to defend the girl. XII-The next morning Kirkwood in a rowboat, with two watermen, searches the Thames in vain for the Aletnea. The boatmen take him to cept the Alethea. XIV-On the train to ike himself, on finding Calandar. She tries get his aid, but he refuses. He eludes her at Sheerness. XV-In the distance he sees essell which he believes is the Alethea After a struggle with a covetous boatmen, who steals his watch and chain, Kirkwood of "Hotel du Commerce." knocks him overboard into his dory and seizes his catboat to sail to Alethea. XVI-Kirkwood is nearly drowned when the catboat sinks and reaches the Althea only to be

(Continued from vesterday.)

that the vessel carries no passengers. XVII-

aboard the Althea, but had left her.

ticed, with a casual, indifferent eye, a were identical. porter running out of the Hotel de Flandre, directly opposite, and calling a fiacre in to the carriage block. As languidly he watched a woman, very becomingly dressed, follow the

porter down to the curb. The flacre swung in, and the woman dismissed the porter before entering eyes. the vehicle, a proceeding so unusual that it fixed the onlooker's interest. He sat rigid with attention. The wo- men were momentarily sketched as nodded and gesticulated his comprehension.

The woman was Mrs. Hallam, The first blush of recognition passed, leaving Kirkwood without any amazement. It was an easy matter to account for her being where she was. Thrown off the scent by Kirkwood at pause to the landing stage. Kirkwood, Sheerness the previous morning, she hanging breathlessly over the guard had missed the day boat, the same rail, could hear their footfalls ringing which had ferried over those vehom in hollow rhythm on the planks of the she pursued. Returning from Sheerness to Queensborough, however, she had taken the night boat for Flushing and Antwerp, and not without her and he recognized unmistakably Mulplan. She was not a woman to waste ready's deep voice, grumbling inarticher strength aimlessly. Kirkwood be- ulately. lieved that she had had from the first a very definite campaign in view. In with intent to accost Calendar, but their A. M. 12.16, 1.16, 2.16, 3.16, 4.40, 5.16, 5.40 that campaign Queensborough pier pace had been swift and his irresolute. had been the first strategic move, the He hung fire on the issue, dreading to journey to Antwerp, apparently, the reveal himself, unable to decide which second, and the American was im were the better course—to pursue the pressed that he was witnessing the men or to wait and discover what inception of the third decided step. Mrs. Hallam was about. In the end

bear watching.

Thus was a magical transformation gible. Had she driven over to the h brought about. Instantaneously lassitude and vain repinings were replaced by hopefulness and energy. In a twinkling the young man was on his feet, every nerve a-thrill with excite-

Mrs. Hallam, blissfully ignorant of this surveillance over her movements, took her place in the flacre. The driver clucked to his horse, cracked his whip and started off at a slow trot-a pace which Kirkwood imitated, keeping himself at a discreet distance in the rear of the cab, but prepared to break into a run whenever it should prove necessary.

Such exertion, however, was not re quired of him. Evidently Mrs. Hallam was in no great haste to reach her destination. The speed of the flacre remained extremely moderate, and Kirkwood found a long, brisk stride fast enough to keep it well in sight. Round the green square, under the beautiful walls of Notre Dame d'Anvers, through Grande place and past the Hotel de Ville the cab proceeded, dogged by what might plausibly be as serted the most persistent and infatuated soul that ever crossed the water and so on into the Van Dyck quay, turning to the left at the old Steen dungeon and, slowing to a walk, mov ing soberly up the drive.

Beyond the lip of the embankment the Scheldt flowed, its broad, shining surface oily, smooth and dark, a mirror for the incandescent glory of the skies. The life of the river was gone, and at their moorings the ships swung in great quietness, riding lights glimmering like low, wan stars. In the company of the latter the

young man marked down the Alethea, a sight which made him unconsciously. clinch both fists and teeth, reminding

him of that rare wag, Stryker. To his way of thinking the behavior of the flacre was quite unaccountable. Hardly had the horse paced off the length of two blocks on the quay ere it was guided to the edge of the promenade and brought to a stop. And the driver twisted the reins round his whip, thrust the latter in its socket, ing the panorama of river and sunset with complacency-a cabby, one would venture, without a care in the world The door of the cab remained closedlike its occupant's mind, a mystery to the watcher.

Twilight shadows lengthened, darkling, over the land. Street lights flashed up in long, radiant ranks. And still the flacre lingered in inaction; still the driver lorded it aloft in carefree abandon.

In the course of time this inertia where he had looked for action, this dull suspense when he had forecast r 6 13 abc interesting developments, wore upon the watcher's nerves and made him at once impatient and suspicious. Now that he had begun to doubt he conceived it as quite possible that Mrs. Hallam, who was capable of anything, r 7 43 abc should have stolen out of the cab by r 7 52 abede the other and to him invisible door. r 8 13 abc To resolve the matter finally he took are engaged in a plot to steal family jewels advantage of the darkness, turned up left to her son by his relatives, Colonei Bur- his coat collar, hunched up his shoulders, hid his hands in pockets, pulled band's coasin. The jewels are in the black the visor of his cap well forward over his eyes and slouched past the flacre.

Mrs. Hallam sat within. He could see her profile clearly silhouetted r 11 13 abo against the light. She was bending forward and staring fixedly out of the window across the driveway. Mental-Woolwich on his way to Shearness to inter- ly he calculated the direction of her gaze, then moved away and followed Sheerness Kirkwood meets Mrs. Hallam, bent it with his own eyes and found himself staring at the facade of a third rate hotel. Above its roof the gilded letters of a sign, catching the illumination from below, spelled out the title

Mrs. Hallam was interested in the

Hotel du Commerce? Thoughtfully Kirkwood fell back to his former point of observation, now told by Captain Stryker, a facetious rufflan, the richer by another object of suspicion, the hostelry. Mrs. Hallam was Stryker badgers and robs Kirkwood, who bewaiting and watching for some one lieves that Dorothy and Calendar had been to enter or to leave that establishment It seemed a reasonable inference to draw. Well, then, so was Kirkwood no less than the lady. He deemed it It was some time later that he no- quite conceivable that their objects

> He started to beguile the time by wondering what she would do if-Of a sudden he abandoned this line of speculation and, catching his breath, held it, almost afraid to credit the truth that for once his anticipations r 1 13 abc were being realized under his very

Against the lighted doorway of the Hotel du Commerce the figures of two man seemed to be giving explicit and they came hurriedly forth, and of the lengthy directions to the driver, who two one was short and stout and even at a distance seemed to bear himself with an accent of assertiveness, while the other was tall and heavy of shoul-

Side by side they marched in step stand for different stations and indicate that across the embankment to the head of trains stop as follows: the quay gangway, descending without inclined way, could even discern Cal endar's unlovely profile in dim relief beneath one of the waterside lights,

The conclusion of this process of real he waited and had his disappointment

soning was inevitable-madam would for recompense. For Mrs. Hallam did nothing intelli- 2.16, 4.16, 5.16, 10.26 P. M.

Kirkwood kept at a discreet distance. tel hard upon the departure of the men he would have believed that she was seeking Dorothy and would, furinterview if she succeeded in obtaining Hancock st., Quincy. You may watch one with the girl. But she did nothing of the sort. For a time the flacre remained as it had been ever since stopping; then, evidently admonished by his fare, the driver straightened up, knocked out his pipe, disentangled reins and whin and wheeled the equipage back on the way it had come disappearing in a dark side street lead ing eastward from the embankment.

New pupils from Quincy entering any serious injury. Had the car been Thayer academy this fall are: Francis going rapidly he would probably have I. Brown, Madeleine P. Brown, Nathan F. McClure, Henry G. McDonnell Welter H. Monahan, Margie W. W. Taylor and Esther L. Wetherell.

Methodist Episcopal church held an ice cream, cake, candy and punch sale Thursday evening in the vestry of the church. The following presided at the ed onto the steamship Bosnia Thurstables Marguerite Louise Holbrook, ice day and will be transported to Gercream and punch Mrs. Theodore Par- many. The Crooner was built by lee, cake and candy; Miss Marion Charles F. Adams 2d to defend the Adams. Tickets.

Virginia Chase, age four of Beach street met with a most painful accident several days ago. She was playing in her door-yard when she slipped and fell on a broken milk bottle, cutting her leg between the knee and ting her leg between the knee and ankle most severely. She was carried into the house and Dr. Adams sewed into the house and Dr. Adams sewed who sailed one of the German yachts up the cut, it taking seven stitches to complee the operaion.

TODAY'S COURT.

James Cavangh Jr. and Alfred M. Botsford Twenty-two Names Added to Voting were fined \$10 each for exceeding the automobile speed limit on the parkway.

Charles Stearns and Floyd A. Wildma summoned for exceeding the automobile speed limit on the parkway were defaulted. Fred McAboy was sentenced to eiget months in the House of Correction for assault at Wey- the voting lists as follows: Ward 1,

Massachusetts. Reformatory for larceny at Quinty. Appealed. haniel Masters was sent to the state

sarm for being a tramp at Quincy.

BEAUTIFUL DAHLIA SHOW.

With the poet the people of West Quincy might say of the dahlia exland street:

"Nature was here so lavish of her store, That she bestow'd until she had no more.'

For awhale during the drought of the summer it looked as though Mr. Eleock would not be as successful as usual in cultivating choice dahlias. The hot, dry days and nights were not favorable for best results, but all this has changed, and Mr. Elcock's exhibit surprises gardeners as well as others. Those who in passing comment on the display in front of his house should glance along the side, and perhaps they will be invited to | HEATING STOVE. No. 8 Kit. rear. Some of the choicest dahlias are hidden by the house and stable. They are of all colors and sizes, regu-

lars, pompons brunettes and cactus. Beautiful white ones, dark red, salmon, scarlet, manve, gold and scaret, red, crimson and others.

Among the varieties are: Dr. Kirkand, Gus Duzon, the Bride, Marguerite, Imperial, Frank Smith, Twentieth Century, Black Prince, Mrs. Turner, Uncle Tom, Mars, Fascination, Alewine, Catherine, Lucy Fancette, German Brunette, French Brunette, Mrs. Slack Queen Victoria, Grand Duke. Alice Roosevelt, Gen. Butler, Countess of Lonsdale, the Gold Medal and as many more.

Mr. Elcock has cut thousands of looms this week, but for every one ne cuts two more grow grow so he nas 4,000 to 5,000 now, making beatiful display.

WANTS A MEDAL.

Not Particular What Kind as Long as it is a Medal.

Leo. J. McMaster thinks he is entitled to a medal of some kind. He is not at all particular what kind of a medal it is as long as it is a medal. His claim for the medal lies in his successful efforts in preventing a lady at the Quincy depot from serious if not fatal injuries Wednesday after-

Leo was at the depot waiting for a train when the 2.27 train from Boston arrived. The passengers had alighted and the train had just starteed up when a lady came hastely from one of the cars and was about to jump when Leo, with his accustomary gallantry stepped forward and taking her by the hand quickly drew her from the platform to the ground out of harms way. Had she jumped as she started to, the chances are that she would have fallen and rolled be

neath the cars. The episode was witnessed by a umber of bystanders who freely applauded his act.

ALL HANDS MAY

GET AN INCREASE Strikers Return to Work in

Borden's Cotton Mills

Fall River, Mass., Sept. 17 .- The first general strike in the history of the Fall River Iron Works cotton mills, owned by M. C. D. Borden of New York, was ended when the seven mills of the plant resumed operations

after a shutdown of three days. The strikers return to work on a compromise. They went out to enforce their demand for a 10 percent increase in wages, but at a mass meeting half this amount was accepted. While the other 4000 operatives of the mills asked for no advance, it s generally believed here that the a percent increase allowed by Borden will be given them as well as the strikers, but this will not be known until the operatives are paid off the last of the week.

MEXICO'S "FOURTH OF JULY

Day Winds Up With Assembling of

the National Congress Mexico City, Sept. 17.-The ninety-ninth anniversary of the independence of Mexico was celebrated throughout the republic with much enthusiasm.

Last night the national congress ssembled. The annual message of Diaz was a review of the happenings of the past year and in no way recommended legislation of any kind. He told the assembled legislators that he had been invited by the American president to meet him at El Paso on Oct. 16 and that he had accepted the invitation, with the proviso that congress would grant the necessary permission for the president to leave Mexican soil.

POSTOFFICE SAFE ROBBED

Burglars Wreck Building and Make Off With Their Booty

Hydeville, Vt., Sept. 17.-The postoffice here and the building in which it is located were wrecked by an explosion of nitro-glycerine set off by burglars, who secured \$100 in cash and a considerable quantity of stamps as a result. No clue to the identity of the burg-

lars is at hand. They secured blankets and clothing nearby to muffle the explosion, and a sledgehammer with which to complete the wreck of the safe.

Two Hundred Killed by Explosion Tangier, Sept. 17.-Two hundred men were killed by the explosion of a powder magazine Thursday near Mo-

Thursday, considering the serious-Mr. Parker counsel for Mrs. McDonald ness of his condition. Should he pass objected to a warrant being issued the expected crisis today there will be and asked for a preliminary hearing.

Mrs. Patterson was present with half a dozen witnesses and Mrs. Mc-Donald also had several witnesses. Although but a preliminary hearing practically all of the facts were brought out. Mrs. Patterson told her story as

given above and was supported by several witnesses. After hearing the evidence the court ssued a warrant and immediately heard the case after which a fine of

\$15 was imposed upon Mrs. McDon-

GRAY HAIRS BANISHED.

ald. An appeal was taken.

The old idea of using sage for darkening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of it souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of th's preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c. and \$1.00 a bottle, is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

Air Flaunts Football Colors.

is at its height just now. Every the scene of their labors.

members of the consolidating mer- terest in the subject. chants association and chamber of commerce are congratulating themselves upon the happy circumstances attendant upon the launching of the new organization.

Returning vacationists find themselves bewildered by the troops of school children who swarm the streets on these September mornings. During the summer holidays one becomes unaccustomed to seeing more than two or three children at a time, and the most unobservant citizen cannot fail to be impressed by the thousands of students, ranging in ages from five to twenty-five years, who storm the street cars and school house gates in the enthusiasm of the opening days. There is an additional sense of pleasure in the thought that this year finds the conditions for taking care of these ambitious young people very much better than in the past. Boston has practically no half time problem such as is chronic in New York City. A report which sticks in the memory

is one to the effect that the reign of the hatpin is threatened. It has been put under the ban in several places because of its dangerous length and its fenceless men. Yet the Boston girl opines that the hatpin will not pass any more than the shirtwaist, doomed some years ago but still bobbing up serenely in face of every conceivable change in style. For what is woman without a hatpin? How is she going to spear the last occupant of the picnic pickle-jar, overcome the knot in her shoe lace, stab a highwayman, open her letters, dig a sliver out of her finger,-or, incidentally, pin her hat in place? The hatpin has prevailed in varying forms for several the hatpin!

What is it all about? There is an atmosphere of excitement throughout the circles of college students and their friends. The morning and evening papers are eagerly persued and interested groups of young men and women, with no small number of their elders, discuss the developments of each day. Football practice is on, five years; what it has done in the and from now until after Thanksgiving past; what it is doing at present; Day the greater part of the population of this city will be in a ferment of anxiety and enthusiasm equal to the tempest which the Red Sox stirred up recently by their spectacular strides exposition has long been desired by toward the goal of their ambitions. THE "1915" BOSTON EXPOSITION.

New England the resources and the possibilities of Boston as they can be developed between now and 1915, a '1915" Boston Exposition will be held in the old Art Museum building at Copley square next November.

The object of this Exposition will be to show in a graphic and interesting form the work now being carried on by public institutions, benevolent protective, reformatory and chariable; by public service corporations, and in fact all organizations at work for the betterment of the city.

Schools, colleges and libraries have been asked to exhibit. Educational, social and economic problems will be shown in a lively and unique way, giving information which has hitherto been put forth in a manner intelligible only to experts. This information will be put in the form of working models, moving pictures, photographs, diagrams, plans and stereopticon picmenace to the eyes and ears of dethe needs and the possibilities of the

the entire city plan exhibit recently shown in New York and Washington. It has also secured from the Library of Congress the United States Government's famous set of models by Burnham for the replanning of Washington. Efforts are also being made to secure similar displays from Chicago, San Francisco, New York and Cleveland. Achievements of European

cities in planning their streets, docks, centuries, and it is doubtful if the harbors and houses for working peomere loss of a few eyes due to care- ple are also among material already less men getting in the way will pull secured for the exhibits. Each exnibit will be expected to present a graphic picture that will draw and hold the attention of even a casual observer. The Exposition will open on November 1st and close on the 27th.

All exhibitors have been notified that their displays must be arranged with a view to showing definitely What the organization proposes to do if it is properly supported in the next what is the best that has been done anywhere in this department: and what the conditions and waste will be if these things are not done. Such an the agencies at work for the betterfirst broached in a tentative way, a number of the bodies consulted did not stop with declaring themselves strongly in favor of the project, but signified their intention of exhibiting. A few hours later a slight noise was noticed in that direction, and on looking in the cup again she found a baby turtle, full fiedged, but tiny, scrambling about among the bits of its broken eggshell

Ravens and the Hapsburgs. ravens which Maurus Jokel gave in an Commissioner Baker and District Aton the subject of the raven, the bird suming large proportions at the race of ill omen, which plays a great part tracks. in the history of the Hapsburgs. According to the imperial poetess, a flight of ravens was hovering over Olmutz when Francis Joseph received Central Bank For the Entire Country from his uncle's hands the crown which was destined to inflict upon him such miseries. A raven followed Maximilian and Charlotte on their last walk before their departure for Mexico, and when Maria Christina was starting to receive the crown of Spain, which was one day to be so grievous a burden, a raven flew over the horses' heads and accompanied the carriage to the railway station. These incidents were the subject of the poem.-Westminster Gazette.

Room For Improvement.

A certain estimable old gentleman is at all times worth listening to, though occasionally his grammar is scarcely perfect. He was dining on one occasion with the local squire, when, much to the disgust of his worthy host, a trifling error on the old gentleman's part was pounced upon and loudly repeated by the son and heir of the house. There was a painful silence, broken at length by the host.

"My son," he remarked quietly to the mit, when our old friend's speech is a other."

"In what way, sir?" asked the son. "Well," was the severe rejoinder. 'you might give Mr. X. a lesson or two in grammar, in return for which I have no doubt he would assist you, Massachusetts people for funds toto patch up the holes in your man ward alleviating the conditions folners."-London Tit-Bits.

STATE POLITICS

Caucuses Will be Held Next Week, Then the Campaign DRAPER HIS OWN PLATFORM

Some of the Fruits of His Administration Seen In Reduced State Tax, Merging of Boards and Departments, to Save the Taxpayers' Money

The caucuses to elect delegates to the various conventions will be held next week and the active campaign will then be practically on. After the caucuses it will soon be determined who are to be the nominees for the various offices. So far as the state tickets are concerned, the leaders of both sides are already well

Governor Draper will be unanimously renominated and all the other state officers now serving will be added to the ticket without opposition. The governor is extremely busy these days representing the state at various functions throughout the commonwealth. The best platform he can possibly have is his record as acting governor and governor.

Under his administration the state tax has been reduced by the enormous amount of \$1,000,000. It will also be noticed that during the last session of the legislature there were no recess committees drawing pay for work which was practically useless to the state but which furnished occupation and compensation in the past to a considerable number of members of the great and general court. This was a saving which the people will appreciate.

Merging of Departments Another splendid piece of work carried out on the recommendation of Mr. Draper is the consolidation of the state board of education and the commission on industrial education. There was no necessity for both these boards when one could do the work as well. Another piece of legislation for which the governor is responsible is the change in the method of making appropriations for improvements in harbors and public lands, whereby there is provided an annual appropriation of \$100,000 for each year for the it. period of three years. Under the previous log-rolling policy of making these appropriations piecemeal in the really needed was neglected.

The agitation for the conservation planted woodlands for a term of the Cox Drug Store." years. The new fire laws, also, passed for the preservation of the forests, are measures recommended by the governor. The consolidation of the Charles river basin commission and the metropolitan parks commission merges the former with the latter after a certain date and thereby will result in a large saving in salaries and office expenses. Whatever work remains to be done on the Charles river basin after that commission goes out of office will be handled by the park commission. Another moneysaving change was the merging of the gypsy moth commission with the office of the state forester. This merger has been found to work well. Another piece of legislation recommended by the governor was that permitting towns to lease lands to individuals for the culture of lobsters and mollusks.

The Boston Charter Measure There is another measure which had the recommendation of the governor and was supported by the leading citizens of Boston, namely, the Boston charter bill. This was enacted after considerable opposition and under it the governor has appointed a finance commission which stands as one of the strongest ever named by a Massachusetts executive. Its members include ex-Congressman John A. Sullivan, John F. Moors, ex-Police Commissioner Charles P. Curtis, Francis N. Balch and Geoffrey Leahy. Another matter which had the warm

support of the governor throughout was the act incorporating the Boston Railroad Holding company. This corporation was organized to purchase the stock of the Boston and Maine railroad held by a man named Billard, a citizen of Connecticut, his holdings constituting a controlling interest in that road. Under the act a majority of the directors of the holding company must be citizens of Massachusetts, thus bringing back to this state the control of the Boston and Maine. For two or three years this control has been held outside of the state, ostensibly by Mr. Billard but probably through him by the N. Y., N. H. and H. R. R. Very shortpany will secure the transfer of these shares from Mr. Billard to its own vaults, thereby consummating a result which many citizens have desired, and straightening out a vexatious tangle, a continuation of which would have benefited no one.

Appointment of Arthur D. Hill One of the notable appointments place of John B. Moran, deceased. Office.

The governor had known Mr. Hill for some time and when the vacancy in the office occurred, he looked about him to find a keen, energetic, persistent, capable lawyer to put in the place. He sized up Mr. Hill as a man who could fill the position in a manner acceptable to the discriminating Boston public. That his judgment of Mr. Hill was accurate has been proven beyond a doubt by the brilliant success which has followed his trial of a number of cases left on the docket by John B. Moran. Mr. Hill has certainly covered himself with glory and proved a distinct credit to the governor who appointed him.

Another excellent appointment was that of Arthur B. Chapin of Holyoke to be bank commissioner. Mr. Chapin was state treasurer at the time he was selected but his term would have expired at the end of this year, and having served in that office five years, he was not eligible for renomination; consequently the governor, knowing his sterling qualities and his keen business judgment, believed him to be just the man for the place. It is the general verdict that Mr. Chapin in the five or six months he has been in the office has made good in every

Former Senator James H. Vahev of Watertown will undoubtedly be the Democratic candidate for governor unless something entirely unforeseen should occur prior to the convention. While he is acknowledged to be a fair campaign speaker, he will find it necessary to present something besides eloquence to overcome a record such as Governor Draper has made during the present year.

WHY SO WEAK!?

Kidney Troubles May be Sapping Your Life Away. Quincy People Have Learned This Fact.

When a healthy man or woman begins to run down without apparent cause, becomes weak, lanquid, depressed, suffers backache, headache, dizzy spells and urinary disorders, look to the kidneys for the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Here is Quincy testimony to prove

Mrs. J. Boyle, living at 8 Marsh street, Quincy, Mass., says: "I haveused Doan's Kidney Pills and can say legislature, a great deal of money they are unequalled for the purpose was wasted and some work which was for which they are intended. They built up my general system and in six weeks' time, freed me from kidof the state's lumber supply has been ney complaint from which I had sufmaterially aided by the passage of a fered for a great many years. This law relieving from taxation newly valuable remedy can be procured at:

the Salem hospital benefits to the extent of \$120,000 which is a great help to the trustees in carrying on the work of the Hospital.

There is talk of dividing Calinfornia and making it into two states. If it official at a time when he has become was as small as some of the New Eng- fully acquainted with the duties of his land states the people out that way would have to think twice before the valuable service to the County than talk amounted to anything.

Peabody's School Committee is trying the half-time experiment in the first grade of its schools. This plan was adopted by Supt. Parlin in our city and at first met with some opposition but when the advantages to the child were poined out the parents were quick to accept the idea.

A new movement to be inaugurated in October when the evening schools open is evening classes in cooking for the women of the city. That the Superintendent and School Committee have used good judgment in starting such classes will be proven by the interest which is sure to be accorded the movement by the women of our city and there should be a large attendance of mothers of families. There will be four classes a week at the High school on Monday, Tuesday, Thursday and Friday evenings. If selecting food stuffs and preparing plain wholesome food in an economical manner is taught the course will be of great value to the home-maker.

The "ship of mercy" the Boston Floating Hospital made its last trip this week. One of the incidents of the last day's sail was the placing in position of a bronze tablet, on the main deck as a tribute to the founder of the hospital, Rufus B. Tobey, and in grateful recognition of his services during interest. Another of James Farqumany years. Quincy is pleased to see the work of one of its citizens ap- novel feature never before attempted, preciated. No charity in recent years has done such a thoroughly good work hibition, which is free to all, will be or saved more lives than this floating hospital and its founder may well look with pride upon the results of his efforts.

Much favorable comment has been heard on the stand taken in the Council meetings by Councilman C. M. Bryant on the granting of common victuallers' licenses as many think the license committee is often too lenient in granting licenses. In the case argued at the last meeting of the City Council the license committee rendered an adverse report which should have received the endorsement of the councilmen present. Very little sympathy need be expended on any one when the Police records show delivery of liquor and the applicant admits selling a concoction of cider and jamaica ginger. Looks like misplaced sympathy to even think of prop. Write for booklet. granting a common victuallers license to such an applicant.

POLITICAL OUTLOOK.

the Milton districts. Representative Wolcott and Senator Hultman will receive the Republican renominations, probably without any opposition whatever, and so far there has not appeared any opposition from the Democratic side to their reelection. A promising contest for the Republican Councillor nominations has simmered down to a probable walkover for Captain J. Stearns Cushing of Norwood. All his opponents but one withdrew some weeks ago and the remaining one, Franklin L. Codman of Dorchester, has not shown much activity in securing delegates. All that remains as a possiblity for political interest is the contest between County Commissioner E. F. Richardson of Millis, who is seeking renomination, and Dr. Everett M. Bowker, Brookline's candidate for county commissioner. Both are circulating throught the county and Dr. Bowker will go into the convention with a strong delegation from his home town. His supporters are backing his candidacy with the claim that Brookline has never had adequate representation in County affairs, having had only two commissioners, who served one term Commissioner Richardson's friends on the other hand are urging his renomination on the ground of his will be happy to answer inquiries.

past work and experience, and it is said that he will have strong support from many of the towns in the southern part of the country. The present county commissioners are from Millis, Sharon and Quincy .- Milton

EVAN F. RICHARDSON.

Should be Renominated for County Commissioner.

Among the arguments which are peing adressed to the voters in favor of the candidacy of Dr. Bowker of Brookline for County Commissioner is a suggestion that he is especially fitted for the duties of this office. Without in any way suggesing that he may not have some qualifications necessary for County Commissioner, it should be remembered that Mr. Richardson, the present incumbent, is especially adapted for this office. He has had abundant experience in public affairs, having served in his own town for three years as Water Commissioner. eighteen years on the school board, and eight years as Town Treasurer. He also served one term in the State Legislature, and by education and practical experience is well acquainted with the various problems which By the death of Mrs. Mary Bertram have to be solved by County Commissioners. Furthermore he has just served three years as County Commissioner in such a faithful and efficient manner that no word of criticism has yet been heard as to any official act of | his. To retire from office a public office and is able to render even more during his first term would seem to be an extremely short sighted policy, unless the qualifications and claims of the opposing candidates were preeminently superior. This will hardly be claimed even by Dr. Bowker's staunchest friends. Futhermore, it is an experiment of somewhat far reaching consequences to break a long established custom of returning for his second term a County Commissioner who has rendered satisfactory service It is somewhat ungracious to sugges that merely because Mr. Richardson happens to reside in one of the smaller towns of the County that the op osing candidate should be nominated chiefly because he happens to reside in the largest town. The needs of the County ought not to be determined upon any such basis.

EVAN F. RICHARDSON, Campaign Committee. by Goldmann Edmunds, Secretary. (Advertisement)

AUTUMN FLOWER SHOW.

The annual September exhibition of he Massachusetts Horticultural Society is being held at Horticultural hall. Boston. This is one of the society's important exhibitions of the year and it is exepcted that the display of plants, flowers, fruits and vegetables will be of more than ordinary har's noted exhibits ,introducing will be well worthy a visit. The exopen Sunday from 2 to 6 P. M.

OUR CHALLENGE!

Clyde T. Cox, Quincy, Mass., declares That Hem-Roid will Cure any case of Piles.

By authoriay of Dr. J. S. Leonhardt, Clyde T. Cox, Quincy, Mass., guarantee that Hem-Roid, an internal tablet remedy, will cure any kind of piles, no matter how bad.

Dr. Leonhardt is the celebrated specialist who discovered that the cause of piles is internal, and in giving his remedy to the public, said: 'Hem-Roid will be sold only under a guarantee that it will cure any case." \$1 for 24 days' treatment. Dr. Leonhardt Co., Station B. Buffalo, N. Y.,

OUR HOSPITAL (Legal Title: City Hospital of Quincy) Incorporated 1889

The Trustees of the City Hospital of From the present outlook there will be very little political excitement in This now amounts to over \$60,000 but a

fund of at least \$100,000 is urgently Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most grate-

The Treasurer will be very glad to confer with any one or to answer any inquiries.

THE

YOUNG MEN'S CHRISTIAN ASSOCI-

ATION OF QUINCY, MASS. (Legal Title-Incorporated 1892.)

The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of the work which is being done for the young men and boys of our city, make their appeal for donations and be quests toward paying the mortgage inlebtedness on the new Association Building. When the building is free rom debt it will serve as an endownent, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys' Department, or as special fund in other ways, and could be designated with the name of the Donor.

The Treasurer, WILLIAM F. CUM-

WEYMOUTH FAIR.

Large Crowd Present Friday Although Day was Stormy.

Although Friday was not the kind late of Quincy, in said County, deceased: of a day that would naturally draw a crowd the attendance at the Weymouth fair was very large in the afternoon. The weather cleared shortly after noon so that all the trotting events scheduled were run off and the ball game in the Old Colony League between the Deweys and Stoughtons was played.

It was an exciting game from startto finish and was won by the Stoughtons by a score of 3 to 2. The feature of the game was a running catch in deep right field by Alden which prevented a home run.

The exhibition hall contained a fine display of fruit, vegetables, flowers, works of art and sloyd work by the pupils of the public schools. Also home made bread and cake by Weymouth women.

On the race track which was in fine condition there were three events. The first was a 2.30 class mixed race for

The race was won by Onward March. (Bellows) with King Brino (Hagan) second and Lucy Boy (Howard) third.

In the 2.20 class mixed for a purse

lie J. (Cushman) third. The last event was an exhibition race to beat 2.30 1-4 and was won by 2.29 3-4.

There was also a varied program of a number of years. music vaudeville ballon ascent with parachute drops.

lands and Deweys for the Old Colony League championship.

crowd of fans in attendance.

SYNOPSIS CHAPTER I-In London Philip Kirk wood, a young American painter, learns that the San Francisco disaster has cost him his fortune and decides to return home to the stricken city. His elderly English friend, Brentwick, visits him, and he meets George B. Calendar, an American whom he be-lieves to be an adventurer. II—Be-fore leaving his hotel for the boat train Kirkwood dines at the hotel. In the dinning room he sees Calendar reoeives a note of warning from a fash-tonably dressed woman. He is then asked by the American, who admits without giving a reason that he fears arrest, to escort his young and beautiful daughter home. Kirkwood con-sents. III-Kirkwood takes Dorothy Calen-Kirkwood condar to a seemingly unoccupied house at No. 9 Frognall street, in a shabby-genteel quarter of London, where he leaves the girl at her IV-Drawn back to the house by curiosity, Kirkwood sees the door of the dark house ajar. He throws off a cockney who tries to detain him, enters the house and bolts the door. On the staircase he has a tussle with a slender man in evening dress The latter is knocked unconscious by a fall downstairs. Kirkwood is then rejoined by Derothy, who is glad to see him but does not explain the mystery of the gloomy house. Heavy raps at the front door startle the two. V-Dorothy and Kirkwood, the latter ques tioning himself whether or not he has fallen in love with the girl, flee from the mysterious house by the rear door. The girl takes with her a small black gladstone bag, which, she says, she is to take to her father. VI-In a wab Kirkwood escorts her to the house of a Mrs. Hallam in fashionable Craven street, where, she declares, her father is to meet her. Kirkwood leaves her in the cab and enters the house to learn whether Calendar is there. He meets Mrs. Hallam and recogmizes her as the woman who warned Calendar in the hotel. As Kirkwood talks to her he hears a man leave the house. Together Mrs. Hallam and Kirkwood go to the door to call Dorothy in and find that the girl and the cab have vanished. VII-Calendar appears at the Hallam house in search of Dorothy. Kirkwood accompanies him at his request to an unsavory locality on the Thames. VIII-Calenchar meets his daughter in the company of a man named Mulready, evidently his companion in some strange nefarious enterprise. Mulready, it seems, has tried to kidnap Dorothy in Kirkwood's cab. Calendar and Mulready quarrel, after which the girl and the two men row off to board a vessel referred to as the Alethea, leaving Kirkwood to find his way in a cab to St. Paneras station, where he is to take the midnight train for his steamer. He is now thoroughly in love with Dorothy, IX and X-Kirkwood just misses his train and finds himself almost penniless. After

wandering about ior two hours he is again in Frognall street. He enters the house to seek to their locks and began to pull straight derstand each other now, and you his missing purse and finds the young man whom he had knocked down still unconscious after six hours. Kirkwood's ministrations to him are interrupted by the entrance into the house of a woman in evening dress. XI and XII-The woman is Mrs. Hallam, and the injured young man is her son. She tell Kirkwood that Dorothy, Calendar and Mulready are engaged in a plot to steal family jewels left to her son by his relatives, Colonel Burgoyne. Calendar, she says, is her late husband's cousin. The jewels are in the black bag, Mrs. Hallam declares. Kirkwood doubts her story and suspects that Dorothy is an innocent partaker in some mysterious plot. He decides to defend the girl. XII-The next morning Kirkwood in a rowboat, with two watermen, searches the Thames in vain for the Aletnea. The boatmen take him to Woolwich on his way to Shearness to intercept the Alethea. XIV-On the train to Sheerness Kirkwood meets Mrs. Hallam, bent like himself, on finding Calandar. She tries to get his aid, but he refuses. He eludes her at Sheerness. XV-In the distance he sees vessell which he believes is the Alethea. After a struggle with a covetous boatmen, who steals his watch and chain, Kirkwood knocks him overboard into his dory and seizes his catboat to sail to Alethea. XVI-Kirkwood is nearly drowned when the catboat sinks and reaches the Althea only to be told by Captain Stryker, a facetious ruffian, that the vessel carries no passengers. XVII-Stryker badgers and robs Kirkwood, who be- and stepped noiselessly over toward lieves that Dorothy and Calendar had been the lighted oblong of the companionaboard the Althea, but had left her, XVIII-Kirkwood finds in a railway guide on the A thea indicatsons that the Celendars and that he had not miscalculated this Mulready, having sailed for England on a channel steamer, are waiting at Antwerp for Stryker. He surmises from marks in the guide that they are to go to Amsterdam on the 6.32 train. Stryker sets him ashore with only his clothing and threepence.

(Continued from yesterday.)

Kirkwood was, then, to believe that Mrs. Hallam, having taken all that trouble and having waited for the two adventurers to appear, had been content with sight of them. He could hardly believe that of the woman. It wasn't like her.

He started across the driveway after the fiacre, but it was lost in a tangle of side streets before he could make up his mind whether it was worth while chasing or not, and, pondering the woman's singular action, he retraced his steps to the promenade rail.

Presently he told himself he understood. Dorothy was no longer of her father's party. He had a suspicion that Mulready's attitude had made it seem advisable to Calendar either to leave the girl behind in England or to segregate her from his associates in Antwerp. If not lodged in another quarter of the city or left behind she was probably traveling on ahead to a destination which he could by no means guess. And Mrs. Hallam was looking for the girl. If there were really jewels in that gladstone bag Calendar would naturally have had no hesitation about intrusting them to his daughter's care, and Mrs. Hallam avowedly sought nothing else. How the woman had found out that such was the case Kirkwood did not stop to reckon unless he explained it on the proposition that she was a person

matter one way or the other. He had lost Mrs. Hallam, but Calendar and Mulready he could put his finger on. They had undoubtedly gone off to the Alethea to confer again with Stryker | Mulready. -that was, unless they proposed sailing on the brigantine, possibly at turn of tide that night.

Panic gripped his soul and shook it, as a terrier shakes a rat, when he conceived this frightful proposition.

spontaneously an entirely new hypothesis-Dorothy had already been spirited aboard the vessel; Calendar and his confederates, delaying to join her from enigmatic motives, were now aboard, and presently the word would be. Up anchor and away!

Were they again to elude him? Not, he swore, if he had to swim for it. And he had no wish to swim. The clothes he stood in, with what was left of his self respect, were all that he could call his own on that side of the North sea. Not a boatman on the Scheldt would so much as consider accepting three English pennies in exchange for boat hire. In brief, it began to look as if he were either to swim or to steal a boat.

Upon such slender threads of circumstance depends our boasted moral In one fleeting minute Kirkwood's conception of the law of mine and thine, its foundations already insidiously undermined by a series of cumulative misfortunes, toppled crashing to its fall and was not.

He was wholly unconscious of the change. Beneath him, in a space between the quays bridged by the gangway, a number of rowboats, a putative score, lay moored for the night and gently rubbing against each other with the soundless lift and fall of the river. For all that Kirkwood could determine to the contrary, the lot lay at the mercy of the public. Nowhere about was he able to discern a watchman.

Without a quiver of hesitation-mo ments were invaluable, if what he feared were true-he strode to the gangway, passed down and with absolute nonchalance dropped into the nearest boat, stepping from one to another until he had gained the outermost. To his joy he found a pair of oars stowed beneath the thwarts.

CHAPTER XX.

F Kirkwood had paused to moralize upon the discovery, he would have laid it all at the door of his lucky star and would have been wrong. We who have never stooped to petty larceny know that the oars had been to you, Dick Mulready." placed there at the direction of his evil genius bent upon facilitating his descent into the avernus of crime.

Unhitching the painter, he set one oar against the gunwale of the boat and with a powerful thrust sent his own (let us so call it for convenience) stern first out upon the river, then sat him composedly down, fitted the oars across stream, trusting to the current to carry him down to the Alethea. He It's a square deal and a square divide had already marked down that vessel's so far's I'm concerned. If we stick toriding light and that not without a gether there'll be profit enough for all glow of gratitude to see it still aloft concerned. Sit down, Mul, and have

bank, proof that it had not moved. He pulled a good oar, reckoned his distance prettily and, shipping the blades at just the right moment. brought the little boat in under the brigantine's counter with scarce a jar. An element of surprise he held essential to the success of his plan, what ever that might turn out to be.

Standing up, he caught the brigantine's after rail with both hands, one of which held the painter of the purloined boat, and lifted his head above the deck line. A short survey of the deserted after deck gave him further assurance. The anchor watch was not in sight. He may have been keeping well forward by Stryker's instructions, or he may have crept off for forty winks. Whatever the reason for his absence from the post of duty, Kirkwood was relieved not to have him to deal with and, drawing himself gently in over the rail, made the painter fast way A murmur of voices from below comforted him with the knowledge time. At last he stood within striking distance of his quarry.

The syllables of his surname ringing clearly in his ears and followed by Stryker's fleering laugh brought him to a pause. He flushed hotly in the darkness The captain was retailing with relish some of his most successful witticisms at Kirkwood's expense.

Mulready laughed with him, if a little uncertainly. Calendar's chuckle was not audible, but he broke the pause that followed.

"I don't know," he said with doubting emphasis. "You say you landed him without a penny in his pocket? I don't call that a good plan at all. Of course he ain't a factor, but-well. it might 've been as well to give him his fare home. He might make trouble for us somehow. I don't mind telling you, cap'n, that you're an ass. Personally I'm kind of sorry for the boy. He wasn't a bad sort, as his kind runs, and he was no fool, from what little I saw of him. I wonder what he want

"Possibly," Mulready chimed in suavely, "you can explain what you wanted of him in the first place. How did you come to drag him into this matter with"-

"Oh, that!" Calendar laughed short-"That was partly accident, partly inspiration. I happened to see his She's been so long without proper paname on the Pless register. He'd put ternal discipline," Calendar laughed, himself down as from Frisco. I figured it out that he would be next door to broke and getting desperate, ready to do anything to get home, and ounce of pressure I bring to bear just thought we might utilize him to smuggle some of the stuff into the States. Once before, if you'll remember-no, that was before we got together, Mul. terposed, with a brutal laugh. ready-I picked up a fellow country. guarantee to get her aboard or"-

it made no man on the Strand. He was down and out, jumped at the job, and we made a neat little wad on it."

"The more fool you to take outsiders into your confidence," grumbled

"Ow!" interrogated Calendar, mimicking Stryker's accent inimitably. "Well, you've got a heap to learn about this game, Mul. About the first thing is that you must trust old man Know-itall, which is me. I've run more dia-In his confusion of mind he evolved monds into the States in one way or another in my time than you ever pinched out of the shirt front of a toff on the Empire Prom. before they made the graft too hot for you and you came to take lessons from me in the gentle art of living easy." "Oh, cut that, cawn't you?"

"Delighted, dear boy. One of the first principles, next to profiting by the admirable example I set you, is to make the fellows in your own line trust you. Now, if this boy had taken on with me I could have got a bunch of the sparklers on my mere say-so from old Morganthau, up on Finsbury pavement. He does a steady business hoodwinking the customs for the benefit of his American clients-and himself. And I'd 've made a neat little profit besides, something to fall back on if this fell through. I don't mind having two strings to my bow."

"Yes," argued Mulready, "but suppose this Kirkwood had taken on with you and then peached."

"That's another secret. You've got to know your man, be able to size him up. I called on this chap for that very purpose, but I saw at a glance he wasn't our man. He smelled a nigger in the wood pile and most politely told me to go to the devil. But if he had come in he'd have died before he squealed. I know the breed. There's honor among gentlemen that knocks the honor of thieves higher'n a kite, the old saw to the contrary-nothing doing. You understand me, I'm sure, Mulready," he concluded, with envenomed sweetness.

"I don't see yet how Kirkwood got anything to do with Dorothy."

"Miss Calendar to you, Mr. Mulready!" snapped Calendar. "There, there, now! Don't get excited. It was when the Hallam passed me word that a man from the Yard was waiting on the altar steps for me that Kirkwood came in. He was dining close by. I went over and worked on his feelings until he agreed to take Dorothy off my hands. If I had attempted to leave the place with her they'd have spotted me for sure. My compliments

There came the noise of chair legs scraped harshly on the cabin deck. Apparently Mulready had leaped to his feet in a rage.

"I've told you"- he began in a voice thick with passion. "Oh sit down!" Calendar cut in con

temptuously. "Sit down! D'you hear? That's all over and done with. We unwon't try any more monkey shines. and in proper juxtaposition to the river another slug of the captain's bum ing an attested copy of this order to be

Although Mulready consented to be pacified, Kirkwood got the impression that the man was far gone in drink. A moment later he heard him growl "Chin-chin!" antiphonal to the captain's "Cheer-of"

"Now, then," Calendar proposed, 'Mr. Kirkwood aside-peace be with him-let's get down to cases."

"Wot's the row?" asked the captain. "The row, cap'n, is the Hallam female, who has unexpectedly shown up in Antwerp, we have reason to believe, with malicious intent and a private detective to add to the gayety of nations.

"Wot's the odds? She carn't 'urt us without lyin' up trouble for 'erself." "Mighty little consolation to us when we're working it out in jail."

"Speak for yourself," grunted Mulready surlily.

"I do," returned Calendar easily "We're both in the shadow of jail. Mul, my boy, since you choose to take the reference as personal. Sing Sing, however, yawns for me alone. It's going to keep on yawning, too, unless I miss my guess. I love my native land most to death, but"-

"Ow, blow that!" interrupted the captain irritably. "Let's 'ear about the 'Allam. Wot're you afryd of?" "'Fraid she'll set up a yell when

she finds out we're planting the loot, cap'n. She's just that vindictive. You'd think she'd be satisfied with her end of the stick, but you don't know the Hallam. That milk and water ortpring of hers is the apple of her eye, and Freddie's going to collar the whole shooting match or madam will kick over the traces."

"Well?" "Well, she's queered us here. We can't do anything if my lady is going to camp on our trail and tell everybody we're shady customers, can we? The question now before the board is, Where now-and how?"

"Amsterdam," Mulready chimed in "I told you that in the beginning." "But how?" argued Calendar. "The Lord knows I'm willing, but we can't go by rail, thanks to the Hallam. We've got to lose her first of all." "But wot I'm arskin' is wot's the

"The Alethea, cap'n? Nothing, so far as Dick and I are concerned. But my dutiful daughter is prejudiced. "that she's rather high spirited. Of course I might overcome her objections, but the girl's no fool, and every now only helps make her more restless

and suspicious." "You leave her to me." Mulready in-

BEST WE HAVE EVER KNOWN

Presideni Taft Stoutly Defends Payne Tariff Bill

HE SUPPORTS ITS ENDORSERS

Interests of the Country Required Sacrifice of Accomplishment of Certain Things In Revision of Tariff In Order to Maintain Party Solidar. ity-Says "Insurgents" Have Aban. doned the Republican Party

Winona, Minn., Sept. 18.-In the most important utterance he has made since his occupancy of the White House, President Taft here last night, in a state which is the hotbed of the "insurgent" movement within the Republican party, defended the Payne tariff bill as the best tariff measure ever passed by a Republican congress and hence the best tariff bill the people have ever known.

The president boldly asserted that the "insurgents" who voted against the bill had abandoned the Republican

"Was it the duty of the member of congress who believed that the bill did not accomplish everything that it ought to accomplish to vote against it?" asked the president.

"I am here to justify those who answer this question in the negative. I am not here to defend those who voted for the Payne bill, but to support them."

To this statement, the crowd in the Winona opera house responded with a vigorous cheer. It was shouted by the adherents of Representative Tawney of this district, chairman of the house committee on appropriations, who has been on the defensive ever since the adjournment of congress because he did not vote with the other members of the delegation from Minnesota, both in the house and senate, against the bill.

Mr. Tawney met the president at La Crosse and accompanied him to this city, his home town. It had been reported for some time that the president intended defending Tawney for his party regularly, but there was none to predict that the president would go as far as he did last night and singular the premises conveyed by in characterizing the position taken by the "insurgent" senators and repre-

"To make party government effective," said the president, "the members of that party should surrender their personal predelictions of comparatively less importance. I am not here to criticize those who felt so strongly and believed so intensely that it was their duty to vote against the tariff bill because it did not con all they thought it should. It was a question for each man to settle for himself.

"In matters of this kind it is a question with the party representative whether he shall help maintain the party solidarity for accomplishing its chief purpose or whether the departure from principle in the bill, as he regards it, is so extreme that he must in conscience abandon the party."

Further along the president gave a final word to the "insurgents," saying: "I am glad to see that those who voted against the hill still insist that they are Republicans and that they intend to keep up the fight for still lower tariff rates within the party. That is their right and in their view of things, is their duty.

"I have to say in respect to Mr. Tawney's action in voting for the bill and my action in signing it, that I believe that the interests of the country, the interests of the party, required me to sacrifice the accomplishment of certain things in the revision of the tariff which I had hoped for, in order to maintain party solidarity, which I believe to be much more important than the reduction of rates in one or two schedules of the tariff."

President Taft's speech was remarkably plain-spoken in defense of the Payne bill. He has been met with many queries since the beginning of his trip as to when he intended taking up the subject of the tariff.

Mr. Taft waited until yesterday afternoon when, with a mass of facts and figures before him, with a new statement just prepared by Chairman Payne of the house committee on ways and means and with his own personal knowledge of all the intimate details of the tariff fight in Washington still fresh in his mind, he sat down in a stateroom in his private car and dictated to two stenographers the speech he delivered last night, which represents a statement on the accomplishments and demerits of the Payne bill, from an administration point of view.

The statement contained only enough figures to make clear a point which the president has dwelt upon for some time in his confidential talks, that the measure of the new bill should be taken by the amount of reduction made on articles of general consumption compared with the increase on articles little used.

De Palma Establishes New Record Grand Rapids, Mich., Sept. 18 .-At the western Michigan state fair Ralph De Palma of New York broke the world's automobile record for twenty-five miles. His time was 22:59 3-5.

called for. Within the past four or five years hazing has been on the increase and resulted in some very disorderly occurrences. Many of the should be discontinued.'

Later on Fellows stated that he was greatly pleased with the result of the conference with the sudents and felt certain the understanding that had been reached would be lived up to in

IN PRESENCE OF HAREM

Sultan of Morocco Has El Rhogi, the Rebel, Put to Death

Fez. Sept. 18.-El Roghi, the rebellious subject of the sultan of Morocco, who recently was brought here a prisoner in an iron cage, was put to death inside the palace and in the presence of the imperial harem.

The putting to death of the rebel appears to have been the infuriated sultan's reply to the protest of the French consul against the torture inflicted by the sultan's soldiers on rebellious Moors who had been brought captives to Fez, though as a result of this protest the followers of El Roghi were released and the sultan gave orders that El Roghi, who was ill, be no longer exposed to the public view in his iron cage.

JOHNSON IS SINKING

Doctors Admit That Governor's Condition Is Very Grave

Rochester, Minn., Sept. 18.-After what seemed a favorable day; the condition of Governor Johnson took a sudden turn for the worse, and it is admitted that he is in a very grave

Dr. William J. Mayo would not say that the governor was dying, but admitted that his condition is extremely serious.

KEPT FACTS FROM RIVAL

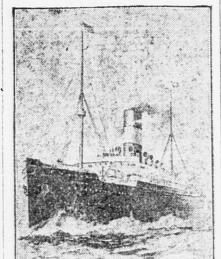

Cook Tells How Peary Was Misled About His Trip

WHITNEY IS DOCTOR'S FRIEND

Brooklyn Explorer Asks Americans to Have Fullest Confidence In His Conquest of Pole and Promises Adequate Proof-New Haven Hunter Was Placed In Full Possession of Facts-Evasive Answer to Man Placed In Cook's Supply Depot by Peary Led to Concocted Declaration That He Had Not Reached Pole-Will Formulate Replies to Peary's Specific Declarations

at Sea, Sept. 18.-Via Marconi Wireless Telegraph to Cape Race, N. F .-"Tell the people of America to have the fullest confidence in my conquest of the Pole. I have records of observations made by me which will prove my claim. I shall be glad again to set my foot on American soil."

This was the brief message which Dr. Frederick A. Cook asked the press to give to his countrymen as he bound from Christiansand, Norway, for New York.

SHIP THAT IS BEARING COOK HOME.

Dr. Cook discussed freely the assertions of Commander Peary that he (Cook) never reached the North Pole, tailors and made comfortable apparel. and drew from him a detailed story of the causes that brought about dissension between the two explorers.

When he departed for the north, Cook said, he left a depot of pro- The party was compelled to exercise visions at Annatok, north of Etah, in the greatest economy in their matchcharge of Rudolph Francke and sev- es, the expenditure of which was eral Eskimos. Francke had instruc- limited to two each day. tions to go south aboard a whaler and north.

"and the Eskimos in charge told him exits from the hut dangerous. that I was dead, which they fully believed to be true at the time.

the relief depot.

An Unexpected Return

When I returned from the Pole, an emergency. unexpectedly, Whitney was the first Dr. Cook, who was asleep in the Not open to public. to see me and tell me what had oc- boat, was suddenly awakened and saw, curred. Whitney was placed in pos- a few yards away, a bear snuffing session of the facts concerning my about. Finally it pushed its nose in journey to the Pole on the condition inquisitive fashion into the boat his men of them. At the same time was scared, but he seized a runner of ture. the Eskimos who had accompanied a sled and hit the bear. This me northward were told to maintain frightened the animal, but it returned the strictest silence.

"When I went into the depot there structions showed that he was making a trading station of my depot, the contents of which had been used in trading for furs and skins."

Dr. Cook said he was intensely annoyed at this alleged wrongful use of his supplies and threatened to kick out Murphy and his companion. Finally, however, he consented to

But I was determined not to let Peary know of my movements and replied North Pole. evasively that I had been much farther north. From this statement has been concocted the declaration that I had said I had not reached the Pole."

Witnesses to Confirm Story Dr. Cook declared that neither Whitney's nor his (Cook's) records are that, therefore, Peary's information concerning him emanated from Murphy, who knew nothing of his movements. Cook said also that he has made arrangements whereby the two Eskimos who went with him to the Moon sets-8:16 p. m. Dr. Cook is thoroughly enjoying his to northeast.

rest aboard ship after the strenuous days at Copenhagen. He sleeps ten hours each night and spends a long time daily in writing and in walking the decks and conversing with the American passengers, who all have

been formally presented to him by Benjamin Trueblood of Boston, president of the American Peace commis-

All the passengers are impressed by the sincerity of Cook's talks to them about his discovery of the Pole. He says that the Danes, with whom he lived for several months, are acquainted with the whole story of his exploit; that he also has provided the Danish governmen with the fullest prepared to lay them before a compe-

tent body in America. Will Reply to Peary

He expresses astonishment that the news of the discovery of the Pole has are in public parks. created such a sensation and is anxious to learn what specific declarations Peary has made to minimize his exploit in order that he may formulate replies to them. He says he On Board the Steamship Oscar II will arrive in New York before Peary public. Admission charged. gets there. Cook says he would like to see his wife and children, at least for a few minutes, before entering upon the whirlwind of receptions awaiting him in New York.

In a lecture in the saloon of the map, drawn by an engineer, gave an outline of his route to the Pole.

"The journey was nothing really wonderful." he said. "I used no new nears home on the steamer Oscar II, devices or inventions. I had, however, every necessary instrument, but olution, to the memory of Abigail Adreason for my success is that I returned to the primitive life-in fact became a savage, sacrificing all comforts for the race for the Pole. The Eskimos generally kept up their courage, but Ahwelah, two days before we reached the Pole, despaired. ries to tide water, Neponset river. However, I cheered him up and he never complained afterward; undergoing all hardships with cheeriness. Made Thread From Stockings

In conversations with the passen gers Cook has thrown some light on nis experiences during the long journev to the Pole and return. He has explained to them how the clothing of the members of the party wore down to rags and the Eskimos were obliged garments. The explorer and his com panions possessed no thread with which to sew skins together and therefore unravelled their stockings and used the wool for thread. The Eskimos, he said, proved capital None of the party suffered the slightest from frost bites. They pos-

sessed no eating utensils and their light was obtained from musk ox fat.

The long winter night was utilized return later. This he did, but missed by Cook in writing. He used a primithe returning vessel, owing to a slight tive stone writing desk and lay prone illness. He was taken aboard Peary's while at work with his manuscript. ship, the Roosevelt, and proceeded Meanwhile the Eskimos sewed and sang. The temperature in the snow "Commander Peary found my supply hut was rarely above the freezing depot at Annatok," Cook continued, point. Polar bears abounded, making

AMUSEMENTS.

Keith's Theatre.

Since his arrival in Boston a week ago, traveling in a palace car, and lunching with a large party at hotel Miss Cora Jordan of Allen street as been visiting her grandparents

Medford this week.

Mrs. L. P. The street as t more wonderful than any of these, as heing. At Keith's his performances have been simply startling and the theatre is crowded daily to see this wonder. He remains at Keith's for another week at the head of one of those oills that are making this theatre more talked about than ever.

American Music Hall, formerly American Music Hall, formerly the Orpheum theatre, a real treat in the line of variety and query has been prepared for the patrons. As for the variety and there will be plenty of music, plenty of comedy and a great deal of novelty. The headline feature will be Beatrice McKensie, Walter Shannon & Company the clever sketch artist in the charming one act piece "More Ways Than One." For real comedy there is no man on the stage so capable of handing it out as Ed Latell known as the Musical Minstrel Monologist. He is not a stranger to Bostonians who know well that to see him is to laugh. As might be expected the Romany Opera Company will be held over for another week for Bos tonians seem to be unable to get enough of this remarkable operation They will have an entirely new repertoire.

Boston Theatre.

Muriel Terry who has scored an exeptional individual hit as Volunteer Pay 30 cents per hour to start. Steady work. Henry W. Savage next season in a new operetta called "Prince Willie," in which the little comedienne will play the title role. Miss Terry made her ay Hussars." She is the daughter of Col. Charles Terry, of the British Army, who is stationed with his regiment at Lahore, India, where Miss Terry was born. Seven years ago she won a scholarship from Bedford, Eng. to the Royal College of Music in Lon-don, where she took up vocal culture and the study of the violin. While at this institution she won the Muriel Foster prize, which is presented to the best dramatic actress among the stu-dents. Usually singers proceed from light to grand opera, but Miss Terry has reversed the rule. Miss Terry explains her reversal of the usual artis c procedure by the fact that she i rather a tiny person and the im-presarios want bigger women for the eavy roles in grand opera. tains but one grand opera ambition— to sing in "Samson" the role of Delilah, which she was studying when Mr. Savage engaged her for "The Gay Hussars." Miss Terry is the first woman in several years to score a big success in America playing a boy's ole in operetta.

Timely as play of Arctic life, comes "The Spoilers," a drama of the frozen North, to the Castle Square next week. The North Pole, and the regions adjacent, are so much in the public eye company, and whatever the rights of the claims of the rival explorers, "The Spoiler" will be certain to offer an at-tractive series of pictures and incito decide upon your business education. No school can make of you a first-class stenographer in so short a time. No school can give you as good a business education for the amount of money. The graduates of our TEACHERS' department are in demand; they earn 50 per cent more teaching commercial subjects. In-Alaska, and among her mining camps E. G. BERGFORS, 29 Pleasant street. and tumultuous mining life. concerns a valuable property in the Nome district and a conspiracy to wrest it from its rightful owners, and at the Castle Square there will be plenty of local atmosphere and much that picturesquely shows the curious and primitive life of those regions. The first act takes place on board the steamer bound from Unalaska to Nome, the second in the office of the district attorney at Nome, the third in Bronco Kid's" gambling saloon, he fourth, (divided into two scenes) at the hotel and the Midas mine. All these will be effectively staged in Mr. Craig's production at the Castle

BOY MAY DIE

Was Struck by Automobile on Quincy Point Bridge

Robert H. Gibson, Jr., the 8 year old on of Robert H. Gibson of Melrose was struck by an automobile on the Weymouth side of the Quincy Point bridge Sunday afternoon and received injuries that may result in his death. The boy with his father and little sister had been at North Weymouth for the day. They were walking across the bridge at the time, the boy being in advance of his father and sister.

When near the draw the boy stepped out from behind one of the girders of the draw directly in front of an approaching automobile, the fender of which struck him.

The automobile which struck the boy was owned by Mrs. M. H. Stone of Saginaw, Mich., but bore the Massachusetts number 21,501. The chauffeur was E. H. Fletcher of 746 Shawmut avenue, Boston.

The machine was quickly stopped and the injured boy, who was bleeding profusely at the head, with his father and sister were taken on board Just behind the car which struck he boy was another car owned by F C. Hood of 99 Bedford street, Boston. Mr. Hood at once turned around and started toward Quincy looking for a physician. The two automobiles sped up Washington street at terriffic speed the party to the office of Dr. Middleboy he ordered him taken to the City

Hospital. The two machines then sped up Washington street and as they passed through City Square must have been going nearly fifty miles an hour When they arrived at the hospital Dr. F. E. Jones and Dr. F. R. Burke made an examination of the boy and found time. The summary of Class D: at he had sustained a fracture of th ase of the skull and a hemorrhage of he brain and that he was very weak from loss of blood. Owing to his weak condition it was not deemed advisable o perform an operation to relieve the pressure of the skull on the brain at hat time.

When the accident happened there vere a number of people on the bridge and a crowd quickly collected Mrs. Stone the owner of the car which struck the boy became almost frantic and took on terribly and the services of a physician were required to quiet

Mr. Hood the driver of the second utomobile said that the Stone car was not moving very fast and as far as he could see the accident was unavoidable as the boy stepped from behind one of the girders directly in front of the car and the driver did not have the least opportunity to stop his car or check the speed.

PASTOR RESIGNS.

Rev. H. G. Megathlin of Park and Downs to go to New Hampshire.

The resignation of Rev. Henry Megathlin as pastor of the Park and Downs Congregational church was read at the morning service on Sun-

Mr. Megathlin resigns to accept a pastorate in Walpole, New Hampshire. His resignation came as a surprise to the parish where he is highly regarded and universally liked.

This is the fourth change within a year which has taken place in the Mayor Makes Agreement Which Will ministerial circles in Wollaston. The others being in the Baptist church where Rev. Edmund D. Webber was succeeded by Rev. Joseph Walther, at the Unitarian church where Rev. Ernest W. Hunt was succeeded by Rev. Carl G. Horst and the Methodist church where Rev. Wesley Wiggin succeeded Rev. W. J. Heath.

Mr. Megathlin came to Wollaston n 1899 upon the resignation of Rev. Mr. Knight and for the past ten years pastor of the church. It is with reesignation.

Robertson beat A. H. Goodale, 1 up.

STREET LIGHTING.

Save the City \$100 a Month.

& Power Co., this morning for street question at the end as to which was by the Mayor calls for a three years favor of the Copeland club left no contract dating from July 1, 1909. Under the new agreement the price of arc lights is to be \$70 per year and the price of incandescent lights match it. We grind them at 1473 has rendered most efficient service as \$15 per year. These prices are quite a reduction from the price paid under gret that the community hears of his the old contract and means a saving highest order holding the St. Marys to the city of about \$100 per month. Under the old contract the price for arc lights was \$75 per year and of in-

> It is also stipulated in the agreement that in case of an alarm of fire that the current will be turned on, in a few days.

Children of Park and Downs Church SATURDAY BALL GAMES

the Quincy Diamonds

At the Park Saturday afternoon the

Makaria went to Melrose the week efore and beat them 9 to 6 breaking their winning streak of 15 straight games. Saturday makes their third defeat this season, Makaria scoring wo of them.

The pitching of Michael was classy and his fielding was one of the features of the day.

Troupe caught a great game and made one sensational play on a bunt of McMullen,. The ball rolled half way to pitchers box and he fielded it n great shape getting the man at first. Troupe also got a slashing single which was turned into a home run when Bill Harris, the right fielder let go through his legs into the right field hollow. This came in the second inning and both teams went along playing great ball until the seventh when Ebblesten got a single and Russ Bates came to time with a slashing double which went clean out to the

ence and scored Egglesten. This was all the scoring done by Makaria but the Barry class gave hem a scare in the ninth when Boyle knocked out a double and scored when Wes Ganzel threw wild to third, the ball going through Bates into left field. The next two men were fanned by Jimmy and the score stood 2 to 1. McKenzies fielding was faultless but ne couldn't touch Ditse, the Melrose High pitcher. Russ Bates led at the

bat with two 2-baggers and Tupper got one. Michaels fanned 9 men and there were eleven who couldn't connect with Dike's curves. Wannamaker got two of the four hits off "Mike and also caught a great game for the Melrose team.

Walter Troupe's arm was in great trim and not a man stole second. The game was close all the way and 2 01 24 1 58 13 While not exciting was a good one to watch and the large crowd present enjoyed it.

COPELANDS 6 ST. MARYS 0.

There was one red hot game of

baseball at the Old Colony league grounds last Saturday when the St. Marys and the Copelands came together. A large sum of money had been bet on the result and the specta-Mayor Shea entered into an agree- tors in their partisanship were as ment with the Quincy Electric Light rabid as the players. There was no lighting. The agreement entered into the best team for the 6 to 0 score in doubt.

The game was one of the most exciting that was ever played on a local diamond and was replete with sensational plays and fielding. Williams pitching, for the Copelands, was of the heavy hitters to three small bingles. On the other hand Canavan let the copeland club land on him for 8 hits and his team behind him supported him poorly making 6 errors.

After the game the team was tenafter the lights have been shut off, deed a banquet at the club rooms by their admirers and several speeches not only in the district where the box were made, and a smoke talk enis located but in the districts in which joyed. After which they left for apparatus responding to that box are Brown's dance hall Houghs Neck has started up in earnest, read the located. The contract will be signed where they spent the evening burning red fire and making the occasion a

nemorable one both to the people in their own section and also to the natives at Houghs Neck. Before they went to the beach they took and marked the sidewalk from the boulevard to the West Quincy station with he score 6 to 0 in red chalk.

The score by innings of the baseball game was as follows:

123456789 R H- H $0\ 0\ 0\ 1\ 0\ 0\ 1\ 1\ 3\ -6\ 8$ opeland t. Mary's 000000000000 3 6 What Boys' Dept. of Y. M. C. Batteries-Williams and R. Barry; Canavan St. Mary's

FORE RIVER 3, EXCELSUS 2.

The 1rst game for the eighteen year old championship of the city was play-Makarias defeated the Barry class of field at Merrymount park, when the Melrose in one of the best played Fore River Apprentices went up C. A. are now nearing completion and games seen at the park this year; 2 to against the Excelsus class. The latter team has just won the majority of biggest and best ever. The goal set a series of games from the Bigelows for membership is between two hunand are now playing the Fore Rivers dred fifty and three hundred boys and for the championship, best two out of three games. The first game was not all that could be desired in the matter of arrangements as both teams had trouble in regard to certain players. It is hoped that the other games will be played so that there can be no at this good time. The program will question on either side about the men who are representing the different and refreshments.

Both teams put up a remarkably fast game there being only two errors and these made by the Fore Rivers. The hitting was about even. The Excelsus getting to Dakers for Six and hold their opening night Sept. 29th and the Fore Rivers touching Manning up

The Excelsus started off the first inning with a score and held the other derful results. The orchestra will reteam down until the fourth inning sume activities on the twenty-eight when they scored a run making it one and prospects are that it will be even all. Then in the sixth both teams better than last year. The Bible Study There was no other score until the ture and the mark set is two hundred first of the ninth when the Fore Rivers and fifty boys in weekly study. Brookline has had only two County Police Say Thaht Man and Woman Commissions each serving one term Completed Murderous Work by Firing More Bullets Into Victim and Slashing His Throat-Little Girl Chief Witness In Bloodthirsty Crime Attributed to Jealousy

Waterbury, Conn., Sept. 20 .-Sensational developments were brought to light by the coroner's investigation in the murder of Bronick Kulvinski, a Union City saloon keeper who died Saturday night at a local hospital, and for whose death Sophia Kritchman, a well educated Lithuanian music teacher, and Joseph Peczinitis, a local bartender, are being held. Kulvinski had several bullet wounds in his body and his throat was slashed. According to the testimony jealousy seems to have been the motive. The police assert that the fatal shots were fired by Peczinitis and that the slashing of the victim's throat was done by the woman.

The most important witness in the case is Victoria Dalton, 10 years old, of Union City. According to the testimony, on Friday afternoon the Kritchman woman took the little girl out for a walk. They reached the spot where Kulvinski, who had been shot in the morning, was lying in a Boy Runs in Front of Machine Operpool of blood, just over the Waterbury line from Union City. The woman poked the body with a stick, and when she found that he man was still alive told the girl if she said anything about it she would kill her.

On Saturday morning the woman came to this city, where Peczinitis was employed as a bartender, and the two-returned to the lonely spot in the woods. The woman slashed Kulvinski's throat and Peczinitis fired three more shots into his helpless rival. The dying man was found by several boys in the afternoon. The woman was arrested in the cellar of her home and Peczinitis was captured in this city. The inquest brought out that the

murdered man had been attentive to Sophia Kritchman, that Peczinitis was jealous, and that Kulvinski had sev-Sophia Kritchman, that Peczinitis was eral days ago made the statement that he knew Peczinitis would kill him if he knew of his attentions to the girl. Friday morning Kulvinski told Miss

Kritchman that he intended to marry another girl. Kulvinski had been the Will Quit Pulpit Rather Than favored suitor, but when she heard this story she told Peczinitis that Kulvinski had been bothering her and the two planned to lure the victim to

It is alleged that Kulvinski and the woman started from Union City and tional church, in a sensational letter had entered some woods across the advocating a candidate for the state Waterbury line when Peczinitis, who had been following the pair, caught announced his willingness to resign up with them. He fired four shots his pastorate if his political belief ofat Kulvinski, all of which struck the fends his parishioners. In this cir-

ARRESTS IN MURDER CASE Two Men Held In Connection With

North Adams Tragedy

North Adams, Mass., Sept. 20 .-By the arrest of two men the police believe they have cleared the mystery of the murder of Giovanni Cannaizzo, aged 38, whose body was found beside the railroad tracks here Saturday night by the crew of a freight train. The two men, Antonio Scolli, aged 18, and Vincenzo Jeammello, aged 25, were captured by two constables in Cheshire as they were walking along the line of the Berkshire street railway early Sunday.

Robbery is alleged to have been the motive of the crime. Cannaizzo had \$47.75 was recovered from the arrested men.

BAY STATE'S POPULATION Total of Three Million, of Which

Nearly a Third Are Foreign Born Boston, Sept. 20 .- The population of Massachusetts on May 1, 1905, the date of taking the last decennial state census, was 3,003,680, of which 1,-461,589 were males, and 1,642,091 females, according to the report of that census just made public by Director Gettemy of the Massachusetts bureau of statistics.

This is an increase of 198,334 persons over the figures reportel for 1900, and compares with the total population of 378,787, reported in 1790, when the first national census was taken.

Boston has ranked as the first city every year since 1790. Worcester has held the second position as regards population since 1885. Fall River now occupies third position and next in order are Cambridge, Lowell Lynn, New Bedford, Springfield Lawrence and Somerville.

The city which has shown the most phenomenal growth in population is Everett. In 1885 Everett had 5825 inhabitants and was in the last rank of the present cities. In 1905 that city had 29,111 persons, a gain of 23,286, and was twentieth in position. The ony town showing a decrease is Adams. This town ranked first among the towns in total population in 1875, but since that time has fallen off 2.77 percent, or a loss of 3274 persons. The following figures show the cen-

sus in a nutshell: State's population3,003,680 Native birth2,085,636 Foreign birth 918,044 Married37\76 percent Single55.54 percent Legal voters 674,174

MANGLED BY AUTOMOBILE

ated by Member of Legislature

Worcester, Mass., Sept. 20.-Representative Norman H. White of charged with manslaughter, following an accident in which his automobile ran over and almost instantly killed John E. Bourgeois, aged 7 years.

Bourgeois was playing in the street and darted from the curbing across the street as the automobile came along. His neck was broken by the impact and his head and shoulders were badly crushed and mangled.

Following his arrest White furnished bail in \$1000 and was released, the April 22, or whether it was April 22 case coming up for a hearing on Wed-

TO BE MUZZLED

Keep Out of Politics

Boston, Sept. 20 .- Rev. William A. Knight of the Brighton Congregasenate in the fifth Suffolk district, has cular letter Dr. Knight says: "I have now done my duty as I see it, with no ill will toward any man. I know well how deeply this act will grieve some of the best men with whom I am associated, men as dear to me as ever men were.

"Though sure of their generous magnanimity, my resignation of my pastorate is ready as the great price which I probably ought to pay that I may not flinch from doing unto the last all that I can do to save Brighton from devastating powers."

CAMPAIGN NEAR AT HAND Warm Battle to Be Waged Against

Tammany In New York New York, Sept. 20 .- The municipal political campaign will get into about \$48 on his person Saturday full swing in New York city this week night, and this was missing when his to continue until ballots are cast on body was found. It is said that Nov. 2. The first convention will be that of the Republicans, to be held at Carnegie hall next Thursday afternoon, when an anti-Tammany candidate for mayor will be chosen.

With a view to defeating Tammany, many factions have united in a committee of one hundred, a sub-committee of which is engaged in pruning down the long list of those mentioned for office. The sub-committee will report to a full conference tomorrow.

Assistant Cook on the Roosevelt Knew About Gook's Trip

HEARD DOCTOR TELL WHITNEY

Was at House at Annatok When He Learned Details of Final March of Brooklyn Explorer, Who Used Map to Illustrate the Route Followed -Followed Injunction to Keep the Matter From Peary's Ears

Battle Harbor, Labrador, by Wireess Telegraph, via Cape Ray, N. F., Sept. 20 .- One of the men on the steamer Roosevelt at least knew long ago that Dr. Frederick A. Cook had claimed to have reached the Pole. He s William Pritchard, cabinboy and assistant cook on the Roosevelt, who emained at Annatok with Boatswain Murphy to guard the stores. Pritchard had not spoken to any one

n board of Cock's achievement, but when confronted, just prior to the sailing of the Roosevelt from Battle Harbor, with a wireless message from nidocean that Cook said Pritchard tnew the whole story of his dash to the Pole, the youth admitted that he had learned from Cook the details of the final march and that Cook had ex plained to him the route followed. Whether Murphy also was informed

Cook's success Pitchard did not know, but unquestionably Harry hitney, who was at the storehous when Cook returned from his dash with the two Eskimos, is conversant with all the facts. Whitney did not disclose this interesting piece of news Brookline was arrested here and to Commander Peary, and Pritchard kept it from Peary during the entire voyage of the Roosevelt to Battle Harbor. Pritchard said that he was at the

ouse at Annatok with Whitney and heard Cook describe to the New Ha ven sportsman how he went to the Pole and remained there two days. He could not remember whether Coo. said he remained there April 21 and and 23. Cook used a map to illus trate the route followed.

Asked why he had not repeated this on board the Roosevelt, Pritchard said that Cook had told him to say noth ng about his baving been at the Pole

Followed by the cheers and shouts half a hundred Labrador fishermen. nd given a farewell salute from the historical old cannon which stands near the Marconi station, the Peary Arctic steamer Roosevelt sailed Satrday for Sydney and New York flying the North Pole flag. This flag was made at Battle Harbor. The Roosevelt, now homeward

ound, is scarred and blackened from contact with mountains of floating ice and boring through interminable Captain Bartlett said that he intend-

ed to push his ship through the gulf of St. Lawrence as fast as possible, with a day's stop at Sydney. He hopes to reach New York next week.

HONORS HIM AS EXPLORER

But Cook Finds Serious Flaws In the Character of Peary On Board Oscar II, by United Wire-

ess Telegraph, via Boston, Sent. 20 -The steamer Oscar II, with Dr. Frederick A. Cook aboard, will not arrive at New York until Tuesday morning. This is at the urgent request of the reception committee which is to meet Cook. The steamer could have reached

Sandy Hook this afternoon, but a message from the reception committee, asking that the arrival be delayed, owing to the fact that it was impossible to change the committee's arrangements, was received last evening by wireless, and the captain conented to comply with the request. The Oscar II is, therefore, under decreased speed, and will reach quarantine at about 7:30 tomorrow morn-

Dr. Cook appears to exercise great self-restraint, but can hardly repress a natural annoyance at impeacment of his veracity without proofs. He requested the press to make public the following:

"Commander Peary has as yet given to the world no proofs of his own case. My claim has been fully recognized by Denmark and by the king of Sweden; the President of the United States of America has wired me his confidence; my claim has been accepted by the international bureau for Polar research at Brussels; most of the geographical societies of Europe have sent me congratulations, which means faith and acceptance for the present, and almost exery explorer of note has come forward with warm and friendly approval.

"A specific record of my journey is accessible to all, and everyone who reads can decide for himself. When Peary publishes a similar report then our cases parallel. Why should Peary be allowed to make himself a self-supported dictator of my affairs? In justice to himself, in justice to the world and to guard the honor of napelled to prove his own case; he tion; east winds, increasing.

should publish at once a preliminary narrative, to be compared with mine, and let fair-minded people ponder over the matter while the final reports by which our case may eventually be proved are being prepared.

"I know Peary the explorer. As such he is a hero in Arctic annals and deserves the credit of a long and hard record. To Peary the explorer I am still willing to tip my hat, but Peary's unfounded accusations have disclosed another side to his character, which will never be forgotten.

"When Peary wired that he had nailed the Stars and Stripes to the Pole. I immediately sent congratulations. I then believed, as I do now, that his work over a new route far east of my line of travel was a new conquest of great importance and, of course, that his position at the Pole would supplement my work with valuable data. There is room enough and honor enough for two American flags at the Pole.

Arctic Club's Faith In Cook

New York, Sept. 20 .- As to the Arctic Club of America on Dr. Cook's reported achievement, Dr. Stebbins, who has taken a prominent part in the arrangements for his reception. says that the club accepts Dr. Cook's statements absolutely and that if there is to be further controversy it is incumbent upon the Peary advocates to disprove Cook's claim, rather than for him to produce more data at the present time. The club has planned no official action along this line.

REAL ESTATE For Sale? Advertise in The Ledger. | vainly to calm and soothe him.

(Continued from Saturday.)

"Drop it, Dick," Calendar advised quietly, "and go a bit easy with that bottle for five minutes, can't you?" "Well, then," Stryker resumed, ap-Petticoats parently concurring in Calendar's attistuff, go off quiet an' dispose of it to

> vide. I don't see w'y that"-"Naturally you wouldn't," chuckled Calendar. "Few people besides the two of us understand the depth of affection existing between Dick, here, and me. We just can't bear to get out of sight of each other. We're sure inseparable-since night before last.

Odd, isn't it?" "You drop it!" snarled Mulready in accents so ugly that the listener was startled. "Enough's enough, and"forget and say no more about it."

"Well, see you don't." "But 'as either of you a plan?" persisted Stryker. the simplest and best, if you could situation.

only make this long lost parent here He was leaning heavily upon a hand see it." Mulready seemed to ignore Calendar and address himself to the captain.

He articulated with some difficulty, slurring his words to the point of indistinctness at times. "Simple enough," he propounded solemnly. "We've got the gladstone bag

here. Miss Dolly's at the hotel. That's her papa's bright notion. He thinks she's to be trusted. Now, then, what's the matter with weighing anchor and slipping quietly out to sea?" "Leavin' the dootiful darter?"

"Cert'n'y. She's only a drag anyway. Better off without her. Then we can wait our time and get highest market prices"-

"You forget, Dick," Calendar put it, "that there's a thousand in it for each of us if she's kept out of England for six weeks. A thousand's five thousand in the land I hail from, I can use five thousand in my business." "Why can't you be content with what you've got?" demanded Mulready wrathfully.

"Because I'm a seventh son of a seventh son. I can see an inch or two be yond my nose. If Dorothy ever finds her way back to England she'll spoi one of the finest fields of legitimate graft I ever licked my lips to look at. The trouble with you, Mul, is you're too high toned. You want to play the swell mobsman from post to finish. A quick touch and a clean getaway for yours. Now, that's all right-that has s good points-but you don't want to old age."

ready, "go to the hotel, get your brat had momentarily rested thereon. by the scruff of her pretty neck and drag her aboard! Let's get out of

"I won't," returned Calendar inflex-

ibly. The dispute continued, but the listener had heard enough. Stealthily he crept away to the rail, to stand grasping it and staring across the water with unseeing eyes at the gay old city twinkling back with her thousand eves of light.

Over there, across the water, in the dingy and disreputable Hotel du Commerce, Dorothy waited in her room, doubtless the prey of unnumbered nameless terrors, while aboard the brigantine her fate was being decided by a council of three unspeakable scoundrels, one of whom, professing himself her father, openly declared his intention of using her to further his selfish and criminal ends.

His first and natural thought-to steal away to her and induce her to accompany him back to England-Kirkwood perforce discarded. He could have wept over the realization of his unqualified impotency. He had no money, not even cab fare from the hotel to the railway station. Something subtler, more crafty, had to be contrived to meet the emergency. And there was one way, one only. He could see none other. Temporarily he must make himself one of the company of her enemies, force himself upon them. ingratiate himself into their good graces, gain their confidence, then when opportunity offered betray them. And the power to make them tolerate him, if not receive him as a fellow, the knowledge of them and their plans that they had unwittingly given him, was his.

And Dorothy was waiting. He swung round and without attempting to muffle his footfalls strode toward the companionway. He must pretend he had just come aboard.

Subconsciously he had been aware voices in the cabin had been steadily gaining in volume, rising louder and yet more loud, Mulready's ominous, drink blurred accents dominating the others. There was a quarrel afoot. As soon as he gave it heed Kirkwood understood that Mulready in the madness of his inflamed brain was forcing the issue, while Calendar sought

The American arrived at the head of New York, New Haven OLD COLONY STREET RY. CO. the companionway at a critical juncture. As he moved to descend some low, cool toned retort of Calendar's seemed to enrage his confederate beyond reason. He yelped aloud with wrath, sprang to his feet, knocking over a chair, and, leaping back toward the foot of the steps, flashed an adroit | r 6 43 abc hand behind him and found his re- r 713 abo

"I've stood enough from you!" he r 7 21 adei screamed, his voice oddly clear in that moment of insanity. "You've played with me as long as you will, you hulking American hog! And now I'm going to show"-As he held his fire to permit his de-

nunciation to bite home Kirkwood, appalled to find himself standing on the r 9 15 abc threshold of a tragedy, gathered himself together and launched through the tude, "w'y don't one of you tyke the air, straight for the madman's shoula proper fence an' come back to di-

As they went down together sprawling Mulready's head struck against a r 12 21 abc transom, and the revolver fell from his limp fingers.

CHAPTER XXI. REPARED as he had been for the shock, Kirkwood was able to pick himself up quickly, un-

On his feet, straddling Mulready's insentient body, he confronted Calen-"There, there, Dick! All right, I'll dar and Stryker. The face of the latbehave." Calendar soothed him. "We'll ter was a sickly green, the gift of his fright. The former seemed coldly composed, already recovering from his surprise, and bringing his wits to bear | r 8 05 abcdef 8 29 9 27 cba upon the new factor which had been "I have," replied Mulready, "and it's so unceremoniously injected into the r 10 09 abodef

that rested flat on the table. In

Kirkwood was tingling with a sense of

good blackmailing connection. If I fense at the crisis of Mulready's can keep Dorothy quiet long enough I frenzy. Its muzzle was deflected. He look to the Hallam and precious Fred. looked Kirkwood over with a cool die to be a great comfort to me in my gray eye, the color gradually returning to his fat, clean shaven cheeks, re-"Then, for heaven's sake," cried Mulhad momentarily rested thereon.

"Then, for heaven's sake," cried Mulhad momentarily rested thereon.

At the District Court of East Nor-

As for Kirkwood, he had covered the fat adventurer before he knew it. Stryker, who had been standing immediately in the rear of Calendar, immediately cowered and cringed to find himself in the line of fire.

Of the three conscious men in the brigantine's cabin Calendar was probably the least confused or excited. Stryker was palpably unmanned. Kirkwood was tingling with a sense of mastery, but collected and rapidly revolving the combinations for the reversed conditions which had been brought about by Mulready's drunken folly. His elation was apparent in his shining boyish eyes as well as in the bright color that glowed in his cheeks. When he decided to speak, it was with rapid enunciation, but clearly and con-

"Calendar," he began, "if a single shot is fired about this vessel the river 1909, to answer to the same, by causpolice will be buzzing round your ears ing an attested copy of this order to be in a brace of shakes." The fat adventurer nodded assent,

his eyes contracting. "Very well," continued Kirkwood brusquely. "You must know that I have personally nothing to fear from the police. If arrested I wouldn't be detained a day. On the other hand, you- Hand me that pistol, Calendar, butt first, please. Look sharp, my man! If you don't"-

He left the ellipsis to be filled in by the corpulent blackguard's intelligence. The latter, gray eyes still intent on the younger man's face, wavered, plainly Impressed, but still wondering.

"Quick! I'm not patient tonight." No longer was Calendar of two minds. In the face of Kirkwood's attitude there was but one course to be followed-that of obedience. Calendar surrendered an untenable position as gracefully as could be wished. (Continued on Monday.)

Callahan, Miss Margaret Callahan, Mrs. William Clipper, Bona Donato, Mrs. Lena Engbritson, Ernesto Fada-Kronholm, Joseph Laurie, Fred Leorice, George Marks, Mrs. Wallace Murch, Mrs. Mary Osborne, C. Pillato, Saarikankas, Charles Smith, John Somervill, J. Strid, James Thomas, Master Carlton Ashby Vose and Miss B. Windt.

BODY RECOVERED.

Body of Mrs. Margaret Mott Recovered at Hull.

The body of Mrs. Margaret Mott of Beston who was drowned off Houghs Neck, Labor day by being knocked overboard from a yacht came ashore at Point Allerton Sunday. The body was found by Mr. Jenkins a summer resident and was later identified by Mr. Clark who was one of the yachting - 22

Members Entertained by Mrs. Thomp son in Henor of her Engagement.

The Billiken club was entertained Saturday afternoon at the home of Mrs. Mabel Read Thompson in Somerville, in honor of Miss Helen Curtin's engagement which has recently been announced to Mr. Ernest Havelock the club girls arrived.

A most appetizing luncheon was with Miss Curtin at the head of the The color scheme was yellow throughout. At each place were yellow chrysanthemum baskets filled with yellow confectionery and salted nuts, a place eard with suitable clippings of Dan Cupid and his victories, and a spray of golden rod. From the chandelier were suspended yellow crepe paper streamers attached to a box in the centre of the table made to represent Miss Curtin's "going away" hat box, under which were concealed a dozen and a half dainty towels. Yellow ribbons were strung with tiny hearts and hung from the centre of the room Tuesday promises to be fair with to Miss Curtin's place with one large one decorated with hearts and a smal cupid for Miss Curtin. A large vellow bow was attached to the chair at the head of teh table, lending a nost harmonizing effect to the whole After the luncheon Miss Annie

Harding favored the party with several vocal selections ,also Miss Margaret Read rendered several pieces. The merry party broke up at 5.30 after having one of the jolliest times that the club has ever had. Those pres ent were: Miss Helen Curtin, Miss Martha Jenkins, Miss Louise Hinkley Miss Ardelia Barber, Miss Florence Hill, Miss Georgianna Priest, Miss Mary Farrell, Miss Cora Harding, Miss Annie Harding, Miss Maude Read, Miss

FOOT LACERATED.

Winthrop avenue returned today from George Cossack Sustains Painful Injury to his Foot.

While in the launch Reta off th Quincy Yacht club Sunday afternoon The janitor of the Massachusetts George Cossack sustained a peculiar Fields school is mourning the loss of and painful injury. He was 'aft the a pet collie which was run over and engine and in shifting his foot in the floor did not notice that he placed it under the shaft of the engine. Before he could remove it the screw came several times before he could pull his foot away and when he finally did so, the top of his foot was terribly lacer church will hold an all-day sewing the yacht club house, where Channing Furnald renedered first aid until Dr. Garey, who had been called, arrived. After the wound was dressed they took him aboard the boat and left for East Boston, Cossack lived on E. Street East Boston and was the geust of D. F. O'Connell, also of East Boston and owner of the launch Reta.

BACK INJURED.

Violet Jones Steps from Moving Car on Washington Street and is Thrown.

Miss Violet Jones of Mill street suf fered an injury to her back Saturday evening by being thrown as she was about to alight from a moving car on Washington street. She was on her way home and when the car reached fore it did so, it is said that she umped off and landed on her back.

She was taken to her home by some of the passengers and attended by a physician. While the young lady was ying on the street a large automoble came rushing down the street and was of where she lay.

Three Reasons For Declining.

Lord Broughton had a temper which sometimes exploded in a most disconcerting manner. It is related that on one occasion he dined with a large party at Thackeray's house, and after dinner some specially fine madeira was produced. In his usual genial way the novelist pressed this on his guests and, patting his neighbor, Lord Broughton, on the back, remarked, "Now, my dear old boy, you must try some of this."

A chill fell on the company when the noble lord retorted, "I am not your dear boy, I am not old, and - your

The Only Thing Left.

Jeremiah Jinks is rich and stingy. An acquaintance of his met Jinks' son the other day. "Your father seems to have lost a good deal of money lately. The last time I saw him he was complaining and saying he must economize."

"Economize! Did he say where he was going to begin?" "Yes; on his table, he said."

"Then he must be going to take away the tablecloth," was the filial declaration.-Exchange.

Saturday Ball Games

(Continued from page 1.)

ATLANTIC 6, NEPONSET 3.

The Atlantic baseball team defeated the Neponset Wanderers Saturday, K Moore of Cambridge. The affair was on the Ward Six playground by the a complete surprise to Miss Curtin score of 6 to 3. The features of the who with her mother was already game was the pitching of Driscoll for at Mrs. Thompsons an hour before Atlantic who fanned 11 of the Wanderers and the hitting of Duggan who made two of the three hits off Durant. served at 3.30 to twelve young ladies For the Wanderers, Grieves excelled at the bat and in the field, getting table and Mrs. Thompson at the foot. three hits and accepting four out of six chances in his position at short stop. Grieves has been playing for the Stoughton Old Colony league team all the season, and was a great help to the Wanderers but not quite able to win his game alone.

123456789 RHE Atlantie 00310020 -6 3 3 010000110-3 9 5 Wanderers Batteries-J. Driscoll and Fitzgerald; Duant and Haycock.

BIGELOWS 9, WHITE SOX ..

The Bigelows defeated the Amerian White Sox Saturday afternoon by the score of 9 to 0. The feature of the game was the pitching of Brown for the Bigelows who allowed the oppos ing team but three hits. The score by innings:

100115010-9 010000200-3 3 1 Batteries-Brown and Avery; Clinton and

ROCKLAND 5 DEWEYS 3.

The Rockland's defeated the Dewey' n an exhibition game at the Weymouth air Saturday by a score of 5 to 3. Next Saturday at the New England league grounds at Brockton the two eams will play to settle the Old Colony league championship.

WHO IS CHAMPION.

Makaria and Atlantic Will Settle Question Next Saturday.

At last the Makaria-Atlantic ques tion has been settled and next Saturday if the Old Colony league grounds around and struck him. It struck him can be secured the two rivals will fight it out for the championship so far as they are concerned. There will be but one game played as there has ning one. It will certainly be a classy game if they can meet next Saturday and one which should draw fans from all over the city. The managers were in consultation Sunday afternoon and decided on the arrangements.

The winning team should be the one who would meet the Quincy Old olony league team if it was not dispanded and so while the real championship can not be determined this ear this game will bring it down to question of two teams and will setle the question of the supremacy be-

tween the two great rivals. Through being misinformed by manager Joe Ford of the Quincy Inlependents the Ledger printed last for this purpose has been so great that eek the fact that his team was to play a series with Atlantic. But as near as can be learned the Atlantic team had no idea of playing the

All the lovers of baseball will be glad to hear that it is to be Makaria instead of Quincy who will meet Atantic as there is a certainty now of a game of the highest order.

The only hitch in the playing of the Markaria-Atlantic game was practi only stopped when within a few feet cal ly cleared up when Charles How ard, the Makaria manager had a tall with the managers of the Water street grounds this morning. The natter will be brought before the poard of directors this evening, and be passed upon. There is little doubt that they will be able to get the field, the only reason would be that the manager of the Quincy Independents has got a string on it and as they are not to play Atlantic as stated the grounds hould be open to the Makaria management. And there is no doubt but that the directors will give them the required permission.

OLD AGE PENSIONS.

Members of the Men's club of Christ church, Quincy, will listen to an exposition of the subject of old age pensions and industrial life insurance on the evening of Nov. 1 by one of the staff speakers of the Massachusetts Savings Insurance League. This will be one of the earlier meetings of the campaign in behalf of popular thrift which is to be carried on in the next few months from the office of this association. Miss Alice H. Grady, who has charge o fthe arrangements for speaking, has already received a number of applications from church clubs, women's clubs, labor unions and other

BY AN AUTOPSY

Dr. Stone Known to Have Been Slain on Highway

WAS FIRST SHOT IN NECK

Killing Completed by Crushing His Skull, Probably With Heavy Stone -Two Suspects Arrested, One of Them Having Been Driving With the Victim-Robbery Undoubtedly the Motive For the Crime

Ayer, Mass., Sept. 20.-That Dr. Henry N. Stone, the Newburyport dentist, whose body was found near the main highway between this town and Harvard, was a victim of murder, was proved conclusively by the autopsy. In addition to wounds made apparently by a blunt instrument, such as a heavy stone, it was found that two bullets had entered the left side of the neck.

Dr. Stone was last seen alive last Monday night between 8 and 9 o'clock, when he left the home of his sister, Mrs. Charles G. Davis, in The Enameled Pipe & Engineering Ca, Harvard, to drive to the Ayer station, where he was to take a train. The farmhand who accompanied Stone on the drive denies any knowledge of the death and insists that he left Stone at the Ayer railroad station just be fore the arrival of the 9:20 train.

The farmhand, Raymond Plouffe and Felix Lapoint, who has been assisting Plouffe in driving a milk route, were taken into custody and sent to the jail in Clinton, where they are held for an examination. Both the men have been closely questioned by the officers, but they stick to the assertion that they know nothing of the death of Stone. Both profess confidence that they can prove their innocence.

The autopsy was performed in the cemetery here. The body, which had been kept in a tomb since it was found on Friday, was removed to the open air, where the examination was made. Screens placed about the body protected it from the view of hundreds of curious people who gathered at the

The discovery of the bullets in the neck was the first intimation to the officers that Stone was shot before he was struck on the head with a heavy stone. The two bullets of 32-calibre were removed and taken possession of by the medical examiner, as also were two large stones on which blood stains -appeared. The entire upper half of the skull, including the nose, was crushed in. Dr. Tobey, the medical examiner, will hold an in-

quest in Clinton some time this week State detectives are at work on the mystery, being assisted by Constable Hanna of Harvard and Deputy Sheriff Fillebrown of Ayer. No other motive than robbery has been suggested in connection with the case. Stone is known to have been in the habit of carrying large sums of money, but in his clothing the officers found only \$1.27. It is believed that he had at least \$500 with him when he set out from the home of his sister to drive

to the Ayer station. Charles Stone, a cousin of Dr. Stone, says that during an interview with the doctor last Monday afternoon the doctor took from his pocket a large roll of bills and some of them at least were of large denomination.

A 32-calibre revolver and bullets of the calibre of those found in the body were found in the upper drawer of the bureau in Plouffe's room in the attic of the Davis farmhouse. These are now in the possession of the police. Plouffe admitted ownership of the revolver and the cartridges and Lapointe admitted that he also owns a 32-calibre revolver, a 22-calibre and a 38-calibre rifle.

After the two suspects were formally arrested the officers searched Plouffe and found \$221 in his pockets. They also secured his admission that he had spent considerable money during the past few days and that since Stone left the Davis farm on Monday evening he has paid Mrs. Davis \$65 for milk which he buys from her.

Was With the Hall Expedition Baltimore, Sept. 20.-Robert H. Hayward, aged 66, who is thought to have been the sole surviving member of the second Arctic expedition of C. H. Hall, the American explorer, died at Hamilton, a suburb of this city. Hayward joined the Hall expedition, which sailed from Philadelphia, in the tapacity of master carpenter.

Tenney Gives Up Baseball Chicago, Sept. 20 .- Fred Tenney, the veteran first baseman of the New York Nationals and former manager of the Boston Nationals, announced that he had played his last game in the major leagues. He boarded a train for his home at Winthrop, near Boston. He has been injured several times this year.

Death Halts Auto Relay Race Philadelphia, Sept. 20.-Harry L. Buckley, a newspaper man of this city, who was carrying a message from President Taft to Seattle in a reay automobile race under the auspices of the Philadelphia Press, was killed when the automobile was wrecked near Lebanon, Pa. The race was abandoned.

Squad Now Down to Those Ready to Put in Some Hard Work.

The second week of the High school ootball practice began Monday. The squad has now dwindled to those who re ready to put in hard work and onsists of about 25 men.

The afternoon began with a hard ignal drill which showed that the backs need a whole lot of coaching between now and Friday. The conditions were just right for a good practice and the men all worked harder than ever before this year. The econd half of the afternoon was given ip to a scrimmage and the mer showed at times a flash of form which ooks fair for a good showng against

ambridge Latin. Their season opens Friday with the Latin school and as the home games are not numerous, lovers of football should take advantage of every chance to see the local boys' work. The field an order for a public hearing Oct. 4,

Mr. and Mrs. John C. Murray Observe Wedding Anniversary.

Mr. and Mrs. John C. Murray of

liberty street celebrated at their home Monday night the 25th anniverpary of their wedding. Quite a large number of their friends, including several of those who were present at were present. Mr. and Mrs. Murray were assisted in receiving by their daughter Miss Murray, and their son Master Walter. The house was taste fully decorated for the occasion, silver tints dominating.

The wedding supper was from nine to eleven, the table decorations being Council was short and sweet. There "the flowers of the season. The toasts were "The Hosts" to which Mr. Murray very fittingly replied.

were quickly disposed of, so that Mr. and Mrs. Murray were the re cipients of some very handsome presents, among which was a very beautiful buffet and china closet, the gift of the party.

A most pleasant evening was spent events and pastimes of twenty-five years ago being recalled with very pleasant references, a splendid musical program being a fe ature.

Mrs. Emma Marnock, who was pres ent at the wedding in 1884 and at the 10th anniversary and very greatly assisted Mrs. Murray at entertaining read an original poem with special reference to the several events. Mrs Murray, as a token for the services Mrs. Marnock had rendered her, pre ented her with a beautiful gold brooch with amethyst setting. Mr. Murray presented Mrs. Murray his wife, as a ouvenir of the occasion, an elegant

cold diamond ring. Among the guests present were: Mr. Alexander Kenn and daughter

Mrs. Emma Marnock Mr. and Mrs. Forbes Craig Mrs. Porterfield

Mr. and Mrs. George Murray Mr. and Mrs. Tom Murray Mr. and Mrs. Thomas Johnston

Mr. and Mrs. Alex Falconer Mr. and Mrs. William Farquharson Mr. and Mrs. Milne of Winchester

Mr. and Mrs. Miles McGinnes Mr. and Mrs. Alex Emslie Mr. and Mrs. William Birnie

ATHLETIC NOTES.

The Winthrop High school will not have a football team this fall but already they are practicing basket ball. This is the one sport that the North shore lads indulge in evidently as there seem to be as many teams in to be appointed before the game that small place as there are Ander- starts. The children are to be taught sons to play on them.

From accounts in morning papers O'Flaherty, the South Boston boy trying for quarter on the Harvard Varsity is showing up in great style. Makaria will play their scheduled game with Atlantic next Saturday afternoon on the Water street grounds. Watch the Ledger for the first complete lineup of the game.

GAMES AND **EXERCISES**

the wedding twenty-five years ago New Departure in Physical West Quincy Shaken by Blast **Education Outlined**

The first course in physical education, for elementary schools, ever ssued in this country has been prepared by Dr. Thomas F. Harrington of the department of school hygiene of Boston and will be put in operation n the Boston schools this fall and eventually will be adopted by every chool department in the state.

"In introducing plays, games and rhythmic exercises into the course of physical education to a greater degree seems to be wise to present here ertain fundamentals with these activiies," says Dr. Harrington in prefacing

"Every game and competition should have its own purpose and method of eaching the result sought. It must e remembered that neither overstimuation or undue restraint is conducive o healthy growth. Hence, the necessity for a great variety of games, plays and movements. In all of these activities the first essential is atten-

"In carrying out this course of hysical education the close connecion between its lesson and those of physiology and hygiene taught in the grades cannot be too often or strongly mphasized. It is of the greatest imortance that we foster an enthusiasc play spirit in our children.

"We start with a simple game and tory plays in our first grades and gradually reach the complex games nd sports suitable to boys and girls f grade 8. From the simple play in he sand box and the imaginative plays f the primary grades we work up to he intricate and complex games which equire well-equipped playgrounds.'

Plays and games as are shown for the first three grades have been utilzed freely in an effort to obtain the est results from gymnastic exercises. A number of plays and games are selected for each lesson: Music whenever possible is to be used as an adquire about one week's instruction efore the class will be familiar with its details so as to go through the

entire play in one lesson. In the breathing exercises the children are to be encouraged to breathe freely, to assume a good position or carriage of the body at all times, sitting, standing, walking, running and in plays and games. Grace and ease are the objects to be sought. Windows are to be open in the schoolrooms at all the exercises and when-

ever the children go out for exercise in the air. In the upper grades where the games become more complex and where sides and teams play against one another, captains and coaches are to love play for its value of training

soul, mind and body. In sitting positions the child is to be seated at desks in accordance with its growth only. The child is to sit erect as in the proper military position. In the proper standing position the feet are to be on the same line, pointing forward, the heels slightly separated or slightly turned

out with the heels together The straight foot position is to be in sisted upon as it gives the greatest We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure
F. J. CHENEY & CO., Toledo, O.

J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm. as in all standing work the straight foot position is to be used. The body is to be erect on the hips, inclined a little forward; shoulders square. Rigidity is to be avoided.

In walking the straight leg gait is to be preferred. The children are to be urged to wear low flexible, sensible-shaped

shoes instead of the stiff box toe now ised. There are to be setting-up drills for use in the yards, classrooms and gymnasiums. From grade 4 to 8 there will beformal gymnastics with a series of

games and plays. In grade 8 there

will be gymnastic work, games, plays and rhythmic exercises. These rhythmic exercises are based on what is known as folk dancing, and they are so arranged to allow a change every month, so that the child in grade 8 who has gone through the touch step, change step and balance step in October, will in November be going through the point step outward, balance touch step and double change step, and by the month of May will have learned at least 22 different steps beneficial.

KILLED BY **FLYING ROCK**

That Kills Workman

People who live near the old Hitchcock quarry were considerably frightened and one man, Luigi Piedario, 52 years old of 31 Buckley street, was almost instantly killed by an extra heavy blast early Monday afternoon. The rocks flew in every direction and he residents close to the scene thought that there was an earthquake as their houses rocked to and fro and the rocks, some weighing many pounds, were hurled through the air. They ran in terror from the scene and made

or a place of safety. The man who was killed was a pavng outter and had his stand on the westerly side of the quarry. On the east side the men were blasting out a headway and having laid a blast, the customary signal, two whistles was given. In company with the rest Luigi sought a place of safety about 30 feet from his workstand.

Hardly had he reached the small cherry tree, beside which he stood, when there was a terrible crash. The air was filled with flying rocks, the earth trembled and everybody fled in terror.

Unfortunately Luigi, at his post by the tree was almost directly in the path of two boulders each weighing between 300 and 400 pounds. One flew by him to land 100 feet further on, but the other, striking the ground beside him, sprang into the air as a live thing, and crashing into the oomed man hurled him to the ground.

The rain of missles soon ceased and those who had witnessed the accident hurried to the side of the stricken man. Rev. Henry T. Grady pastor of the St. Mary's church and the Rev. William T. Duffey, his curate were passing along at the time and they also hurried to his side. Here, while the trembling crowd of

frightened men and women kneeled about them with bared and bowed administered the rites of the church and two minutes later the injured man expired. When Medical Examiner Jones made his examination he found that Pie-

the hips and that his skull had been fractured. The dead man is survived by a wife

and six children.

The most threatening of the definite mals in cities. This will be carried advices thus far received come from by the city enumerators and it will Pensacola, where the wind at dark cover horses, milch cows, chickens, had attained a velocity of sixty miles an hour and was apparently increasthe cities. No attempt will be made to ing. This fact, taken in connection with reports from the Mississippi coast stating that the gale there averaged about forty miles an hour, would indicate that the storm is heading northeast across Florida, Alabama and northward into Louisiana.

Reports of increasing gales toward Hatteras also seem to indicate that the hurricane is heading that way. Mobile reported the storm at nightfall had done no great damage, but later dispatches showed that it was blowing up again and that the waters of the bay were beginning to pile up along the water front at an alarming rate. Rail communication with New Orleans is entirely cut off.

GREAT ERA OF PROSPERITY

Europeans Anxious to Invest Money In American Railroad Securities

Washington, Sept. 21 .- "Hundreds of millions of dollars are in England, France and Germany awaiting investment in American railroad securities as soon as the investors can be assured of absolute federal regulation."

This statement was made by Commissioner Lane of the interstate commerce commission, who has just returned from a trip of nearly three months in Europe. He studied the railroad situation in England, France, Germany, Switzerland and Italy.

"Men of money abroad," continued Lane, "are satisfied that America is on the eve of a phenomenal era of prosperity an dare ready and anxious prosperity and are ready and anxious terprise in this country. With the enactment of a law to prevent overcapitalization, American railroads would have no difficulty in obtaining in Europe all the money necessary for their development."

SATURDAYS-8.30 A. M. to 12 M. CLARENCE BURGIN, Treasurer. 

(Continued from yesterday.)

"I guess you know what you mean by this," he said, tendering the weapon | whether your hip pockets are empty. as per instructions. "I'm doggoned if I've heard it's the habit of you gentry I do. You'll allow a certain latitude to pack guns in your clothes. None? in consideration of my relief. . I can't That's all right, then. Now roost on say we were anticipating this-ah- the transom over there in the corner, heaven sent visitation."

hand and settling his fore finger on stand?" the trigger, Kirkwood beamed with pure enjoyment. He found the defer- the indicated spot. Kirkwood turned ence of the older man, tempered to Calendar, of whose attitude, howthough it was by his indomitable ever, he had not been for an instant swagger, refreshing in the extreme.

"A little appreciation isn't exactly out of place, come to think of it," he commented, adding, with an eye for for keeping you waiting." Furniture Repairing, Keys Fitted, the captain, "Stryker, you bold, bad butterfly, have you got a gun concealed about your unclean person?" The captain shook visibly with con-

trition. "No, Mr. Kirkwood," he managed to reply in a voice singularly lacking in his wonted bluster. "Say 'sir!" " suggested Kirkwood.

Stryker eagerly. "Now, come round here and let's of offensive artillery. And, Stryker, he seemed to find the suspense unendon't be rash; don't do anything you'd durable.

be sorry for afterward." "No fear of that," mumbled the cap- a'you want of me?" tain, meekly shambling toward the table and, in his anxiety to give no cause endar. In the last few days you've ty his pockets on the way.

"Don't forget the 'sir,' Stryker. And, holding in. Get it right off your chest my life, and"and you'll feel better."

Kirkwood chuckled, in high conceit it had been more humane"with himself, watching Calendar out of the corner of his eye, but with his wry grimace. "But I'm hanged if I attention centered on the infinitely di- understand this high handed attitude verting spectacle afforded by Stryker, of yours!" he concluded heatedly. whose predaceous hands were trem- "Don't you?" Kirkwood's humor bebling violently as one by one they came less apparent, the smile sobering.

brought to light the articles of which he had despoiled his erstwhile victim. "Come, come, Stryker! Surely you can think of something witty. Surely

you haven't exhausted the possibilities of that almanac joke! Couldn't you ring another variation on the lunatic wheeze? Don't hesitate out of consideration for me, captain. I'm joke proof. Perhaps you've noticed."

Stryker turned upon him an expression at once ludicrous, piteous and hateful "That's all sir." he snarled. displaying his empty palms in token of his absolute tractability.

"Good enough. Now right about face -quick! Your back's prettier than your face, and, besides, I want to know Stryker, and don't move. Don't let Accepting the revolver with his left me hear a word from you. Under-

Submissively the captain retired to unmindful.

"Won't you sit down, Mr. Calendar?" he suggested pleasantly. "Forgive me For his own part, as the adventurer

dropped passively into his chair Kirkwood stepped over Mulready and advanced to the middle of the cabin, at the same time thrusting Calendar's revolver into his own coat pocket. The other, Mulready's, he nursed significantly with both hands, while he stood "No. Mr. Kirkwood, sir," amended temporarily quiet, surveying the fleshy face of the prime factor in the intrigue. A quaint, grim smile played about have a look at you. Please stay where the American's lips, a smile a little you are, Calendar. Why, captain, you contemptuous, more than a little inare shivering from head to foot! Not scrutable. In its light Calendar grew. ill are you, you wag? Step over to restive and lost something of his asthe table there, Stryker, and turn out surance. His feet shifted uneasily beyour pockets; turn 'em inside out and neath the table, and his dark eyes walet's see what you carry in the way vered, evading Kirkwood's. At length

Flies are the most dangerous insects we have. They are much more dangerous than bees or hornets; these may sting you, and the sting is painful, but you soon get over the pain. Flies do much more harm than this. They walk over filthy places like Hem-Rold's wonderful record is due sewers and garbage cans, and after in filth just as you live in a house. These germs are not only filthy and disgusting, but many of them cause such diseases as typhoid fewer, cholera infantum and summer complaint. When the flies bring them from some dirty place to your food or leave some of them when they crawl on your face or hands, you may swallow these germs without knowing it and be taken ill with one of these diseases. So the fly that seems so harmless may do

> Children may help to keep flies from swarming in and around houses, and from carrying germs of sickness from one person to another. In the first place, they should not buy candy, fruit or other food which is left in front of stores or anywhere else where flies may feed and walk on it. Flies lay their eggs chiefly in stable manure and if this is left without screens or other covers to keep the flies away, great numbers will be hatched in every stable. If you know of stores where food is not covered from flies, or of stables that have swarms of them around, write to the Board of Health and the Board should make the storekeepers or stablemen obey its rules.

you much more harm than a bee or

If you and all the people you know will follow this advice, there will not be so many flies and there will not be nearly so much sickness and death, especially among children, as now.

-The water department finds that there are only 552 vacant tenements in Brockton, or 4 per cent. of the total number. This is a better showing than some people had expected. The figures of the board show a population of over 52,000, not counting those who may live in hotels, business blocks and the like, and there is a considerable number of such people in Brockton. The population by the water board's canvass is not as high as that figured by the State board of health, who figure that Brockton has 55,000 and more. The number in hotels and lodging in blocks would make a very considerable addition to the water board's 52,000 .- Brockton Enterprise.

THE WEATHER

Local forecast for Quincy and vicinity:

Tuesday, fair with easterly winds. Wednesday continued fair weather is promised and somewhat warmer. The temperature at noon today was 65 degrees. A year ago 72 degrees.

NEW ADVERTISEMENTS TODAY.

QUINCY BOY DROWNED

Kenneth Smith of Willow street Was Seaman on Steamer Admiral Faragut at Jamaica

Benjamin Hartley or Hadley aged 19 years said to be a Quincy boy was drowned at Kingston, Jamaica, Sept. 14, by falling from the pier, while the steamer to which he was atached, was at that port.

The young man was a seamanadet on the Steamship Admiral Farragut and the first news of the acident was made public when that steamer arrived in port at Boston Monday. According to Capt. Jenson he boy was on his first trip having oined the vessel Sept. 8 when she ailed from Boston.

On the day of the accident Hartley nd a deck boy named L. Honoski went ashore at night in a small boat. When they started to return Hartley tumbled over a caplog of the pier and fell overboard. His companion ried to save him but was unsuccessful. An effort was made to recover the body which was also unuccessful.

When the young man joined the essel he said that he had a liking or the water. He soon became a eneral favorite on the vessel and his eath cast a gloom over all the crew. There seems to be few in Quincy who know anything about the boy There was a George Hartley that formerly lived on South street, Quincy Point, but the family moved to Dor chester some months ago.

TODAY'S CAUCUSES.

Only Contest is Over Selection of Republican County Delegates.

interest in the caucuses today, and the indications are that they will not be largely attended. The Democratic party has no contest of any kind. On the other hand all of their delegations are not complete, especially that of candidate for Representative in the Fifth district. This means that names written in on the ballot, if written correctly will give the nomination to ome person. It will then be up to him to accept or officially withdraw. Among the Socialists there are no

ontests of any kind or nature. On the Republican ticket the only ontest is over the delegates to be elected to the County convention. Even here the contest is confined to Wards One, Three, and Five.

In Ward One there are three lists of delegates for the voters to choose Neither list is pledged but that leaded by Andrew Johnson is supposed to be favorable to Dr. Bowker. Which of the other lists is favorable to Richardson is not known.

In Ward Three the list headed by Joseph H. Elcock is said to be favorable to Dr. Bowker and the second list favorable to Mr. Richardson.

In Ward Five the list headed by William M. Chase is said to be favorable to Dr. Bowker and the second list favorable to Mr. Richardson. In addition to the contest for County ommissioner it is currently reported that there is a still hunt going on in favor of the nomination of James

Don't get the news three or four days old in a round-a-bout way but read the Ledger. Get the Ledger reading habit every day and get all the news when it is news.

NO MORE GRAY HAIR.

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. made and used a "sage tea," and their dark, glossy hair long after middle life was due to this fact. Our mothers have gray hair before they are fifty, but they are beginning to appreciate the wisdom of our grandmothers in using "sage tea" for their hair, and are fast following suit. The present generation has the advantage of the past in that it can get a ready to use preparation called Wyeth's Sage and Sulphur. As a scalp tonic and color restorer, this preparation is vastly superior to the ordinary "sage tea" made by our grandmothers, and it can be bought for 50 cents and \$1 a bottle at almost any first-class drug store, or will be sent direct by the Wyeth Che ical Company, 74 Cortlandt St., New York City, upon receipt of price.

WOMAN SUICIDES.

Quincy Woman on Way to Finland Jumps Overboard.

It was learned in Quincy this week that Helma Irene Ericson of this city, wife of Felix A. Ericson of Quincy and discovery of the North Pole was twenty-four years old.

June 12, Mrs. Ericson was before the District Court and examined as to her sanity. As a result of the examnation it was found that she had a uicidal and homicidal mania and Judge Avery ordered her committed to

A week later her husband went to the state board of insanity and asked for permission to take her back to her old home as he thought she would be better off over there. He was granted the required permission and the middle of June he left for Finland in company with his wife, her mother

It was sometime while the ship was at sea that the demented woman committed suicide by jumping overboard from the deck of the steamer. The husband continued on to Finland with the mother and baby and as far as can be learned he is at present in that country.

Rep. WILLIAM R. THOMAS

Although there were Republican aucuses in three wards Tuesday but very light vote was cast all over the city. The returns came in promptly and at 11.30 the last ward had been neard from.

The one contest in the city was over the selection of delegates to the Republican county convention and as oted above this was confined to

The total vote cast was 953. Of his number the Republicans cast 798, the Democrats 145 and the Socialists

Dr. Bowker practically swept the city securing at least 14 out of the 19 delegates. Mr. Richardson is credited with one delegate in Ward Four and one in Ward Five.

COUNTY DELEGATES.

The following table shows the numer of delegates in each ward of the city supposed to be for Dr. Bowker and for Mr. Richardson.

Ward	Bowker	Richar
One	4	0
Two	2	0
Three	0	3
Four	1	1
Five	4	1
Six	3	0
	14	5

In Ward One there were three lists. favorable to Mr. Richardson and the third whose claim was that they represented good government. There was quite a hustle to get out the voters service. With all of this however the Republicans were only able to muster 220 votes, the Democrats 12 and the

Socialists 2. The Democrats had no candidate for Representative in the Fifth district but in Ward One two voters wrote the name of Michael T. Sullivan on the ballot and therefore, without evident solicitation becomes the candidate to carry the party banner. The vote of the three lists for coun-

y delegates was as follows:

BOWKER LIST.

Andrew Johnson 82 Eben W. Sheppard Joseph L. Whiton, Jr., George A. Sidelinger

Rep. LOUIS F. B. LANGELIER

-		
	RICHARDSON LIST.	
	Dexter E. Wadsworth	54
	- Charles C. Hearn	58
	Horace F. Spear	49

SOCIALISTS. State-Edgar Norton. Councillor-Edgar Norton. Senatorial-Edgar Norton. County-Edgar Norton.

WARD THREE.

The contest in Ward Three, the South Quincy ward, was a warm one. and as in Ward One it was over the

There were two lists on the Repubcan ticket one pledged to Richardon and the other unpledged but supposed to be for Bowker. Carriages in abundance were in use and every effort was made to get out the voters With all of this effort the ward polled but 236 votes. Of this number 218 were Republicans, 16 Democratic and 2 Socialists.

In the contest for County delegates ne Bowker list was snowed under early 2 to 1 by the Richardson sup-The vote for the two lists was as

SPLIT SWITCH DERAILS CAR

Braintree This Morning

There was a bad acident at South Braintree this morning when the rear car of the 9.03 train for Boston spilt a switch and jumped the track. There were three people in the car at the ime and they were all injured. One woman in the car ahead was also badshaken up. Those injured were: William Cheeseman of Randolph, who had his leg and arm broken and was severely injured about the body; Frank Pratt of South Braintree, the ticket collector on the car was also severely injured, badly shaken up, and nad numerous bruises about the body. There was another man who as near as could be ascertained was a brakeman on the car and he was cut about the face and hands as he jumped from the car. Mrs. W. D. Holmes of South Braintree was in the coach just forward of the wrecked car and being an old lady she suffered a severe shock and was hurt about the sace. Doctors Dearing, Sullivan and Brett were on the scene of the accident as

soon as possible after it occurred and

attended the wounded persons.

It was said that the cause of the accident was a split switch. The train which comes from Taunton prescriptions for glasses carefully stopped at South Braintree as usual o take on extra cars. Car number 235 was the only car attached and the train started for Boston. About an eighth of a mile from the South Braintree station, while the train was going 25 or 30 miles an hour, it passed over a switch. The front truck of the rear car, took the switch clean but the rear truck split the switch and in a noment the train was tearing on its way to Boston with the rear car running sideways on the two tracks and rocking to and fro. The engineer in the meantime knew nothing of the accident and the speed of the train remained unchanged while the three men in the rear car tried to keep their coming next. For 900 feet the train This fine estate will be sold at a No. 2,518 which was standing on the track next to that which the car was coming down. Engineer George Williams well known for his brave acts who was in the cab of this engine saw that the engineer of the other train did not know of the danger to his train and he blew four whistles for "down brakes" to warn him. Then he jumped with his fireman just as the derailed coach struck the engine. The shock threw the car over on its side where it lay a mangled mass with the rear trucks gone completely, the inside of the car laid open and the flooring, seats smashed into splinters, and piled together in the center of the car. The passengers were helped out of the wreckage and the doctors who had by this time arrived on the scene attended them and they were conveyed

away in automobiles. The switcher was badly damaged and had the engineer and firemen been a little tardy in getting out of the way they undoubtedly would have been killed. Engineer Williams who signalled for the other engineer to apply the brakes is the man who saved Mrs.

on the forts in Boston harbor.

It cost Boston \$20,000 more this season to oil its streets than by the old water method but it is thought to have been money well invested, saving wear and tear on vehicles and in keeping the city cleaner.

Some 80,0000 people have visited the old Cradle of Liberty in Boston the past year coming from all over the historic houses

Rev. Thomas W. Cook of St. Anconducting a series of afternoon meetings for men has announced that the men attending will be allowed to bring along their pipes and cigars and persuch doings?

Cities and towns in the Greater Boston district will applaud the Improvement association plans of urging all railroads to electrify and also a fivecent fare within the limits of the district. Quincy would appreciate both of the suggested improvements, also a five cent trolley fare to Boston.

The Harvard Dental building just avenue and Wiggleworth street, Boston, is said to be the finest building in the United States. A finer group of buildings than those of the Fenway would be hard to find the world over.

After hearing considerable about the endurance of the Japanese because of their simple diet of fish, vegetables, etc., it is a surprise to learn that the Japanese government is fostering the Tree and With "Everybody's" Pubconsumption of meat in the hopes of bettering the physique of its people It is hoped to increase the stature.

DISCOURAGED.

The results of the fighting against the browntail and gypsy moths in this section are not encouraging. Along the North Shore alone \$103,000 has been spent in two years in the warfare and still the pests are not destroved. There can be no let up in the contest, either. That would mean the destruction of the trees by the moths and that cannot be permitted .-Lowell Citizen.

TO TEACH MANNERS.

THE COMMON DRINKING CUP.

The Kansas state board of health has been sustained by the legal authority of the state in its ban against the common drinking cup at public fountains or on railroad trains. With all of the alarm over the activity of disease germs, it is surprising that this every-day agency of transmission has been so long neglected, says the Boston Herald, A few railroad managements have substituted the automatic purveyors of individual cups for the common cup at their car fountains, but Kansas is the leader in official, compulsory reform. Inventive genius ought to produce a cup at a minimum of expense, or, at a still lesser cost, produce a guard adjustable to the rim of any cup at a public fountain which would obviate much of the existing danger of germ transmission. In the intelligent warfare against the spread of disease the reform is bound to grow. -South Framingham News.

CITIES WHICH ADVERTISE.

Spokane maintains a publicity ureau that supplies the newspapers throughout the country with interesting items ,thus keeping the name of the city constantly in the public mind. Colorado Springs and San Antonio also have publicity bureaus that work along similar lines. Denver relies for its advertising almost entirely on the bringing of conventions to the city. So does Seattle, the idea being that strangers will carry back with them favorable impressions and some of them will either return as permanent esidents or influence friends who may contemplate a change of residence. Houston has set itself to the task of boosters' club and advertisements in various newspapers and magazines. From Buffalo comes the news that the country. A goodly number have found business men of that city purpose to their way to Quincy and enjoyed its spend \$500,00 in the next five years to put before the people of the United States the advantages of the Lake City. It is also proposed to create a drews church, Dayton, Ohio, who is publicity and industrial bureau which shall have charge of spending \$100 .-000 a year and shall also interest itself in bringing conventions to Buffalo. Not to be outdone by Buffalo, mitted to smoke. What would the Rochester has taken up this question puritars of olden times thought of of advertising, and one of the latest cities to adopt the idea is Springfield, Mass. Kansas city is said to be the pioneer in this municipal advertising .- Springfield Union

BEST SOUADRON IN WORLD TODAY

Nation's Naval Representatives at Hudson-Fulton Celebration

TWO MILES OF SEA FIGHTERS

Will Shortly Be Augmented by Fleets From England, Germany and Italy -Even Churches In New York Have Broken Out In Celebration Colors-Many Distinguished Representatives of Foreign Nations

New York, Sept. 22 .- A two-mile line of steel girted American warships, the largest and finest squadron of naval giants gathered anywhere in the world today, dropped anchor just outside New York harbor shortly after sunset last evening. With the flagship Connecticut in the lead the men o'war steamed through the Ambrose channel and the Narrows this morning to the thundering applause of the great forts, as the official representatives of the nation at the Hudson-Fulton celebration.

Behind the Connecticut were the other battleships of the Atlantic fleet, the Kansas, Minnesota, New Hampshire, Mississippi, Idaho, Georgia, New Jersey, Nebraska, Rhode Island, Wisconsin, Ohio, Missouri and Vermont. Bringing up the rear of the line were the cruisers North adding many thousands to its popula- | Carolina, New York, Birmingham and tion through the medium of a Salem, the auxiliary Panther, the gunboat Yankee and a few similar boats. Later in the week these will be joined by the torpedo flotilla, now on their way up the coast, and by the battleship Louisiana, the armored cruiser Montana and the auxiliary Dixie, all of which were delayed at Hampton Roads.

> Inside the harbor they joined the vanguard of foreign ships already gathered here as the nucleus of the mighty armada which will lie at anchor up the Hudson while the great naval parade passes in review next Saturday.

To augment the assemblage of fight ing craft, there should arrive some time today the British fleet, led by the armored cruiser Inflexible, flying the flag of Sir Edward H. Seymour, and including the armored cruisers Drake, Duke of Edinburgh and Argyle. The German and Italian warships are expected today.

Broadway, Fifth avenue and all the squares and streets, are blossoming into brilliant color schemes of Hudson-Fulton hue. Most of the big office buildings, public structures and even churches have broken out in the celebration colors.

Among the city's more notable official visitors are Secretary of the Navy Meyer, who is to assume formal nand of the American fleet dur-Holland, Prince Kuni of Japan, Dr. Paul Rutter, the Swiss representative; Count Moltke, the Danish delegate: and Baron Ambrezy of the Austrian

Grand Admiral Baron Von Koester, who arrived today on steamship Blucher, comes as the personal representative of the kaiser and the German people, but will not take command of the German naval vessels. Von Koester was met down the harbor early this morning by the official committee of welcome. They escorted him on board a tug to New York city, where a company of naval militia and a platoon of police were lined up to escort him to the Hotel

BY MEANS OF THREATS

Two Men Charged With Having Plotted to Extort \$160,000

Chicago, Sept. 22.—George Hazelton, Jr., an attorney, and L. S. Kemper, an actor, both of New York, were arrested here on complaint of Mr. and Mrs. James H. Channon, who declare the men have plotted to extort \$160,000 from them.

Threats to make public charges that Channon, while guardian of the estate of Mabel Arey, a relative by marriage, had been guilty of irregularities, are the means the defendants are declared to have employed to obtain money from the Channons.

Latham's Flying Machine Damaged Berlin, Sept. 22.-A flight made here by Hubert Latham, the French aviator, ended in an accident. Something went wrong with his left plane ing wheels were damaged, but Latham was not hurt.

Women Struck by Train Suncook, N. H., Sept. 22.-Mrs. Mary Laliberte, aged 28, was killed, and her mother, Mrs. Dolphis Vadeboncoeur, aged 67, was probably

fatally injured when they were struck by an express train while crossing Internal Revenue Receipts

Washington, Sept. 22.—There was an aggregate increase of \$1,190,037 in internal revenue receipts for last month, as compared with the corresponding period of 1908. The August, 1909, receipts aggregated \$20,-284,735.

BEARS HONORS WITH DIGNITY

No Display of Enthusiasm on the Part of Cook

GETS A NEIGHBORLY WELCOME

No Official Significance to Demonstration-Says He Returns With a Clear Record of His Discovery of Pole and Is Willing to Abide by Final Verdict of Competent Judges-Peary Reaches Sydney and Announces That He Will Accept No Public Honors Until Controversy Is Settled-Vandalism of Relic Hunters on Board the Roosevelt

New York, Sept. 22 .- "I have come from the Pole. I have brought my story and my data with me. I have not come home to enter into arguments with one man or with fifty men, but I am here to present a clear record of a piece of work over which I have a right to display a certain amount of pride.

"I am perfectly willing to abide by the final verdict on this record of competent judges. That must be the last word and that alone can satisfy me and the public.

"Furthermore, not only will my report be before you in black and white, but I will also bring to America human witnesses to prove that I have een to the Pole." Such is the sum and substance of

the first message Dr. Frederick A. Cook brought home in person to America, answering his critics the

Throughout a long and uneasy night a flotilla of tugboats, outposts of a continental curiosity, had tossed in the darkness for the first glimpse of the Oscar II bearing the man from whom a nation waited word. At 5 o'clock in the morning the explorer was on deck.

There was an anxious wait at quarantine while the tugs bobbed nervously about, the newspaper men on board them shouting broken queries through megaphones at the black sides of the Oscar II, high above them. Dr. Cook lowered a signed statement in a pail to the press and resumed his tense walk up and down inside the landward rail.

Greets His Family

A speck in the distance began to assume dimensions. Presently it was recognizable as the tug bearing Mrs. Cook and her two daughters. Quickly the tug came alongside and Cook clambered nimbly down a Jacob's ladder and made a rush for his wife. For the moment he even missed the children, who stood a few feet away, until his wife silently led him to them. Then, as he lifted his youngest daughter to his shoulder, the silent, watching crowd that lined the rails of the Oscar II broke into a storm of can come to Eagle island at the time

It had been arranged that the exrying Cook's friends and clubmates from Brooklyn and New York and John R. Bradley, his backer, should keep far enough in the background to give him a few moments of first privacy with his family. But soon there followed a second transfer from the tug to the Grand Republic. As Cook set foot aboard, Miss Ida Lehman threw a wreath of roses about M his neck, greeted him as a hero and proclaimed him a "gentleman of Bushwick." Bushwick is the name of Cook's home section of Brooklyn.

Brown, positive, patient, taciturn, he endures the business of being a hero with courtesy, but no enthusiasm. As he stood beside Bradley the contrast was apparent. Prepares For Ordeal

On shore the really formidable part

of the day for Cook still awaited him.

After the first rush of welcome aboard the Grand Republic, he had been able to find comparative seclusion in the pilot house. From that vantage point he could see the streets of Brooklyn, black with thousands of persons and long files of automobiles, and he knew that a reception had been planned for him at the Bushwick club and that an ordeal awaited him. As he stepped ashore it was noticeable that no representative of the nation, the state or the city was there to greet

him. Bird S. Coler, president of the borough of Brooklyn, had welcomed him on the Grand Republic for that borough, but the city of New York sent no official representative. But sincere and enthusiastic to the point of tumultuousness, his welcome may be best described as a neighborly affair, devoid of official significance. Seems Almost Like Riot Brooklyn's reception to Cook had all

the elements of a riot except violence. From the moment the Grand Republic tied up at her landing and until the explorer left the Bushwick club for the Waldorf-Astoria, in New once got out of control. Along the five miles of avenues through which return. the explorer passed, the mounted police were continually fighting a way for Cook's automobile, when they the reception given him and his crew were not stemming the massed thousands who seemed to have only one he was very much gratified and surobject-to break loose and embrace prised at the number of people pres-Cook.

It was as if everybody in Brooklyn had turned out to greet Cook. It was just at the noon hour and thousands of schoolchildren lined the streets, shouting one word in chorus-Cook!

Trolley traffic was paralyzed, bustness was entirely suspended; there was only one person of importance in Brooklyn in that hour-Dr. Cook.

The crowds about the Bushwick club did not dwindle last night, though it was fully understood that there would be no further chance to meet Cook, who was dining with forty-two picked friends. All the throng asked, however, was a chance to see him when he left the clubhouse for the Waldorf. where he slept last night, and they were perfectly willing to wait.

Moved to Tears This loyalty without and enthusiasm within the club from the friends and fellow citizens among whom Cook has lived so moved him that when he rose to thank his hosts, after a Brooklyn singing society had given the noble old German hymn, "This Is God's Day," tears stood in his eyes. He has never been described as an emotional man, but no one who saw him last night could doubt that he was deeply moved.

"You have shown me," he said, that it is good to go to the North Pole. In returning, the cheers of other peoples have been a delight, but there is no human ectacy to compare with the heartfelt tribute of my own people. I cannot adequately express it, but it dispels in one instant all the discomforts of the Arctic quest.'

To the waiting throngs outside, the doctor shouted from a window: "I thank you for the honor of this cor-

dial and musical welcome. At 9:30 he took an automobile for the Waldorf, and, cheered by the crowd, slowly ploughed his way to the Brooklyn bridge.

PEARY REACHES SYDNEY

May Not Go to New York Until Cook Submits Data and Records

Sydney, N. S., Sept. 22.-Commander Robert E. Peary will accept no invitations to receptions and no public honors until the question of the discovery of the North Pole has been decided by scientific authorities. This he made known in the following statement which he gave out for pubication: "Acting upon the advice of General

Thomas K. Hubbard and Herbert L. Bridgman, president and secretary, espectively, of the Peary Arctic club, wish to express my thanks to friends for their kind offers and invitations and also beg to say that I have deeided not accept any invitations to receptions, or any ovations, until the present controversy is settled by competent authority.

The explorer left Sydney at 7 clock this morning and will reach his home on Eagle island, Me., Friday morning. Apparently he has made up his mind to remain at that place for some time, for in speaking of his plans he said:

"If the newspaper desire it I will arrange an hour each day to meet them at South Harpswell, three miles from Eagle island and fifteen miles from Portland, or they appointed.

"I do not know when I will go to cursion steamer Grand Republic car- New York," replied Peary, when a direct question was put to him. "I intend to make my report to the Peary Arctic club and will work on it at Eagle island '

The explorer stated that he had no definite plan with regard to a visit to New York, and it is believed by his friends that he will remain for some weeks at Eagle island. It is asserted in some quarters that Peary will remain there until Cook has submitted his data and records of his Polar

Prior to reaching the determination not to appear at public receptions, Peary had promised to attend a reception between trains at Bangor and this he will do. He will stay in Portland Thursday night.

The reception of Peary began when the Roosevelt edged her way past Low Point, eleven miles down the bay, and continued all the way to the harbor and until Peary reached the Sydney hotel, where he made a short speech and found himself the center of a great demonstration in which hundreds of people pressed about him and shook his hand. "Eleven times I have left Sydney

for the north," said Peary. "Once I brought back the largest meteor ever found; the last time I brought back my farthest north and this time I have brought back the North Pole.

While the Roosevelt lay at the city wharf Tuesday afternoon an eager throng of sightseers visited the ship and went through her from stem to stern. Souvenir hunters carried away everything portable, and many valuable records and data belonging to Professor McMillan were lost. These were records of tides and animal life north of 82 degrees latitude, the names of all the Eskimos in the Etah region, together with more than a hundred books in which many important marginal notes had been made. No records bearing on the dash to the Pole were lost. The missing York, the surging crowds taxed the books are of immense value and cancapacity of the police and more than not be replaced, but the authorities are issuing a public appeal for their

He had also the d Neponset wood stepped backward to the door start, the knowledge of their criminal of the captain's room, opened it and guilt and intent and his own plans to removed the key from the inside.
"Please take Mulready in with you," he continued. "By the time you get out I'll be clear of Antwerp. Please don't think of refusing me. I really mean it."

The latter clause came sharply as Calendar seemed to hesitate, his weary wary eves glimmering with to return to the Quay Steen landing to comfort him. As for the latter, he did not believe that Calendar would immediately fathom them, so he took heart of grace and tugged at the oars with a will, pulling directly for the city and permitting the current to drift him downstream at its pleasure. There could be no more inexcusable folly than to return to the Quay Steen landing to comfort him. As for the latter, he East Milton)—6.15, 6.45, 7.15, 8.00, 8.15, 8.55, 9.15, 10.15, 11.15 A. > THOMAS GAMMON. Division Superintendent.

OUR HOSPITAL (Legal Title: City Hospital of Quincy)

Incorporated 1889 The Trustees of the City Hospital of Quincy earnestly appeal for donations and bequests for the Endowment fund. This now amounts to over \$60,000 but a fund of at least \$100,000 is urgently

Five Thousand Dollars (\$5,000) will endow a Free Bed to which such name may be given as the Donor may desire, but any sum for this noble institution which stands ready to serve us all in the hour of need, will be most grate-

The Treasurer will be very glad to confer with any one or to answer any

THE

YOUNG MEN'S CHRISTIAN ASSOCI-ATION OF QUINCY, MASS.

(Legal Title-Incorporated 1892.) The Directors of the Young Men's Christian Association of Quincy, with a firm faith in the great value of tha work which is being done for the young men and boys of our city, make their appeal for donations and quests toward paying the mortgage indebtedness on the new Association Building. When the building is free from debt it will serve as an endowment, as there is a goodly income from the dormitories.

Should the Donor prefer, such sum as might be given could be used as an Endowment for an educational class or classes, the Boys' Department, or as a special fund in other ways, and could e designated with the name of the Donor.

The Treasurer, WILLIAM F. CUM-MINGS, 7 Clive Street, Quincy, or the General Secretary, ERNEST G. GAY, will be happy to answer inquiries.

fully received. inquiries.

Mills, "Our Papers"; Mrs. Mary Black, press; Mrs. Samuel Barker, flower mission; Mrs. Robert Smith, health and heredity; Mrs. Herbert Pinkham, soldiers and sailors; Mrs. George E. Thomas, Evangelistic; Mrs. Wesley Wiggin, Loyal Temperance legion; Mrs. James Perry, Mrs. Thos. Armstrong.

The day you fail to read the good clean home news every day.

FOUND GUILTY.

talian who Made Murderous Assault on P. H. Sullivan, Found Guilty.

In the Superior court at Dedham Tuesday a verdict of guilty was returned by the jury in the case of Luigi Marinio, for assault with dangerous weapon of Philip H. Sullivan at West Quincy June 14. The jury however found him guilty of assault with intent to murder.

The assault took place at 36 West street about 10 o'clock Sunday night June 13. Sullivan was held up by a crowd of Italians, who were evidently waiting for him or someone else, and when he came along he was surrounded on all sides and stabbed in the

While he was fighting off his assailants as best he could, his brother James J. Sullivan, came along and seeing the mix-up that Philip was in, went to his assistance. One of the gang pulled a revolver on "Jimmy" and told him to get out. Jimmy then made tracks for a policeman and getting Officer Curtin, led him to the scene of the trouble.

In the meantime Philip was left to the mercy of the Italians, one o whom pulled a knife and stabbed him in the back. The Italians then made a quick get-away, leaving the wounded victim in the street, where he was found by his brother and Officer Cur-

Later in the evening three Italians vere arrested. They gave their names as Cesidio Marinio, 22 years old, and Luigi Marinio, 48 years old, brothers iving at 70 West street and Danota Rosso, 21 years old living at 11 West

When the case was heard in the district court Marinio was held for the grand jury. The other two defendants were discharged.

COPELAND CLUB.

The annual meeting of the Cope and these officers elected: President-Harry T. Boyd.

Vice President-Andrew J. Dinne

Financial Sec.—George Hebert. Recording Sec .- W. J. Shea. Treasurer,-L. D. McLeod.

The report of the president and ther officers for the year just closed showed the club to be in a very prosperous condition, both financially as of Franklin street are rejoicing over well as in membership. Before the meeting adjourned a rising vote of thanks was extended to Edward Desnond and Bernard Reiley the retiring Miss Hattie M. Smith, president of President and Secretary for their New Hampshire Rebekah Assembly, faithful and efficient services during

CAUCUS RETURNS.

The first official returns from th caucuses arrived at City Hall at 10.10 and came from Ward 2. The other wards came along fairly well and all had been received at 11.35. The time of the executive committee of the of arrival at City Hall of the official returns was as follows:--

Ward 1-11.35. Ward 2-10.10. Ward 3-11.20. Ward 4-10.27.

Ward 5-11.17.

Ward 6-10.28.

SAGE FOR DARKENING THE HAIR,

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to effect. Nowadays we don't have to of gathering the herbs and making the brew. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product. Wyeth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by all first-class druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt

BASE BALL.

The manager of the Atlantic team when interviewed Tuesday evening in regard to the challenge issued by the Copeland Club of West Quincy, that as he was sitting in the section of the hev play the winner of the Makaria-Atlantic game for the championship and the flying pieces of seats struck of Quincy, said that he was willing to him, and pinned him to the floor so play them if the Atlantics won and at that those who rushed to the wrecked my time. Manager Howard of the car extricated him with difficulty. Makaria team had nothing to say on he subject.

It seems a little persumptious on the part of the Copeland club to think that they are in a position to play the winner of this game on the strength of one game. For according to news paper accounts that is what they are pasing their claim on, that is the Saturday.

Quincy Team, has as much right to play the winners as they have, for his team has played some good games this year. Why not fight it out with the Independants next Saturday afternoon and if they can beat them, the Copeland club will be a little nearer the class of Atlantic-Makaria. The Ledger has no personal interest in the winner of the championship but i lislikes to see every team that has won a game during the season coming around at the last end of the season nd laying claim to a championship.

The battery Saturday for the Makaria-Atlantic game will be-For At-Victor Curtis Hopkins and Edith Frances lantic, Driscoll and Fitzgerald. For Makaria, Michael and Troupe. The umpire will be an uninterested one and a man who has had good experience in handling the indicator, Travers of East Milton.

> The line-up of the two teams will appear in Friday afternoon's edition of the Ledger. Get the Ledger for the official and complete line-up.

EXPERT SWORDSMEN IN DESPERATE DUEL

Cuban Editor Puts Major General Out of Business

Havana, Sept. 22.-A desperate duel with cavalry sabres was fought in the parlor of a private residence in Havana between Major General Del Castillo, a former congressman, and Wilfredo Fernandez, editor of El Commercio. After several minutes of fencing Del Castillo was seriously wounded in the sword arm and was unable to continue fighting.

The duel was the outcome of a sarcastic reference in El Commercio to the general, who thereupon sent a challenge to Fernandez. Both men are skilled swordsmen and the duel is to open branch offices and employ sub-agents. fought in Havana in many years.

JOHNSON

HAMILTON

Big Surprise at Wedding of Quincy Man at Allston

Carl J. Johnson head clerk at the market of R. E. Foy at South Quincy became a benedict Wednesday evening when Miss Shira Hamilton one of Allston's popular young ladies became

The ceremony took place at the Allwas attended by many of the groom's Quincy friends.

vedding were treated to a surprise for mmediately following the marriage of Miss Hamilton and Mr. Johnson, one of the bride's attendants Miss Vincent tepped forward and meeting Ernest Colpitts of Dorchester in the aisle, was married to him on the spot. Rev. Frank G. Potter, pastor of the church, officiated at the double ceremony.

The marriage of Miss Vincent, who ended, was planned as a surprise at league, presented Mr. Williams with an the last moment. A few intimate Epworth League pin in behalf of the riends has been let into the secret, including Rev. Mr. Potter, but many said in part: among the wedding guests were treatd to a genuine surprise when the demure bridesmaid indicated that she had certain other reasons for being present in the bridal party.

Miss Vincent was engaged to be married to Mr. Colpitts, but their friends thought that the date would not be set until some time later. The young couple talked matters over a few days ago and concluded that there was nothing to hinder their being married with the other couple. It was decided to surprise their friends and the surprise worked amazingly well. The happy young schemers had no time in which to select the best man and bridesmaids so they decided to

dispense with these. ended his brother and Miss Eva gift. May you ever bear in mind that Hamilton a sister of the first bride, for which this pin stands and may it third and deciding one. attended her as bridesmaid with Miss recall to your mind the pleasant Vincent the second bride.

The ushers were Howard Sherman gether. of Allston and Emil Jacobsen of

Following the double ceremony Mr. had the happy and unlooked-for op- going into a larger field of activity this one game. portunity of congratulating two.

Mr. and Mrs. Johnson will live in Quincy and Mr. and Mrs. Colpitts in joyed playing games. A duet was game. Dorchester. Both left later in the sung by Miss Margaret Shirley and evening on their honeymoons.

During the reception that followed Grant sang a solo, the others joining the double ceremony Mr. Johnson the in the chorus. groom received a congratulatory telegram from his brother Fred who is in Eureka, Utah. They also received of prayer for the success of Mr. Wilmany handsome and costly gifts.

LILACS IN BLOOM.

Probably one of the most surprised persons in Quincy was Mrs. W. H. Dennis of Washington street one day this week when on going into her garden she looked up to find her lilac bush in bloom. On the top of the bush there were nearly a dozen blossoms and "grandmother Dennis," as she is known to all the people in the neighborhood, picked them and brought them into the house where they will stay, for all those curious to see, until they are withered. What is bothering "Granny," is whether they blossomed too late or too early.

EXAMINATIONS.

Examinations for Inspectors, Civil Engineers, Foremen and Park Police.

The Civil Service Commissioners announce a number of examinations to be held in the near future for state positions. The first is to be held Oct. 25, for inspectors of steam boilers. Feb. 7, an examination for Civil En gineers will be held. Other examinations are Feb. 15, Metropolitan park police; March 21, foremen of laborers and inspectors of work; March 22, sub-foremen of laborers and March 28. prison watchmen.

Only citizens of the United States who have been residents of Massachusetts for the past year have a right to apply. Blank applications for the Commonwealth service can be obtained of the Civil Service Commission at the State House.

The day you fail to read the Ledger will surely be the day that it will contain just that piece of news 1495 Hancock Street, Quincy. Tel. Con you wanted to know about. Full good clean home news every day. you wanted to know about. Full of

New Hampshire business men will favor parcel post if they continue to rub up against the express monoply

Brockton's police crusade has struck the liquor expresses hard. Inspectors have been watching the freight and results and the work is to continue.

Something not booked as a feature of the Brockton Fair will be the large attendance of Boston Suffragettes. These ladies have been attending all the country fairs this fall and promise a big surprise for the shoe city.

Base ball umpires don't seem to be the most popular men in the world as was illustrated in Pennsylvania the other day when an umpire was chased up a tree and kept there for several hours while the game proceeded.

Keeping a poor farm evidently appeals to some people, the Dedham Overseers of the Poor receiving sixty seven applications for the position in that town. One applicant was as far away as Cape Breton.

That Boston boy who was flying set of kites at Worcester last week must have had the surprise of his life when he was lifted bodily from the ground some fifteen feet and carried a 100 yards or more before he let go. He came through the experience without injury.

After eating the bindings off the books in the department library at Washington the waterbugs have turned their attention to the stamp supply and have found the mucilage on the back of the stamps quite t their taste. Don't lick your stamps.

WHY NOT SEALED BIDS?

If Dr. Cook is determined to wait for Commander Peary and Peary insists on waiting for Cook, the polar discussion will never be ended. For the relief of the public mind, and as a guarantee of fair play to all competitors, why not call off this Alphonse-Gaston disputation and submit sealed bids for discovery honors, to be opened and the prize awarded by competent and unprejudiced authorities?-Boston Herald.

IDEAL AGE FOR MARRIAGE.

A girl in her "teens doesn't know her own mind, and cannot know the heart of the man she marries at that age." Such is the sage contribution of the dowager countess of Cardigan to a discussion now in progress in London as to the ideal age for marriage. The text of the discussion was the dictum of a western girl, who broke her engagement on the ground that "no woman should marry before she is 25." Certainly no woman and no man should marry before arriving at physical maturity. This is reached at different ages by different individuals. As a rule it is a grave error for people in northern climates to marry before they are of legal age .- South Framingham News.

SEVERE EARTHQUAKES.

There seems to be no doubt that the recent earthquakes in Mexico were among the worst ever known there. The practical destruction of Acapulco and Chilpancingo places the calamity in much the same class as that which wrought such awful destruction in Italy last December. The only thing that prevented what would have been almost a repetition of the Messina disaster is the fact that the Mexican towns were smaller, and possibly less substantially built. Hundreds of persons in Messina fell victims to the crumbling of the solid houses shaken down by the earth tremors .- Framingham News.

FRENCH SUBMARINE.

That France regards safe submarine navigation an accomplished fact seems evident in the launching at Cherbourg of the largest submarine in the world -a craft 229 feet 8 inches long, equipped with oil engines and driving twin screws. This large submarine boat is expected to have a speed of 15 knots an hour on the surface and ten knots when she is submerged, and ! to have a radius action of 2,500 miles. Submarines of this kind will be of immense value for coast defense, and M. France's venture will doubtless signalize enlargement of the submarines in all the navies of the world.-Framingham News.

ARTISTIC MONEY.

"Money is money, not works of art," says an exchange, and the statement is true, whatever may be said of the grammar. Still, there is no good reason why a coin or a bank note should not be artistically correct and eautiful. Any coin, even the smalest, should be designed; first, with reference to its practical use; but, second, and a close second, too, with the dea of making it a thing of beauty There is no incompatibility between the two, and no good reason why the two should not be united. In such union is a sign of advancing civilizaion.-New Bedford Standard.

ADVERTISING OF TODAY.

Advertising as a whole is on

pretty high level of literary excellence. Certainly it has been lifted any degrees during the last ten rears, due, one may fancy, to a better inderstanding of the purposes and ossibilities of advertising. Advertisenents are no longer raucous calls to he mob from competitive street conerns, but, rather, arguments for comnodities. Advertising is made to stimulate desire and to guide buyers, and it is an economy both to buyers reason and imagination. Advertisers express offices and the raids show great have come to learn that sales are made n the columns of newspapers and o convince.-Columbia State.

IMPORTANCE OF FORESTRY.

"More thorough knowledge of actual last year in the year book of the deartment of Agriculture.

"Enough is now known to make im perative a complete change in the last time methods of forest use, and the ways in which this change may best be brought about are discussed with equal interest by the specialist and the man in the street. National welfare, as well as individual comfort, is seen to be dependent upon forest conservation. To this better knowledge and surer insight is mainly due the progress which forestry has made in the past year. Unprecendented forest fires served a similar purpose, so that the lesson which they taught, in spite of its terrific cost, will probably pay for itself. With a unanimity never before parallelled the people of the country are demanding that a stop be put to forest waste and destruction.

"The more striking lines of advancenent in forestry in 1908 were the fol-

"Through appropriate educational channels, public interest in forest Bonds Will Be Still More Closely problems was secured more directly and effectively than ever before. Especially valuable was the work begun in the schools, from the primary last night in honor of Prince and grades to the colleges. The press Princess Kuni of Japan, who are visaided materially in making clear the iting this city for the Hudson-Fulton need and purpose of forest conserva-

"The management of the national forests was more scientific, and at the same time more satisfactory from a for the United States army, "not only business point of view and more useful to the public, than ever before.

"The states displayed a keener in terest and a livelier activity in forest matters, and state legislatures either passed or considered bills in which advanced provisions were made for forest protection from fire and unjust taxation and for regulating the use of private forest property in the interest of the public welfare.

"A partial census taken among private forest owners furnished proof that the practice of private forestry is extending more rapidly than was supposed, particularly among those who in their businesses are themselves users of forest products.'

The public schools throughout the city closed yesterday afternoon and hundreds of pupils viewed the body of Johnson. All schools of the state are closed today. In several St. Paul schools memorial services are being

Throughout the state there will be a cessation of business and manufacturing from 3 to 3:05 o'clock this af ternoon. Every wheel will cease turning and cars will stop. The bells of all churches and public and private institutions will toll from 9:45 to 10 a. m., and from 3 to 3:05 p. m.

JAPAN IS OUR FRIEND

United by Growing Commerce New York, Sept. 23.-The Japan society of New York gave a dinner celebration. Prince Kuni is the official representative of his cousin, the emperor of Japan.

General Wood welcomed the prince as the representative of a monarch who is always friendly inclined toward us, but also as the representative of a great and friendly country.

"Only a man who has been in the Orient," continued Wood, "can fully realize how closely the United States and Japan have been brought together. The shores of that great country are visible from the shores of the Philippine islands, and a growing commerce will bring the two nations together still closer."

FAR BEYOND REQUIREMENTS

Torpedo Boat Destroyer Smith Makes Thirty-Two Knots an Hour

Lewes, Del., Sept. 23 .- The United States torpedo boat destroyer Smith made the remarkable speed of 32 knots an hour, four knots more than required by the contract, during her standardization run on the standard mile off the Delaware Breakwater.

The Smith carried nearly fifty tons run, the additional weight having been placed on board for the four hours' run which will take place later.

Railroad Sued For \$1,778,746 Baltimore, Sept. 23.—Suit was instituted today on behalf of the state of Maryland for \$1,778,746 against K Day except Saturday, 8.30 A. M. to 3 P. the Baltimore and Ohio railroad for the recovery of the amount claimed by the state for taxes on the gross receipts of the railroad in excess of the taxes paid on its gross receipts in Maryland from 1896 to Dec. 28, 1908.

HARVARD SCHOLARSHIPS:

The Harvard Club of Boston has esablished five scholarships of \$200 each ualified graduates of public High and Latin schools (including the Roxbury Latin School,) within a radius of twenty miles from the State House in Boston, during their first year in Harvard College as candidates for the degree of A.B. or S.B.

In awarding the scholarships, the ommittee will take into consideration the scholarly attainments of the applicants as shown by their school records and also their character, qualities of leadership, and well-rounded development. These scholarships will be first available for the academic year 1910-1, and all young men intending to be andidates should make application on blanks provided for the purpose not ater than May 1, 1910. The blank form of application, and any other information in regard to the scholarships, may be obtained either from the Secretary of the Faculty of Arts and Sciences, 20 University Hall, Cambridge, or from the office of The Harvard Alumni Association, 50 State Street, Boston.

In addition to the Harvard Club cholarships, students from the above mentioned group of schools are eligible to awards from the Price- Greenleaf Fund, the income from which, about \$16,000 annually, is given to first-year students in Harvard College who are candidates for the degree of A.B. About one hundred deserving students are assisted each year from this fund; and since a majority of the regular scholarships are not awarded until after one year's residence at the The building was closed between 6 University, it gives timely aid to men who are able to qualify during their Freshman year for other scholarships, of which there are about two hundred, yielding nearly \$40,000 each year.

COOK'S MEMORY NOT AT FAULT

Explorer Faces Battery of Forty Newspaper Representatives

ANSWERS SEVERE QUESTIONS Pole?

Controversy With Peary the Only Subject Which He Refuses to Discuss-Freely Shows His Notebook, Which Contains More Than a Hundred Thousand Words-Prefers to Let Whitney Tell What Occurred When They Met, Because New Haven Man Is Unbiased-Will Not at This Time Describe Any Single Observation Taken at North Pole New York, Sept. 23 .- Dr. Fred-

erick A. Cook, seeking rest and seclusion with his family after the bois-Remember the name-Doan's-and terous welcome of Tuesday, denied himself to interviewers and remained in his suite at the Waldorf-Astoria until late last evening, when he submitted cheerfully to one of the severest cross-examinations since he announced his discovery of the North Pole. The ordeal of the interview, which was conducted by forty newspaper representatives, proved at least that he was not afraid to meet the public.

Incidentally the city of New York officially recognized his achievement them. when the board of aldermen adopted a resolution commemorating his discovery and providing for a public welcome at the city hall.

The material points of Cook's answers did not differ i na great degree from his original recital. Some slight details were cleared up, however, which threw light on the way in which the Polar dash was effected. As the questions asked were put by laymen they did not go deeply into the scientific aspect of the expedition. But Cook was ready to answer anything

Shows His Diary

pertinent to the issue.

The most interesting phase of the interview was reached when Cook was asked if he would object to showing his diary. He immediately consented and, after retiring to his room, returned with a small octavo notebook, which he showed freely to all. It was a thin book containing 176 pages, each of which was filled with fifty or sixty lines of pencilled writing in the most minute characters. The book, he said, contained considerably more than 100,000 words, while he has besides other books embracing his observations and other data. He did not show them, however.

As question after question was asked, whether it was of a trivial nature or of a more serious trend, Cook answered in a low voice without hesitancy, as though in full possession of all his facts.

The interviewers were rather severe in regard to detail, but nothing indicated that the Polar traveler's memory was at fault even in the most minute particulars.

Not once did he refuse to reply except when the name of Commander Peary was broached. Even then he said that he had always and even now considered Peary his friend, but controversial subjects in connection with his rival he avoided entirely, saying that they could wait. Throughout the interview he exhibited the utmost pa-

tience. Wants Whitney to Tell Story When requested to say what occurred at his meeting with Harry Whitney, the New Haven sportsman he said he preferred to let Whitney tell his own story because Whitney was quite unbiased. His reasons in imposing secrecy on Whitney, on Pritchard, Peary's cabin boy, and the Eskimos were prompted by his desire to be the first to tell the world his discovery. He did the work, he said, and was entitled to relate how it had been carried out.

Some of the more important questions put to Cook during the interview and his replies thereto, follow.

Q-Do you look upon Commander

Peary as a friend or as an enemy? A-I must say I do not know. have treated Mr. Peary as a friend, and until I know more about the situation I shall continue to do the same. Q-Did you know Mr. Whitney when you met him on your return to

A-No; he introduced himself, but I did not eatch his name and did not know it until the following day. Confidence In Whitney

Etah?

Q-What caused you to have such confidence in Mr. Whitney that you entrusted your instruments to him? A-I knew him by name, and circumstances that arose while I was with him justified my confidence. I gave him the instruments to bring back because I thought they would be less liable to injury on board his vessel than if I took them across glaciers and over ice-covered country.

Q-What is your opinion of the story told by the negro Hanson of the information he obtained from your two Eskimos?

A-Well, the Eskimos were bound down by me not to tell anyone where they had been. I should like you to Moon sets-11:42 p. m. have Hanson here and cross-examine him yourself. Hanson's testimony is entirely founded on hearsay.

with you from Cape Thomas Hubbard and back?

A-Sextant, artificial horizon, three compasses, three chronometer watch. es, thermometers, barometers and a

Q-Was your determination of the Pole solely by an observation of the sun's altitude, or did you take observations of the pole star twelve hours apart, and by the determination of the celestial pole midway between the two positions prove the accuracy of your position on the terrestrial

No Stars; No Darkness

A-How are you going to take an observation by the polar star when you have a continuous sun? There is no night, you cannot have any stars; there is no darkness.

Q-What other kind of observations did you make at the Pole, and how many? And what was the altitude of

A-We have told that the altitude of the sun gave us our positions: that is all there is to say about that. We made regular astronomical observations, such as would be made by the compass and other instruments. We merely made the nautical observations that a captain would have made aboard a ship.

Q-Will you describe in detail any single observation taken by you at the North Pole, with the exact figures of the results and the corrections applied?

A-Not at this present moment. We will describe every one of them in detail when they go to the University of Copenhagen. They will go there within two months. The entire records will be delivered to the university and after that they will go to everybody that wants to examine

Saw Sun at Midnight

Q-In your original narrative as published in the New York Herald you said: "The night of April 7 was made notable by the swinging of the sun at midnight over the northern ice. Our observations on April 6 placed the camp in latitude 86.36, longitude 94.2." The astronomers say that in the latitude you mention the midnight sun would have been visible on April 1 and that if you really saw it for the first time on April 7 you must have been 550 miles from the Pole, instead of 234 as you supposed Therefore to have reached the Pole on April 21 you would have had to travel thirty-nine miles daily. What is your explanation of the apparent discrepancy?

A-In the first place that indicates the point I have taken; that nobody can pronounce judgment on a matter of this kind until they get a complete record. The northern horizon at midnight had been so obscured that we could not tell whether the sun was below the horizon or above it. We were not making observations at midnight. Therefore this statement is based on the fact that we have said that it was possible to see the sun on midnight of that day. I have not looked through The Herald's story as it has been written out in full. My impression is that we were absolutely unable to see the sun the midnight before that. The horizon was ob-

A deluge of telegrams and cable messages continue to pour in upon Cook and all of those are turned over to his secretary. The explorer did not read the newspapers Wednesday or give any attention to messages sent to him. He lunched at noon with his family, then played with his children until time to go to the quiz. When his secretary told him the hour for his interview had come he was playing with his little girl on the floor of the apartments.

Peary Homeward Bound Truro, N. S., Sept. 23.-Commander Peary had no further statements to make Wednesday regarding the Polar controversy while traveling to his home on Eagle island from Sydney. The explorer with his family reached Truro last night. Later they departed for Portland.

The trip to Truro occupied the entire day and at the stations en route groups of people gathered to catch a glimpse of Peary, who spent the time going over his mail and reading the

TAMMANY GAINS A POINT

Independence League Withdraws From Opposition Forces

New York, Sept. 23 .- The Independence league withdrew last night from the conference of anti-Tammany forces which for several days has been trying to agree upon a fusionist ticket for municipal offices.

The action is regarded as an indirect Tammany victory, since it is the first break in the proposed alliance of opposition to that organization. The fusionist candidates for mayor will be known today and it is expected his name will be placed before the Republican city convention. Cannot Keep Out of Prison

Dutch Colors Float Over Counterpart

of Hudson's Famous Craft New York, Sept. 23.-There was an Impressive Hudson-Fulton ceremony at the Brooklyn navy yard when the Half Moon, the copy of Hudson's famous craft which is to play one of the

chief roles in the celebration, was formally placed in commission. Bands played the national airs of Holland, the old Dutch colors waved, and the Netherlands commissioners hoisted their colors above the quaint little craft. Since her arrival from Holland, the boat has been in the hands of sailmakers and riggers, being furbished up for her triumphal appearance.

The man who hoisted the flag was Lieutenant Lam of the cruiser Utrecht, who will impersonate Hudson when the Half Moon moves up the North river next Saturday.

AN OLD-TIME PRESCRIPTION

in a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fire-place, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon re-

Danderine

PROVE IT!

A lady from Minnesota writes:

"As a result of using Danderine, my hair is close to five feet in longth."

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itsel, is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. calp is the very soil in which the hair is pro-, nurtured and grown, and it alone should be the attention if results are to be expected. would do no carthly good to treat the stem of a cut with a view of making it grow and become re beautiful—the soil in which the plant grows its be attended to. Therefore, the scaip in which their grows must receive the attention if you are to expect it to grow and become more beautiful. Loss of hair is caused by the scalp drying up r losing its supplyof moisture or nutriment; whe aldness occurs the scalp has simply lost rli its ourishment, leaving nothing for the hair to feed pon (a plant or even a tree would die under similar inditions.)

The natural thing to do in either case, is to feed I replenish the soil or scalp as the case may be, I your crop will grow and multiply as nature orded it should

intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp. It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

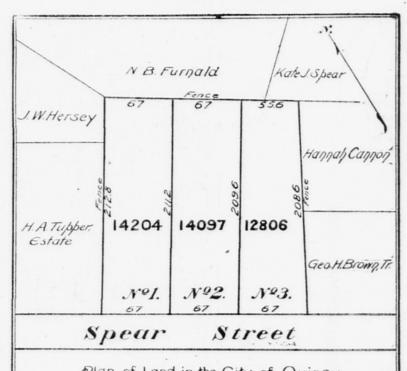

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERINE CO., CHICAGO, ILL. with their name and address and 10 in silver or stamps to pay postage.

SOUNDING OF

Latter Reign of the Apostolic Church Disciples Await It

WORLDLY TASKS LAID ASIDE Colony of Three Hundred Believers In

Odd Doctrine Spending What They Believe to Be Their Last Hours In Prayer, Song and Exhortation-Gather In Little Chapel to Await Long Expected Millenium

West Duxbury, Mass., Sept. 23.-Firm in their conviction that the world will come to an end at 10 o'clock tomorrow forenoon, a colony of about 300 members of the denomination known as the Latter Reign of the Apostolic Church are spending their few remaining hours in prayer, song and exhortation. The scene of their religious ardor

is "Ashdod," a little wooden chapel on High street, the main turnpike between Boston and Plymouth. The chapel, in the language of the natives, is "five miles from everywhere," and to a certain extent this is correct, so far as that vicinity is concerned, as the chapel is five miles from Kingston, five miles from Duxbury, and five miles from Hanover. Worldly tasks have been laid aside

and jobs have been thrown up in order that the faithful may, in the few short hours that they believe remain to them, prepare their spiritual natures for the millenium. Believers are here from all over New England, especially large delegations coming from Springfield, Mass., and Providence and Pawtucket, R. I.

The services are practically continuous, night and day. There is plenty of gospel hymn singing, interspersed with frequent exhortations and prayers. In all branches of the worship the congregation participates, singing the hymns with fervor and interrupting prayer and exhortation with pious ejaculations. The chief exhorter at the meetings

is Robert Swan, who is assisted by Joshua Osgood. For the past few years he has been in charge of the meetings at the chapel. The congregation, for the greater part, is composed of well dressed persons of apparent intelligence. A few negroes are also among the number. Occasionally the services at the

chapel are suspended long enough to permit of a trip to a pond about half a mile distant, where the converts are baptized. Fourteen were immersed yesterday, a few of them being children of 8 or 9 years of age. Above the speaker's rostrum in the family, 1562 Hancock street. Sept. 17-6t chapel is a clock, under which, in

big letters appear the words: "Jesus is coming. Get ready." Frequent reference to the clock and the inscription is made by the exhorter during his sermons. To feed the crowd that is attending the meetings, a big tent has been

erected near the church, while the

houses in the neighborhood and even

the church horsesheds furnish a lodging for the people. None of the faithful appears to have a shadow of a doubt that the world will end tomorrow forenoon. When asked what they will do if the expected event does not materialize, most of them refuse to entertain such a supposition. Some suggested that a love feast be held for ten days or so, while others still said that if the millenium did not come on Friday it

would come next year at the same

season. Ashdod chapel is on the site of a Methodist church that was built seventy-five or eighty years ago. Many years ago the Methodists removed to another location and the church was subsequently destroyed by fire. Some thirty-five years ago a man named Strang built the chapel that now stands, and it was used by the Methodists for a time, and later became the meeting place of a Baptist society.

SMALL CHECKS.

Will be Unlawful After Jan. 1, to Issue Check for Less Than \$1.

It will probably be news to many to learn that under a new law, which unlawful for any person to issue a penalty for violation of the law is a months. The new law is found under section 178 of the penal law, approved March 4, 1909.

The section in question reads:-"No person shall make, issue, circulate or pay out any note, check. memorandum, token or other obligation for a less sum than \$1 intended to circulate as money, or to be re- by them outside of a home run.

ceived or used in lieu of lawful money of the United States." Many people are in the habit of pay ing all bills, no matter how small by anything happen to interfere with his tests have been received from mer

It is reported that among the trust dozen checks for amounts of less than one dollar are received every day. To respectively. deprive individuals from uttering small checks would be very inconvenient to many. Some doubts are expressed among Boston bankers as to the law being constitutional.

YOM KIPPUR,

Important Jewish Feast Begins at Sunset Tonight.

Commencing at sunset tonight, and continuing until the stars can be seen in the heavens tomorrow evening Yom Kippur, the day of atonement, will be impressively observed by all Hebrews of Quincy, both the orthodox and reformed branches of the faith uniting in a rigid observance of the ceremonies and rites which mark the celebration of the most important feast in the Jewish calendar.

"Yom Kippur" means an almost uninterrupted period of fasting and prayer. It is one of the most ancient Eggleston, rf of all Jewish festivals, and marks the McKenzie 2b end of the Jewish penitential season, which began with the celebration of Rosh Hashona, the Hebrew New Year.

MADE A PICK UP.

Locomotive on South Shore Line Gathers in a Chicken.

Th locomtive of the South Shore train due at Braintree at 7.24 Thursday ran through a brood of spring chickens on its way up from the South Shore. One of the pullets became wedged between the bars of the cow catcher and probably no other chick ever had a more novel ride.

When the train arrived at the Braintree station Isaac Jones the gateman 27 GRANITE STREET discovered the chick and promptly removed it. When released the chick was very much alive and none the worse for its unsolicited ride.

EQUILIBRIUM

Address at Meeting of Pilgrim Union at Wollaston

The Pilgrim Union was entertained on Thursday evening by the Epworth | Henry F. Snyder of Albany requesting League of the Wollaston Methodist church. The union is composed of nine neighboring leagues, guests being present from Neponset, Atlantic, Mattapan, West Quincy, Dorchester and other places to the number of 150.

Supper was served in the vestry by the following group of young ladies in charge of Miss Ethel Smith: Miss Barracks, N. Y. Cavalry, one squad-Nettie Crittenden, Miss Idabelle Williams, Miss Frances Keith, Miss Gertrude Barlow, Miss Mary Cleveland, Miss Irma Douglas and Miss Florence Bennett. A local orchestra furnished musical selections during the supper. The blessing was asked by Rev. Marshall Blain Lytle of the Highland his home with his sister. He leaves Methodist church.

> The evening meeting was opened by a service of song in charge of Rev. H. W. Hook of Mattapan, president of the Pilgrim Union, Miss Stone of the local church presiding at the organ. Selec tions from the scriptures were read by the Rev. Lytle followed by a prayer from Rev. C. H. Raupach of the Hall Place M. E. church. The speaker of the evening, Rev

Ernest M. Mills of South Boston upon being introduced took for his schooling and training of the mounts theme: "By faith ye stand" or "Religious equilibrium.' He spoke of a babe learning to walk or an invalid after a long attack of illness. We cannot walk at our best

until we do it unconsciously and habit relieves us of the embarrassment of thinking. It is the same in the religious life for we are not at ease until we have this religious equilibrium established in the soul and then we stand by faith and live unconsciously the life of God. All men are as lazy as they Shaw Oliver, and General Leonard dare be and would shift the burden of

the shoulders of their neighbors. Some men have no more conception Infantry will be the officer in charge of religious life than simply attending of the tournament. church. Religious life, said Rev. Mills a cause for your religious life. No

"Long before the times of Christ and Columbus the Indians in this though the flood gates of heaven had county sent one of their maidens in been opened. It continued to rain a canoe over the falls as a sacrifice to hard for an hour or more and everytheir Deity. Religion is not made but thing got a thorough soaking. springs out and all one needs to say is

I believe because." Following the speaker, reports of the secretary and treasurer of the union were read and the roll call of

the various leagues answered. In response to an invitation from the Neponset church it was voted to hold the next meeting of the union at

MILITARY ENCAMPMENT.

Unusual Interest in Hudson-Fulton Celebration.

Interest almost national in characer is being taken in the United States Military Encampment and Tournament which opens in Albany, N. Y., the week commencing October 4th. A feature of the encampment will be Governor's Day to be observed on

Invitations have been received by Governor Eben Sumner Draper, and Adjutant General William H. Brigham. to attend the tournament which promiese to eclipse the one held at Toledo a year ago. Handsomely engraved invitations were received from Mayor the attendance of the officials as the guests of the city.

The encampment will be attended by the following troops: One battalion of the 24th infantry of Madison Barracks, N. Y., Infantry one battalion one hand machine gun platoon of the Fifth Infantry from Plattsburg ron and band of 10th Cavalry, Fort Ethan Allen, Vt. Field Artillery, one battery from Fort Myer, Va. Engineers, one Company from Washington Barracks, Washington, D. C. Wagon and pack train, one wagon train complete and one pack train. Hospital Corps, one company from Fort Niagara, N. Y. Subsistence Department, detachment of cooks and bakers from Washington Barracks, D.

Each branch of the Military will give daily exhibitions of its actual service work. Camp will be established at Island Park a short distance from the city, and for a week the soldiers will play at the war game. The Cavalry will engage in mounted fencing, horsemanship, showing the and other stunts peculiar to their branch of the service. Wall-scaling, tent pitching, the throwing up of intrenchments and obstacle and equipment races will be participated in by the Infantry.

Military construction will be demonstrated by the engineers, while the Hospital Corps will establish a fully equipped modern field hospital illustrating the methods used for the care of the sick and injured in actual war. Acting Secretary of War, Robert Wood will make their headquarters in deciding the questions of the day upon Albany during the tournament. Colonel Calvin D. Cowles of the 5th

COLLEGE EDUCATION. Does it pay to send a boy to college when there is no intention of his taking up one of the professions? This moy be variously answered. The man of wealth, able and willing to support his children handsomely, might answer it in the affirmative, for a liberal education is an adornment to the mind whether a practical use is made of it or not. On the other hand, a parent who can only give his son the advantage of a college training at great sacrifice to himself or the young man who must work his own way through the university, the answer would be in the negative, unless the young man should prove to be of exceptional mentality, and one of those who know no such word as failure. The learned chapel were to be saved, and that a professions, so-called, law,, medicine new epoch in the generations of manand the ministry, in earlier times appealed to the young men of intelligence and ambition. The first two are now overcrowded, and the last has ceased to be as attractive as it used to be. A recent cartoon shows two men. One ,a carpenter ,pushing the plane, and the legend, "We pay this man \$3 a day- or a little more-to build the church. The other a minister, in the pulpit, and the significant words "And we pay this man \$2 a day-or a little less-to preach in the church." Not all ministers are so unfortunate, but the average is far too low, and the man who is not prepared to make a great sacrifice turns his back upon the preachers's desk. What then remains? A parent whose son is in his fourth year at Dartmouth was asked what the boy intended to do on graduation, and the reply was he will take up business for a vocation. The natural thought is that he is making a mistake. He is wasting time that might be better employed. That is, he has not selected his course of training on a business principle, which always selects the best means for an end. If a young man has business as his ultimate goal he should secure a business education which can be obtained at less expense of time and money. If he has in view a technical profession, like electrical or civil engineering or architecture, he should enter the schools where young men are fitted for the special line he has in view. President Taft says there are too many lawyers in legislation, and he might have given his remark a less restricted application. And the field of medicine is also greatly constricted. As remarked above, the wealthy can afford to educate their sons as an ornamental accomplishment, but the man of small means and the youth who must depend on his

WORK OF WOMEN'S CLUBS.

own resources, should make careful

ing the high school.-Lynn Item.

Over \$000 women are enrolled in the General Federation of Women's clubs ad reports from may of these show the practical and beneficient work in which they are engaged. The women's club of Dallas Tex., for instance, has taken the two members, according to their on the work of municipal sanitation. The San Francisco club has started a flower market and an out-door league. The Pittsburg club has given that city over a dozen playgrounds and recreation centres, and the clubs of Detroit and Philadelphia have done similar work for their cities. Several other clubs have instituted regular city or town cleaning. All this shows a radical change since the time the women's club was mainly engaged in reading Browning. Evidently the club women have discovered more interesting subjects and it must be acknowledged that they have been wonderfully successful .- Haverhill Gazette.

END OF WORLD **COMES TODAY**

Latter Reign Disciples Believe It to Be Day of Judgment

IN FRENZY OF EXCITEMENT

Men Grovel on the Ground From Sheer Exhaustion and Call Upon Their Fellows to Join Those Who Are to Be Spared-Women and Children Unable to Control Their

Duxbury, Mass., Sept. 24.—The end of the world comes today in the minds and the teachings of 300 men, women and children, whose actions Res. Eben Prescott, Braintree, 121-4 last night might lead those who observed their manifestations to hold the opinion that the day of judgment was perhaps even nearer than the hour they set.

That the end of the world was really coming on the morrow was the warning that this gathering tried to impress upon the minds of those who stood about the little chapel that the elect held forth in at Ashdod, five miles from the center of this town, Thursday.

Women held their hands high toward the heavens, calling for manifestations of the spirit to show the unbelievers that the crust of the earth was to be swept away; that cities were to be plunged into the great clefts that the earth furnished for their oblivion; that only those who gathered in the number in the little kind was to be furnished by this little company.

It was all brought about through the gathering of the Triune Immersionists, or Latter Reign of the Apostolic Church.

Mrs. Eva Billings of Waterville, Me., and Mrs. A. J. Rawson of Lynn were the leaders of the elect who shouted out so that the housetops might hear that old earth and mankind were to be parted today.

They claimed that it all came to them in a dream, and no one appeared to dispute the theory that dreams might not always come true.

The men in the company of the elect grovelled upon the ground in the intensity of their emotions. They called upon their fellows to repent and join the little company of those, who to their minds, are to be spared when great cities and nations go rumbling through their own dismem berment to oblivion today.

The spirit in the dream had told Mrs. Rawson and Mrs. Billings that all this was to be accomplished, and the children, the women and the to a certainty Old Earth was down at last for a period of chaos such as

never before has been known. Men exhausted themselves in their exhortations to the Almighty. Here in the little colony of those who believe they are to be spared, so great was the effect on the mind that strong men fell prone, unable even to rise through the intensity of the emotions that came upon them.

Women fainted under the terrific spell of the power that to their own way of thinking had taken possession of their innermost feelings.

Children, through the example set by their elders, or by reason of the workings of their own minds, choice of the future course after leav- thrilled by the thought, ever prevalent, that the earth was to be broken up, were worked up into such a pitch of hysteria that at times it appeared as though they had lost control of every faculty.

> The 300-odd members of this sect, who are now awaiting the millennium, believe themselves to be guided to the little chapel at Ashdod by a spirit which, they say, gave the message to statements.

The sect is well and neatly dressed for the most part, and many show unmistakable signs of having possessed their share of the world's money. It was said at the camp that quart of the water for starching; then one family that arrived yesterday from might be prepared for the end.

MISS KRITCHMAN INDICTED

Joseph Peczinitis Also Charged With Murder of Kulvinska

Waterbury, Conn., Sept. 24.-The grand jury returned an indictment of first degree murder against Sophie Kritchman and Joseph Peczinitis for the killing of Bronislow Kulvinska in Union City, Sept. 17.

Kulvinska was found with twelve bullets in his body and and his throat cut. Lying beside him a letter accusing the Kritchman woman and Peczinitis was found.

BANISH THOSE GRAY HAIRS!

Kill the Dandruff Germs-Stop Hair Falling Thousands of mothers are looking younger.-Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

Dandruff Cured

Three applications removed all the dandruff and left my scalp clean, white and smooth. Wm. Croak, Rochester, N. Y.

It Is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR RESTORER a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped fall-ing out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

STEPHEN BACON, Rochester, N. Y.

THINGS WORTH KNOWING.

Grass stains may be removed by saturating in paraffin before washing. To remove paint from linens rub the cloth with turpentine, then clean with French chalk dampened with alcohol. Table linen should be dampened thoroughly and ironed until dry. It will then have enough gloss and stiffness to suit the most fastidious.

Furniture polish-two ounces lin seed oil, two ounces alcohol, four drops aniline, four drops wintergreen. Put on and rub with a flannel cloth. To take mildew from linen rub the spot with soap; scrape chalk over it and rub it well; lay it on the grass in the sun; as it dries wet it a little. It

will come out with two applications. To clean furniture, if rough, rub it with powdered pumice. If simply dirty, rub with diluted vinegar, which will cut grease and remove dirt. Then polish with some good furniture polish Violets after they have been worn will come out fresh and almost as

good as new by clipping the stems without cutting the bouquet apart and putting the flowers into a deep glass of water, covering the heads with waxed paper and setting them in the refrig-

Muslin dresses of delicate colors should not be washed with soap. The best fluid to wash them in is rice water, made by boiling one pound of rice in one gallon of water. Reserve a wash the dress in the remainder. Rinse in clear or slightly blued water; then starch the dress in the remaining quantity of rice water and iron quick-

Gift to a Hostess. One dainty woman gave to another dainty woman, whose guest she had been, a gift for her linen closet. It consisted of a number of lavender filled pads to lay in among the linens. They were generous in size, made of lavender Japanese crape, printed with a rambling vine, probably wistaria. The inside was white cotton wadding, with dried lavender flowers between prettiness added in the shape of tufts of lavender ribbon.

The gift is a very appropriate one from the guest, who has not known virons of Souk Benisicar demolished a her hostess very well and who therelarge number of houses. The Rif- fore might not venture on a personal

Cook Says Other Explorers Were Real Pole Pathiinders **OUESTION OF SUBSISTENCE**

Problem Which Overshadows Physical Endurance and Bravery-Obligation Due Indians and Eskimos For Lessons Learned From Them-Not Bound to Appeal For License to Look For Pole-Forced Strands of Human Endurance to Scientific Limits In Order to Succeed-Replies to Criticisms at Banquet Given In His Honor

New York, Sept. 24 .- Cheered by a thousand men and women as he entered the banquet hall last night on tired), Dr. Frederick A .Cook later Arctic Club of America, of which Cook is a member, in recognition of his last Polar venture which culminated in his announcement that he had reached the North Pole.

While there was no official repre sentative from either state or nation, the assemblage was cosmopolitan and enthusiastic. Crowded in the great ballroom of the Waldorf-Astoria they toasted the Brooklyn explorer and listened attentively to his recital in the form of an after-dinner address. Among those at the tables were explorers, some of whom knew the dangers and suffering of the Arctic zone almost as well as Cook himself. Men of science were there also, but the explorer addressed himself primarily to the great majority of his hearers whose interest in Polar conquest has but lately been aroused. Commander Peary's name he did not mention except at the end of his speech when he said that there was "glory enough

Admiral Schley presided and introduced Cook with many eulogistic expressions in his ability and confidence in his attainment. Dr. Cook's remarks were as follows:

Dr. Cook's Address "This is one of the highest honors ever hope to receive. You represent most of the frigid explorers of

Europe and nearly all of the Arctic explorers in America. Your welcome is the explorer's guarantee to the world—coming as it does from fellow workers, from men who know and have gone through the same experience-it is an appreciation and a victory of the highest which could fall to the lot to any returning traveler. "The key to frigid endeavor is sub

sistence. There is nothing in the entire realm of the Arctic which is impossible to man. If the animal fires are supplied with adequate fuel there is no cold too severe and no obstacle living. too great to surmount. No important expedition has ever returned because of unscalable barriers or impossible weather. The exhausted food supply resulting from a limited means of transportation has turned every aspirant from his goal. This problem is a large one-too large and too complex to examine at this time.

"In the ages of the Polar quest much has been tried and much has been learned. The most important lesson is that civilized man, if he will succeed, must bend to the savage simplicity necessary. Candor compels me to say that the effort of illustrations of the rapid decline in getting to the Pole is not one of the use of drgus in the various hosphysical endurance, nor is it fair to pitals of the country featured the call it bravery; but a proper under- eleventh annual conference of the standing of the needs of the stomach American Hospital association. They and a knowledge of the limits of the were shown in the report of the combrute force of the motive power, be mittee on hospital efficiency, hospital that man or beast.

The Real Pathfinders

"Our conquest was only possible with the accumulated lessons of early ago the annual cost of medicines for ages of experience. The real path- each patient in the Massachusetts finders of the Pole were the early general hospital was about \$2.90, Danish, the Dutch, the English, and While last year it was only 91 cents. the Norse, Italian and American explorers. With the worthy forerunners we must therefore share the good fruits which your chairman has put into my basket.

"A similar obligation is due to the tration of the Arctic mystery barely on a revenue cutter. possible, has been borrowed from the American Indian. The method of who are respectable Americans, were travel, the motor force and the native ingenuity, without which the Polar velopment and Investment company quest would be a hopeless task, have which, according to the official disbeen taken from the Eskimo. To patch, has not paid them their seasavage man, therefore, who has no son's wages, and they are now deflag, we are bound to give a part of pending upon charity for sustenance. this fruit. To John R. Bradley, the man who paid the bills, belongs at least one-half of this fruit.

"The Canadian government sent its expedition under Captain Bernier 1000 miles out of its course to help us to it. I gladly pass the basket. In returning, shriveled skin and withered muscles were filled out at the expense of Danish hospitality. And last but BANK HOURS: Every Business arms by fellow explorers—to you and things which the chairman has placed on my shoulder.

Replies to Criticism

to tell you tonight the complete story of our quest, but the very first tele- went through a trestle here.

gram gives more specific data than 1 could hope to tell you in an afterdinner address. Therefore I shall devote the allotted time to an elucidation of certain phases of our adventure. In a few days I hope to tell the complete story to you, with pictures.

"One of the most remarkable charges brought out is that I did not seek a geographic license to start for the Pole. It is only necessary to make announcement that an expedition embarks for the Pole to start an undesirable bombast and flourish of trumpets. This I chose to escape. John R. Bradley furnished the funds. shaped the destiny of the expedition. For the time being the business concerned us only. I believed then as I believe now that if we succeeded there would be time enough to fly the banner of victory.

"Now, gentlemen, I appeal to you as explorers and men. Am I bound to appeal to anybody, to any man, to any body of men-for a license to look for the Pole?

Not a Pleasure Trip

"Another criticism is the charge of our insufficient equipment. We have met this. We chose to live a life as simple as that of Adam and we forced the strands of human endurance to the arm of Rear Admiral Schley (re- | scientific limits. If you will reach the Pole, there is no other way. For told his story before a brilliant audi- our simple needs Mr. Bradley furence. The banquet was given by the nished sufficient funds. We were not overburdened with the usual aids of pleasure and comfort, but I did not start for that purpose.

> "Now as to the excitement of the press, to force things of their own picking from important records into print-in reply to this I have taken the stand that I have already given a tangible account of our journey. It is as complete as the preliminary reports of any previous explorer. The data, the observations, the record, are of exactly the same character. Heretofore such evidence has been taken with faith and the complete record was not expected to appear for years, whereas we agree to deliver all within a few months.

> > Concerning the Pole

"Now about the Pole. We arrived April 21, 1908. We discovered new and along the 102nd meredian between the 84th and the 85th parallel. Beyond this there was absolutely no life and no land. The ice was in large, heavy fields with few pressure lines. The drift was south of east, the wind was south of west. Clear weather gave good regular observations nearly every day. These observations, combined with those at the Pole on April 21 and 22, are sufficient to guarantee our claim. When taken in connection with the general record, you do not require this, but this and all the other records will come to you in the due course of events.

"I cannot sit down without acknowledging to you, and to the living Arctic explorers, my debt of gratitude for their valuable assistance. The report of this Polar success has come with a sudden force, but in the resent enthusiasm we must get the fathers of the art of Polar travel. There is glory enough for all. There is enough to go to the graves of the dead and to the heads of the

"Many are here tonight. The names are too numerous to mention. Special mention for honors must be made to Greeley, Schley, Melville, Peary, Fiala, Nansen, Abruzzi, Cagni, Sverdrup, * Amundsen, Nordenskjold and a number of English and other explorers.'

THE BLACK Serial Story by Louis Joseph Vance (Copyrighted)

(Continued from yesterday.)

"I am infinitely complimented, Mrs. Hallam," Kirkwood assured her, and home?" he asked. She nodded, with a faint, puzzled

lam is so kind"-

go without invitation and be welcomed | out. and cared for-any friends or relations?"

"Dorothy will be with me," Mrs. Hallam answered for her, with cold deflance. Deliberately insolent, Kirkwood turned his back to the woman. "Miss

Calendar, will you answer my question for yourself?" he asked the girl point-"Why, yes, several friends-none in London, but"-

"Dorothy"-"One moment, Mrs. Hallam," Kirkwood flung crisply over his shoulder. "I'm going to ask you something rather odd, Miss Calendar," he continued, seeking the girl's eyes. "I hope"-

"Dorothy, I"-"If you please, Mrs. Hallam," suggested the girl, with just the right shade of independence, "I wish to listen to Mr. Kirkwood. He has been very kind to me and has every right." She turned to him again, leaving the woman breathless and speechless with anger.

"You told me once." Kirkwood continued quickly and, he felt, brazenly, "that you considered me kind, thought ful and considerate. You know me no better today than you did then, but I want to beg you to trust me a little. Can you trust yourself to my protection until we reach your friends in England?" "Why, I"- the girl faltered, taken

by surprise. "Mr. Kirkwood!" cried Mrs. Hallam angrily, finding her voice.

Kirkwood turned to meet her on slaught with a mien grave, determined, unflinching. "Please do not interfere, madam," he said quietly. "You are impertinent, sir! Dorothy,

I forbid you to listen to this person!" The girl flushed, lifting her chin a trifle. "Forbid?" she repeated wonder-Kirkwood was quick to take advan-

tage of her resentment. "Mrs. Hallam "nor can she control your actions. It mayed. "The lady wno engaged job must already have occurred to you is remaining for a time. I will settle to set the part of place in the her bill."

mayed. "The lady wno engaged job is remaining for a time. I will settle to set the part of the present circumstances. The men who have brought you hither I believe you already see through to some extent. Forgive my speaking plainly. But that is why you have accepted Mrs. Hal- Sud?" lam's offer of protection. Will you take my word for it when I tell you door. The vehicle drew slowly away she has not your right interests at heart, but the reverse? I happen to know. Miss Calendar, and I"-

"How dare you, sir?" Flaming with rage, Mrs. Hallam put herself bodily between them, confronting Kirkwood in white lipped desperation, her small gloved hands clinched and quivering at her sides, her green eyes dangerous.

But Kirkwood could silence her, and he did. "Do you wish me to speak frankly, madam? Do you wish me to tell what I know and all I know," with rising emphasis, "of your social status and your relations with Calendar and Mulready? I promise you that if you wish it or force me to it"-But he had need to say nothing fur-

ther. The woman's eyes wavered before his, and a little sob of terror forced itself between her shut teeth. Kirkwood smiled grimly, with a face of brass, impenetrable, inflexible. And suddenly she turned from him with indifferent bravado.

"As Mr. Kirkwood says, Dorothy," she said in her high metallic voice, "I have no authority over you. But if moment this fellow's insulting suggestion, if you're fool enough to go with him unchaperoned through Europe and imperil your"-

"Mrs. Hallam!" Kirkwood cut her short, with a menacing tone. -"why, then, I wash my hands of

you," concluded the woman defiantly. "Make your choice, my child," she added, with a meaning laugh, and moved away, humming a snatch from blood to Kirkwood's face. But the girl did not understand, and

he was glad of that. "You may judge his seat, lifting the flap over the little between us," he appealed to her directly once more. "I can only offer you my word of honor as an American gentleman that you shall be landed in and it was plain to be seen from his England safe and sound by the first pose that the madly careering flacre vailable steamer." "There's no need to say more, Mr. resolute, perturbed, the man took a

Kirkwood," Dorothy informed him step or two after it, changed his mind quietly. "I have already decided. I and returned to his post of observathink I begin to understand some tion.

From the window, where she stood holding the curtains back and staring out. Mrs. Hallam turned with a curling lip. "The honor of an American gentle-

man," she quoted, with a stinging Haymarket 724—Quincy 448-4 sneer—"I'm sure I wish you comfort of it_child!"

We must make haste, Miss Calendar," said Kirkwood, ignoring the implication. "Have you a traveling

She silently indicated a small valise. closed and strapped, on a table by the bed and immediately passed out into the hall. Kirkwood took the case containing the gladstone bag in one hand, the girl's valise in the other, and followed.

As he turned the head of the stairs he looked back. Mrs. Hallam was still at the window, her back turned. From her very passiveness he received an impression of something ominous and forbidding. If she had lost a trick or two of the game she played, she still held cards-was not at the end of her resources. She stuck in his imaginaof the girl quickly, "You're going back | tion for many an hour as a force to be reckoned with.

For the present he understood that smile that included the woman. "After she was waiting to apprise Calendar a little-not immediately. Mrs. Hal- and Mulready of their flight. With more haste, then, he followed Dorothy "Pardon me," he interrupted, "but down the three flights, through the tell me one thing, please. Have you tiny office, where madam sat sound any one in England to whom you can asleep at her overburdened desk, and

"The honor of an American gentleman." Opposite the door they were fortu- r 8 13 abe nate to find a fiacre drawn up in wait r 851 a ing at the curb. Kirkwood opened the door for the girl to enter.

"Gare du Sud," he directed the driver. "Drive your fastest. Double fare for quick time!" The driver awoke with a start from profound reverie, looked Kirkwood r 11 13 abc

over and bowed with gesticulative r 12 01 E. palms. "M'sleu', I am desolated, but en-

gaged!" he protested. "Precisely." Kirkwood deposited the r 2 13 abo two bags on the forward seat of the r 3 05 a conveyance and stood back to convince is not fitted to advise you," he insisted, the man. "Precisely," said he, undistant with the man. "Precisely," sai

> "Very well, m'steu'!" The driver disclaimed responsibility and accepted the favor of the gods with a speaking r 6 52 abc shrug. "M'sieu' said the Gare du

Kirkwood jumped in and shut the from the curb, then with gratifying r 10 09 abcdef speed hammered upstream on the embankment. Bending forward, elbows on knees, Kirkwood watched the sidewalks narrowly, partly to cover the girl's constraint due to Mrs. Hallam's attitude, partly on the lookout for Cal | r 8 43 abc endar and his confederates. In a few moments they passed a public clock. "We've missed the Flushing boat,"

possibly make it. I know that it leaves by the Sud quay, and that's all I do know," he concluded, with an apologetic laugh. "And if we miss that?" asked the

girl, breaking silence for the first time r 8 08 abcdefghi 8 35 9 27 ingfedcba 9 56 since they had left the hotel. "We'll take the first train out of Ant- r 10 30 abo werp.'

"Where to?" "Wherever the first train goes, Miss Calendar. The main point is to get stand for different stations and indicate that away tonight. That we must do, no trains stop as follows: matter where we land or how we get there. Tomorrow we can plan with

more certainty." "Yes." Her assent was more a sigh than a word. The cab, dashing down the Rue Leo-

pold de Wael, swung into the Place du Sud before the station. Kirkwood, acutely watchful, suddenly thrust head 6.02, 7.15, 9.21, 11.21, P. M. Sundays-7.45, 8. and shoulders out of his window (fortunately it was the one away from the depot) and called up to the driver. treble fare!"

"Yes, sir! All right!"

The whip cracked, and the horse a French song, which brought the hot swerved sharply round the corner into the Avenue du Sud. The young man, with a hushed exclamation, turned in peephole in the back of the carriage. He had not been mistaken. Calendar

was standing in front of the station, interested him more than slightly. Ir-

turned back to find the girl's wide eyes searching his face. He said nothing. "What was that?" she asked after a patient moment. "Your father, Miss Calendar," he re-

turned uncomfortably. (To be Continued.)

and fair weather. Saturday promises to be fair and Working Nights to Get Her Ready for Trials Oct. 15.

Work on the battleship North Dakota building at the Fore RFiver ship yard is progressing favorably, now that the armor plates have begun to arrive. It is expected that the government standardization trial trips will of Rockland. Nearly everything is in readiness for the tests and her builders have the utmost confidence that she will come up to the government equirements.

In order that her tests may not be delayed, the company has put night riveters to work on the vessel and the noise of the riveting is faintly heard by the people of Quincy.

The North Dakota is a sister ship its door Wednesday the usual quota of of the Delaware, whose trials will be held five days after those of the Quincy built vessel. Ever since these vessels were contracted for there has tion. The keel of the North Dakota was laid first, about a month ahead of

he Delaware's. Wednesday, Patrick J. Connolly was Dakota was ahead of her sister ship it is remembered that 70 is the norof correction for assault at Quincy struction. Then the armor plate for of the unusual atmospheric condithe Quincy ship came slowly, so much of the work on the vessel came to a sudden stop. Armor plate for the tween Excelsus and the Fore River Delaware came in abundance and so Sol could hold his own. There was Apprentices for the eighteen year old she began to creep up on her rival,

> in percentage of construction. Now the North Dakota will be tested first, and the merry race for first completion will go on. At present the North Dakota is 94 per cent. com-

To a person not a critic the big vessel appears completed, but such is not the case. Beside numerous small guns, painting, scraping and the installation of furniture remain to be done. On her return to Quincy from what is expected to be a triumphant success, the final touches will be made on her at one of the fitting-out docks.

Then she will be sent to the Charlestown navy yard, where, in the course of a few months at the most, she will be taken possession of formally by the commandant. Then the United States will be the proud possessor of the largest engine of war afloat and commissioned.

SUPERIOR COURT.

Several Quincy Cases Disposed of in Superior Court at Dedham.

Several more Quincy cases were disposed of Thursday at the superior court at Dedham. Among these was that of Margaret Kelley for assault on a little girl at Quincy. When the case was heard in the lower court a fine of \$10 was imposed, from which tered and a capias issued and she was brought before the court Thursday and a fine of \$10 imposed.

Another Quincy case of interest was that of Nicholas Carbarino for maintaining a gaming place at Hughs Neck, Quincy. When the case was taining a gaming place at Houghs Avery imposed a fine of \$25 and ordered the defendant to give bonds in the sum of \$300 to refrain from An appeal was taken.

The case came up in the superior court Thursday. When half through further evidence was stopped by

At that time it was intimated by the court that a jail sentence would have been imposed. Garbarino however was not sentenced Thursday but will Company figured in a collision with be some day this week. It is thought that the sentence of the lower court will be confirmed.

> Another Quincy case was that of John A. Galvin for assault on a railroad brakeman. When the case was heard in the Quincy court Galvin was his own counsel and put the witness es under a searching cross examination. He was found guilty and fined \$25. He appealed. The superior court

Quincy Dogs Capture Many Prizes at Framingham.

At the second annual dog show of he Framingham District Kennel club held on the grounds of the Middlesex county fair at Framingham, on Sept. 22, the Mayhurst Cocker spaniel Kennels, owned by George L. Haupt of the Fore River, had six dogs enered, who succeeded in bring back six first three winners, two reserve winners, three specials for silver cups which were as follows:

Dunraven, Jr., 1st open dogs black and winners. Mayhurst Nebo, 1st limit dogs other than black and winners. Mayhurst Ruffles, 1st Puppy bitch. Mayhurst Chorus-lady, 1st limit bitch black and winners. Brynwood Merrymaid, 1st open bitches, black and reserve winner Silverlake Sono, 1st open parti color bitch and be held on October 15, off the coast reserve winner. Mayhurst Choruslady, Mayhurst, Nebo, and Mayhurst Ruffles each won the special for a silver cup offered by the Lynn Kennel club for best puppy, best bitch and best dog owned by a mem-

MOST HUMID.

Thursday Was the Most Humid Day In Quincy for Many Years.

Thursday was probably the most incomfortable day that Quincy has experienced during the whole year The day was a combination of cloud bursts, bright hot sunshine and dense numidity. The humidity reached the Up to six months ago the North 95 mark during the day and when

Few left their homes in the morning with umbrellas, believing that Old a suspicious uncomfortableness in the air, however, which caused the weather prophets to be sceptical. At 1 o'clock the first showers of the day came. Then there were others, continuing on past midnight.

As a matter of record and compari on of figures it should be noted that the warmest opening day for the autumn season was in 1895, when the mercury climbed to 95 degrees, and many prostrations followed. Five years ago occurred the coldest "opener," with 35 degrees. Yesterday will go down in history most likely as the most humid day in many years.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better especially premature grayness, than match it. We grind them at 1473 sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c. and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of Price.

MAYBRAY CROWD INDICTED

Louis, 0. New York, 12; St. Louis,

Alleged Swindlers Said to Have Cleaned Up Half Million Dollars

Council Bluffs, Ia., Sept. 24 .-James C. Maybray and eighty-four alleged associates were indicted by a United States grand jury, charged with conspiring to defraud by illegal use of the United States mails. With the exception of Maybray and a few others none of those indicted are in custody, and for that reason the defendants were not made public.

It is stated that the list includes many persons known in criminal annals in all parts of the country and P. O. Box 52, South Weymouth, Mass. that nearly every name is followed by | Sept. 23 from one to four aliases.

It is authoritatively stated that the amounts lost on fake race horses by the alleged victims of Maybray and others named will exceed \$500,000.

UNCLE SAM'S CASH BOX

Will Be Presided Over by Thomas McClung of Yale Fame

Washington, Sept. 24.-Thomas L. McClung, the famous halfback of Yale in the '90s, was appointed treasurer of the United States to succeed Charles H. Treat by President Taft. He is at present treasurer of Yaluniversity. In the athletic world he was known

as "Bum" McClung, and his fumble in the memorable Harvard-Yale game at Springfield in 1800 made possible the first Harvard victory on the gridiron in fifteen years over her old adversary, Yale.

Masons Honor Samuel Lawrence Boston, Sept. 24.-With the election of Samuel C. Lawrence of Medford as sovereign grand commander the choice of the other officers and the selection of Detroit as the place for the next meeting, the supreme council of sovereign grand inspectors general of the thirty-third degree, Scottish Rite of Freemasonry of the northern jurisdiction, closed its session here last night.

No Massacre at Kiev

Kiev, Sept. 24.-There has been have, however, been some slight disorders which apparently have been the foundation for the sensational re ports sent abroad.

MANET ASSOCIATES.

Hold Entertainment and Dance at Odd Fellows' Hall.

A largely attended and likewise enoyable entertainment and dance was held at Odd Fellows' hall Thursday evening under the auspices of the Manet Associates. Herbert D. Gearwar was the chairman of the committee having the affair in charge and he was assisted by a large and efficient ommittee.

During the first part of the evening there was a pleasing entertainment which included cornet duets by Misses Wood and Critchley, baritone solos by Charles E. Fisher, readings by Miss Isabelle Norman, tenor solos by Robert T. Hynds, soprano solos by Mrs. Thomas Milne and harmonica solos by A. J. Minchall. At the conclusion of the entertain

ment there was dancing in the banquet hall to the music of Barron's orchestra. Those who did not care to dance found pleasure in a game of whist in the main hall. Ice cream and cake was served during the evening.

Kills Woman With Whom He Had Become Infatuated

WOULD NOT ELOPE WITH HIM

Well-to-Do Vermont Farmer and Stock Breeder Had Made Many Valuable Presents to Woman and Finally Tries to Break Up Her Home -Winds Up Own Career With Poison and Bullet

St. Johnsbury, Vt., Sept. 25.-The residents of the village of Danville were stunned by the tragic snooting which ended the lives of two well known persons at that place.

Infatuated with Mrs. Kate Frye the attractive wife of Fred J. Frye and infuriated because she refused to abandon her husband and children and leave Danville with him, Abel Hartshorn, a well-to-do farmer and stock breeder, shot and killed the woman and, after being fired on and injured by Roy Taylor, 15 years old, fled to his own premises nearby and ended his life with a bullet. Hartshorn was 60 years of age and is survived by a wife and four children.

The murdered woman was 35 years old. She leaves a husband and two young daughters, the elder aged 13, and the younger 2.

For a year or more, the residents of Danville say, Hartshorn has pressed his attentions upon Mrs. Frye and had presented her with various gifts, including a horse and

Last Sunday Hartshorn called upon Mrs. Frye, who lived in a cottage adjoining his property, and attempted to induce her to leave Danville with him. Mrs. Frye refused and when Hartshorn assumed a threatening attitude she became alarmed and notified her husband. On Monday Hartshorn fired several shots from a revolver near the Frye place, in an apparent attempt to intimidate the

Frye persuaded his wife early in the week to return Hartshorn's gifts and on Wednesday filed a suit against the stock breeder for \$10,000 damage for alienation of Mrs. Frye's affections. The filing of the suit further enraged Hartshorn, but little attention was paid to his threats to shoot the woman. Nevertheless Frye took precautions to protect his wife, and remained at home all the week until yesterday, when he was obliged to leave the premises. Frye asked Roy Taylor, an apprentice in Frye's blacksmith shop, to see that Hartshorn did not molest his wife.

Soon after the blacksmith left home Hartshorn walked over to the house and pointed a revolver at Mrs. Frye. The woman fled to an adjoining room and seizing her husband's revolver rushed to repel Hartshorn, who, as soon as she reappeared, opened fire The first bullet struck her in the head. As she fell to the floor she threw her revolver to Taylor and told him to shoot her assailant. Taylor fired three times at close range, one shot striking Hartshorn in the face and the second in the left arm. The third missed.

Within a few minutes Hartshorn left the first scene of the tragedy and although severely wounded was able to reach a stone wall which flanks his farm. He reloaded the empty chambers of his weapon, pulled out a bottle of strychnine and drank a dose large enough to kill three men, and fired a shot through his brain.

GORES AND KILLS HORSE

Mad Bull Also Tosses Two Men Before His Career Is Ended by Bullet Brattleboro, Vt., Sept. 25.—An Ayrshire bull, the prize exhibit of the farm connected with the Mt. Hermon school for boys at Northfield, Mass. developed a sudden attack of temper. ran amuck and tossed and severely injured two men and gored and killed a horse. A rifle bullet ended the career of the bull after four chambers of a revolver had been emptied into his body with little effect.

The injured men are Henry Gibbs. who was taken to a hospital in Greenfield, Mass., and Frank G. Helyer, manager of the Mt. Hermon farm, who sustained a fractured shoulder Both will recover.

Cheerful Business Outlook

New York, Sept. 25.-R. G. Dun & Co.'s weekly review of trade says that while there are a few bad or uncertain spots in the business situation, there are not sufficient to change the generally cherful, and in some respects, brilliant outlook.

Smoked Cigaret on Gallows

Carson, Nev., Sept. 25.—Calmly smoking a cigaret, and with stoicism proverbial of his race, George Williams, the Indian murderer of Barney Griffin and James Connors, prospectors at Stimle, was hanged at the state prison here.

Hudson-Fulton Stamps on Sale Washington, Sept. 25.-Fifty million postage stamps, issued by the postoffice department in commemoration of the Hudson-Fulton celebration, were placed on sale this morning at various offices throughout the country.

HANGED MANY YEARS AGO

View of Embatmed Body of Brother Upsets Aged Negroe's Nerves

Pittsburg, Sept. 25.—Henry Smithers, an old megro, is in a hospital half-brother, who was hanged for murder in 1877 and whose corpse, passing through the hands of two generations of undertakers, is preserved in an undertaker's shop here. Smithers was a witness in the alderman's court when the presiding alderman remarked that the negro resembled one he saw hanged thirtytwo years ago. The negro was questioned and finally taken to the undertaking shop, where he identified his HERBERT A. HAYDEN half-brother's body by scars and birthmarks.

The half-brother, James Smithers, court records show, was hanged in this county for murder and his body was turned over to an undertaker named Devore, long since dead. It passed through successive hands until it reached the undertaking establishment where it was found last

JOHN EARLY A LEPER

Authorities Pronounce Judgment on the Celebrated Case

Washington, Sept. 25.-Dr. G. A. Hansen, the discoverer of leprosy bacillus, has officially announced that he found the bacillus in the skin of John Early, the North Carolina soldier whose detention here for many months attracted wide attention.

A letter from American Consul Johnson, at Bergen, Norway, reports that at the international leprosy convention held at Bergen, Hansen said that he had found the bacillus in a piece of skin taken from Early, who is alleged to have contracted leprosy in the Philippine islands. The letter adds:

"Mr. Early's wife had sent a piece of the soldier's skin to Dr. Hansen for examination. Doubt regarding this famous case has been dispelled by examination of the highest authorities. The above decision will confirm what has already been established in Wash-

RELEASED FROM PRISON A WEEK AGO

Burglar Again In Custody After Duel With Police

Cambridge, Mass., Sept. 25.-A revolver battle, in which two patrolmen and a burglar figured early this morning, ended in the capture of the burglar, who gave his name as George Curtis and who is said to be well known to the Boston and New York police.

The man was carrying a bag filled r with \$300 worth of jewelry and silverware from the residence of Mrs. Jane Brooks of this city when two patrolmen caught sight of him and gave chase. The burglar emptied his revolver at the officers as he ran, but one of them overtook and captured

According to the police, Curtis was released from the state prison at Charlestown only a week ago. No r 2 13 abe one was injured.

FOOD PUMPED INTO THEM

Imprisoned Suffragettes Lead Prison Officials to Take Drastic Action

London, Sept. 25.-Wild scenes are reported to have taken place in r 6 20 abcdefghi 6 48 the prison at Birmingham as a result ir 6 52 abe of the forcible feeding with stomach pumps of the suffragettes who are on a hunger strike.

The women resisted the efforts of r 9 17 abo the keepers, smashed windows and r 10 09 abcdef assaulted the wardresses and finally r 11 20 abc had to be handcuffed and placed in solitary confinement.

The leaders of the suffragettes here are indignant over the attempt to feed the women. They contend that forcible feeding is illegal, and intend to bring actions against the medical authorities of the prison concerned in

ABSENT FOR TWO YEARS

Canadian Who Started For Arctic Circle Not Heard From Since

Winnipeg, Man., Sept. 25.—George Caldwell, an official of the Canadian marine department, who started two years ago to make a trip from Chesterfield Inlet, at the northwest end of Hudson bay, to the Arctic circle, has been given up for lost.

It was expected that Caldwell, who trains stop as follows: was accompanied by two Eskimos, would turn up at Cape Fullerton last autumn, but advices just received at the mounted police department say that he did not arrive at the post and nothing has since been heard from

Suicide With a Rifle

Milo, Me., Sept. 25.-Verne Mc-Alpine, a machinist, was found dead on the railroad track with a bullet hole in his neck. The body lay face that McAlpine committed suicide.

The Hudson-Fulton cele- world. It is estimated conservatively bration, which opened here today, that, in addition to the regular lightwill visualize their achievements.

transit facilities of the city are filled advertising display, there will burst to overflowing with the greatest into blaze tonight 26,260,000 candle crowd-more than a million, it is power. estimated-that has ever been attracted to New York.

the international salute of twenty-one batteries of searchlights-one of four guns from the Hudson-Fulton fleet to lights, aggregating 400,000 candlethe national and international flags of power, and the other of twelve lights, peace, the chimes of Old Trinity aggregating 1,700,000 candle power. church took up the refrain of "Glory and Good Will to Men."

girls in anticipation of the prophecy: never before realized. "A little child shall lead them."

At the same moment twenty-one the North river, where their emphatic acknowledgement floated down to the roar of the smoking guns below. As the fleet moved further up the river, the mechanical chimes of the new Metropolitan tower were heard, chanting in musical repetition, twenty-one times over, their greetings to the armored guardians of peace.

Old Ships Set Sail Moon and the Clermont-accurate of the ships of war will escort the reproductions of the little Dutch shallop in which an English master and a mixed crew first ascended the Hudson river from Manhattan island to ing the following week, beginning Albany, and of the ungaily monster, Oct. 3, there will be dedicatory, hiswhich Robert Fulton, an American inventor, made the same distance for Cohoes. the first time propelled by steam, moved from their anchorages in the lee of Staten Island to salute the vast bulk of the assembled American and List of More Than a Hundred Will foreign ships of war in the lower har-

The Clermont moved under her own steam. Her clumsy engines rattled and groaned in her open hull; her unprotected paddlewheels spattered foam on her decks, and she pushed slowly through the water at a speed of a little better than four miles an hour. She is built of wood, the ships around her are built of steel; she carried no whistle, nothing but a bell; steam sirens saluted her; her engines snorted their waste energy into the open

Great Treats In Store For the next eight days the people

of New York and visitors from all parts of the world will witness a series of pageants surpossing anything hitherto attempted in the way of historic commemoration. The crowning attainments of the twentieth century will be exhibited to set off those of the past. The leviathans of the world's navies have gathered to honor the two little ships that made history one and three centuries ago. Above the waters where eighty warships lie at anchor the conquerers of the airiwill exhibit their mastery. Airship flights, naval parades, military parades and historical pageants will all contribute to the anniversary. Every important nation is represented.

Delegates are in attendance from the governments of Abyssinia and the Argentine Republic, from Austria-Hungary, Bolivia, Brazil, Chile, China, Colombia, Costa Rica, Cuba, Denmark, England, Haiti, France and so on down the alphabetical list of all the nations of the world, with especial emphasis allotted the Netherlands, because of the prominent in the Munsey reliability contest for part they played in forming the early automobiles from Washington to history of the territory in which the Boston and return completed the first celebration is being held. With the half of the trip on arriving in Boston exception of our own, England and last night from Albany. Twenty-three Germany have sent the most notable of the twenty-five cars which startcontributions to the fleet of war ves- ed in the race came in. sels that have assembled.

Supplementing the parades by land down Fifth avenue and the naval! pageants of historic and illuminated | Sun rises-5:36; sets-5:36. floats opposite the Riverside Park, there will be thrown open during the High water-8:15 a. m.; 8:45 p. m.

The parades of street floats down Fifth avenue and through the court of honor, past the reviewing stands, have been planned two years in advance and worked out by a great staff of artists, sculptors, costumers and designers, night and day, in a specially designed factory.

Ships of the Air to Perform

But impressive as the naval parades will be, and colorful as will be the pageants, there is no question but that the greatest popular interest attaches to the airship flights that will be made from Governor's island some time during the first week of the celebration.

Just what the perfomances will be of Many Nations Responded to by must depend on the conditions of the Unfurling National and International atmosphere and the willingness of the Flags of Peace From Sky-Scraper— aviators, but the program calls for a Mechanical Chimes Chant Greeting North river, across Manhattan island to Armored Guardians of Peace, in the neighborhood of Spuyten Duyvil Which Are Saluted by the Half and down the East river, under or over the four great bridges that now

Nothing so daring before has even been contemplated, but both Wilbur Wright and Glenn H. Curtiss, his New York, Sept. 25.-The man most formidable American competitor, who discovered the Hudson river and have signed contracts to attempt at the man whose invention made it of least as much of it as their judgment

School Children to Participate

Educational emphasis will be laid on aerial bombs were shot high above all the more spectacular features of the celebration by arranging that wherever possible the 1,000,000 school children of Greater New York shall have a part in them, and it has been the design of the promoters throughout to arrange their displays in such wise that they may be seen by the largest number of persons.

On Oct. 1 will be a junction of the up-state and New York city divisions At 10 o'clock this morning the Half of the celebration, when the lesser Clermont and the Half Moon to Newburgh, where they will be turned over to the authorities from Albany. Durbelching smoke and hissing vapor, in toric and spectacular exercises at warious points between New York and

HURRICANE FATALITIES

Undoubtedly Be Swelled

New Orleans, Sept. 25.-With the list of dead from Monday's tropical hurricane well above a hundred every indication points to a much larger increase in the number of fatalities. Many small sloops and launces are lying wrecked on the gulf shores of Louisiana and Mississippi, and there seems little doubt that some of their occupants were lost.

Anxiety for the safety of steamers was too young then-and shrieking bound for New Orleans during the hurricane period on the gulf has been

Steamboat Williams arrived at Morgan City, La., bringing in a number of refugees. The rescued families have buried many bodies in the marshes. Similar reports have been received from Houma, La. Many stories of suffering are brought in.

VERDICT LONG DELAYED

Coroner's Jury Finds That Elsie Sigel Was Strangled to Death

New York, Sept. 25 .- Elsie Sigel was strangled to death by Leon Ling, according to the verdict of the coroner's jury rendered yesterday. With the police of the world hunting for Ling ever since the girl was murdered on June 10, the formal announcement of the cause of her death has been delayed by the chemist's examination of the body.

The coroner has discharged Chong Sing, the witness who swore that he saw Miss Sigel's body with a cord tight about the neck on Ling's bed and later saw Ling put it in a trunk.

Half of Long Trial Completed Boston, Sept. 25.—The participants

Every new plan to take money from people adds so much to the burden, and managers would do well each year in laying out plans for small cities to try to find what else is contemplated in the same city in the way of special features that call for the outlay of money during the same season. A lot of people have all the load they can bear now and not go to financial smash.-Brockton Enterprise.

THRILLERS AT BROCKTON.

Frenzio, Polar and The Globe of Death are three head-line acts in the big stage show at the Brockton Fair this year. There are seventeen others, but these three are worthy of special mention. Frenzio is a high diver, but instead of diving into the water he dives from a great height and lands on a wooden chute a yard in width, in fact he shoots the chute as it were. Polar is from dear old England and does remarkable feats on a pole 70 feet in the air. The top of this pole is about two inches in diameter and at times sways like a reed in the wind. The Globe of Death is a New York Hippodrome attraction and is a globe of latticed steel wire 16 feet in diameter. Inside this globe two women and a man ride cycles in various evolutions, and to cap the climax, CeDora, one of the daring women riders,, rides

a motor-cycle around the inside of

Quincy Daily Ledger the globe at the rate of a mile a minute, defying all laws of gravitation. These are but three of the stage show features to be shown on the three big stages at this big out-door show, October 5, 6, 7, 8,

Our Clenwood Parlor.

You Will Like One Of Our Souvenirs. Ask The Man.

In offering to place a "Glenwood Range" in your home, and accepting so small a payment, we do so with the idea that there are many housekeepers who would really like a Glenwood Range but do not feel that they can pay out so much money at one time, especially just at this season of the year when there are so many ways for money, but almost any one can spare a dollar a week from their house money and hardly miss it. This enables you to purchase the finest Glenwood we have and it will really pay for itself in the saving of coal.

We do All Kinds of Furniture Repairing and Upholstering.

Next Week is Glenwood Souvenir Week. Call and Get One.

Our good old fashioned "Glenwood Parlor" will give you more heat and take less coal than any of the more modern heaters and we cheerfully recommend this stove as being the most satisfactory of all the heating stoves offered at any price.

It is made of fine smooth castings and the best of Russia Iron funnel, has a large, deep fire-pot will burn the coal clean, and requires but little attention. The full indirect draft prevents the heat escaping up the chimney and consumes all gases, and altogether is the most economical heating stove ever built.

Our Auto Truck makes Prompt Delivery at any Distance.

If You Save 15 Cents a Day You can own a Glenwood.

A Hurry-up Medicine.

Every housekeeper recognizes the need of effective remedies to be used in emergencies—when something must be done right away. Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mission of mercy began seventy years ago. It is used in all countries and millions of bottles are sold annually. There is but one Pain-killer, Perry Davis'. Have you seen E. Baker, Sachem street.

Don't get the news three or four days old in a round-a-bout way but read the Ledger. Get the Ledger reading habit every day and get all the news when it is news.

figures of which have just appeared, shows that excess of women over men in this good old Commonwealth. Single blessedness therefore, becomes a choice only in the matter of deciding whether or not to stay in this locality. The sagacious editor of a Maine paper advises our surplus to go west, and, after all, there might be a worse fate in store. The girl is rare, even in staid old Boston, who has not at some time wished she might live -the life of the ranch and masquerade as a cowboy. It would not be surprising, since the publication by the state of these disheartening figures, if the masculine element in the middle and far west should suddenly find itself submerged by a tidal wave of femininity, isms, ologies and all. And just think, in the Philippines the American boys are offering all sorts of inducements to young women, lovely or

with pleasant if not open mouthed anticipation the opening of the new Harvard Dental school in the Fenway this month. It has long been felt that there should be closer affiliation between the dental and medical schools and to bring about this union was one of former-president Eliot's chief desires. With the opening of the institution's 42d year the dignified and beautiful building near the white marble medical school will take its place among the steadily increasing number of important educational and artistic centres which have come to be known collectively as the "university of the Fenway," and which, in their unique character and educational value, are unequalled anywhere in America. The Harvard Dental school will serve as school and hospital, and its conduct will be in close association with the Medical School with which it is connected by subway. With two such institutions as the Tufts and Harvard medical and dental schools within a stone's throw of one another, the Hub is unquestionably the leading city of the world in these branches of education.

"God made the country, man made the town." The latter named has not always been very successful at the job, but he is likely to improve. A large sign in front of the old Art life. He gave seances, told fortunes in Museum building in Copley Square great city-beautiful exposition of the Boston-1915 movement will open there early in November, and one hears that efforts ane being made to render this over the government even at Rome and the most monumental exposition of its kind ever attempted in this country. How to find a room was a unique but very timely topic for a Sunday dissertation recently chosen by Rev. Allan Stockdale, the well known Bos-

ton pastor. This is a serious question to thousands of people at this season particularly, when young men and oung women students are flocking to the city for the opening of the schools and colleges. Mr. Stockdale gave some valuable advice against endeavoring to follow the so-called Bohemian "Boston-1915" Exposition will be a fashion of living. He also claimed that taking a room, after leaving the protecting surroundings of a home, is Rai Bahadur Surja Kanta Acharya, one of the severest tests of character, Maharaja of Mymensingh, a name due not only as to morals but as to ability to no typographical pi, has been duly to make one's surroundings comforthonored in the dedication of the re- able and homelike, and to maintain a ment book on India by J. Keir Hardie, certain consideration for one's land-M. P. which is exciting considerable lady. Mr. Stockdale spoke feelingly interest in the Hub just now. STATE POLITICS

Contests In State Are Now Assuming Definite Shape

INCOME TAY IS LARGE ISSUE

Labor Vote Very Much Divided Over Governorship-Large Element Favors Governor Draper - Suffolk County District Attorneyship

The present time is a period when the various contests throughout the state are assuming shape and foreshadow the result of the conventions. conventions next week, the sharp work of the campaign will soon be

There is, however, comparatively little in the way of new developments since last week. The caucuses are over and the air is full of claims of candidates which will be verified or disproved shortly by the results of the various conventions

There is a good deal of interest in the income tax proposition. If the Massachusetts legislature of 1910 adopts the resolution for the amendment of the federal constitution in such a manner as to permit the imposition corporations in the various states, without regard to state population or pro rata apportionment, then a federat income tax law will undoubtedly be passed by the next session of congress and put in force forthwith. That will mean that the wealthy states like New York, Pennsylvania, Massachusetts, Rhode Island, Connecticut and Illinois will pay a greater sum than all other states in the union, probably twice as much.

May Impose Income Tax Now Congress at the present time is permitted by the constitution to levy an income tax pro rata upon the states right has been exercised once; that There are a great many people in the state, who are convinced congress ought to have this right in times of war or during great emergencies, but who deprecate any action which would give congress the power to levy such a tax at other times.

That is the reason why the makeup of the next legislature is considered extremely important. Those who favor the income tax proposition are scrutinizing sharply the candidates for the house and senate on both sides the political fence. The Democratic party is naturally committed to this issue by reason of the fact that the Democratic national convention do not favor such a tax, but they are

The Republican party is not committed to the income tax by any party members of the senate, which is a liberal estimate, it would be necessary for the promoters of the income tax to secure the support of something like forty-five Republican members of the house and ten or eleven members of the senate in order to secure the passage of this resolution. It is possible that this may be accomplished, but the chances today do

Split In Labor Vote

There is very little change in the situation so far as the governorship is concerned except that the labor vote in the state is likely to be more widely split this year than ever bewriting and even spoke freely, with fore since the state branch of the lets every passerby know that the the aid of the prophet's ventriloquial American Federation of Labor first powers. Alexander grew rich and pow- came out in opposition to Governor erful, kept a small army of retainers Draper. When the state branch of and spies, wielded no little influence the A. F. of L. met in special convention some weeks ago for the disdied at a ripe old age in the fullness of tinct purpose of passing resolutions against Governor . Draper, because of nobody knows. Probably at the last his veto of the so-called eight flour bill, quite a number of delegates to that convention deprecated the attack. slaught was intemperate, ill-advised and drastic, and that it would not injure the governor, but prove harmful to the cause of labor. Representative Doyle of New Bedford was one of those who opposed such action. The convention, however, declared that anyone using his influence in favor of Governor Draper was a traitor to the cause of labor. However, Doyle has been solidly backed up in his attitude by the Boot and Shoe Workers' union of New Bedford, of which he is a member. The executive committee of that body finds that the labor leaders themselves were divided as to the merits of the bill vetoed by the governor, that several of them considered it an unwise measure and thought

izations it would look as if the American Federation of Labor in this state had made a sorry spectacle of itself and been used by Democratic politicians to serve the ends of schemers. rather than to protect the best interest of the working men themselves. It looks as if it were high time that the labor movement thrust out from its midst such men as those who seel to trail organized labor at the chariot wheels of the Democratic party. Boston's District Attorney

The Democratic leaders are as much at sea as ever, so far as can be discerned, over the district attorney nomination in Suffolk county. It has been said that Joseph A. Dennison, a former assistant district attorney under Moran, can have the nomination if he so desires.

Mr. Dennison was not before the people as a candidate in the caucuses, but the leaders control the delegates and the nomination. There are two candidates in the field, Felix W. McGettrick, one of Moran's deputies, and Councillor Edward P. Barry of South Boston. While some of the delegates are for one or the other of these men, the great mass is really unpledged. Democratic leaders can easily control the nomination; if Dennison were sure that he could unite the party he would go into the fight. It is quite unlikely that there will be any such thing as a united Democracy, however, on this nomination. A good many of the leaders feel sure that District Attorney Hill is going to be elected and while they would like to control the office, some of them feel as if it were time wasted to undertake to do so. Mr. Hill has been

such a great success during the time he has been in office that his election is felt to be practically certain.

GRAY HAIRS BANISHED. The old idea of using sage for dark-

ening the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of it souring quickly. This objection has been overcome and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemi Company, 74 Cortlandt St., New York City, upon receipt of price.

MOTHER EARTH STILL WAGGING

"Holy Rollers" Are Awaiting Coming of the Messiah .

ELDER HAS NEW REVELATION

Not Much Disappointment When He Announces That Judgment Day Is Delayed Twenty-Four Hours-Clergyman Admits That It Took All His Will Power to Fight Influence of Leaders of Immersionists

West Duxbury, Mass., Sept. 25 .-Awaiting the end of the world, which they believe will come before 6 o'clock tonight, the 300 or more members of The Latter Reign of the Apostolic Church, who call themselves "Triune Immersionists" and are popularly known as Holy Rollers, held a long watch meeting last night in their bethel at Ashdod, on the main turnpike between Boston and Plymouth. while hundreds of curious people from the neighboring villages lingered outside the structure to note the progress of events.

The curtains at the windows of the bethel were all drawn close and little of what occurred within was evident to outsiders. Apparently there was a praise service and exhortations, and occasionally a voice pitched high in prayer was heard exclaiming: "O Lord, come soon; don't disappoint us.'

Although 10 o'clock yesterday forenoon was originally set as the hour of the coming of the end of all things, the faithful showed little disappointment when one of the elders announced that he had had a new revelation that the world would not be destroyed until sometime during the twenty-four hours beginning at 6 o'clock last night.

At 4 o'clock in the afternoon the meeting in the bethel, which had continued all day, was adjourned for supper and the members of the sect went to various houses in the little settlement for material sustenance. Between 5 and 6 o'clock there was a baptismal service in a neighboring pond, where four children were immersed and received into the church.

Rev. Dillon Bronson, D. D., of Brookline, who is spending his vacation at Scituate, was a visitor to the camp, and on account of the office which he holds his request to be allowed to attend one of the meetings was granted. His version of the experience within the church may account for some of the fervor of those who are looking for the end of the world at this time, and when he admits that it took all of his will power to fight the influence of those who are the recognized spiritual leaders of the movement, it shows how powerful must be the influence worked upon the minds of the people assembled at the services.

Dr. Bronson stated that the experience was actually terrifying. While he was there a young woman went into a trance, stood up and walked around waving her arms. She finally started down one of the aisles and the man sitting next to the Brookline minister turned and said: "She may be coming to you."

"I have no fear," responded Bronson, and he hardly had said it before the woman in the trance made her way opposite to where was seated. put out her hand, touched him on the shoulder and made a sound like the chirping of a bird.

At that time the congregation was in a state of fear. Many were weeping and trying to dry their eyes with their pocket handkerchiefs; heads were bowed and there was a sort of hypnotic tension all through the chapel.

Dr. Bronson said he could easily have succumbed to the woman's hypnotic influence had he not set his will strongly in opposition. Judging from what he saw, he did not wonder that those present were practically under a spell. So far as he could judge they were of a faithful home-loving type, but that they are being deluded into a kind of religion through a hypnotic spell, as it were.

Didn't Wait For Trumpet's Sound Watertown, Mass., Sept. 25.—His pockets filled with newspaper clippings which told of the belief of a certain sect in the coming of the end of the world, and expressing his personal faith in the fact. George Ullhekson, aged 28, came here from Boston to accept a job in a local bakery and soon after was found dead with his throat cut by a bread knife.

eoach on the very instant of the start.

(Continued from yesterday.)

There fell a short pause; then, "Why, will you tell me, is it necessary to run away from my father, Mr. Kirkwood?" she demanded, with a moving little break in her voice.

CHAPTER XXIV.

IRKWOOD hesitated. It was unfeeling to tell her why, yet it was essential that she know, however painful the knowledge might prove to her.

And she was insistent. He might not dodge the issue. "Why?" she repeated

as he paused. "I wish you wouldn't press me for an answer just now, Miss Calendar." "Don't you think I had better know?"

Instinctively he inclined his head in

"Then why?" Kirkwood bent forward and patted the flank of the satchel that held the gladstone bag.

"What does that mean, Mr. Kirk wood?" "That I have the jewels," he told her

tersely, looking straight ahead. At his shoulder he heard a low gasp of amazement and incredulity com-

mingled. "But-how did you get them? My father deposited them in bank this morning?"

"He must have taken them out again. I got them on board the Alethea, where your father was conferring with Mulready and Captain Stryker."

"The Alethea!" "Yes."

"You took them from those menyou! But didn't my father"-

"I had to persuade him," said Kirkwood simply "But there were three of them

against you!" "Mulready wasn't-ah-feeling very well, and Stryker's a coward. They gave me no trouble. I locked them in Stryker's room, lifted the bag of jew-

els and came away. I ought to tell you that they were discussing the advisability of sailing away without you leaving you here, friendless and without means. That's why I considered it my duty to take a hand. I don't like to tell you this so brutally, but you ought to know." "I understand."

But for some moments she did not speak. He avoided looking at her. The fiacre, rolling at top speed, but smoothly, on the broad avenues that encircle the ancient city, turned into the Avenue de Keyser, bringing into sight the Gare Centrale.

"You don't-k-know"- began the girl ofthout warning, in a voice gusty with

"Steady on!" said Kirkwood gently. "I do know, but don't let's talk about it now. We'll be at the station in a minute, and I'll get out and see what's to be done about a train if neither Mulready nor Stryker is about. You stay in the carriage. No!" He changed his mind suddenly. "I'll not risk losing you again. It's a risk we'll have to run in company."

"Please!" she agreed brokenly. The flacre slowed up and stopped. "Are you all right, Miss Calendar?"

Kirkwood asked. The girl sat up, lifting her head proudly. "I am quite ready," she said, steadying her voice.

Kirkwood reconnoitered through the window while the driver was descend-

"Gare Centrale, m'sieu'," he said, opening the door.

"No one in sight," Kirkwood told the girl. "Come, please." He got out and gave her his hand, then paid the driver, picked up the

two bags and hurried with Dorothy into the station to find in waiting a string of cars into which people were answer for Hobbs." moving at leisurely rate. His inquiries at the ticket window developed the fact that it was the 22:26 for Brussels, the last train leaving the Gare Centrale that night and due to start in ten minutes.

The information settled their plans for once and all. Kirkwood promptly secured through tickets, also purchasing "reserve" supplementary tickets which entitled them to the use of those modern corridor coaches which take the place of first class compartments on the Belgian state railways.

"It's a pleasure," said Kirkwood lightly as he followed the girl into one of these, "to find oneself in a common sense sort of train again. Feels like home." He put their lug-

gage in one of the racks and sat down The girl smiled bravely. "And after

Brussels?" she inquired. "First train for the coast," he said promptly-"Dover, Ostend, Boulogne, whichever proves handiest, no matter

which, so long as it gets us on English soil without undue delay." She said "Yes" abstractedly, resting 27 CRANITE STREET an elbow on the window sill and her chin in her palm, to stare with serious, sweet brown eyes out into the

(To be Continued.)

TIME TO ACT.

Don't Wait for the Fatal Stages of Kidney Illness. Profit by Quincy People's Experiences.

Occasional attacks of backache, ir-egular urination, headaches, and dizzy regular urination, headaches, and dizzy spells are common early symptoms of kidney disorders. It's an error to neglect these fils. The attacks may pass off for a time but return with greater intensity. If there are symptoms of dropsy—puffy swellings below the eyes, bloating of limbs and ankles, or any part of the body, don't delay a minute. Begin taking Doan's Kidney with the treatment until the beach to the left and back of the beach to the left and back of the spells and keep with the treatment until the beach to the left and back of the spells are common early symptoms of kidney and the beach to the left and back of the beach to the left and back of Pills, and keep up the treatment until the kidneys are well, when your old time health and vigor will return. Cures in Quincy prove the effectiveness of the great kidney remedy.

beauty, striving with all his soul to analyze the enigma of that most inscrutable smile.

It baffled him. He could not say of what she thought and told himself bitterly that it was not for him, a pauper, to presume a place in her meditations. He must not forget his circumstances nor let her tolerance render him oblivious to his place.

Which must be a servant's, not a lovelong that sould be great kidney remedy.

H. A. Vinton, living at 558 Washington street, Quincy, Mass., says: "Doan's Kidney Pills completely cured me of kidney trouble which had been in my system for at least ten years. Before using this remedy I had severe pains in my back and loins, and they seemed to be of a rheumatic nature, I consulted a doctor and tried many remedies but received only temporary relief. Being advised to try Doan's Kidney Pills I procured a box at the Cox Drug Store, and began their use. They which must be a servant's, not a lov-er's.

The better to convince himself of

The better to convince himself of this he plunged desperately into a for-lorn attempt to make head or tail of Belgian railway schedules, complicat-

HISTORIC QUINCY.

Old historic Quincy settled in 1625 has much of interest to visitors. When Braintree was incorporated in 1640, the territory now known as became an independent town, and in

Quincy was named in honor of Col. John Quincy, descendant in the third generation from Edmund, 2d, who set-"Precious little," he grumbled. "I'd tled in Quincy, in 1634; grand-father give my head for a Bradshaw! Only of Abigail (Smith) Adams, the wife it wouldn't be a fair exchange. There and mother of a President of the Uni-

leaving the Gare du Nord, Brussels, at fifty-five minutes after 23 o'clock, tic, Quincy Point, South Quincy, West and if I'm not mistaken that's the Quincy, Montclair, Norfolk Downs, latest train out of Brussels and the Wollaston Park, Squantum, Houghs earliest we can catch-if we can catch Neck, Adams Shore, Germantown and it. I've never been in Brussels, and Quincy Neck, comprising in all over heaven only knows how long it would 16 square miles, of which 2,530 acres

Birthplaces of Presidents.

to decide upon your business education. No to decide upon your business education. No school can make of you a first-class stenographer in so short a time. No school can give you as good a business education for the amount of money. The graduates of our TEACHERS department are in demand; they earn 50 per cent more teaching commercial subjects. Investigate before deciding. The Perntu School of Business, Inc., 665 Washington street, Boston. July 3 0-13w--l-w. s.-13w UP-TO-DATE CITY.

Mrs. Rufus Pierce of Wood street, West Quincy has been the guest this week of Mrs. Mary Pierce Bassett formerly of Quincy at East Manchester, N. H., and has been visiting many points of interest in that city. Mrs. Bassett states in a letter to the Ledger that Manchester is a "neat upto-date" city and that it is a delight to shop there on a Saturday night because of the splendid lighting facilities. Manchester is the first city in please notify Y. Ledger Office and receive New England to adopt the new system of street lighting by electric arches over the streets. The main street is spanned by ten arches covering almost the entire business section.

Another feature of great interest visited was the wonderful incline rail- Make big money. For particulars address way which makes the ascent to the P. O. Box 52, South Weymouth, Mass. summit of the Unacoonuc Mountain up the precipitous side with its protruding ledges and jagged boulders. Writing of this mountain Mrs. Bassett says, "From the tower of the hotel at the summit one obtains a magnificent view of mountains and also of the green valleys stretching away in the east to the Atlantic." With its beautiful scenery, parks, high altitude and new system of lighting, Manchester must indeed be an ideal place to visit as well as to live in.

From Saturday's appearance it is very evident, for all the paper talk, schools regularly, otherwise they canthat Dorchester High has not a very not legally be employed. bright prospect this year unless matters change very soon. The showing against such a team as Needham High was very weak and it is very evident that the team is not as good even as last year's eleven.

"Twink" Coleman, an ex Adams Academy boy is at Union College, New York, and has a fine chance to make quarter on the varsity. He is a heady player and a thorough student of the game and should make good.

POOL TOURNAMENT.

Plans are on foot at the Y. M. C. A.

for the running of a pool tournament immediately. The season is dull at present and this would be of great interest to the members if it can be done. The table will be put in good condition for play and good prizes offered to the winner. And incidentally it should bring to the fore the best pool player in the Y. M. C. A., an hon-000001004-5 6 0 or much in doubt at present. All those 000002000000 4 3 interested should see Mr. Gay, the secretary, who will refer them to the committee in charge.

NECESSARY

Condemned by Engineers

Engineers have condemned the Neponset bridge between Quincy and Neponset as being unsafe and it is Quincy and Boston City Councils will be appointed in the near future to arrange for a new structure.

The present bridge was erected wenty-five years ago and has been the principal route of traffic between the south shore and Boston for wagons and other vehicles. The Quincy end of the bridge is in fairly good condition and would last, for at least en years more. The Boston end nowever is not only considerably narrower than the Quincy end, but is in bad repair. The draw which is on lition and about half of it has been closed to travel for some weeks. This has been fenced off and vehicles and foot passengers and electric cars have o cross over a narrow passage. The result is that there is much interfer-

MASS MEETING.

Steam Engineers Union to Hold Mass Meeting in Quincy Oct. 7.

A mass meeting of the steam engineers' union is to be held in Quincy Oct. 7. Fred W. Dethridge, state vice president will preside. The meeting will be be held in Hibernian hall. The Central Labor Union which meets the sam eevening will adjourn and march in a body to the engineers' meeting.

The Salem News thinks that the best way to raise a sufficient revenue is to cut off expense . And who is bold enough to say the News is not and at 3 o'clock was again uncom-

The richest town in the State has accepted the Luce caucus law, says the Lynn Item, and on Tuesday the wealthy voters showed how lightly they regard their political duties. Nineteen Republicans and 20 Democrats were present, out of a total of 4751 legal registered voters, one of whom is speaker of the House of Representatives. Popular government is a good thing to talk about, but in Brookline they leave it out to 39 men, less than one per cent.

It is given out that 15 years ago the annual cost of medicines for each patient at the Massachusetts General hospital was about \$2.90. Last year it was only 91 cents. Meantime the percentage of recoveries has materially less on drugs and more upon the recuperative powers of nature.

Justice, Liberty and Truth are lo cated in New York at the present time, but as they are the names of three French warships sent over to take part in the Hudson-Fulton celebration, their stay will not be indefinite, more's the pity.

At this season when so many young persons are entering college, it may be timely to say a word about the moral decisions which young men especially must make after they enter college. Many parents fear that their sons will be contaminated and their integrity impaired by the temptations which will assail them. But we are convinced, from observation and experience, that the main decisions relating to companionship, amusements, sensual gratifications and intellectual pursuits, are commonly made within six weeks after a Freshman enters college. The company he will keep, the temptations that he will encounter, will largely be determined by what his home, the preparatory school, and the neighborhood in which he has lived have made him. Birds of a feather will flock together.-Christian Register.

COLLEGE BEGINS.

Again the college portals swing open and again a host of fellows spend perfunctory hours in the class rooms while putting their real hearts into sports. The management of athletics is a problem which our colleges have failed to solve. The fellows who play on the teams or try to reach them, give far too much attention to sports, while the others give too little. There tion, rest in their sheds on Governare a host of "grinds" and bookworms, also a lot of society idlers of another type, both of which classes would be benefited by the requirement that they spend at least an hour a day at some athletic game.

The college of the future will adjust this thing better. It will limit the number of inter-collegiate contests, so that teams shall not devote such an enormous amount of time to something that is not the primary object for going to college. On the other hand there will be some requirements that physical weaklings get out and take the training that they need more than anything to be found in books .-Beverly Times.

NOT ECONOMIC POLICY.

The continental countries will soon learn that the habit of permitting the unfit to cross the ocean only to be returned is not a sane economic policy. The trip over not only costs money at the average rate of one foot for but represents loss of time to those wage-earners who are refused admission here. The man who gives up his job on the other side and is sent back disturbs labor conditions by his unexpected reappearance. Hence, it will be wise for the nations across the Atlantic to do some inspecting before opening the gates to would-be immigrants.-Framingham News.

-Save the broken lens; we match it. We grind them at 1473 fleet in New York harbor at this time can Hancock st., Quincy. You may watch would add interest to such experithe operation. Williams. Tel. 279-3. | ments.

WITH VISITORS

Will Spend Twenty-Five Million Dollars In New York

EXCURSION STEAMERS BUSY

Water Front and Churches Crowded With Carnival Sightseers-Wright and Curtis Ready to Give Exhibition Flights-Some Difficult Stunts of Scientific Nature Will Be Attempted by Both the Noted Aviators

New York, Sept. 27 .- The sailormen of eight nations-England, Ger-Braintree 130 many, France, Italy, Holland, Mex--wandering along the streets of New York Sunday, mingling with visitors | bered. liant opening of the Hudson-Fulton

Beginning at noon, Riverside Drive, a vantage point affording a magnificent view of the anchored armada of battleships, began to fill up rapidly fortably crowded, although there was no organized naval parade Sunday.

The Half Moon and the Clermont lay quietly at their anchorages, where they will remain until the naval parade parade of Oct. 1, when both little pioneers, escorted by the lightdraft warships and followed by the merchant fleet again, will sail up stream to Newburgh, where they will be turned over to the Albany upstate division of the celebration.

But circling about the fleet of battleships Sunday there was an almost unbroken line of deep sea excursion ports all hands well. steamers, jammed to the rails and listing heavily to one side with the pressure of the crowds. At the same time a scurrying flotilla of motor boats was bobbing about on the roughened waters of the river, carrying visitors to and from those battleincreased. Medicine gains by relying ships which were receiving for the

American officers spoke of the splendid appearance presented by the British flagship Inflexible.

Special Hudson-Fulton were conducted in all of the churches. Forms of prayer prescribed for the occasion by Bishop Greer of the Episcopal church and by Archbishop Farley of the Roman Catholic church were read in every parish of their dioceses. Many who could not get into Old Trinity crowded the church yard to view the garlanded grave of Robert Fulton.

Rev. Dr. McArthur of the Cavalry Baptist church said in anticipation of the aerial flights: "You smiled yesterday when you saw the Half Moon and the great ships of today, but the day is coming when our great steamships now encircling the globe will be as insignificant with the airships soon to navigate the skies as are the ships of a century ago when compared with ours."

Twenty-five million dollars competent authorities estimate as the sum in round figures that out-of-town visitors to the celebration will leave in New York. Hotel proprietors familiar with the general situation set 600,000 for the number of guests now housed under their roofs, and in more modest lodging houses and even in single rooms in flats let out for the week by their thrifty tenants, it seems safe to say there are 400,000 more. Allowing for possible exaggeration, it seems safe to estimate the entire outof-town crowd at between 800,000 and

1,000,000. The aeroplanes of Wilbur Wright and Glenn H. Curtiss, which will bring a phase of the utmost modernism into the Hudson-Fulton celebraor's island, practically ready to soar forth to demonstrate the conquest of the air, as Hudson and Fulton overcame the perils of water navigation.

Both aviators may attempt flights today, but as the two aeroplanes are of different type there will be no contest between them. Their pilots will seek rather to demonstrate that they have perfect control of their machines. In short, it will be an exhibition of scientific accuracy in aeroplaning-soaring, gliding and turning like the birds.

In one of his first flights Curtiss will attempt to cross the bay and circle the statue of Liberty. Also he may attempt some experiments in the matter of speed, for which he holds the world's record.

Wright says that besides essaying sharp turns of more or less of a scientific nature, he will, if the opportunity presents itself, try to glide with the motor stopped. As the machine falls every eight which it travels forward, Wright hopes to demonstrate its equilibrum. He expects to make his first preliminary flight this afternoon. Curtiss is planning to equip his aeroplane with two pontoons so that he will be able to alight on the water. If weather conditions are favorable he may continue experiments in rising from the water in an effort to demonstrate the utility of the aeroplane for

BATTLE FOR NEW TRIAL

Counsel For Chester Jordan Say That One of Jurymen Was Insane

Cambridge, Mass., Sept. 27 .-Testimony tending to show that Willis A. White of Maynard, a member of the jury which convicted Chester S. Jordan of Somerville of the murder of his wife, was insane previous to the time he served on that jury was introduced at a hearing in the superior court.

Attorneys for Jordan have appealed for a new trial on the ground of the alleged insanity of White, who is now in an asylum. Witnesses told of White's strange actions in the days mmediately following the close of the

surrounded with gruesome circumstances. Jordan was arrested after he had been found preparing to flee from Boston with a trunk, in which were found portions of his wife's body. The trial developed the fact that she was murdered by being hit on the head with a flatiron and that her body was afterwards dismem-

AN OLD-TIME PRESCRIPTION

in a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troublesome and not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

"MERELY A MISCALCULATION

Dne Brother Says Coming of Christ May Not Occur For Fifty Years-Rain Does Not Dampen Ardor of the Faithful Immersionists Who Remain In Camp-Wierd Services by the Faithful In Kitchen of Chapel

Duxbury, Mass., Sept. 27.-The time set for the end of the world, as revealed in visions to some of the more radical of the Triune Immersionists who have gathered at Ashdod for the past few days, has passed, and last night, at the little chapel of the faithful, a service of prayer and song was held to ask the counsel of God and to await His revelation Dozens of the faithful have given up all hope of the great glorification at the present time and have gone to their homes, but others have arrived to take their places.

There were two more baptisms Sunday, bringing the total number of immersions at the present conclave up to forty-eight.

That the date of the coming of the millenium was merely a miscalculation by a few of the more radical members which resulted in the gathering now dispersing is the statement of several of the conservative members of the sect. They affirm that the end is near, but the time is uncertain, they say.

One of the elderly brethren said that Christ's coming might be so far as fifty years in the future, as, "In God's sight a thousand years is as a moment." This brother thought the computations of human beings might be in error, which accounted for the fact that the end did not come Satur day night.

Rain fell heavily throughout Sunday, but had apparently little effect on the exercises of the little band. Re ligious services were held in the chapel and were continued last night in the hope that some revelation of the spirit might be made regarding the purification of the earth by fire or that some counsel as to the future might be given.

The meeting at the chapel was thrown open to such outsiders as cared to attend and was conducted much in the same manner as praye and testimony meetings of other de nominations. But near by in a room that serves as a kitchen there was another meeting, at which only the faithful were allowed admittance. The room, which is forty feet long by thirty feet wide, was crowded

waiting for some revelation. On young woman dressed in black seemed resting upon her shoulders, and with eyes half closed and face uplifted she was muttering strange sounds, incomprehensible to the "sinners" who stood open window.

Several of the elders stood abou the woman listening intently to th whether she was about to receive revelation or not those outside the window could not tell, for within a few minutes the shades were drawn and the revelation, if it came, was to be made only to the faithful. The traveling provision dealers

have been reaping a small harvest of coin, for the immersionists have proved to be the best of cash customers and large buyers. The bakehouse of Plymouth have been called upon to furnish supplies to the camp and the farmers in the vicinity have done a thriving business in milk, eggs and vegetables.

None of the brethren could be induced to tell how much money was collected at the camp nor as to what purpose the money and jewels were to be put. The vague statement that the money was to be used for "expenses" was made, and that was all

Yacht Lands on Rocks Gloucester, Mass., Sept. 27.-Th heavy northeast storm Sunday piled up the twelve-ton sloop yacht Cruise of Bath, Me., on the rocks off Annisquam light and the two men on board Captain Holden and Dwight Webster were taken off. The boat received a bad pounding on the rocks, but was later floated.

Florida Negro Lynched

Live Oak, Fla., Sept. 27 .- Swinging from a limb at Perry, the bullet laden dead body of Charles Anderson a negro, was found, a mob having imposed the death penalty because Anderson shot and killed Marshal Hawkins while trying to arrest the negro for a minor offense.

Convicted of Manslaughter Portland, Me., Sept. 27 .- A jury in the superior court found a verdict of guilty against Stephen J. Flaherty, who was indicted for manslaughter in causing the death of Patrick Connolly, with whom he had some words in a pool room. Sentence will be imposed

And when we left you at Bermondsey Old Stairs. after what you had said to me, I felt-I hardly know what to say-abandoned

in a way." "But you were with your father, in

his care." "I know, but I was getting conkept me from thinking. But you made me think. I began to wonder, to question. But what could I do?" She signified her helplessness with a quick and dainty movement of her hands. "He is my father, and I'm not yet of age, you know."

"I thought so," he confessed, troubled. "It's very inconsiderate of you. tion was short. He had hoped to find trains stop as follows: you must admit."

"I don't understand." "Because of the legal complication. I've no doubt your father can 'have of dealing with her save in terms of the law on me' "-Kirkwood laughed uneasily-"for taking you from his protection."

"Protection!" she echoed warmly. "If you call it that!" "Kidnaping," he said thoughtfully

"I presume that'd be the charge." "Oh!" She laughed the notion to scorn. "Besides, they must catch us first, mustn't they?"

of confidence sadly deceitful-"they Frederick Hallam was the man who shan't, Mr. Hobbs to the contrary notwithstanding."

"You make me share your confidence

against my better judgment." "I wish your better judgment would counsel you to share your confidence with me," he caught her up. "If you would only tell me what it's all about, as far as you know, I'd be better able to figure out what we ought to do."

CHAPTER XXV.

RIEFLY the girl sat silent, staring before her with sweet, somber eyes. Then, "In the very beginning," she told him, story bookish, I know-in the very beginning George Burgoyne Calendar, an American, married his cousin a dozen times removed and an Englishwoman, Alice Burgoyne Hallam."

"Hallam!" must. Kirkwood, watching hungrily rication, it passed muster. To the girl tate: the fair drooping head, the flawless profile clear and radiant against the than the discoveries that resulted from night blackened window, saw hot signals of shame burning on her cheek and throat and forehead.

"But never mind," he began awk wardly.

"No," she told him, with decision. father-there was trouble of some sort -at all events, he disappeared when I was a baby. My mother-died. I was Colonel George Burgoyne of the Indian army, retired. My mother had been his favorite niece, they say. I presume that was why he cared for me. I grew up in his home in Cornwall. It was my home, just as he was my father in everything but fact.

"A year ago he died, leaving me everything-the town house in Frognall street, his estate in Cornwall. Everything was willed to me on condition that I must never live with my father nor in any way contribute to his support. If I disobeyed, the entire estate without reserve was to go to his nearest of kin. Colonel Burgoyne was unmarried and had no children."

The girl paused, lifting to Kirkwood's face her eyes, clear, fearless, truthful. "I never was given to understand that there was anybody who might have inherited other than myself," she declared.

don. I did so-guess how gladly! I New York, New Haven OLD COLONY STREET RY. CO. was alone in the world, and he my father, whom I had never thought to see. We met at his hotel, the Pless. He wanted me to come and live with him; said that he was growing old and lonely and needed a daughter's love and care. He told me that he had made a fortune in America and r *5 14 abcdefgh1 5 42 was amply able to provide for us both. r 6 13 abe As for my inheritance, he persuaded r 6 43 abc me that it was by right the property | r 7 13 abc of Frederick Hallam, Mrs. Hallam's

"I have met the young gentleman," interpolated Kirkwood.

"His name was new to me, but my r 7 52 abode father assured me that he was the r 8 13 abe next of kin mentioned in Colonel Bur- r 8 31 Exp. goyne's will and convinced me that I r 851 a had no real right to the property. After all, he was my father. I agreed. I could not bear the thought of wronging anybody. I was to give up everything but my mother's jewels. It seems-my father said-I don't-I can't | r 11 13 abc believe it now"-

She choked out a little, dry sob. It | r 12 21 abc was some time before she seemed able | 12 59 Exp. to continue.

"I was told that my great-uncle's r 143 abe collection of jewels had been my moth- | r 2 13 abc er's property. He had in life a passion for collecting jewels, and it had been his whim to carry them with him wherever he went. When he died in Frognall street they were in the safe by the head of his bed. I, in my grief, r 5 29 abedefghi 5 57 at first forgot them and then afterward carelessly put off removing them.

"To come back to my father, night | r 6 52 abe before last we were to call on Mrs. Hallam. It was to be our last night in England. We were to sail for the r 8 05 abcdef continent on the private yacht of a r 9 17 abc friend of my father's the next morn- r 10 09 abedef ing. This is what I was told and be- r 11 20 abe lieved, you understand.

"That night Mrs. Hallam was dining at another table at Pless, it seems. I did not then know her. When leaving she put a note on our table by my father's elbow. I was astonished beyond words. He seemed much agitated, told me that he was called away on urgent business, a matter of r 11 16 abedefghi 11 44 2 45 Exp. 3 02 life and death, and begged me to go r 1 13 abe alone to Frognall street, get the jewels and meet him at Mrs. Hallam's r 4 16 abcdefghi 4 44 5 27 cba later. I wasn't altogether a fool, for r 5 13 abc fused. Until then the excitement had I began dimly to suspect then that something was wrong, but I was a fool, for I consented to do as he desired. You understand-you know"-

> now that I didn't five minutes ago. Please let me think." But the time he took for deliberaa way to spare her by sparing Calendar, but momentarily he was becom-

ing more impressed with the futility

candor-merciful, though they might seem harsh. "I must tell you," he said, "that you have been outrageously misled, swin- 10.15, 11.15 A. M. 12.22, 1.15, 2.15, 3.15, 4.15, 5.15 dled and deceived. there to get the jewels. But he didn't

want anybody to know it." "But that doesn't prove"-"Just a minute." Rapidly and concisely Kirkwood recounted the events wherein he had played a part subsequent to the adventure of Bermondsey Old Stairs. He was guilty of but one evasion. On one point only did he slur the truth. He conceived it his honorable duty to keep the girl in ignorance of his straitened circumstances. She was not to be distressed with a conscious laugh-"this sounds by knowledge of his distress, nor could he tolerate the suggestion of seeming to play for her sympathy. It was necessary, then, to invent a motive to excuse his return to No. 9 Frognall street. I believe he chose to exaggerate the inquisitiveness of his nature and threw "Wait, please." She sat up, bending in for good measure a desire to reforward and frowning down upon her cover a prized trinket of no particular interlacing gloved fingers. She was moment, esteemed for its associations, finding it difficult to say what she and so forth. But, whatever the fab- late of Quincy, in said County, deceased, intes

mary of the confabulation he had overheard at the skylight of the Alethea's cabin, "you'd best make up your mind that your father"—

"Yes." whispered the confabulation he had overheard at the skylight of the Alethea's cabin, "you'd best make up your mind that your father"—

"Yes." whispered the cold best in the forenoon, to show cause, if any you have, why the same should not be granted.

And the residence of the cold best in the forenoon to show cause, if any you have, why the same should not be granted.

his motives seemed less important

throat alone betraying her emotion.

"It's a bad business," he pursued relentlessly-"bad all round. Mulready, A. D. 1909. reared in the home of my great-uncle, in your father's pay, tries to have him arrested, the better to rob him. Mrs. Hallam, to secure your property for that precious pet, Freddie, connives at if she doesn't instigate a kidnaping. Your father takes her money to deprive you of yours, which could profit him nothing so long as you remained in lawful possession of it, and at the same time he conspires to rob, through you, the rightful owners, if they are rightful owners. And, if they are, why should Freddie Hallam go like a thief in the night to secure property that's his beyond dispute? I don't really think you owe your father any further consideration."

He waited patiently. Eventually "No-o!" the girl sobbed assent.

Commonwealth of Massachusetts. PROBATE COURT. NORFOLK, 88. To the heirs-at-law, next-of-kin, creditors and all other persons interested in the estate of

JAMES E. EGAN Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, to Margaret C. Egan of Quincy, without giving a surety on her bond.

"No," she told him, with decision.
"Please let me go on." She continued, stumbling, trusting to his sympathy to bridge the gaps in her narrative. "My father—there was trouble of some sort throat alone betraying her emotion.

that your father"—

"Yes," whispered the girl huskly and turned her face to the window, a quivering muscle in the firm young throat alone betraying her emotion.

And the petitioner is hereby directed to give public notice thereof by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in said Quincy, the last publication to be one day at least before said Court.

Witness, JAMES H. FLINT, Esquire, Judge of JOHN D. COBB, Register.

Commonwealth of Massachusetts. Probate Court. Norfolk, ss. To the heirs-at-law, next-of-kin, creditors and all other persons interested in the

BRIDGET EGAN late of Quincy, in said County, deceased, intes-

Whereas, a petition has been presented to said Court to grant a letter of administration on the estate of said deceased, not already administered, to Margaret C. Egan of Quincy, without giving surety on her official bond.

You are hereby cited to appear at a Probate Court to be held at Dedham, in said County of Norlolk, on the sixth day of October A. D., 1909, at ten o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said spetitions is because directed to A. The convention of the same, by causing an attested copy of this order to be published in the Quincy Daily Ledger, a newspaper published in Quincy, once in a week, three weeks successively; and that this action be continued to the said sixteenth day of October, A. D., 1909, or until notice shall be given to LAWRENCE W. LYONS, Asst. Clerk.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Quincy Daily Ledger, a newspaper published in said Quincy, the last publication to be one day at least before said Court.

John R. Graham, Formerly of Quincy Gives Away 125 Barrels.

Fortunate are the 125 members of the Chamber of Commerce from Boston who visited Maine last May for they are to each receive a barrel of the famous Kenduskeag valley potatoes, a gift of John R. Graham, formerly of Quincy who is now the moving element in a street railway company held in the chapel next Friday eventhat operate through Maine.

"This is Mr. Grahams way of proving that the fruit of the soil of Penobscot county is unexcelled."

Mr. Graham, who is president of the Bangor & Aroostook street railway, was one of the speakers before the members of the chamber on their visit to Bangor May 6 last. "We raise, in the Kenduskeag valley," he said, "the best potatoes in the world. To prove that they are better than any other potatoes I will see that each member present gets a barrel this fall."

Few remembered Mr. Graham's promise until they received a note reading as follows:

"Mr. John R. Graham presents his compliments and greetings, and begs to remind the members of the first New England tour that he is ready to and desirous of fulfilling his promise. made to them in his address at Bangor on May 6, 1909, to send each participant a barrel of Kenduskeag

ENTERTAINED.

Makaria's Defeat Softened by a Good Dinner.

The Makaria base ball team after the baseball game last Saturday were entertained by Jesse F. Curtis at his home on Upland road. Dinner was served and afterwards there were games and music all the evening. Singing was also enjoyed by all and as there were some good songsters in the bunch there was no end of good singing. Mr. Curtis welcomed them and said that he would endeavor to provide them with good cheer, as well as a good dinner, as they were not a very cheerful looking set after the afternoon's defeat. Charles Ganzel spoke and complimented them on the charge of the service preached on good showing they had made during the year and Delcevare King was glad to meet them all. A thorough good time was enjoyed from 6.30 until 10 o'clock and with the last good night the Makaria baseball season was closed for 1909.

TELL OF VACATIONS.

Vacation Experience Service Sunday Evening at Bethany Church.

MEN'S SERVICE. Mission for Men by the Jesuit Fathers

at St. John's Church. The mission for women which has been held during the past week by the Jesuit Fathers at St. John's church closed Sunday afternoon with a sermon by Rev. John O'Donovan, followed by the papal blessing and

benediction. The attendance at the services during the week has been very large the average being estimated at 1200.

The mission for men began Sunday evening and although the weather was very stormy fully 1000 men were present. Rev. John O'Donovan who had 'Man to be happy must live according to law." The services for men will be held every day this week.

EXCELSUS 8, FORE RIVER 4.

By a score of 8 to 4 in the second of three games for the 18-19 year championship of Quincy the Excelsus class defeated the Fore River Apprentices at Merrymount park on Saturday. As Excelsus suffered defeated by a score of 3 to 2 in the first game of the series great interest will be taken in the rubber game which will be played in Merrymount park next Saturday afternoon.

-Sanitary conditions in Berlin have o improved in 30 years that the average life of the citizen is now nine years longer than it was then. It is now 38. Such facts as this dispose of the question as to whether it pays to study both personal and municipal hygiene.

Temple to be Built

Masons all over the state are interested in the movement to build a replica of the Ancient Temple of Solomon at Jerusalem and it is claimed by supporters of the project that work will begin within a year.

Headed by Arthur B. Howe, presilent, ex-Congressman Apsley, Bishop Hamilton, Warren B. Ellis, W. E. Litchfield and Adjt. Gen. Brigham, a body of 20 prominent Massachusetts Masons have organized themselves into a corporation for this purpose. It is intended to secure, if possible, subscriptions of \$5 from each of the 15,-00 blue lodges throughout the United States, and in addition it is purposed to raise personal funds from private Masonic sources in order to complete a total of \$100,000, the minimum sum

needed. With the comparatively small sum which will be raised, it will be impossible to reproduce the golden adornment and munificent outlay of decorative effects which made the original temple one of the old world wonders, but it is intended that the new temple shall conform in details of architecture to that of its predecessor.

-One of the pastors in Clinton last Sunday prayed for doctors, merchants and school teachers. The Item of that owns says that the minister evidently ssumed that there was no occasion to mention the lawyers. Of course not the lawyers can take care of themselves .- League Item.

WANTED IN QUINCY. Frederick Carroll Wanted for Forgery

a general or not.

Held in Boston Court. Frederick Carroll aged 25 years, of New York and known to the police by several other names, and who is wantin the Municipal court in Boston Mon-FRIDAY, SEPT. 10, Council Chamber, day charged with forgery and larceny and was held for the grand jury on

two counts in the sum of \$3000. The larceny in Boston was of a violin and bow, the property of Albert FRIDAY, SEPT. 24, Hose House, Ward Kanrich, a musician at 164 Tremont street. The forgery was of three checks of \$200, \$50 and \$25, given in payment for the violin and bow, and things would be different. It is almusic lessons for Carroll's sister.

The checks were signed by G. A Davis and were on the N. E. Trust Co. Inquiry of Inspector McKay this morning in regard to Carroll brought out the information that if he operated in Quincy it was sometime ago. Inspector McKay said that he believed Carroll to be the man who operated in at Council Chamber, City Hall, from Quincy under the name of Harry Prouty and that while here he passed worthless checks on several store

keepers. Prouty is well known to Chief Pierce of Milton as he resided in that Board and must present either a certitown at one time. Chief Pierce says ficate from the Assessors or a Tax that while Prouty never passed any Bill or Notice from the Collector of worthless checks in Milton, as far as Taxes, showing that he has been as- he knew, that he had arrested him sessed a poll tax as a resident of the city on the first day of May last; if ton for uttering worthless checks ton for uttering worthless checks.

ORGAN RECITAL.

Quincy Excursionists to Hudson-Fulton Celebration Return.

RETURN HOME.

Several residents who were present in New York Saturday to witness the grand naval parade in honor of the Hudson-Fulton celebration, returned to Quincy Monday. Among the Quincy people present were Mr. and Mrs. J. E. Keniley, Henry P. Kittredge, John Mahoney, Harry McGrath, William G. Nash, and Peter Talbot. This party For Special "Bargains in Planos" took in the excursion of the Boston & Albany railroad to Albany, thence down the Hudson river to New York and home via the turbine steamer

Mr. and Mrs. Charles C. Hearn and Charlie were also present having made the trip in Mr. Hearn's automobile. They report by letter as having a fine trip. They left New York on the return trip Sunday and are expected to reach Quincy today. They would have arrived Monday but the heavy roads put them back somewhat

SOCIALISTS.

State Officers Nominated at . Convention Monday.

The state convention of the Socialists party was held Monday at Paine Memorial hall, Boston and the follow ing state officers nominated:

Governor-Dan A. White of Brock-Lieutenant Governor-George G.

Hall of Boston. Secretary of state-Harriet D'Orsay of Lynn. Treasurer-James B. Carr

Chelmsford. Auditor-Sylvester J. McBride of Watertown.

Attorney general-John Weaver Sherman of Boston.

NOMINATED

County Commissioner

The friends of Dr. Bowker, one of he candidates for the nomination as County Commissioner got a bad jolt this morning when the nomination went to Evan F. Richardson the pres-

ent incumbent. The convention was held at 10.30 his morning at Wesleyan hall, Boson, and attended by about 125 deleates. All of Quincy's delegations were omplete excepting that from Ward Six. But two of the three delegates rom this ward were present and as he two had some difficulty in filling he vacancy the ward was represented

by but two delegates. The only contest was in the nominaion of County Commissioner for three ears. The two candidates for the ofice were Dr. Bowker and Evan F. Richardson, whose term expires in 1910. Both candidates had made the laim for the nomination and the vote was somewhat close. The nominating vote was as fol-

Evan F. Richardson

66 Dr. Bowker 54

The vote was made unanimous. Although the name of James H. unningham of Quincy had been menoned in connection with the office of ounty treasurer it did not appear in he convention and Henry D. Humhrey of Dedham received the unanious nomination.

AMOS MERRITT.

The funeral of Amos Merritt who ied on Friday of last week was held rom his home on School street on londay afternoon, Dr. E. N. Hardy of Bethany church officiating. A quartet ang "Abide with me "and "When the

dists have rolled away. Many beautiful floral tributes surounded the still form among them a the grandchildren and a large floral boat from the brothers.

All his life Mr. Merritt had been inerested in shipbuilding, most of the time residing in Quincy. Of late years he with his sister Miss Katie F. Merritt lived at 126 School street and his sister will miss his companionship. Mr. Merritt is survived by four children, Mrs. Arthur Wentworth, Mrs. Alberta Sherman, Amos L. and

Joseph Merritt. WIND UP.

be still greater but for the scarcity of Now that there is to be a battleship Arkansas, people might as well get used to pronouncing it as though the last syllable were spelled with a

A Western evangelist boasts that he never read a novel. This doesn't prove that he's much of an evangelist, but it does prove that he's the prize ignoramus of his day.

A Boston court fined a man \$10 for obeying his wife instead of answering a summons to court. The man knew his wife and could afford to take risks with the court.

The dull weather this week will probably result in good weather for the Brockton Fair next week. The management announce a bigger and better fair than ever.

With the coming of the auto has come an increase of work for the Judges of the Courts. Last week at Dedham Judge De Courcy spent all of one day hearing and imposing fines they have been able to accomplish litin automobile cases, some \$400 going into the treasury.

Reading is trying the "square deal" plan for autoists having erected signs Please observe the State speed laws through this town. Reading Citizens' Association." Perhaps Reading will succeed in its "square deal" better than Quincy has.

Trees and shrubs seem to be called upon to put forth extra blossoms this fall for in our exchanges we note enable them to work together in commention of several in bloom. In Lexington several rose bushes of the early New England has always endorsed, spring variety are in full bloom: at East Milton, Mrs. A. A. Brackett has a pear tree in bloom and also fruit on their influence count, is a good one .the same tree. In our own town is Haverhill Gazette. recorded a lilac bush with several bunches of bloom.

Eight American warships are going out and stretch their muscles in the vicinity of Honolulu, Yokohama, Hong first of which is that the Japanese are and they enter into the races with not lunatics.

good roads pay, and its present plan The track events this year are bound the state is likely to be of more general benefit than if individual towns gregate \$11,500, four of the races be spent an equal sum on small sections ing for a purse of \$1000 each. Friday which would not be of use as thoroughfares. These trunk lines reaching nearly every city of the state. offer great inducements to the auto- al other states will be present to enmobile tourists, and their completion by the state will render much easier | festival. the construction of the cross-connecting lines to serve the local needs. It may be that such a plan is a better one than the policy followed in Massachusetts where each town does what it can within its own limits but not following out a general state policy, except so far as it secures the results of the two plans New Hampshire which only a few years ago started in on the experimental work of state roads, has evidently found that it was a wise and profitable expenditure of money, and is determined to keep on with the good work.

THE WEST AND SOUTH.

It was predicted a half dozen years ago that the time was soon coming when the states of the West and South would be able to finance their own remedy for hair and scalp troubles, crop movement. Now that time has arrived. The banks of the West and South are full of cash, and they have no occasion to call on New York for credit. There will be no shipment of money from the coast to the interior this year.

That means cheaper money in all the trading centers of the Atlantic

coast. It means cheap money Wall Street. The value of money measured in that of other products, iron, steel, wheat, cotton, and so forth, and when money is low, other things are high by comparison.

One of these days, when the world gets wiser, this problem of money will be solved. Money is a measure of value; so is wheat; so is iron. Money is a commodity; so are all the other things. Money has to be bought just as other commodities have to be bought. The only difference is that it is bought in a different way. It is created by the government as the representative of the public.

It represents to a very large extent the slave of the government in the activity of the nation. When the problem is solved in the only way it can be solved, wages, and tariff schedules, and a whole bunch of other things which are now subject to artificial control will become as natural as market reports.

Boston in culture, New York in fi nances, and Washington in state craft no longer make the Atlantic slope the whole thing .- Beverely Times.

NEW ENGLAND INFLUENCE.

The complaint is continually made in the west by congress in the interest of New England and the Middle states, leaving the west and south largely in the background. When we look at the results actually accomplished, especially in relation to tariff schedules, there really seems to be a good deal of truth in th charge. And yet, the west has an overwhelming preponderence of power most of the time in all departments of the government. Only two presidents in 59 years have come from east of the Alleghanies and one of them was Roosevelt, whose characteristics were all western. The large majority of the house of representatives and the still larger proportion of the senate are from the west and south.

In a late magazine article Senator Beveridge shows how New England has secured and held in congress an influence out of all proportion to population. He seems to forget however, that the New England states generally send strong and able men as their representatives, especially in the senate, and if they do their work well they are kept as long as they are able to attend to public business. The west on the other hand is constantly changing its men. A strong man with 10 or 15 years of experience is able to exert twice the influence in either house or senate of the new man. In the United States senate especially all the more important committee places are filled by the elder men, the newer ones taking the foot of unimportant committees. The south used to keep its men in longer and generally does so yet, but they have so nearly always belonged to the minority party that tle in shaping legislation.

New England has been so nearly solidly Republican during the same time that its people have been able to make the ability and experience of at the town limits which read "Auto- their representatives count for all that they are worth, and more, to the majority party.

The west, however, is sure to come into its own sooner or later, and the danger to New England lies in the possible realignment of party lines wherein the west and south may find many interests in common that will gress. In any event, the idea that putwing in good men and keeping them there while their experience makes

J., is to receive an estate valued at \$25,000, provided he incidentally. But without comparison does not smoke a cigarette from now until he is 25 years old.

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c. and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of

AN OFFICIAL RECEPTION

Hudson-Fuiton Commission Entertains Foreign Delegates A DISTINGUISHED GATHERING

Messages of Good Will From Many Nations Participating In Celebration -Cheers For Japan, Holland, Germany and England-Delegate From Norway Gives His Country Credit For Discovery of America

New York, Sept. 28.-The envoys of seven nations which have sent ships of war and the special delegates of other nations participating in the Hudson-Fulton celebration were officially received last night at a reception in the Metropolitan opera house under the auspices of the Hudson-Fulton commission. Seated on the stage was a distinguished gathering, including dignitaries from the countries of Europe, the Orient and South America, officials of city and state and men prominent in business and professional life of this country.

One of the most conspicuous figures on the stage, and the only woman occupying such a position, was Mrs. Julia Ward Howe, the venerable author of the "Battle Hymn of the Republic." Because of her advanced years Mrs. Howe sat in a wheeled chair.

The boxes of the famous opera house, crowded during the opera season with brilliantly gowned women, were no less brilliant last night when filled with the wives and families of the foreign envoys. The upper tier was occupied by the visiting naval officers, but the house was not crowded. At a liberal estimate not more than 1200 persons were present.

General Woodford, chairman of the Hudson-Fulton commission, formally called the gathering to order and introduced Mayor McClellan as the chairman of the evening. McClellan introduced Bishop Greer, who delivered the invocation. The most conspicuous part of the bishop's invocation was his saying in the hearing of the naval officers of the chief powers of the world: "Bind the nations of the earth in the bonds of brotherhood and peace; make wars to cease and righteousness to reign.'

In his address extending a welcome on behalf of the city, McClellan spoke

After a song by a glee club, Mrs an eloquent tribute to Henry Hudson and Robert Fulton.

An address of welcome on behalf of the commission was delivered by Voodford, then the roll of nations was called, beginning with Argentina and concluding with Turkey. There were cheers and handclapping as each delegate stepped forward and presented either a message from his sovereign or an appropriate address. The assemblage grew especially enthusi- | FEL. 232-3 astic when the delegates of Japan, Holland, Germany and England came forward, and the cheering lasted for more than a minute.

congratulatory message from King Haakon. Referring to the Vikings, he said that Norway had in reality discovered America before Columbus | knew of its existence.

Admiral Seymour, for the British, referred to the discovery of the Hudson and the application of steam to navigation by Fulton as two of the most important events in the history of the race "to which you and we be-

After the address of the Dutch delegate the national air of Holland was played, while the Hudson-Fulton flag was waved from the stage amid great cheering. The mayor of Amsterdam conveyed

PREDICTIONS

Triune Immersionists Disap= pointed For Fifth Time

LEAVING FOR THEIR HOMES

Mother Earth Still Doing Business at the Same Old Stand, but Not For Long, According to Prophetess of the Sect-But Few of the Faithful Remain In Camp at Ashdod

West Duxbury, Mass., Sept. 28 .-Ashdod, the little hamlet "five miles from nowhere," where with singing and prayer the end of the world has been awaited for the past week by the Triune Immersionists, is practically a deserted village. Four coachloads of the faithful left for their homes Monday and more went today. Only about thirty remained behind,

and the general meetings, for the present, are over. The tents which sheltered many of the communicants have been packed up and the sandy roads leading to the odd little settlement are no longer crowded with the curious.

That the purification rites are over for the present was convincingly shown Monday. During the meetings the bakers in the neighboring towns which have been supplying the Immersionists with large quantities of foodstuffs noticed that, although a large majority of the members were New Englanders, there was no demand for pies. Yesterday, however, one of the large bakeries received an order for two dozen and a half of pies for immediate delivery. The meeting just concluded partook

argely of the nature of the annual convention of the sect. It was originally scheduled for October, but because of the revelations made to some of the members that the end of the world was to come the latter part of last week the convention was moved forward, and throughout the country meetings were held preliminary to the great purification meeting now ended. But in spite of the fact that many

of the Triune Immersionists, with enfhusiasm somewhat abated, but still hopeful, have returned to their homes to await "the coming," which they believe cannot be far away, Miss Eva Brown, the beauty prophetess of the sect, still asserts that the end of the world is about to come. For the fifth time in sixty-five years

the Triune Immersionists have been disappointed. In 1844, 1854, 1867, 1873 and 1909 the Advent was predicted, the predictions were believed, hundreds of believers prepared to depart this earthly sphere, don heavenly robes and join the elect in the Golden City of Eternity. This is upon the authority of Jairus

C. Osgood, the head of the incorporated Free Christian Church at Duxbury.

The prediction was made this time by Miss Eva Brown of Pawtucket, R. 27 CRANITE STREET I., and other prophecies followed hers. Miss Brown is the centre of attraction of all the faithful who are or have been at Duxbury, and has been kept in a sort of seclusion by them. The head of the church says she is the real prophetess of the expected

DOES NOT SUIT STRIKERS

Omaha Street Railway Company Will Not Recognize the Union

Omaha, Sept. 28.—The chances of settling the strike of street car men in Omaha has not cleared up much. President Wattles intimated on what basis he would re-employ the strikers, but no action was taken by the striking employes. Wattles said that he would have no

dealings with the union and would deal with the men only as individuals. He declined to make any proposal to the union and the leaders of that body say there is nothing before them to consider.

Missing War Balloon Found Brockton, Mass., Sept. 28 .- The war balloon which was used in this city during the war games of Aug. 14, and which suddenly disappeared from here shortly afterwards, was found in New York state Monday, according to a dispatch received in Brockton. The balloon is valued at Deal Involving \$5,000,000

Seattle, Sept. 28.—Control of the

United Railways company and the Ruth Trust company of Portland, Ore., was purchased by J. H. Hulburt of Fontanelle, Ia., and C. L. Dunbar of Vancouver, B. C. The purchase price was close to \$5,000,000, it is said.

A Baseball Fatality

Greenville, Tenn., Sept. 28.-In a baseball game near here the 20-yearold son of Alexander Moore, while playing shortstop, was struck in the mouth by a batted ball. He died in a few minutes. He was struck with such force that his neck was unjoint-

White For Governor

Boston, Sept. 28.-The state convention of the Socialist party of Massachusetts was held last evening, a full state ticket being nominated, headed by Dan A. White of Brockton for governor.

🔯 🤯 🧔 🧔 🧔 👸 👸 👸 👸 disturbed than he cared to let her know.

(Continued from yesterday.)

"It's this way: Calendar, counting on your sparing him in the end, is going to hound us. He's doing it now. Hobbs had gone on to Bruges. There's Hobbs in the next car, for proof. Until these jewels are returned, whether to Frognall street or to young thieves in the sight of the law. And your father knows that too. There's no profit to be had by discounting the they have to go as far as murder"-"Mr. Kirkwood!" she deprecated in

He wagged his head stubbornly, ominously. "I've seen them in the raw. They're hot on our trail now. Ten to one they'll be on our backs before we can get across the channel. Once in England we will be comparatively safe. Until then-but I'm a brute-I'm frightening you!"

"You are, dreadfully," she confessed in a tremulous voice. "Forgive me. If you look at the dark side first, the other seems all the

brighter. Please don't worry. We'll pull through with flying colors or my name's not Philip Kirkwood." "I have every faith in you," she in-

formed him, flawlessly sincere. "When I think of all you've done and dared for me, on the mere suspicion that I needed your help"-

"We'd best be getting ready," he interrupted hastily. "Here's Brussels." It was so. Lights, in little clusters and long, wheeling lines, were leaping out of the darkness and flashing back as the train rumbled through the suburbs of the little Paris of the north. Already the other passengers were bestirring themselves, gathering together wraps and hand luggage and preparing for the journey's end. Rising, Kirkwood took down their

two satchels from the overhead rack and waited, in grim abstraction plan-

He lifted his hat and bowed jauntily ning and counter planning against the machinations in whose wiles they two had become so perilously entangled.

Primarily there was Hobbs to be dealt with-no easy task, for Kirkwood dared not resort to violence nor in any way invite the attention of the authorities, and threats would be an idle waste of breath in the case of that corrupt and malignant little cockney, himself as keen as any needle, adept in all the artful resources of the underworld whence he had sprung, and further primed for action by that master rogue, Calendar.

The train was pulling slowly into the station when he reluctantly abandoned his latest unfeasible scheme for shaking off the little Englishman and concluded that their salvation was only to be worked out through everlasting vigilance, incessant movement and the favor of the blind goddess Fortune.

He saw nothing of Hobbs as they alighted and hastened from the station and hardly had time to waste looking for him since their train had failed to make up the precious ten minutes. Consequently he dismissed the fellow from his thoughts untilwith Brussels lingering in their memories a garish vision of brilliant streets and glowing cafes, glimpsed furtively from their cab windows during its wild dash over the broad midcity boulevards-at midnight they settled themselves in a carriage of the Bruges express. They were speeding along through the open country with a noisy clatter; then a minute's investigation sufficed to discover the mate of the Alethea serenely ensconced in

the coach behind. The little man seemed rarely complacent and impudently greeted Kirkhis neck and returned to the gir' more

There resulted from his review of the case but one plan for outwitting Mr. Hobbs, and that lay in trusting to his confidence that Kirkwood and Dor-

othy Calendar would proceed as far toward Ostend as the train would take them-namely, to the limit of the run,

Bruges. Thus inspired, Kirkwood took counsel with the girl, and when the train paused at Ghent they made an unostentatious exit from their coach, finding themselves when the express had rolled on into the west upon a station platform in a foreign city at nine minutes past 1 o'clock in the morning, but

Kirkwood sped his journeyings with Kirkwood sped his journeyings with an unspoken malediction and collected himself to cope with a situation which Hallam, we're both in danger, both was to prove hardly more happy for kidney cures but did not succeed in days. them than the espionage they had just eluded. The primal flush of triumph which had saturated the American's temper of these people. They're as humor on this signal success proved lieved me. My back was soon strong desperate a gang of swindlers as ever but fictive and transitory when in- and free from pain and I felt better lived. They'll have those jewels if quiry of the station attendants educed generally. I would go to considerable the information that the two earliest trouble to get anyone to use Doan's trains to be obtained were the 5:09 for Kidney Pills as I have so much confi-Dunkerque and the 5:37 for Ostend. A minimum delay of four hours was to be endured in the face of many con tingent features singularly unpleasant to contemplate. The station waiting room was on the point of closing for the night, and Kirkwood, alarmed by

the rapid ebb of the money he had taken from Calendar, dared not subjehis finances to the strain of a night's lodging at one of Ghent's hotels. He found himself forced to be cruel to be kind to the girl, and Dorothy's cheerful acquiescence to their sole alternative of tramping the street until daybreak did nothing to alleviate Kirkvood's exasperation.

It was permitted them to occupy a bench outside the station. There the girl, her head pillowed on the treasure bag, napped uneasily, while Kirkwood plodded restlessly to and fro, up and down the platform, addling his poor, weary wits with the problem of the future-not so much his own as the future of the unhappy child for whose welfare he had assumed responsibility. Dark for both of them, in his understanding tomorrow loomed darkest for her.

Not until the gray, formless light of the dawn dusk was wavering over the land did he cease his perambulations. Then a gradual stir of life in the city streets, together with the appearance of a station porter or two, opening the waiting rooms and preparing them against the traffic of the day, warned him that he must rouse his charge. He paused and stood over her, reluctant to disturb her rest, such as it was, his heart torn with compassion for her, his soul imbittered by the cruel irony of their estate.

If what he understood were true, a king's ransom was secreted within the cheap imitation leather satchel which served her for a pillow. But it availed her nothing for her comfort. If what r 7 43 abe he believed were true, she was absolute mistress of that treasure of jew- r 831 Exp. els, yet that night she had been forced r 851 a sleep on a hard, uncushioned bench in the open air, and this morning he r 9 15 abe must waken her to the life of a hunted thing. CASTORIA For Infants and Children. The Kind You Have Always Bought **EVENING SCHOOLS**

The Quincy School Department

vill open Evening Schools for Instruc tion in English Branches, in the Adams School Building and in the Willard School Building, on

Monday Evening, Oct. 4, 1909 At 7 O'clock.

The Schools will be in session IONDAY, TUESDAY, THURSDAY and FRIDAY EVENINGS af each week.

One department of these schools will be organized for the instruction .of persons over 16 years of age who cannot read and write the English language. Entrance to this department is

without restriction. Another department will be organized for English speaking pupils who wish to do the more advanced work of the elementary schools. Pupils entering this department are required to deposit \$1 with the Principal on registration. This sum will be refunded at the close of the term to all whose attendance is 75 per cent.

Illiterate minors are required by law to attend the evening common schools regularly, otherwise they cannot legally be employed.

EVENING DRAWING SCHOOL

will be opened on Monday, October 4, 1909, in the High School Building, Hancock Street, at 7 P. M. The Freehand class will begin Monday; the Mechanical class will begin Tuesday A deposit of \$1 will be required of all members of this class upon entrance. This sum will be refunded at the close of the term to all whose attendance has been above 75 per cent.

EVENING COOKING CLASSES

will be opened the week of October 4, at the High School Building. One class will meet Mondays and Thursdays; another class will meet Tuesdays and Fridays at 7 P. M. for a course of 20 lessons. As only 40 can be accommodated all women desiring to take this course must register by person or by mail at the office of the School Department on or before October 1st. A fee of \$1 will be required of the members of these classes to defray cost of materials used.

ALBERT L. BARBOUR, Supt.

AS SOUVENIR All That Peary Saw of Cook's Arctic Equipment

DOCTOR REPLIES TO CHARGES

HALF A SLEDGE

Explains That He Left Instruments With Whitney Rather Than to Subject Them to Risk In Journeying Over Difficult Route-Did Not Search For Any Cairn Where Records Might Be Deposited

New York, Sept. 28 .- Dr. Cook consented last night to give the press a formal reply to some of the most material of the charges brought against him by Commander Peary. A more complete declaration will be issued by the explorer when Peary makes his accusations over his own signature. The statement is as fol-

"Commander Peary says that my sledges were not fitted to Arctic travel, and that he would not care to voyage in the Arctic with them The only sledge Commander Peary saw was half a one, which I had given to Mr. Whitney as a souvenir. The remainder of it had been used to make bows and arrows.

"As to my leaving my instruments with Whitney, he had told me that the Eric was coming to Etah and would take him over to the American side to hunt big game and would come back later to Annatok. The distance from Annatok to Upernavik by the route which I was compelled to follow was nearly 700 miles. In that journey I had to travel over high land in two places, with glaciers and difficult places to negotiate. The ice was extremely rough and there was a good deal of water to be expected that would have subjected the instruments to a risk which was entirely unnecessary when Whitney awaited a ship to go to Etah for him upon which he expected to return direct to America. "By going to Upernavik I hoped to

get back by the end of July or the middle of August. I wanted to see my family as soon as possible, as I had been separated from them for over two years, while Whitney did not expect to get back before Oc-"As to the charge that I had not found traces of Peary's record at Cape Thomas Hubbard, the point which

Peary would call Cape Thomas Hubbard is a round promontory, and it would be difficult to find any distinctive point which could be positively recognized as Cape Thomas Hubbard. From Peary's map I am absolutely unable to locate Cape Thomas Hubbard. We did not search for any cairn where records might be deposited. In fact I did not know that Peary had left any

record there. "Considerably to the west I did see a rock which might have been a cache, but it might have been merely a clump of rocks. I was at a very long distance from it and there was no reason why I should have searched I left a cache of provisions close to the beginning of the cliffs of what Sverdrup puts down as Svartevoeg. There was no indication near where we left

our provisions. "The other points of the so-called charges have been replied to in detail on several occasions. I will answer everything in the most formal way when Peary prints or makes public his other points. My reply will then be given out as a written state-

Peary and Hubbard Confer

Bar Harbor, Me., Sept. 28.-Commander Peary reached here last night and within half an hour of his arrival was in conference with Thomas H Hubbard, president of the Peary Arctic club, concerning the statement which will shortly be made public by Peary to support his contention that

Dr. Cook did not reach the Pole. "There is nothing to say just now, said Hubbard. "Commander Peary is here and we are looking over the data he has on the Cook controversy, but there is no statement to be made at this time."

The consultation will be continued today and late in the day Peary will probably return to his home at Eagle island.

From what can be learned of the conference Peary went over every phase of his alleged evidence against Cook from the time the Brooklyn explorer began his preparations to go north more than two years ago until after his interviews with Cook's Eskimos at Etah. Hubbard has been arranging this material in order as personal counsel for Peary.

Workingmen Endorse Gaynor New York, Sept. 28.—Justice Gaynor, whose candidacy for the New York mayoralty has been endorsed by several independent and semi-independent organizations, received the endorsement last night of a labor organization calling itself the "Workingmen's Political Party."

Mrs. Depew Meets With Accident Paris, Sept. 28.-Mrs. Chauncey M. Depew's automobile collided with a public taxicab and Mrs. Depew was Auctioneer cut about the forehead by broken glass. It was at first feared she might lose the sight of an eye, but this danger is now past.

OF ATHLETICS

Interesting Notes From the Local Athletic World

The High School squad reported at the gym yesterday and for an hour and a half they were put through signal drill. Several new formations were tried and looked good. Today will be the first practice since the game last Friday and after such a rest there should be great speed to the whole squad. There is a possibility of a game Saturday with the Boston College High team, but whether in the morning or afternoon is not

The Fore River apprentices and the Excelsus class will play off their last game for the championship next Saturday afternoon at the upper field Merrymount Park. This series was for the 18 year old champions of the city and so much interest has been aroused that a silver cup has been offered as a prize. This cup will be on exhibition at Sanberg's jewelry store until Saturday. The managers are trying to get Charley Ganzel as the arbitrator and it is hoped that they will be successful. Both teams have won one game in the series of three and next Saturday's game ought to be

Members of the senior class at the Y. M. C. A. are practicing in the gymnasium every evening now in preparation for the exhibition to be given Thursday night.

The sophomore and junior classes at Quincy high are making preparations for a play to be put on the stage some time in November. They will be coached by Miss Mollie Brown of Wollaston, a teacher at the school, the proceeds to be turned over to the use of Athletic committee. There is no doubt but what the play will be a fine one and it will be a great help to the athletic end of the school. It will enable the football debts to be paid promptly and leave a good nucleus or the other seasons of sport.

Harvard plays its first game today against Bates and should do a great boys will be lucky to escape being

Yale opens her season with Weslyan today and as the blue team will be without the services of Capt. Coy the Weslyan players hope to catch them napping.

William J. Hackett of the Fore River Apprentices is among those entered for the Marathon race under the auspices of the Brockton fair to be held Oct. 8.

Michael T. Sullivan will Accept Nomi-

nation for Representative.

It was announced Tuesday that Michael T. Sullivan had reconsidered his decision, to decline the nomination as the Democratic candidate for the legislature from the Fifth district, and that he would run.

The nomination of Mr. Sullivan was unsought for by him. The official ballot used at the joint caucuses by the Democrats, in the Fifth district, contained no names for Representative from that district. In Ward One however two voters wrote the name of Mr. Sullivan on the ballot and he thus be came the candidate.

It was announced that he would decline the honor, and for that purpose he sought the City Clerk's office. The matter however was out of the hands of the City Clerk, and the only way he ould get his name off was by unwinding a few yards of red tape in the office of the state secretary. Before this was done however

friends succeeded in inducing him to let his name stand and become the

OCTOBER AMERICAN BOY.

No month in the year has more harms for the boy who owns a gun han October, and the joys of hunting are finely portrayed on the handsome ront cover of the October American Boy. The contents of this number onsist of the most timely and deightful serials and stories, as well as nteresting and instructive articles. Among the first are: The opening chapters of Mr. Kelland's serial Red Treasure; another installment of The Young Continentals at Lexington, and he conclusion of Winning His Shoulder Straps. Of the short stories the titles of a few only can be mentioned The Rout of the Long Pants Brigade is a delightfully humorous Hallowe'en story of how the Amateurs broke up a party; Dropped from the Squad is a football story calculated to thrill every boy who loves to kick the pigskin. Three Boys in an Ocean Yacht Race tells of the race to Cape May for the Lipton Trophy.

-The large open space in front of the Christian Science Temple in Boston, which gives a view of that beautiful edifice on Huntington avenue, is fast being put into shape as a park. It promises to give a great addition deal better than last year. But the to the architectural effect of the smaller college team always has a Temple, and to add another to the few more tricks left and the crimson great improvements made by this sect in the Huntington avenue dis-

HIS SERVICES **APPRECIATED**

School Committee Adopt Testimonial to Mr. Parlin

At the regular meeting of the school committee Tuesday evening a resolu tion was passed, in appreciation of the work of Frank E. Parlin who resigned from superintendent of schools to accept a similar position in Cambridge. Following is a copy of the resolution adopted .-

"Mr. Frank E. Parlin. Dear Sir -In accepting your resignation as Superintendent of schools which we do with regret, the members of the school board of Quincy de sire to express to you their sincere appreciation of your services to the city during you nine years as Superintendent:

We regard your professional work to have been of the highest order your policies sound and progressive; your administration just and economi cal (your appropriation never having been exceeded) and your personal inegrety unimpeachable.

We feel that whenever decision has been required, your guiding influence has always been for the welfare of the school children of our city."

The letter was signed by all memers of the school board and will be forwarded to Mr. Parlin immediately A special committee reported that ot be recommended to the counci in the neighborhood of Squantum street and Highland avenue for the building of the Montclair school. was recommended that a 12 room building and assembly hall be built on his lot as soon as it is procured.

Arrangements are to be made immediately for a special car for the transportation of the Houghs Neck school children at the Coddington

It was voted that a communication be sent to the City Council urging immediate action in regard to school accommedation in the Bigelow park district and setting forth the congested conditions in the Adams, Washington and Coddington schools. It was reported that the Houghs

Neck specifications were in the hands of the Commissioner of Public Works. Power was given the committee on transportation to make a contract with B. F. Hodgkinson to transport the children from Germantown and Houghs Neck to the Coddington school. It was voted to leave the naming of the Houghs Neck school house until the next meeting and the motion to adjourn was then carried.

EVENING SCHOOLS The following teachers were elected for the evening schools which open

next Monday evening: Adams school, John F. Roache, Miss Mary E. McCue, Miss Josephine L. Kelley, Miss Jennie F. Griffin, Miss

are to be brought back from Alaska to quick recovery. Then you'll esto Seattle on a revenue cutter. The cape serious illness. But you ought get rich quick schemes do not seem to have this tried and proven remedy to pan out.

NEW BEDFORD NO-LICENSE.

The New Bedford Standard has been asking leading citizens of its town how they like the no-license plan. It trade better. It finds quite a few em- Tel. 279-3. Residence 323-3. ployers of large numbers of workmen who commend the plan and find that better work is being done under it than before. Hotel men, for obvious reasons, are against the plan, which Garage managers are also against nolicense, for they say their business has been affected. They find that most motor parties don't care to stop at a dry town ,and they say that they have lost the trade of barroom employes, who were wont to hire machines quite often and go on a trip around the country. On the whole there is not much in the New Bedford situation as presented in the Standard to cause anybody to believe it is a good argument for the return of the saloons .- Brockton Enterprise.

BUILDING CITIES. The conference of national inter-

ests on the subject of the building of cities, at Washington ,tackled a big subject and just what progress it can make with an important problem remains to be seen. We all realize that almost no cities are built as they should be. Almost no cities are built in circumstances that will permit them to be built as they should be. The few exceptions are cities like Gary, Ind., which is built from nothing to a full grown community at once. Most cities are merely a matter of growth. They have small beginnings, and as the community grows it provides for its immediate needs as they arise. The small community cannot afford to look very far ahead. A comparatively few years at the most is all that can be considered. So when the community outgrows the needs for which it provided a few years before, it has simply to do the work over again on a little larger scale. If the modern city could be planned and built at the outset on a scale which would probably provide for its needs many years ahead, then it would avoid many of the evils from which the average city suffers. And it could safeguard its own rights and have the enjoyment of many improved conditions which would be very difficult and very costly to obtain at the present time.—Framing- Real Estate and Insurance, ham News.

-There is trouble ahead the coming winter for those legislators who refuse to recognize the right of dog owners to have their pets as personal companions in their railroad riding hereabout. The Boston Terrier Club and some seventy-five other kennel organizations are actively at work with a view to securing an amendment to the Eastern railroad regulations governing the transportation of dogs.-Boston

POLITICAL GRUMBLER.

Wonder if a chronic grumbler ever stops to ask himself if the thing that gives him a grouch was caused by himself or was his own fault. A writer in an exchange says: "I noted when I voted at the primaries what so many men probably noted, that the same old convention delegates had their names upon the ticket, and we had no choice but to vote for them. And he probably never took the trouble to note that before, the caucuses the committee advertised for those who wanted to go on the ticket to file their names for that purpose. Had he taken the trouble to inquire he would probably have discovered that when a citizen asks to go to a convention his request is granted. Also that it is not always an easy matter to get people to go as delegates to conventions, and the committee falls back on the familiar names of those who are willing to go to the trouble and expense of serving as delegates. It is so much easier Quincy 75-2 to go to the caucus and growl over the list that appears on the ballot that few are willing to take the trouble of hunting up the ward or town committee and requesting to be on the ticket The writer above quoted says: "In my own ward the dominant party has something like a thousand voters, should say; and yet there are only about 15 of us who are considered qualified to go to the State, county and the several other conventions as delegates." Why not say there are only about 15 of us who care enough seek the man, nor does the convention seek the delegates. Get out and tions to growl over it, go a step further and ask to be put on the delegation,

HUNTER REACHES ST. JOHN'S

Gives Story From His Angle of Polar Controversy, of Which He Knows Nothing Beyond Vaguest Details-Cook Said Nothing to Him of Records Being Among His Effects-Says Peary's Men Hounded Eskimos

St. Johns, Sept. 29 .- Harry Whitsenior department to which every planned for this week and will start er, believes that Dr. Frederick A. Cook found the Pole and that Commander Peary did the same. In expressing this belief Whitney said that he knows no reason for doubting Cook's more than Peary.

HARRY WHITNEY

"Dr. Cook's story," he added, 'seems to me truthful and probable. Nothing else would explain his twelve months' absence."

The schooner Jeanie arrived here with Whitney aboard, coming from the Greenland coast by way of Indian Harbor, Labrador. Whitney feels keenly the position in which he is placed. He went north, he said, merely on a hunting trip and now

finds himself the storm centre of a Polar controversy. Dr. Cook left with him at Annotok several cases containing instruments and some other belongings, but, so far as Whitney knew, no written records. There may have been recing representatives of the various de- | "biggest and best" yet for the boys ords, however, packed with Cook's personal effects, but the explorer did

The distinctively religious side will not tell him especially that he was Speaking of Cook's detailed account of his trip to the Pole, Whitney said that the explorer showed him how the western drift of the ice had landed him in a region far remote from where he expected to go, and he was unable to get back. He could not speak with authority as to whether Cook and

> his two Eskimos could carry on their three sledges enough food for their journey to the Pole, as he himself is a novice in Arctic traveling. Mr. Whitney declared he knew nothing of the controversy beyond the vaguest details. The first he learned of it was at Indian Harbor, when he

> received messages from several American papers asking for a statement. These he answered briefly. Mr. Whitney denied that Peary had

removed Cook's stores from Annatok to Etah. What Peary really did was to transfer a few things and rebuild the house at Annotok. Boatswain Murphy's only reason for refusing to help Captain Bernier's Canadian expedition to get dogs and sledges at Etah was that they were short of dogs themselves. Whitney had trouble in getting enough dogs for his teams all through the winter and Murphy was would have sufficient dogs for the commander's exploring trips around the country when he returned from the north.

Mr. Whitney asserted that Cook's Eskimos at Etah told him that Peary's men were hounding them in an effort to make them tell the story the Peary men wanted to hear.

Peary's written instructions to Boatswain Murphy, which Whitney says he read, ordered the sailor to use Cook's stores first and Peary's last. Murphy could not read, and asked Whitney to read to him the stringent orders he had received. Whitney reiterated his charge that

Peary put him on his honor not to bring anything of Cook's aboard, and said that ten years ago Peary similarly treated Explorer Sverdrup.

Mr. Whitney left last night for Sydney and will proceed from that point to Boston. He received messages from Peary yesterday, complaining that he had not fully informed the commander about the nature of Cook's belongings left with Whitney at Etah. Whitney says that Peary is in error, as he informed him fully, and Captain Bartlett of the Roosevelt The purpose of all the work in this serving of support and patronage of saw all the things, as he helped Whitschool is to give to the man who has all who wish good things for our ney bury them at Etah after Peary had refused to take them aboard his

TAFT TO AID IRRIGATION

Will Appeal to Congress For Author-Ity to Issue \$10,000,000 Bonds

Spokane, Sept. 29.-President Taft delivered in Spokane his anticipated speech on the conservation of natural resources and outlined the policy of his administration on this subject. He declared that he would exert every influence on congress to have it enact legislation which would best subserve the purposes and requirements of the

President Taft created much enthusiasm when he announced that he would urge on congress the necessity of authorizing the secretary of the interior to issue \$10,000,000 bonds for the completion of irrigation projects, on which work is suspended because of lack of funds and failure of the projectors to observe the limitations of the reclamation act.

Hardshipshave been worked on many settlers through suspension of work, and western senators and representatives have urged on the president that a bond issue was the only way by which justice could be done.

OWNERSHIP IN QUESTION

No Flags Over Territory Where Taft and Diaz Will Meet

Washington, Sept. 29.-When the meeting between Presidents Taft and Diaz of Mexico at El Paso, Tex., and Juarez, Mex., takes place next month, the intervening territory between these two cities, which is in dispute, will for this occasion be regarded as neutral territory and the flags of neither nation will be displayed therein.

This understanding has been reached on the part of the two nations concerned as the result of considerable correspondence. The region, known as the "El Chamizal," contains about 550 acres. Ownership of it is in question because of the shifting of the channel of the Rio Grande river, the dividing line between the two countries.

JEROME HAS NO **USE FOR GAYNOR**

Makes a Bitter Attack on the Four valuable houses built on property Candidate For Mayor

New York, Sept. 29. - District Attorney Jerome, who is making an independent fight for re-election at the approaching municipal elections, issued a statement last night attacking Justice Gaynor, a candidate for the mayoralty, whose friends believe that he will be the Tammany nominee. He has already been endorsed by several independent Democratic organiza-

Mr. Jerome described Gaynor as a "political charlatan," and as "that most abhorrent product, a political judge, whose so-called personal lib erty decisions have served as a protection to lawbreakers and whose erratic ability is tinged with a morbidness almost akin to mental unsound-

Serial Story by

(Copyrighted)

Louis Joseph Vance

Without lifting her bended head she looked up, laughing, not ill pleased

"You'd say so really?" Far down the railway tracks there rose a murmuring that waxed to a rumbling roar. A passing porter answered Kirkwood's inquiry; it was the night boat train from Ostend. He picked up their bags and drew the girl into the waiting room, troubled by a sickening foreboding.

Through the window they watched the train roll in and stop. Among others alighted, smirking, the unspeakable Hobbs.

He lifted his hat and bowed jauntily to the waiting room window, making it plain that his keen eyes had discovered them instantly.

CHAPTER XXVI.

the hopelessness of it all. If the ranway distribution of the rankay distributi what chance had they? If the night boat train from Ostend had only had the decency to be twenty-five minutes late, instead of arriving promptly on the minute of 4:45, they two might have escaped by the 5:09 for Dunkerque and Calais.

"Miss Calendar," said Kirkwood from his heart, "just as soon as I get you home safe and sound I am going to take a day off, hunt up that little villain and flay him alive. In the meantime I forgot to dine last night and am reminded that we had better forage for breakfast."

Hobbs dogged them at a safe distance while they sallied forth and in a neighboring street discovered an early bird bakery. Here they were able to purchase rolls steaming from the oven, fresh pats of golden butter wrapped in clean lettuce leaves and milk in twin bottles, all of which they prosaic ally carried with them back to the station, lacking leisure as they did to partake of the food before train time.

Without attempting concealment (Hobbs, he knew, was eavesdropping round the corner of the door) Kirkwood purchased at the ticket window passages on the Dunkerque train. Mr. Hobbs promptly flattered him by imitation, and so jealous of his luck was Kirkwood by this time grown through continual disappointment that he did not even let the girl into his plans until they were aboard the 5:09 in a compartment all to themselves. Then, having with his own eyes seen Mr. Hobbs dodge into the third compartment in left by the door opposite that by which

they had entered. The engine was running up and down a scale of staccato snorts in preparation for the race and the cars were on the edge of moving, couplings clanking, wheels a-groan, ere Mr. Hobbs condescended to join them be-

tween the tracks. Wearily, disheartened, Kirkwood reopened the door, flung the bags in and helped the girl back into their despised compartment. The quicker route to England via Ostend was now out of the question. As for himself, he waited for a brace of seconds, eying wickedly the ubiquitous Hobbs, who had popped back into his compartment, but stood ready to pop out again on the least encouragement. In the meantime he was pleased to shake a friendly foot at Mr. Kirkwood, thrusting that member out through the half open door.

Only the timely departure of the train, compelling him to rejoin Dorothy at once if at all, prevented the American from adding murder to the already noteworthy catalogue of his high crimes and misdemeanors.

Their simple meal, consumed to the ultimate drop and crumb while the Dunkerque train meandered serenely through a sunny, smiling Flemish countryside, somewhat revived their jaded spirits. For a time they laughed and chat-

tered, pretending that the present held no cares or troubles, but soon the girl, nestling her head in a corner of the dingy cushions, was smiling ever more drowsily on Kirkwood. And presently she slept in good earnest, the warm blood ebbing and flowing beneath the exquisite texture of her cheeks, the ghost of an unconscious smile quivering about the sensitive scarlet mouth, the breeze through the open window at her side wantoning at will in the sunlit witchery of her hair. And Kirkwood, worn with sleepless watching, dwelt in longing upon the dear, innocent allure of her until the ache in his heart had grown well nigh insupportable, then instinctively turned his gaze upward, searching his heart, reading the faith and desire of it, so that at length knowledge and understanding came to him of his weakness and strength and the clean love that he bore for her, and, gladdened, he sat dreaming in waking the same clear dreams that modeled her unconscious lips secretly for laughter and the joy

When Dunkerque halted their progress they were obliged to alight and change cars, Hobbs a discreetly sinister shadow at the end of the platform. By schedule they were to arrive in Calais about the middle of the forebridged before the departure of the Sold Everywhere. In boxes 10c. and 25a.

Dover packet. That would be an anxious time. The prospect of it rendered both Dorothy and Kirkwood doubly anxious throughout this final stage of their flight. In three hours anything could happen or be brought about Neither could forget that it was quite within the bounds of possibilities for Calendar to be awaiting them in Calais. Presuming that Hobbs had been acute enough to guess their plans and advise his employer by telegraph, the latter could readily have anticipated their arrival, whether by sea in the brigantine or by land, taking the direct route via Brussels and Lille. If such proved to be the case it were scarcely sensible to count upon the arch ad-

> waiting role like Hobbs'. With such unhappy apprehensions for a stimulant, between them the man and the girl contrived a make shift counter stratagem, or it were more accurate to say that Kirkwood proposed it, while Dorothy rejected, and bequests for the Endowment fund. disputed and at length accepted it, albeit with sad misgivings, for it involved a separation that might not prove temporary.

venturer contenting himself with a

Together they could never escape the surveillance of Mr. Hobbs; parted he would be obliged to follow one or the other. GRAY HAIRS BANISHED.

The old idea of using sage for dark-ening the hair is again coming in vogue.

Our grandmothers used to have dark,

glossy hair at the age of seventy-five,

while our mothers have white hair be-

fore they are fifty. Our grandmothers

used to make a "sage tea" and apply it to their hair. The tea made their hair

soft and glossy and gradually restored

the natural color. One objection to

using such a preparation was the

trouble of making it, especially as it

had to be made every two or three

days on account of it souring quickly.

This objection has been overcome and

by asking almost any first-class drug-

gist for Wyeth's Sage and Sulphur the

public can get a superior preparation of sage, with the admixture of sulphur,

another valuable remedy for hair and

scalp troubles. Daily use of th's preparation will not only quickly re-

store the color of the hair but will also

stop the hair from falling out and

make it grow. It is sold by all drug-

gists for 50c. and \$1.00 a bottle, or

Mortgagee's Sale of Real Estate.

By virtue under the power of sale ontained in a certain mortgage deed

given by Lillie B. Titus of Squantum

given by Lillie B. Titus of Squantum in Quincy, in the County of Norfolk and Commonwealth of Massachusetts, to John R. BRIEFS

The Registrars of voters meet tonight in the Hose house at West Quincy.

Mr. and Mrs. Musgrave of Rawson road are entertaining Mr. Arnold of Birmingham, England.

Miss Pauline Harlow of Harvard was the guest of Miss Nancy L. Fulton of Oxenbridge road last week.

Harry E. Glover of 58 Washington street is enjoying a week's vacation at his home. Miss Maud Read of Squantum street

entered the Leland Powers school of Oratory on Huntington avenue, Boston, on Tuesday. Mrs. Sarah C. Butler of Atlantic street is in Philadelphia visiting her

sister, Mrs. Mathews for a couple of months. Miss Emma Welling of Ashmont has returned home after a weeks' visit with Mrs. David Fulton of Oxenbridge

Mrs. H. W. Woods who has been visiting relatives in Leominster for several weeks has returned to her home on Willow street.

Avery Bennett of Arlington street has gone to the Manor school of Stamford, Conn., where he will be a

Miss Louise A. Steffens of Freeman street has been entertaining Miss Marie Lerage of Boston for a few

John McCarthy of Old Colony ave nue has accepted a position with the Eastern Concrete Construction company of Boston. The family of C. H. Penniman will

being on Whitwell street. Mr. and Mrs. William Burrell are

soon to occupy their new resident on Beach street which is nearing completion. Mrs. W. H. F. Browne and her

daughter Miss Marion Browne of Elm avenue are visiting friends this week in Londonderry, N. H. Remember that next Monday is the

Christian Endeavor Rally meeting and a great treat is in store for those who go to hear Dr. F. E. Clark speak.

Many friends and graduates of Quincy High school wish that the basket ball games this season might be played in the evening.

The many fishermen of Wollaston Park are awaiting anxiously the arrival of the smelt at Squantum beach. Usually they are in by the 15th of September.

Plans for the proposed pool tournament at the Y. M. C. A. are booming and this week the table is being put in condition for some good fast play-

Edwin A. Poland and Sylvester Brown, two popular Quincy High young men, are to hold a dancing party in Poland hall on the evening of October 22.

The Wollaston Young People's Religious union will open its season on next Sunday evening. Rev. Carl G. Horst will speak on Oliver Wendall Holmes.

Mrs. Christina Nelson of 110 School street had the misfortune Monday to lose her pocket book containing \$21 in money. Mrs. Nelson thinks that she lost her purse on a West Quincy car.

Mrs. Horace M. Willard of the Quincy Mansion school has issued cards for an at home on Monday afternoon October fourth from three until five o'clock.

The A. B. Robbins Iron Company of Norfolk Downs is to furnish the ornamental iron work for the large office building now being erected on less than last year, because of the rethe corner of Summer and Devonshire duction in salaries. streets. Boston.

Joseph Merritt for 9 years physical director of the Montreal Y. M. C. A. was a guest last evening at the monthly business meeting of the Y. M. C. A. directors. Mr. Merritt was a Quincy boy, a product of the Y. M. C. A. work in its earlier years. He graduated from the Springfield training school 10 years ago and is now one of the leading physical directors in North America. He was in Quincy for a few days on account of the death of his

Continued fair weather with season- Merger of Street Railway Lines as Proposed Opposed

Opposition to the request of the Boson elevated railway company for authority to hold the stock and securiies of other street railway companies which included the Old Colony system operating in Quincy, was expressed to the joint board of railroad and transit ommissioners yesterday morning by Joseph B. Eastman of the executive ommittee of the Public Franchise league and by Ex-Representative Robert Luce of Somerville, a member of the league.

The five-cent fare restriction in the harter of the elevated, Mr. Eastman said, was put in at the express rejuest of the company, although there was then considerable agitation for a three-cent fare, many persons think ng that for the purely local service which the company then planned to conduct a three-cent fare would prove sufficient. The company, however, insisted that it should have a five-cent fare insured to it for 25 years, and its request was granted. Now it seeks, he declared, the aid of the legislature in order that it may be relieved of one of the consequences of the position it then took.

Of the arguments in favor of th elevated's request, Mr. Eastman said they are principally that such expansion as is proposed would give better service, would give small lines the enefit of the expert knowledge of the elevated's high-salaried officers, make it easier for them to raise capital, and extend trolley freight and express service. The chief argument which has thus far been advanced against trolley freight service to Boston is that it as well as several features of the obs difficult to make traffic agreements servance.

with connecting lines. Mr. Eastman then argued that such a stock control as the elevated proooses is wholly unnecessary to afford petter transportation over the connecting lines. A law compelling every street railway company to transport over its own lines the cars of any connecting companies, such as now apolies to steam railroads in his opinon, would solve the difficulty.

Mr. Luce said the desire of the league in this matter is only to cooperate with the elevated to achieve n the end a better transportation remove to their new home on Foster system. It believes, however, he add-street today ,their former residence ed that the method proposed by the officials of the company is so open to objection that another should be chosen. He went on to say that the conv of fate has linked proposition another in which the levated asks to be relieved from situation, referring to the other mat ter which the joint boards are to consider shortly as to whether there should be an amendment of the law permitting the elevated to purchase the West End company, which it now

> Attorney Snow for the elevated said t is true that it is the first duty of ne elevated to provide proper trans portation for its present territory. The elevated, he continued could not aford to purchase the stock of other ompanies unless it meant greater earnings through economy of operaion, etc. It would not be practical to consolidate with these other companies, but they would remain absolutely independent, so that they can become self-supporting.

Mr. Snow said he would submit to the commission a bill making the issue of securities subject to the control of the railroad commission. This prevent the freezing out of minority tockholders, who can sell their stock without restriction. o the company for the average price paid for a majority of the stock. It the railroad could not sell any stock without the consent of the commis-

the commission embodying their ideas. tendance is 75 per cent. The hearing was continued.

Many Good Deeds to Her Credit Chicago, Sept. 29.-Mrs. Rhoda M. Coffin, 83 years old, a pioneer minister of the Friends church, one of the old school of Quaker philanthropists and prominent in the establishment of homes for the friendless in the United States, died last evening.

field for their exclusive use. A quartr-mile cinder path, one of the best in New England, is a feature and training quarters close by have shower baths and modern rubbing and training boards. The field is equipped with eircle for the shot-put, take off and landings for the high and broad jump and pole vault and space for the officials. The track is located near the grove inside the eastern section of the race track and gives thousands an opportunity to watch the field and track events in comfort. More than \$2000 has been spent on the track, expenditures close to double that figure. Over \$600 go to the track and field events alone and the Marathon and other special features will bring the prizes to over \$1000. The opens handicaps and championships will be neld on Thursday this year and the Marathon and a basket ball game with the New England champions (the Brocktons) and strong Newton teams as rivals. Tuesday will be given up to the children with events on the big track in front of the grand stand, basket ball and foot ball, and High school ompetition. On Wednesday the Association Foot Ball Team will play a Fall River. Entries for the Marathon and big meet close Wednesday, Sept. K 29, and blanks and all information is given out from the office of the Superintendent of Athletics, Mr. Horace A. Keith, 26 Pinkham St., Brockton. No K entries are received without the enlosed fees from registered or regisering men in the A. A. U., A. L. N. A. nd affiliated bodies.

Two Quincy Point young men are n great luck; Charles Yule, 1st class, and Dave Melville, 3d class, electricians at the Fore River shipard weer called by the government to service on the U.S. Winslow at New York during the Hudson-Fulton celebration. They will be away a week or ten days and have the opportunity of seeing all the other large war vessels

ATHLETICS

Basket Ball Notes

The program at the Y. M. C. A. railway. Mr. Campbell was born on opening tonight is to be one of the Cape Cod in 1843 and when a young best ever put out by the local assohave been secured and there should be a crowd present to enjoy the spectacle. Frank Foster and George Benzie both of the Boston Y. M. C. A. will give an exhibition in wrestling. home of Mrs. Betsey Kingsley, Beale Robert Gourlie of the Boston Y. M. C. A., is scheduled for some fancy Indian days and 25 cents on Sundays. Then "Resolved: That in the nine years of the rain a jolly crowd of young club swinging. There will also be fencing with foils with S. A. Sanford the honor of running the first electric of Malden Y. M. C. A. and G. M. Gifford of the local Y. M. C. A. as principals. The first basket ball game o the season is to be inaugurated at the exhibition also, when two picked teams will play. This is the first indoor athletic event of the season of any importance and should be taken in by all who are able to go for it

will surely be worth the while. It was hot yesterday but High school had a good stiff practice most of the ful work ever required recognition he time trying out their new formations to be used in the game Saturday should there be one. A ten minute scrimmage was given the two team but as there was not much football evidenced it was cut short.

It is a fine cup that has been of fered as a prize in the game between the Fore River Apprentices and the Excelsus club next Saturday. Both teams are confident that the cup is theirs and it is rather funny to hear them tell what they are going to do with it when they get it. Whoever gets it there will be a good game and one worth the trip to the park to see There will surely be a treat nex Saturday afternoon if there is a game of base ball in the upper field at the park and a game of football in the lower field. One can spend part of

the afternoon at one game and then with a minute's walk they will be able to view an entirely different game. play West Roxbury High next Satur- the following officers elected: day afternoon at the park. If they do Quincy will have a good tryout before the Brookline game next Tuesday

Milton Academy started off rather weak yesterday when they only defeated the Milton High team 5 to 0. Of late years Milton has been gradually falling back in athletics and at the present time they are no where near the standard set five years ago.

Melrose High was defeated yester day by a weak team and it looks as though they were not going to have any better team than a year ago when Quincy beat them 18 to 0. Copeland and Atlantic Saturday in a

championship contest. Lots of money on the result. It looks pretty soft fo Atlantic just at present but then one can never tell about baseball.

The Quincy High backfield as now composed consists of Bates N. B., Vea N. B. and Rice F. B. This is a great combination and works well together Franz R. Marceau of Wollaston avenue will onter the mile run in the meet to be held at the Brockton fair next week.

The rubber game in the series be tween the Excelsus class and the Fore River Apprentices for the 18-19 year old championship of Quincy will be held at Merrymount park Saturday afternoon. As ach team has won a game great interest is being taken in the final outcome. The Apprentices defeated Excelsus by a score of 3 to 2 while they were defeated by a score

WHIST PARTY.

The Jolly Sixteen commenced their Mad Dive; The Globe of Death; winter's whist parties Wednesday evening, meeting with Mr. and Mrs W. Howes, Cottage street. In spite of bad weather all the jolly ones were present. After two hours of whist, a basket lunch was served which was enjoyed by all. Souvenirs were won by Mr. Gregge, Mr. Smith, Mr. Dexheimer and Mrs. Smith.

Allen's Foot-Ease would mean better through service and a five cent fare while on the other swollen, tired, aching feet. Try it tohand it is felt the present company is practically a local one and therefore especially interested in good service for our city.

The wording of the testimonial adopted by the School board on Tuesday in appreciation of the services of Frank E. Parlin as superintendent of the Quincy schools cannot fail to be pleasing to Mr. Parlin in his new field of labor. There are testimonials and testimonials but this one rings true, especially the following paragraph: "We regard your professional work to have been of the highest order, your policies sound and progressive; your administration just and nomical (your appropriation never having been exceeded) and your per sonal integrity unimpeachable.

CHANGES OF TIME.

Today we look upon the replicas of the ridiculous old Half Moon and the freaky Clermont and we laugh at them as, puffed with pride, we contrast them with the magnificent battleships and passenger liners of the present. But what of our battleships and ocean liners 300 years hence. Maybe ships will be practically discarded, and airflight and air fights will be the rule of the hour. It is assuredly a fact that the aeroplanes of this time will look amusing and amazing even 30 years from now, to say nothing of 300 years. There is nothing today that will look right in the pictures of cities and of life generally in another 300 years, or fifty years perhaps. Let us remember that, and great as we think ourselves remember that the nations that have gone thought in their time that they had reached the heights in practically everything, while in reality they were merely laying foundations for a whole new structure be erected over them.-Framingham

BROCKTON'S BIG SHOW.

October 5, 6, 7 and 8 are the dates of the Big Brockton this year. The management promise as usual many new and novel features for their many pa.rons. The Horse Show promises to be up to the usual standard of excellence, while the stage show is the best and biggest ever offered. To give everyone an opportunity a third stage has been built this year near the new athletic field, and the many who have not been able in years past to get in view of the other stages will practically have a stage of their own. All teams will be barred from the oval this year and this large space given up to the thousands on foot who in years Real Estate and Insurance, past have had to dodge the horses and carriages. A special enclosure for teams has been provided similar to the automobile campus. There will be three bands of music each day of the fair and Messrs. J. A. Driscoll and Harry Henry, "The Men With The Big Voices That Sing to Beat the Band" will assist in the musical pro-

Chlidren Cry FOR FLETCHER'S CASTORIA TOP OF THE WORLD.

The question who owns the top of the earth promises to become a vital issue, of even more importance than the settling of the honor of the discovery of the highest point. Canada is looking with jealous eyes at the claims of the discoverers. The fact that land in the north has been preempted by discoverers and given names in honor of themselves or of prominent personages in the countries from which they came has troubled the Canadians somewhat, but Copy for changes of advertisements in the Ledger should be in the office on the afternoon previous to publicative Americans have been to the sumtwo Americans have been to the summit of the globe, and claimed it for the United States, other nations have begun to take notice. They did not care anything about it until somebody went there, when it immediately takes on a value that it had never before possessed. The United States geodetic commission is preparing a map of the polar region, marking the routes Residence G. T. Magee, Quincy 75-2 traveled by Cook and Peary and lay-Braintree 180 ing the foundation for a defense of Res. Eben Prescott, Braintree, 121-4 the claim that the United States ownes the most northern tract on the earth's surface. The well known habit of Brockton is putting forth a man for Great Britain of claiming the earth renders this latest effort to secure the ownership of the top section more than ordinarily interesting. In these days of invention and discovery no one can forecast the value of Cook's Somerville is seriously considering discovery. FOREST FIRES.

Forest Fires are causing considerable damage in many parts of the Department of Agriculture, will cause 1908 to be long remembered. "A dry season, combined with what

seemed to be even more than the usual indifference toward small fires which might easily have been extinguished at the start," says Mr. Cloveland, "caused destructive conflagrations in practically every State, with losses aggregating \$100,000,000. In comparison with the havoc wrought elsewhere, the damage done to Nationfires raged within the Forests as they 653 Washington St., Cor. South St., timber worth \$30,000,000-enough to tree, but the pear blight is at times run the Forest Service for six years. Moreover, it is practically certain that most if not all of the damage which was done might have been prevented had the forests been fully manned."

"Finally, the estimates of loss made by the Service on National Forests are particularly searching, and take full account of the injury done to young rom forest fires are based upon the to property; they do not reckon the usually far greater loss in injury or destruction of young growing stock." The methods by which the government keeps down the fire losses on the National Forests include:

1. Constant and systematic patrol by picked forces of rangers and guards:

2. The construction of roads, trails, he massing of large fire-fighting forces;

3. The construction of fire lines which, in some instances, check the spread of fire without human help; 4. The equipment of the forests with fire-fighting tools and other supplies necessary in fighting fires. The supplies of tools are kept at convenent points at all times, in order to have them easily accessible to Forest

officers, in case fires break out; 3. Cooperation with railroads, timperland owners, and settlers in fire protection, in this way making it possible to protect both the lands of the companies and the Forest service at a much smaller cost to the government than would be the case were the National Forest lands alone protected by

the local officers. Just as the practice of forestry is mportant in the movement for the! conservation of all natural resources. so is the protection of the forests from fires important in the furtherance of rational forest work. In fact, forestry in many instances means nothing more than conservative lumbering and the prevention of forest fires. Uncle Sam realizes that only through the wise use and care of the forests will it be possible to make natural timberland permanently productive. The practice of forestry does not mean abbreviating the use of the land. Instead, conservative lumbering and protection of the young growth from fire will bring about a steadily increasing use, for with cultivation and care the yield of the forest increases and the

In its crop report for September recently issued, the Massachusetts is known, for the fire season has con- Pear," by George T. Powell, of Ghent, obtained by applying to Sec. J. Lewis make comparison with losses for last Ellsworth, Room 136, State House, year which, according to Tredwell | Boston, Mass., and those requesting

Mr. Powell says in introduction: The pear is one of the very desirable in sufficient quantities to supply the preme court. demand for it. It is somewhat more difficult to grow than the apple, suffound on many farms, even in garden select a suitable piece of land and waters these craft made famous. al forests was exceedingly slight. Had plant pear trees, bringing to them the care they require. The tree is not as heavy inroads upon orchards. It is only necessary to know the right conditions and follow right methods, that this most excellent fruit, now mainly a luxury, may be grown with profit over a much wider territory.'

Mr. Powell then proceeds to take up and discuss the essentials of the growth. Commonly, estimates of loss proper culture of the pear, under the headings; the soil; preparation of the damage done to standing timber and land for an orchard; planting the trees; varieties of standard trees; dwarf trees distance to plant dwarf trees; cultivation; pruning; pear blight insects and marketing. speaking of pear blight he says that blight has swept down the pear orchards so largely in all sections of the country, and particularly on the Pacific coast, that the supply of the fruit is now short, and prices are ruling and telephone lines, which facilitate high for it. Vigilance in cutting close and disinfecting, and particularly in winter pruning, will, however, control the disease and save the trees

to a large degree. In closing Mr. Powell says: "There are few sections of our country where better pears are grown than in the territory lying within forty miles of Boston. The soil and climate conditions are most excellent, the trees thrive, and the fruit is of the best in every point of fine quality. Other sections of the State have good conditions for this fruit, and a pear industry may be built up that will have large financial value.

AN OLD-TIME PRESCRIPTION

in a modern product. From time immemorial sage and sulphur have been used for the hair and scalp. Almost every one knows of the value of such a combination for darkening the hair and making it grow. In olden times the only way to get a hair tonic of this sort was to brew it in the home fireplace, a method which was troubleand not always satisfactory. Nowadays almost every up-to-date druggist can supply his patrons with a ready to use product, skillfully compounded in perfectly equipped laboratories. Such a preparation is Wyeth's Sage and Sulphur, which is sold by all leading druggists for 50c. and \$1.00 a bottle, or which is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

found mention in the speech of Vice did outside, they would have destroyed subject to insect attacks as the apple President Sherman, who rejoiced that an American, "it matters not whom," very hard to control, and causes he said, "had followed Hudson's index finger to the Pole.

Mayor McClellan, looking about him on the cosmopolitan character of the banquet hall, said: "Every gathering such as this helps to a better understanding among the peoples of the earth.

The speeches of Admirals Von Koester and Seymour had been awaited with much interest in view of the recent utterances in this country of Lord Northcliffe on the possibility of war between Germany and England, but after complementing the American navy, both bespoke only peace. The day was described in the of-

ficial Hudson-Fulton program as "Educational Day," and was duly observed, not only in the public schools, but in all the colleges and institutions of higher learning, as well as by learned and patriotic societies throughout the city. Several tablets and monuments were dedicated at points of historical interest.

The Aquatic Events

International aquatic honors were won by Germany and the United States in the rowing races between crews of the warships now at a chor in the Hudson. The brawny Teutons outstroked the Italians, British, French and Dutchmen in the contests between men of the foreign vessels, while a big crew from the Minnesota showed the way to German, Italian and British tars in the big international race which closed the day's sport. Since the two mile course carried the contestants past many of the battleships, the crews had the inspiration of lusty cheering in many tongues. All hands were placed on

even terms by the use of American twelve-oared cutters, the boats being drawn by lot. The regatta also included races exclusively for the men of American warships, revenue cutters and the naval militia. The winners all received silver shields and purses of gold, besides what they picked up in side

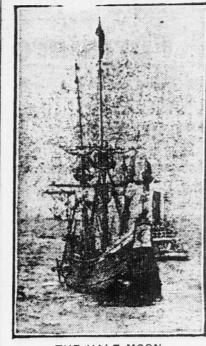

their countrymen heavily. Old-Timers on the Move

Robert Fulton, impersonated by Rev. Sanford C. Hearn of Yonkers, paced the deck of his reconstructed steamboat Clermont of 100 years ago on the way up the Hudson Wednesday. Henry Hudson and the Dutch sailors aboard the Half Moon, in tow, had preceded the Clermont up the

river. The two quaint vessels began the first stage of their trip up the Hudson to Troy. The start was propitious. Under a bright sun and in a crisp au- west, winds.

tumn wind, the two ships left their anchorage in New York.

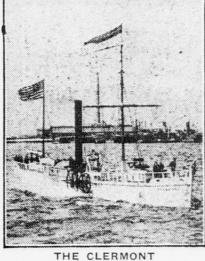

It required the weight of two men standing on the paddles to get the cogs, but once her wheels got turning. she thumped away without difficulty she thumped away without difficulty monwealth; Charles V. Barnes, Levi L. under her own steam, while Captain Worrick, Howard K. Bartow William Davis calmly puffed an ancient clay and proudly declined the assistance of his consort tugs.

THE HALF MOON

On board the Clermont was a party of thirty guests, including Robert Fulton Ludlow, a great grandson of the inventor, and Richard N. Ludlow, the fourth generation. Miss Evelyn Livingstone, Fulton's fiance. The Clermont's decks were piled

with cord wood for her big copper boiler. She plodded steadily at about five miles an hour until within sight of Yonkers. Then the water in the boiler became exhausted and the tugs were called to aid her in making port.

Thin crows lined the banks of the Hudson from New York to Yonkers and cheered the progress of the two oats. Bluejackets aboard the warships cheered too, and passing vessels were generous in tooting their greet-

In the flotilla of small craft which acted as escorts to the Clermont and Half Moon were three United States submarines-the Viper. Tarantula and Cuttlefish, led by the gunboat Castine. The vessels, after being the center of a celebration along the Yonkers water front all the afternoon, moved on last evening for Tarrytown.

satchel. The knife, catching in his glance was needed to identify Mr. r 113 abe sleeve, scratched the arm beneath Hobbs, and until the perspective r 143 abo painfully and simultaneously was dwarfed him indistinguishably he was r 2 13 abe twisted from the mate's grasp, while to be seen alternately waving Kirk- r 305 a in his surprise Kirkwood's grip on the wood ironic farewell and blowing viobag handle relaxed. It was torn forci- lent kisses to Miss Calendar from the bly from his fingers just as he received a heavy blow on his chest from the mate's fist. He staggered back.

By the time he had recovered from the shock Hobbs was a score of feet arm, his body bent almost double, running like a jack rabbit. Ere Kirkwood mate had dodged out of sight round the corner. When the American caught sight of him again he was far down the block and bettering his pace with every jump.

He was approaching, also, some six or eight good citizens of Calais, men of the laboring class, at a guess. Their attention attracted by his frantic flight, Prints they stopped to wonder. One or two moved as though to intercept him, and he doubled out into the middle of the street with the quickness of thought An instant later he shot around another corner and disappeared, the natives streaming after in hot chase, Petticoats electrified by the inspiring strains of

"Stop thief!" or its French equivalent. The mob straggled round yet another corner and was gone. Its clamor diminished on the still spring air, and Kirkwood, recovering, abandoned Mr. Hobbs to the justice of the high gods and the French system of jurisprudence. At least he hoped the latter would take an interest in the case if haply Hobbs were laid by the heels and went his way rejoicing.

As for the scratch on his arm, it was nothing, as he presently demonstrated to his complete satisfaction in the seclusion of a chance sent flacre. Kirkwood, commissioning it to drive him to the American consulate, made his diagnosis en route, wound a handker-I chief round the negligible wound. rolled down his sleeve and forgot it altogether in the joys of picturing to himself Hobbs in the act of opening the satchel in expectation of finding

therein the gladstone bag. At the consulate door he paid off the driver and dismissed him. The flacre absolutely not a soul in London to had served his purpose, and he could whom I could go and ask for shelter find his way to the Terminus hotel at I don't think it's very nice of you to infinitely less expense. That new auto truck of the R. E. Foy Company seems to be on the hustle all the time and with ever increasing business it looks as though they would have to have another one before long.

THE LAST ECHO.

Final Disposition of Cases Growing out of Houghs Neck Raid.

The last echo from the sensational aid at Houghs Neck some weeks ago, when the police visited the pool and billiard room of Nicholas Garbarino at sociation is to be entered in the big Houghs Neck, and had several of the participants in the game in addition to the proprietor hailed into court on gaming warrants, was sounded this morning when Judge Avery imposed fines of \$10 each on eight of the men caught in the raid.

These men were all well known to esidents of Houghs Neck and answered to the names of Abel D. Brown, harles, Joseph and John Whalen, Arthur Holbrook, John P. Sullivan, Bertram Brown and Charles Sampson. It was alleged that these men were engaged in the game known as Kelly pool. The court imposed fines of \$10 on each of these defendants.

Garbarino, the proprietor, was dealt with by the superior court, where he not only paid a fine but gave bonds to refrain from gambling in any form for three years.

AT Not one bargain but ten seems to be the rule of Henry L. Kincaide & Co., for each day they put forth ten propositions , every one of which is a Cummings avenue are enjoying a trip genuine money saver for the buyer. 'New England's lowest priced home furnishers" are known widely not alone in their own city but in the towns along the south shore.

MARRIAGES.

EVENING SCHOOLS

The Quincy School Department will open Evening Schools for Instruc tion in English Branches, in the Adams School Building and in the

Willard School Building, on Monday Evening, Oct. 4, 1909

At 7 O'clock.

The Schools will be in session

MONDAY, TUESDAY, THURSDAY and

FRIDAY EVENINGS af each week. One department of these schools will be organized for the instruction .of persons over 16 years of age who cannot read and write the English langu-

age. Entrance to this department is

without restriction.

Another department will be organized for English speaking pupils who wish to do the more advanced work of the elementary schools. Pupils entering this department are required to deposit \$1 with the Principal on registration. This sum will be refunded at the close of the term to all whose attendance is 75 per cent.

Illiterate minors are required by law to attend the evening common schools regularly, otherwise they cannot legally be employed.

EVENING DRAWING SCHOOL

will be opened on Monday, October 4. 1909, in the High School Building, Hancock Street, at 7 P. M. The Freehand class will begin Monday; the Mechanical class will begin Tuesday. A deposit of \$1 will be required of all members of this class upon entrance. This sum will be refunded at the close of the term to all whose attendance has been above 75 per cent.

EVENING COOKING CLASSES

will be opened the week of October 4. at the High School Building. One class will meet Mondays and Thursdays; another class will meet Tuesdays and Fridays at 7 P. M. for a course of 20 lessons. As only 40 can be accommodated all women desiring to take this course must register by person or by mail at the office of the School Department on or before October 1st. A fee of \$1 will be required of the members of these classes to defray cost of materials used.

RUMAGE SALE.

Ladies' Aid of Hall Place M. E. Church Hold Successful Sale.

The Ladies' Aid of the Hall Place M. E. church held a rumage sale Tuesday and Wednesday afternoon and evening in the vacant store at the corner of Crescent and Willard streets and despite the stormy weather prevailing on Tuesday, the affair was a great financial success. Mrs. William McCormick, president of the Ladies' Aid Mrs. James McCormick and bers, City Square. Only \$8,00, Mrs. George Hawes were in charge with other members of the society as

assistants. A large number of very useful articles, including clothing, millinery, books and fancy articles were collected from various friends and placed on sale, and needless to say these found a very ready market and were very easily disposed of.

Corner School and Hancock Streets,

New York, Sept. 30 .- Wilbur Wright circled the great statue of Liberty at the entrance of New York harbor in his aeroplane Wednesday

while two huge dirigibles fell in gloriously to earth. So the first day of flight of the Hudson-Fulton celebration was a victory for the heavier than air machines. Both Wright and Glenn H. Cartis

soared successfully from the aerodrome on Governor's island in their motor-propelled biplanes; both great dirigibles, manned by Captain Thomas Quincy. Tel. 485-2. Baldwin and George L. Tomlinson respectively, and entered in the New York World \$10,000 New York to Albany race, were forced to descend because of mechanical difficulties before they were well under way.

Wilbur Wright made three sensa tional flights and Curtiss made one brief test flight of thirty seconds' duration. Baldwin and his dirigible landed in the Hudson river less than an hour after the start, while Tomlinson, after remaining in the air from 11:36 a. m., until 1:30 p. m., came to the earth near White Plains, twenty-two miles from his starting point. Neither of the dirigible pilots was injured nor was either craft seriously dam-

Flight of Aeroplanes

Curtiss was the first to leave the earth. Having spent the night on Governor's island, he prepared his craft and rose from the island for brief flight

Two hours later Wright made his first ascent, completely encircling Governor's island and remaining in the air for seven minutes. After an hour's rest Wright again went aloft this time remaining in the air for six minutes and thirty seconds and at taining a speed estimated at fifty miles an hour. With a glorious swee: out over the bay, he passed entirely

around the big emblem of Liberty on Bedloe's island. Not content with this spectacular feat. Wright made a third flight be fore a crowd of 2000 persons who had assembled on the island, attracted by the news of his earlier ascents. He did not attempt to fly over the water of Superintendent on grounds. Tenement-Rear of Hancock Cham- nor did he go to any great height, but executed two complete circles in the air, then made an excellent landing while the crowd commented on th

ease with which he managed his craft In all three of his flights the Wrigh machine showed greater speed than that of Curtiss, but the Curtiss flie seemed to keep its equilibrium bette and remained on an even keel. Wrigh met with one slight mishap in his first flight, when a wing-tip struck the ground on his landing and considerably jarred his machine.

Wright's action in circling the statue of Liberty is taken as a challenge to Curtiss, for Curtiss was the first to mention such a flight. From now on it is expected that each aviator

will strive to outdo the other. Failure of Dirigibles

The beginning of the dirigible balloon race to Albany was considerable of a fiasco, but it is announced that the balloons will make another attempt at the first opportunity. Tomlinson was the first to start on the trip which he hoped would end at Albany. He got away at 11:36 and headed north on the easterly side of the Hudson. Baldwin arose at 11:52, shot out

directly over the Hudson and began traveling toward the state capitol, almost over the middle of the river. In few moments he was lost to view in the slight mist which hung over the river, but he was being bothered by cross currents. A puff of wind snapped one of his rudder ropes and he was forced to begin his descent on the water, 250 feet off the New Jersey shore and opposite 190th street. The balloon came down easily, Baldwin threw out dragnets, and sailors from the battleships swarmed to his rescue in launches. They seized the dragnets and managed to hold up the balloon so that only the motor was wet. Baldwin swung himself into a boat without getting wet. A gang of sailors then pushed the big bag ashore, where it was loaded in a wagon and returned to the starting point. Baldwin's maximum height was 800 feet.

Tomlinson in the meantime had been going northward over land at a height of about 300 feet, when both his gasolene and oil tanks began leaking. Fearing an explosion he was forced to come to earth near White Plains. This descent he accomplished without mishap. He was found sitting calmly in his seat trying to stop the flow of oil and gasolene from their anks. He was uninjured, but greatly put out that the leaks should have caused him to abandon such a good start toward a \$10,000 trophy.
